BYLAWS

**ARTICLE I
NAME**

1. The name of the body corporate shall be the Public Company Accounting Oversight Board (the "Corporation").

**ARTICLE II
OBJECT**

2.1. Organization. The Corporation is organized pursuant to, and shall be operated for such purposes as are set forth in, Title I of the Sarbanes-Oxley Act of 2002 (the "Act").

2.2. Exempt Organization Purposes. The Corporation is organized exclusively for charitable, educational, and scientific purposes, including, for such purposes, the making of distributions to organizations that qualify as exempt organizations under section 501(c)(3) of the Internal Revenue Code, or corresponding section of any future federal tax code.

2.3. Exempt Organization Uses of Earnings and Activities. No part of the net earnings of the Corporation shall inure to the benefit of, or be distributable to, members or trustees of the Corporation, if any, or to officers of the Corporation, or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in the purpose hereof. No substantial part of the activities of the Corporation shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distribution of statements) any political campaign on behalf of any candidate for public office. Notwithstanding any other provision of this document, the Corporation shall not carry on any other activities not permitted to be carried on (a) by an organization exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, or corresponding section of any

**Public Company Accounting Oversight Board
Bylaws and Rules – Bylaws**

future federal tax code, or (b) by an organization, contributions to which are deductible under section 170(c)(2) of the Internal Revenue Code, or corresponding section of any future federal tax code.

**ARTICLE III
OFFICES**

3.1. Principal Office. The principal office of the Corporation shall be in the City of Washington, District of Columbia.

3.2. Other Offices. The Governing Board of the Corporation (the "Governing Board") may designate other office locations, within or without the District of Columbia, as the Governing Board may determine are necessary or appropriate to meet the Governing Board's objectives.

3.3. Agent and Office for Service of Process. The Secretary (or Acting Secretary, as applicable) of the Corporation shall serve as the agent of the Corporation upon whom any process, notice or demand required or permitted by law to be served upon the Corporation may be served. The office of the Corporation for purposes of such service of process, notice or demand shall initially be the office located at 1666 K Street, NW, Washington, DC 20006.

**ARTICLE IV
GOVERNING BOARD**

4.1. Composition. The Governing Board shall consist of those persons appointed thereto by the Securities and Exchange Commission, pursuant to Section 101 of the Act.

4.2. Powers and Duties. The Governing Board shall have such powers and duties as are provided in Title I of the Act.

4.3. Quorum. A majority of the members of the Governing Board shall constitute a quorum.

4.4. Board Action. Any act (i) authorized by majority vote of the members of the Governing Board present at a meeting of the Governing Board at which a quorum is

**Public Company Accounting Oversight Board
Bylaws and Rules – Bylaws**

present, or (ii) authorized by at least a majority of the Governing Board (other than at a meeting of the Governing Board) in accordance with any other procedure permitted by law, shall be an act by vote of the Governing Board. If a Governing Board member has recused himself or herself from a decision, and a quorum of otherwise qualified Governing Board members cannot reasonably be assembled in time to meet the exigencies of that particular situation, the recused Governing Board member may be counted for quorum purposes only. As used in this section, "the exigencies of that particular situation" shall be defined to require circumstances in which the Governing Board is required to act within a limited period of time or in which the public interest or the protection of investors otherwise prevents the deferral of action until a quorum of non-recused Governing Board members is available.

4.5. Compensation and Expenses. The Governing Board shall set the compensation for its members. The Corporation shall pay or reimburse members of the Governing Board for reasonable expenses incurred in the discharge of their duties.

**ARTICLE V
GOVERNING BOARD MEETINGS**

5.1. Governing Board Meetings. The Governing Board shall hold at least one (1) public meeting each calendar quarter, and such other meetings, which may be either public or non-public (in accordance with the Open Meeting Policy of the Governing Board), as the Chair (as defined below) deems necessary or appropriate to further the purposes of the Act. The Governing Board shall ensure that, absent exigent circumstances as determined by the Governing Board, the public is informed, at least five (5) calendar days in advance, of the time, location, and general topics scheduled for discussion of each public meeting, and, in the event of such exigent circumstances, shall ensure that notice of a public meeting is provided as soon as practicable.

5.2. Telephonic Participation. Provided that all Governing Board members are able to hear each other (and, in the case of public meetings, the public located at the location specified in the meeting notice is able to hear all of the participating members of the Governing Board), the Governing Board may meet via telephone or teleconference, and

Public Company Accounting Oversight Board Bylaws and Rules – Bylaws

any member thereof may participate in a meeting by telephone, provided that, in the case of a meeting that is open to the public, at least one Governing Board member shall be present at the location specified in the meeting notice.

ARTICLE VI OFFICERS

6.1. General. The Chairman of the Governing Board (the "Chair") shall also be the President and Chief Executive Officer of the Corporation. All other Governing Board members shall also be Vice Presidents of the Corporation. Governing Board members shall serve as officers of the Corporation without additional compensation.

6.2. Other Officers. The other officers of the Corporation shall include a Secretary, Treasurer, General Counsel, Chief Auditor, Chief Administrative Officer, Director of Registration and Inspections, Director of Enforcement and Investigations, and such other officers as the Governing Board may establish in accordance with such rules of the Governing Board as may be adopted for establishing officers.

6.3. Powers of the Chief Executive Officer.

- (a) The Chief Executive Officer is responsible for, and has authority over, the management and administration of the Corporation, including responsibility and authority for the appointment, dismissal, and supervision of personnel (other than Governing Board members and personnel employed regularly and full-time within the immediate offices of the Governing Board members), the distribution of business among such personnel and among organizational units of the Corporation, the use and expenditure of funds (including the procurement of goods and services), and the development (for Governing Board review) of strategic policy initiatives.
- (b) (1) In carrying out any of the responsibilities under the provisions of this section 6.3, the Chief Executive Officer shall be governed by the general policies of the Governing Board and by such rules and decisions as the Governing Board may lawfully make.

Public Company Accounting Oversight Board
Bylaws and Rules – Bylaws

- (2) The appointment by the Chief Executive Officer of the officers of the Corporation designated in and established under section 6.2 shall be subject to the approval of, and made in consultation with, the Governing Board, and the dismissal of the officers of the Corporation designated in and established under section 6.2 shall be made in consultation with the Governing Board, except that when the Governing Board determines that the dismissal arises out of a conflict regarding the general policies of the Governing Board, it is also subject to the approval of the Governing Board.
 - (3) Each Governing Board member has responsibility and authority for the appointment, dismissal, and supervision of personnel employed regularly and full-time within the immediate office of the Governing Board member, subject to the Governing Board's overall personnel policies.
 - (4) The Chief Executive Officer has the responsibility and authority to develop, and present to the Governing Board for approval, an annual budget as well as mid-year adjustments, if any. There is reserved to the Governing Board its responsibility and authority with respect to determining the distribution of funds according to major programs and purposes, including those related to salary schedules and other conditions of employment.
- (c) Notwithstanding any other provision of these bylaws, however, the Director of the Office of Internal Oversight and Performance Assurance shall report directly to the Governing Board and the Governing Board shall have exclusive authority to hire, fire, and establish the compensation and other terms of employment of the Director.

**ARTICLE VII
LIABILITY AND INDEMNIFICATION**

7.1. No Personal Liability. No contract entered into by or on behalf of the Corporation shall personally obligate any employee, officer, or Governing Board member of the Corporation, including the employee, officer or Governing Board member authorizing such contract or executing same.

7.2. Indemnification.

- (a) Unless and to the extent otherwise prohibited by law and as otherwise provided in this section 7.2, the Corporation shall indemnify any employee, officer, or Governing Board member, or any former employee, officer, or Governing Board member (each, a "Potential Indemnitee"), against any and all liabilities (including without limitation judgments, fines, and penalties against such Potential Indemnitee) and reasonable expenses (including without limitation reasonable counsel fees and other reasonable related fees) actually and necessarily incurred by or imposed on him or her, in connection with such Potential Indemnitee's defense against any claim, action, suit, or proceeding (whether actual or threatened, civil, criminal, administrative, or investigative, including appeals) (each, a "Proceeding") to which he or she may be or is made a party by reason of being or having been such a Potential Indemnitee (such liabilities and expenses, collectively, "Indemnifiable Amounts"). Notwithstanding the foregoing, Indemnifiable Amounts shall include amounts paid in settlement by a Potential Indemnitee only if such amounts are approved by the Governing Board.
- (b) There shall be no indemnification in relation to matters as to which the Governing Board finds that the Potential Indemnitee acted or omitted to act, in either case in bad faith, or engaged in willful misconduct in the performance of a duty to the Corporation. Prior to making any such finding, the Governing Board shall provide the Potential Indemnitee with at least ten (10) business days written notice of its intent to consider the

**Public Company Accounting Oversight Board
Bylaws and Rules – Bylaws**

matter, within which time the Potential Indemnitee shall have the right to submit relevant written materials to the Governing Board for its consideration.

- (c) In lieu of providing the advancements or indemnification provided for herein, the Corporation may, at its own expense not to be reimbursed by the Potential Indemnitee, undertake the defense of any such Potential Indemnitee, in which case the Governing Board in its discretion may determine whether the Corporation shall reimburse such Potential Indemnitee for any fees and expenses incurred as a result of his or her engagement of separate counsel, whether through advancements or indemnification. The provisions of this subsection 7.2(c) shall not apply to any Proceeding by or in the right of the Corporation.
- (d) Except as otherwise provided herein, within fifteen (15) business days after the Corporation's receipt of a request therefore, and of a written undertaking by the Potential Indemnitee to repay or to reimburse all such amounts if it is determined that such Potential Indemnitee is not entitled to indemnification under this Article, the Corporation shall advance Indemnifiable Amounts to a Potential Indemnitee.
- (e) The provisions of this Article shall be applicable to Proceedings made or commenced after the adoption hereof, whether arising from acts or omissions to act occurring before or after adoption hereof.
- (f) The indemnification and advancements provided by this Article shall not be deemed exclusive of any other rights to which any Potential Indemnitee may be entitled under any applicable law.
- (g) The indemnification and advancements provided by this Article shall not restrict the power of the Governing Board to provide any additional indemnification and advancements permitted by law.
- (h) As a condition precedent to a Potential Indemnitee's right to be indemnified or receive advancements hereunder, he or she shall (i) give to the Corporation notice in writing directed to the Secretary of the

**Public Company Accounting Oversight Board
Bylaws and Rules – Bylaws**

Corporation (or to such other individual as the Corporation may designate) as soon as practicable of any Proceeding made against such Potential Indemnitee for which indemnity will or could be sought, and (ii) other than in connection with a Proceeding by or in the right of the Corporation, provide the Corporation with such information and cooperation as it may reasonably request.

7.3. Insurance. The Governing Board may purchase insurance on behalf of any Potential Indemnitee against any liability which may be asserted against or incurred by him or her that arises out of such person's status as a Potential Indemnitee or out of acts taken in such capacity, whether or not the Corporation would have the power to indemnify such person against that liability under law. To the extent that any applicable insurance is available to respond to any Proceeding addressed in this Article, such insurance shall be exhausted before any payment is made pursuant to the advancement and indemnification provisions in this Article.

ARTICLE VIII

BYLAW AMENDMENTS AND RULES OF THE GOVERNING BOARD

8.1. Amendments to Bylaws. Subject to the approval of the U.S. Securities and Exchange Commission as provided in the Act, the Governing Board may from time to time amend, repeal, or supplement these bylaws.

8.2. Rules. In addition to, and separate from, these bylaws, the Governing Board may adopt such rules of the Governing Board as it deems necessary or appropriate to discharge its responsibilities under the Act.

ARTICLE IX

MISCELLANEOUS PROVISIONS

9.1. Fiscal Year. The Corporation's fiscal year shall be the calendar year.

9.2. Capital Expenditures. Except as expressly delegated by the Governing Board, no capital expenditure or investment shall be made without the approval of the Governing Board.

Public Company Accounting Oversight Board Bylaws and Rules – Bylaws

9.3. Selection of Auditor. The Governing Board shall retain an accounting firm to annually audit the Corporation's financial records, which firm shall not perform any other services, except tax services, for the Corporation.

9.4. Headings. Section and other headings contained herein are for reference purposes only, and are not intended to describe, interpret, define, or limit the scope, extent, or intent of any of the provisions hereof.

9.5. Variation of Terms. All terms and any variations thereof shall be deemed to refer to masculine, feminine, or neuter, singular or plural, as the identity of the respective person or persons may require.

9.6. Severability. If any part of these bylaws shall be found in any action, suit, or proceeding to be invalid or ineffective, the validity and effectiveness of the remaining parts shall not be affected.

[Effective pursuant to SEC Release No. 34-48212, File No. PCAOB-2003-01 (July 23, 2003); as amended by SEC Release No. 34-51155, File No. PCAOB-2004-02 (February 8, 2005)]

ETHICS CODE

EC1. Application of Code

The provisions of this Ethics Code apply, according to their terms, to –

- (a) present and former Board members and staff;
- (b) the spouse, spousal equivalent, and dependents of Board members and staff; and
- (c) designated contractors and consultants to the Board.

Note: Rule 3700(e) requires members of a Board advisory group to comply with certain provisions of the Ethics Code.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC2. Definitions

- (a) Reference to Rules of the Board

Unless the context requires otherwise, the definitions provided in Section 1001 of the Rules of the Board apply to the words and terms contained in this Ethics Code.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

- (b) Code

The term "Code" means this Ethics Code, as it may be amended from time to time.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

- (c) Dependent

The term "dependent" of a Board member or staff means a person who receives more than half of his or her support for the most recent calendar year from the Board member or staff.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

Public Company Accounting Oversight Board Bylaws and Rules – Ethics Code

(d) Designated Contractors and Consultants

The term "designated contractors and consultants" means certain persons or business organizations

- (1) with which the Board enters into contracts for services, including contracts that provide for both goods and services;
- (2) which the Board, or its designate, has determined should be subject to this Code, in whole or in part; and
- (3) for which the contract contains a provision expressly incorporating this Code, in whole or in part.

Note: The Board will maintain a list of designated contractors and consultants, which will be available to the public. Nothing in this provision will restrict the Board's right to impose additional contractual restrictions and limitations on any contractor or consultant. The Board is committed not to use its contracting authority to convert a person who would ordinarily be an employee to a contractor or consultant, as a means of allowing that person to be excluded from the provisions of this Code.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

(e) Honoraria

The term "honoraria" means anything with more than a nominal value, whether provided in cash or otherwise, and which is provided in exchange for a speech, panel participation, publication or lecture. Neither the waiver of conference fees nor acceptance of a modest speakers-only meal constitutes "honoraria."

Note: Items which are provided to all conference participants, including speakers, are not provided "in exchange for" a speech and thus not considered to be "honoraria."

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

(f) Practice

The term "practice" means –

- (1) knowingly acting as an agent or attorney for, or otherwise representing any other person in any formal or informal appearance before the Board or Commission with respect to Board-related matters; or

Public Company Accounting Oversight Board Bylaws and Rules – Ethics Code

- (2) making any oral or written communication on behalf of any other person to, and with the intent to influence, the Board or Commission with respect to Board-related matters.

Note: For purposes of this definition, participating in the financial reporting process as the officer or director of an issuer or participating in an audit of an issuer's financial statements does not, in and of itself, constitute practice before the Board or the Commission.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

- (g) Professional Staff or Professional Staff of the Board

The terms "professional staff" or "professional staff of the Board" mean those persons who are employed by the Board and who are exempt, pursuant to Section 13(a)(1) of the Fair Labor Standards Act (29 USC § 201 et sec.), from Sections 6 and 7 (minimum wage and overtime provisions) of that act.

Note: These terms may, according to the context, alternatively be used to refer to a single such employee, or to all such employees.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

- (h) Staff or Staff of the Board

The terms "staff" or "staff of the Board" mean those persons who are employed by the Board.

Note: These terms may, according to the context, alternatively be used to refer to a single such employee, or to all such employees.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC3. General Principles

(a) The purpose of this Code is to maintain the highest standards of ethical conduct among Board members and staff, and to provide the public with confidence in the objectivity of the Board's decisions by seeking to avoid both actual and perceived conflicts of interest among Board members and staff. The general principles within this section form the basis for the ethics rules and standards of conduct contained in the Code. When a situation is not covered by the Code's specific standards, Board members and staff shall apply the principles set forth in this section in determining whether their conduct is proper.

Public Company Accounting Oversight Board Bylaws and Rules – Ethics Code

- (1) Board members and staff should at all times be mindful of their responsibilities to the Board, the sensitivity of their positions, and the need for public confidence in the objectivity and deliberative process of the Board.
- (2) Board members and staff should take great care to conduct themselves and all of their activities in such a manner so that their personal investments or other personal activities will not affect their professional independence or objectivity, or otherwise hinder the interests or reputation of the Board.
- (3) Board members and staff should recognize that the degree of public confidence in the function and activities of the Board depends heavily upon the observance of both the letter and spirit of this Code.

(b) No Board member or staff shall act in a manner, regardless of whether specifically prohibited by this Code, which might reasonably result in or reasonably create the appearance that the employee is –

- (1) using his or her official position with the Board, or confidential information obtained through service for the Board, for the private gain of any person;
- (2) giving preferential treatment to any person with respect to the Board member or employee's work for the Board;
- (3) losing independence or objectivity with respect to his or her work for the Board;
- (4) adversely affecting the public confidence in, or the integrity, independence or objectivity of the Board; or
- (5) otherwise hindering the interests or reputation of the Board.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC4. Financial and Employment Interests

- (a) While employed by the Board, no Board member or professional staff shall –
 - (1) be owed, directly or indirectly, any financial or other obligation by any former employer, business partner, client, or publisher except –
 - (A) routine banking and other routine commercial relationships;

**Public Company Accounting Oversight Board
Bylaws and Rules – Ethics Code**

- (B) securities and other investments permitted by this Code;
 - (C) benefits under a bona fide pension, retirement, group life, health or accident insurance, or other employee welfare or benefit plan maintained by a former employer and related to prior services for the former employer, business partner or client;
 - (D) profit-sharing, stock bonus or other payments related to prior services for the former employer, business partner or client;
 - (E) royalties or other like payments with respect to writings and recordings completed prior to commencement of employment with the Board; or
 - (F) such other obligations permitted by this Code, or as may be specifically and expressly approved by the Board; or
- (2) owe, directly or indirectly, any financial or other obligation to any former employer, business partner or client, except –
- (A) routine banking and other routine commercial relationships;
 - (B) covenants not to compete;
 - (C) non-disclosure agreements; or
 - (D) such other obligations permitted by this Code, or as may be specifically and expressly approved by the Board.

(b) Notwithstanding any other provision of this Code, no member of the Board or his or her spouse, spousal equivalent, or dependents may share in any of the profits of, or receive payments from, a public accounting firm, other than fixed continuing payments under standard arrangements for retirement from public accounting firms.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC5. Investments

(a) Except as provided in this Section, nothing in this Code prohibits Board members and staff, or their spouses, spousal equivalents, or dependents, from owning and holding securities (including futures), real estate, commodities (including futures), exchange-traded options and other investments held for personal investment purposes,

Public Company Accounting Oversight Board Bylaws and Rules – Ethics Code

except that no Board member or staff may have any financial interest in a public accounting firm.

(b) Board members and staff should at all times be mindful of their responsibilities to the Board and shall avoid personal financial activities which might affect or reasonably create the appearance of affecting their independence or objectivity.

(c) Board members and staff should at all times be mindful that, in the course and scope of their employment activities, they may obtain knowledge of confidential, non-public information which, if disclosed, might affect the value of particular securities or investments. Accordingly, Board members and staff may not –

- (1) disseminate or otherwise disclose any confidential, non-public information obtained by virtue of their position with the Board, regardless of whether that information may be considered to be "material" under the securities laws; or
- (2) use such information for the financial gain of themselves or others.

Note: Concurrent restrictions on disclosure of non-public information are provided in EC9.

(d) Board members and professional staff shall annually disclose their holdings, and the holdings of their spouses, spousal equivalents, and dependents, in securities of issuers (including exchange-traded options and futures).

- (1) For initial disclosures, statements shall be filed with the Ethics Officer within the first 60 days of commencement of service with the Board, or 60 days from the effective date of this Code, whichever is later.
- (2) Subsequent disclosures shall be filed with the Ethics Officer on May 1, commencing the first year following the initial disclosure.
- (3) Disclosure statements by Board Members shall be made available to the public.
- (4) Disclosure statements by professional staff shall remain confidential.

Note: The form and content of this disclosure statement shall be included in the Board's ethics manual.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

**Public Company Accounting Oversight Board
Bylaws and Rules – Ethics Code**

EC6. Outside Activities

(a) No member of the Board may undertake any employment or other activity for compensation outside of service to the Board.

(b) Staff of the Board may only undertake other employment or other activity for compensation with the express and specific approval of the Board or such person to whom the Board may delegate such approval authority.

(c) No Board member or staff of the Board shall engage in any outside activity, whether or not for compensation, which –

- (1) affects or reasonably creates the appearance of affecting his or her independence or objectivity;
- (2) interferes with his or her responsibilities to the Board; or
- (3) otherwise hinders the interests or reputation of the Board.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC7. Gifts, Reimbursements, Honoraria and Other Things of Value

(a) No Board member or professional staff shall, directly or indirectly, solicit or accept any gift, reimbursement, honoraria or anything of monetary value from any source, which might reasonably be viewed as –

- (1) interfering with his or her independence, objectivity or responsibilities to the Board; or
- (2) otherwise hindering the interests or reputation of the Board.

Note: Although this provision does not extend to non-professional staff, such staff should remain cognizant of corresponding duties imposed by EC3 and EC5.

(b) No Board member or staff shall accept payment for or reimbursement of official travel-related expenses from any organization, except –

- (1) for travel that is in direct connection with the employee's participation in an educational forum; and
- (2) the educational forum is principally sponsored by and the travel-related expenses are paid or reimbursed by –

Public Company Accounting Oversight Board Bylaws and Rules – Ethics Code

- (A) a federal, state or local governmental body, or an association of such bodies,
- (B) an accredited institution of higher learning,
- (C) an organization exempt from taxation under 501(c)(3) of the Internal Revenue Code, provided such organization is not principally funded from one or more public accounting firms or issuers, or
- (D) institutions equivalent to those in EC 7(b)(2)(A) – (C) outside the United States.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC8. Disqualification

(a) If a Board member or professional staff becomes, or reasonably should become, aware of facts which would lead a reasonable person to believe that he or she, or his or her spouse, spousal equivalent, or dependents, may have a financial interest or other similar relationship which might affect or reasonably create the appearance of affecting his or her independence or objectivity with respect to the Board's function or activities, then he or she shall, at the earliest possible date –

- (1) disclose such circumstances and facts, as set forth in subsection (b); and
- (2) recuse himself or herself from further Board functions or activities involving or affecting the financial interest or relationship.

Note 1: For the purposes of applying this provision to members of an advisory group convened by the Board, those members shall not be considered to lack independence or objectivity with regard to advisory group matters merely because they (or their employer, business partners or clients) are subject to the direct or indirect oversight of the Board.

Note 2: Although this provision does not extend to non-professional staff, such staff facing circumstances that may affect their ability to perform their functions should seek advice from the Board's Ethics Officer.

(b) For a member of the Board, disclosure shall be made to all other members of the Board. For professional staff of the Board, disclosure shall be made to the Board Chair, or his or her designee.

(c) For a period of 12 months commencing on date of appointment or employment, no Board member or professional staff may participate in the making of a

Public Company Accounting Oversight Board Bylaws and Rules – Ethics Code

decision which is reasonably likely to have a material effect, direct or indirect, on the Board or professional staff member's former employer, business partner or client, when such prior employment terminated within five years from the date of appointment or employment with the Board. For purposes of this section, participating in the making of a decision which affects a former employer, business partner or client to the same degree as similarly situated people or business organizations, does not constitute an "indirect" effect.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC9. Non-Public Information

(a) Unless authorized by the Board, no Board member or staff shall disseminate or otherwise disclose any information obtained in the course and scope of his or her employment, and which has not been released, announced, or otherwise made available publicly.

(b) The provisions of this Section shall continue in effect after the termination of employment or Board membership.

Note: Concurrent restrictions on disclosure of non-public information are provided in EC5(c).

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC10. Speaking for the Board

Unless authorized to speak on behalf of the Board, Board members and professional staff shall include a disclaimer for any private publication or public statement by indicating that the views expressed are those of the author or speaker and do not necessarily reflect the view of the Board or other Board members or staff.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC11. Ethics Officer

The Board shall designate an Ethics Officer who shall be empowered to –

(a) counsel Board members and staff regarding compliance with or potential violation of this Code;

(b) issue advisory opinions, as deemed necessary, to Board members and staff regarding potential violations of this Code; and

Public Company Accounting Oversight Board Bylaws and Rules – Ethics Code

(c) make recommendations to the Board regarding waiver requests and potential violations of, or amendments to, this Code.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC12. Post-Employment Restrictions

(a) Negotiating Prospective Employment

- (1) Board members and professional staff may not negotiate prospective employment with a public accounting firm or issuer, without first disclosing (pursuant to the procedures in Section EC8(b)) the identity of the prospective employer and recusing himself or herself from all Board matters directly affecting that prospective employer.
- (2) For purposes of this section, "negotiating prospective employment" means participating in an employment interview; discussing an offer of employment; or accepting an offer of employment, even if the precise terms are still to be developed. Submitting a resume or job application to a group of employers or receiving an unsolicited inquiry of interest that is rejected, do not alone constitute "negotiating prospective employment."

(b) Prohibition on Practice Before the Board or Commission

- (1) Board members and professional staff shall be restricted from practice before the Board, and the Commission with respect to Board-related matters, for one year following termination of employment or Board membership.
- (2) Former Board members and professional staff shall not practice before the Board, or the Commission with respect to Board-related matters, on a particular matter in which the Board member or professional staff participated personally and substantially as a Board or staff member and which involved a specific party or specific parties at the time of such participation.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC13. Waiver

Unless otherwise prohibited by law, the Board (or person to whom the Board may delegate this responsibility as to staff) may grant a request for waiver of any provision of this Code. Such waivers must be requested in writing by the Board member or staff,

Public Company Accounting Oversight Board Bylaws and Rules – Ethics Code

and evaluated by the Ethics Officer. The Board will only grant waiver requests after a finding that the waiver would not otherwise hinder the interests or reputation of the Board. Waivers will be made available to the public, subject to the withholding of information that would constitute a clearly unwarranted invasion of personal privacy.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

EC14. Certification

Board members, staff and designated contractors and consultants agree to comply with this Code at the commencement of their service or contract with the Board and shall, throughout the term of their appointment, employment or contract, certify annually in writing their continuing compliance with it.

[Effective pursuant to SEC Release No. 34-48755, File No. PCAOB-2003-04 (November 7, 2003)]

RULES

SECTION 1. GENERAL PROVISIONS

Rule 1000. [Reserved]

[Reserved]

Rule 1001. Definitions of Terms Employed in Rules.

When used in the Rules, unless the context otherwise requires:

(a)(i) Accounting Support Fee

The term "accounting support fee" means the fee described in Rule 7100.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

(a)(ii) Accountant

The term "accountant" means a natural person –

- (1) who is a certified public accountant, or
- (2) who holds –
 - (i) a college, university, or higher professional degree in accounting, or
 - (ii) a license or certification authorizing him or her to engage in the business of auditing or accounting, or
- (3) who –
 - (i) holds a college, university, or higher professional degree in a field, other than accounting, and
 - (ii) participates in audits;

provided, however, that the term "accountant" does not include a person engaged only in clerical or ministerial tasks.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

(a)(iii) Act

The term "Act" means the Sarbanes-Oxley Act of 2002.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(a)(iv) Associated Entity

The term "associated entity" means, with respect to a public accounting firm –

- (1) any entity that directly, indirectly, or through one or more intermediaries, controls, or is controlled by, or is under common control with, such public accounting firm; or
- (2) any "associated entity," as used in Rule 2-01(f)(2) of Regulation S-X, 17 C.F.R. 210.2-01(f)(2), that would be considered part of that firm for purposes of the Commission's auditor independence rules.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(a)(v) Audit

The term "audit" means an examination of the financial statements of any issuer by an independent public accounting firm in accordance with the rules of the Board or the Commission (or, for the period preceding the adoption of applicable Rules of the Board under Section 103 of the Act, in accordance with then applicable generally accepted auditing standards for such purposes), for the purpose of expressing an opinion on such statements.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(a)(vi) Audit Report

The term "audit report" means a document or other record –

- (1) prepared following an audit performed for purposes of compliance by an issuer with the requirements of the securities laws; and
- (2) in which a public accounting firm either –
 - (i) sets forth the opinion of that firm regarding a financial statement, report or other document; or
 - (ii) asserts no such opinion can be expressed.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

(a)(vii) Audit Services

The term "audit services" means –

- (1) subject to paragraph (a)(vii)(2) of this Rule, professional services rendered for the audit of an issuer's annual financial statements, and (if applicable) for the reviews of an issuer's financial statements included in the issuer's quarterly reports.
- (2) effective after December 15, 2003, professional services rendered for the audit of an issuer's annual financial statements, and (if applicable) for the reviews of an issuer's financial statements included in the issuer's quarterly reports or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(a)(viii) Auditing and Related Professional Practice Standards.

The term "auditing and related professional practice standards" means the auditing standards, related attestation standards, quality control standards, ethical standards, and independence standards (including any rules implementing Title II of the Act), and any other professional standards, that are established or adopted by the Board under Section 103 of the Act.

[Effective pursuant to SEC Release No. 34-48730, File No. PCAOB-2003-05 (October 31, 2003)]

(a)(ix) Accounting Board Demand

The term "accounting board demand" means a command to produce documents and/or to appear at a certain time and place to give testimony.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(a)(x) Accounting Board Request

The term "accounting board request" means a request to produce documents and/or to appear at a certain time and place to give testimony.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(a)(xi) Appropriate State Regulatory Authority

The term "appropriate state regulatory authority" means the State agency or other authority responsible for the licensure or other regulation of the practice of

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

accounting in the State or States having jurisdiction over a registered public accounting firm or associated person thereof, with respect to the matter in question.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

(a)(xii) Auditor

The term "auditor" means both public accounting firms registered with the Public Company Accounting Oversight Board and associated persons thereof.

[Effective pursuant to SEC Release No. 34-50331, File No. PCAOB-2004-06 (September 8, 2004)]

(b)(i) Board

The term "Board" means the Public Company Accounting Oversight Board.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(b)(ii) Bar

The term "bar" means a permanent disciplinary sanction prohibiting a person from being associated with a registered public accounting firm.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(c)(i) Commission

The term "Commission" means the Securities and Exchange Commission.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(c)(ii) Counsel

The term "counsel" means an attorney at law admitted to practice, and in good standing, before the Supreme Court of the United States or the highest court of any state.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(d)(i) Disciplinary Proceeding

The term "disciplinary proceeding" means a proceeding initiated by an order instituting proceedings, held for the purpose of determining whether or not a registered public accounting firm, or any person associated with a registered public accounting firm, has engaged in any act or practice, or omitted to act, in violation of the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards; or has failed reasonably to supervise an associated person in connection with any such violation by that person; or has failed to cooperate with the Board in connection with an investigation; and whether to impose a sanction pursuant to Rule 5300.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(d)(ii) Document

The term "document" is synonymous in meaning and equal in scope to its usage in Federal Rule of Civil Procedure 34(a), including, without limitation, electronic or computerized data compilations. A draft or non-identical copy is a separate document within the meaning of this term. In no event shall the term "document" be construed to be limited to audit work papers.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(e)(i) Exchange Act

The term "Exchange Act" means the Securities Exchange Act of 1934, as amended.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(f)(i) Foreign Public Accounting Firm

The term "foreign public accounting firm" means a public accounting firm that is organized and operates under the laws of a non-U.S. jurisdiction, government or political subdivision thereof.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(f)(ii) Foreign Registered Public Accounting Firm

The term "foreign registered public accounting firm" means a foreign public accounting firm that is a registered public accounting firm.

[Effective pursuant to SEC Release No. 34-50291, File No. PCAOB-2004-04 (August 30, 2004)]

(h)(i) Hearing Officer

The term "hearing officer" means a person, other than a Board member or staff of the interested division, duly authorized by the Board to preside at a hearing.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

(i)(i) Issuer Market Capitalization

The terms "issuer market capitalization" and "market capitalization of an issuer" mean –

(1) Except as provided in paragraph (i)(i)(2) of this rule, the aggregate market value of all classes of an issuer's common stock that trade in the United States; or

(2) With respect to an issuer: (i) that is registered under Section 8 of the Investment Company Act or has elected to be regulated as a business development company pursuant to Section 54 of the Investment Company Act, and (ii) whose securities are not traded on a national securities exchange or quoted on Nasdaq, the issuer's net asset value.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

(i)(ii) Investment Company Act

The term "Investment Company Act" means the Investment Company Act of 1940, as amended.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

(i)(iii) Issuer

The term "issuer" means an issuer (as defined in Section 3 of the Exchange Act), the securities of which are registered under Section 12 of that Act, or that is required to file reports under Section 15(d) of that Act, or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933, and that it has not withdrawn.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(i)(iv) Interested Division

The term "interested division" means a division or office of the Board assigned primary responsibility by the Board to participate in a particular proceeding.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

(n)(i) Notice

The term "notice" means the document sent by the Board to an issuer, pursuant to Rule 7102, setting forth such issuer's share of the accounting support fee under Section 109 of the Act and Rules 7101 and 7102.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

(n)(ii) Non-Audit Services

The term "non-audit services" means –

- (1) subject to paragraph (n)(ii)(2) of this Rule, services related to financial information systems design and implementation as defined in Rule 2-01(c)(4)(ii) of Regulation S-X, 17 C.F.R. 2-01(c)(4)(ii), and all other services, other than audit services or other accounting services.
- (2) effective after December 15, 2003, all other services other than audit services, other accounting services, and tax services.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(n)(iii) Non-U.S. Inspection

The term "non-U.S. inspection" means an inspection of a foreign registered public accounting firm conducted within a non-U.S. oversight system.

[Effective pursuant to SEC Release No. 34-50291, File No. PCAOB-2004-04 (August 30, 2004)]

(o)(i) Other Accounting Services

The term "other accounting services" means –

- (1) subject to paragraph (o)(i)(2) of this Rule, services that are normally provided by the public accounting firm that audits the issuer's financial statements in connection with statutory and regulatory filings or engagements and assurance and related services that are reasonably related to the performance of the audit or review of the issuer's financial statements, other than audit services.

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

- (2) effective after December 15, 2003, assurance and related services that are reasonably related to the performance of the audit or review of the issuer's financial statements, other than audit services.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(o)(ii) Order Instituting Proceedings

The term "order instituting proceedings" means an order issued by the Board commencing a disciplinary proceeding.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(p)(i) Person Associated With a Public Accounting Firm (and Related Terms)

The terms "person associated with a public accounting firm" (or with a "registered public accounting firm" or "applicant") and "associated person of a public accounting firm" (or of a "registered public accounting firm" or "applicant") mean any individual proprietor, partner, shareholder, principal, accountant, or professional employee of a public accounting firm, or any independent contractor that, in connection with the preparation or issuance of any audit report –

- (1) shares in the profits of, or receives compensation in any other form from, that firm; or
- (2) participates as agent on behalf of such accounting firm in any activity of that firm;

provided, however, that these terms do not include a person engaged only in clerical or ministerial tasks or a person whom the public accounting firm reasonably believes is a person primarily associated with another registered public accounting firm.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(p)(ii) Play a Substantial Role in the Preparation or Furnishing of an Audit Report

The phrase "play a substantial role in the preparation or furnishing of an audit report" means –

- (1) to perform material services that a public accounting firm uses or relies on in issuing all or part of its audit report with respect to any issuer, or

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

- (2) to perform the majority of the audit procedures with respect to a subsidiary or component of any issuer the assets or revenues of which constitute 20% or more of the consolidated assets or revenues of such issuer necessary for the principal accountant to issue an audit report on the issuer.

Note 1: For purposes of paragraph (1) of this definition, the term "material services" means services, for which the engagement hours or fees constitute 20% or more of the total engagement hours or fees, respectively, provided by the principal accountant in connection with the issuance of all or part of its audit report with respect to any issuer. The term does not include non-audit services provided to non-audit clients.

Note 2: For purposes of paragraph (2) of this definition, the phrase "subsidiary or component" is meant to include any subsidiary, division, branch, office or other component of an issuer, regardless of its form of organization and/or control relationship with the issuer.

Note 3: For purposes of determining "20% or more of the consolidated assets or revenues" under paragraph (2) of this Rule, this determination should be made at the beginning of the issuer's fiscal year using prior year information and should be made only once during the issuer's fiscal year.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(p)(iii) Public Accounting Firm

The term "public accounting firm" means a proprietorship, partnership, incorporated association, corporation, limited liability company, limited liability partnership, or other legal entity that is engaged in the practice of public accounting or preparing or issuing audit reports.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(p)(iii) Party

The term "party" means the interested division, any person named as a respondent in an order instituting proceedings or notice of a hearing, any applicant named in the caption of any order, or any person seeking Board review of a decision.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

(p)(iv) Person

The term "person" means any natural person or any business, legal or governmental entity or association.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(p)(vi) Professional Standards

The term "professional standards" means –

(A) accounting principles that are –

(i) established by the standard setting body described in section 19(b) of the Securities Act of 1933, as amended by the Act, or prescribed by the Commission under section 19(a) of the Securities Act of 1933 or section 13(b) of the Securities Exchange Act of 1934; and

(ii) relevant to audit reports for particular issuers, or dealt with in the quality control system of a particular registered public accounting firm; and

(B) auditing standards, standards for attestation engagements, quality control policies and procedures, ethical and competency standards, and independence standards (including rules implementing Title II of the Act) that the Board or the Commission determines –

(i) relate to the preparation or issuance of audit reports for issuers; and

(ii) are established or adopted by the Board under section 103(a) of the Act, or are promulgated as rules of the Commission.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

(r)(i) Registered Public Accounting Firm

The term "registered public accounting firm" means a public accounting firm registered with the Board.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(r)(ii) Rules or Rules of the Board

The terms "Rules" or "Rules of the Board" mean the bylaws and rules of the Board (as submitted to and approved, modified, or amended by the Commission in

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

accordance with Section 107 of the Act) and those stated policies, practices, and interpretations of the Board that the Commission, by rule, may deem to be rules of the Board, as necessary or appropriate in the public interest or for the protection of investors.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(r)(iii) Revocation

The term "revocation" means a permanent disciplinary sanction terminating a firm's registration.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(s)(i) Securities Act

The term "Securities Act" means the Securities Act of 1933, as amended.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

(s)(ii) Securities Laws

The term "securities laws" means the provisions of the law referred to in Section 3(a)(47) of the Exchange Act, as amended by the Act, and includes the rules, regulations, and orders issued by the Commission thereunder.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(s)(iii) State

The term "State" means any state of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, or any other territory or possession of the United States.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

(s)(iii) Secretary

The term "Secretary" means the Secretary of the Board.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(s)(iv) Suspension

The term "suspension" means a temporary disciplinary sanction, which lapses by its own terms, prohibiting –

Public Company Accounting Oversight Board Bylaws and Rules – Rules – General Provisions

(1) a registered public accounting firm from preparing or issuing, or participating in the preparation or issuance of, any audit report with respect to any issuer; or

(2) a person from being associated with a registered public accounting firm.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(t)(i) Tax Services

The term "tax services" means professional services rendered for tax compliance, tax advice, and tax planning.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Rule 1002. Time Computation

In computing any period of time prescribed in or allowed by these Rules or by order of the Board, the day of the act, event, or default from which the designated period of time begins to run shall not be included. The last day of the period so computed shall be included unless it is a Saturday, Sunday, or federal legal holiday, in which event the period runs until the end of the next day that is not a Saturday, Sunday, or federal legal holiday. Intermediate Saturdays, Sundays, and federal legal holidays shall be excluded from the computation when the period of time prescribed or allowed is seven days or less, not including any additional time allowed by rule or order for service by mail. If on the day a filing is to be made, weather or other conditions have caused the Secretary's office or other designated filing location to close, the filing deadline shall be extended to the end of the next day that is neither a Saturday, a Sunday, nor a federal legal holiday.

Note: The Secretary will maintain a list of federal legal holidays.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

SECTION 2. REGISTRATION AND REPORTING

Part 1 – Registration of Public Accounting Firms

Rule 2100. Registration Requirements for Public Accounting Firms.

Effective October 22, 2003 (or, for foreign public accounting firms, July 19, 2004), each public accounting firm that –

- (a) prepares or issues any audit report with respect to any issuer; or
- (b) plays a substantial role in the preparation or furnishing of an audit report with respect to any issuer

must be registered with the Board.

Note 1: As set forth in Section 106(a)(1) of the Act, registration with the Board pursuant to this Rule will not by itself provide a basis for subjecting a foreign public accounting firm to the jurisdiction of the U.S. federal or State courts, other than with respect to controversies between such firms and the Board.

Note 2: The issuance of a consent to include an audit report for a prior period by a public accounting firm, which does not currently have and does not expect to have an engagement with an issuer to prepare or issue, or to play a substantial role in the preparation or furnishing of an audit report with respect to any issuer, will not by itself require a public accounting firm to register under Rule 2100.

[Effective pursuant to SEC Release 34-49473, File No. PCAOB 2004-01 (March 25, 2004) and SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Rule 2101. Application for Registration.

Any public accounting firm applying to the Board for registration pursuant to Rule 2100 must complete and file an application for registration on Form 1 by following the instructions to that form. Unless directed otherwise by the Board, the applicant must file such application and exhibits thereto electronically with the Board through the Board's web-based registration system. An applicant may withdraw its application for registration by written notice to the Board at any time before the approval or disapproval of the application.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Registration and Reporting

Rule 2102. Date of Receipt.

Unless the Board directs otherwise, the date of receipt of an application for registration will be the later of (a) the date on which the registration fee has been paid, or (b) the date on which the application is submitted to the Board through its web-based registration system.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Rule 2103. Registration Fee.

Each applicant for registration must pay a registration fee. The Board will, from time to time, announce the current registration fee. No portion of the registration fee is refundable, regardless of whether the application for registration is approved, disapproved, or withdrawn.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Rule 2104. Signatures.

Each signatory to an application for registration (including, without limitation, each signatory to the consents required by such application) shall manually sign a signature page or other document authenticating, acknowledging or otherwise adopting his or her signature that appears in typed form within the electronic filing. Such document shall be executed before or at the time the electronic filing is made and shall be retained by the filer for a period of seven years. Upon request, an electronic filer shall furnish to the Board or its staff a copy of all documents retained pursuant to this Rule.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Rule 2105. Conflicting Non-U.S. Laws.

(a) An applicant may withhold information from its application for registration when submission of such information would cause the applicant to violate a non-U.S. law if that information were submitted to the Board.

(b) An applicant that claims that submitting information as part of its application would cause it to violate non-U.S. laws must –

- (1) identify, in accordance with the instructions on Form 1, the information that it claims would cause it to violate non-U.S. laws if submitted; and
- (2) include as an exhibit to Form 1 –

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Registration and Reporting

- (i) a copy of the relevant portion of the conflicting non-U.S. law;
- (ii) a legal opinion that submitting the information would cause the applicant to violate the conflicting non-U.S. law; and
- (iii) an explanation of the applicant's efforts to seek consents or waivers to eliminate the conflict, if the withheld information could be provided to the Board with a consent or a waiver, and a representation that the applicant was unable to obtain such consents or waivers to eliminate the conflict.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Rule 2106. Action on Applications for Registration.

(a) Standard for Approval.

After reviewing the application for registration, any additional information provided by the applicant, and any other information obtained by the Board, the Board will determine whether approval of the application for registration is consistent with the Board's responsibilities under the Act to protect the interests of investors and to further the public interest in the preparation of informative, accurate, and independent audit reports for companies the securities of which are sold to, and held by and for, public investors.

(b) Action on Application.

Unless the applicant consents otherwise, the Board will take action on an application for registration not later than 45 days after the date of receipt of the application by the Board.

- (1) If the Board makes the determination in paragraph (a) of this Rule, the Board will approve the application.
- (2) If the Board is unable to determine that the standard for approval in paragraph (a) of this Rule is met, or if the Board determines that the application may be materially inaccurate or incomplete, the Board will:
 - (i) request more information from the applicant; or
 - (ii) provide the applicant with written notice of a hearing, pursuant to the Board's procedural rules governing disciplinary proceedings, to determine whether to approve or

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Registration and Reporting**

disapprove the application. Such notice will specify, in reasonable detail, the proposed grounds for disapproval. Such notice may, at the applicant's election, be treated as a written notice of disapproval for purposes of Section 102(c) of the Act.

(c) Requests for More Information.

If the Board requests more information from an applicant, and such applicant submits the requested information to the Board, the Board will treat the application, as supplemented by the requested information, as if it were a new application for purposes of paragraph (b) of this Rule. The Board will take action on such supplemented applications as soon as practicable, and not later than 45 days after receipt of the supplemented application by the Board. If such firm declines to provide the requested information, or fails to do so within a reasonable amount of time, the Board may deem the application incomplete for purposes of paragraph (b)(2) of this Rule, may deem the application not to have been received in accordance with Rule 2102, or may take such other action as the Board deems appropriate.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

Rule 2107. Withdrawal from Registration

(a) Request for Leave to Withdraw

Subject to the limitation described in paragraph (e), a registered public accounting firm's registration with the Board shall be deemed withdrawn if the firm requests leave to withdraw by filing a completed Form 1-WD and

- (1) the Board grants leave to withdraw, or
- (2) the Board does not, within 60 days of receipt of the request, order that withdrawal of the firm's registration be delayed.

(b) Form 1-WD

(1) A request for leave to withdraw shall be filed on Form 1-WD in accordance with the instructions contained therein. A completed Form 1-WD shall include, among other things, a statement signed by an authorized partner or officer of the firm certifying that the firm is not currently, and will not during the pendency of its request for leave to withdraw be, engaged in the preparation or issuance of, or playing a substantial role in the preparation or furnishing of, an audit report, other than to issue a consent to the use of an audit report for a prior period.

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Registration and Reporting

(2) The contents of a completed Form 1-WD shall be non-public. The Board shall publicly disclose the identity of any firm as to which a request for leave to withdraw is pending and the date that the Board received a completed Form 1-WD.

(c) Effect of Filing

(1) Beginning on the date of Board receipt of a completed Form 1-WD, the firm that filed the Form 1-WD shall not engage in the preparation or issuance of, or play a substantial role in the preparation or furnishing of, an audit report, other than to issue a consent to the use of an audit report for a prior period, unless it first withdraws its Form 1-WD.

(2) Beginning on the fifth day following the Board's receipt of a completed Form 1-WD, and continuing for as long as the Form 1-WD is pending –

(i) the firm may satisfy the annual reporting requirement by submitting a report stating that a completed Form 1-WD has been filed and is pending;

(ii) any annual fee assessed shall be zero;

(iii) the Board shall have the discretion to forego any regular inspection that would otherwise commence pursuant to Rule 4003(a) or Rule 4003(b); and

(iv) the firm's registration status shall be designated as "registered – withdrawal request pending," and the firm shall not publicly represent its registration status without specifying it as "registered – withdrawal request pending."

(d) Board Action

Within 60 days of Board receipt of a completed Form 1-WD, the Board may order that withdrawal of registration be delayed for a period of up to eighteen months from the date of such receipt if the Board determines that such withdrawal would be inconsistent with the Board's responsibilities under the Act, including its responsibilities to conduct –

(1) inspections to assess the degree of compliance of each registered public accounting firm and associated persons of that firm with the Act, the rules of the Board, the rules of the Commission, or professional standards, in connection with its performance of audits, issuance of audit reports, and related matters involving issuers; or

(2) investigations or disciplinary proceedings with respect to any act or practice, or omission to act, by a registered public accounting firm, any associated person of such firm, or both, that may violate any provision of the Act, the rules of the

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Registration and Reporting**

Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards.

(e) Automatic Delay of Withdrawal for Pending Disciplinary Proceedings

If, on the 60th day after the Board's receipt of a Form 1-WD or at the conclusion of any period for which the Board has ordered that withdrawal be delayed, there is pending any Board disciplinary proceeding against the firm that filed the Form 1-WD or against any associated person of that firm, or there is pending any Commission or court review of a Board sanction against such firm or person, the requested withdrawal from registration shall not take effect before the completion of all such disciplinary proceedings and reviews, unless the Board orders otherwise.

(f) Withdrawal of Form 1-WD

A registered public accounting firm that has submitted a Form 1-WD may withdraw the form at any time by filing with the Board a written notice of intent to withdraw the Form 1-WD along with any annual fee and annual report that the firm would have been required to submit during the period that the Form 1-WD was pending if not for the provisions of paragraph (c)(2).

(g) Withdrawal Voided for Material Inaccuracies or Omissions

If the Board determines, within three years after the date a firm's registration is deemed withdrawn, that there are reasonable grounds to believe that a firm that has withdrawn from registration filed with the Board a Form 1-WD that was materially incomplete or materially inaccurate on the date of filing, such firm's registration shall be reinstated, effective retroactively to the date the registration was deemed withdrawn.

[Effective pursuant to SEC Release No. 34-49694, File No. PCAOB-2003-09 (May 13, 2004)]

Part 2 – Reporting

[Reserved]

Part 3 – Public Availability Of Applications And Reports

**Rule 2300. Public Availability of Information Submitted to the Board;
Confidential Treatment Requests.**

(a) Except as provided in paragraph (b) below, an application for registration will be publicly available as soon as practicable after the Board approves or disapproves such application.

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Registration and Reporting**

(b) Confidential Treatment Requests.

A public accounting firm may request confidential treatment of any information submitted to the Board in connection with its application for registration, provided that the information as to which confidential treatment is requested –

- (1) has not otherwise been publicly disclosed, and
- (2) either (i) contains information reasonably identified by the public accounting firm as proprietary information, or (ii) is protected from public disclosure by applicable laws related to the confidentiality of proprietary, personal, or other information.

(c) Application Procedures.

To request confidential treatment of information submitted to the Board in connection with an application for registration, the applicant must –

- (1) identify in accordance with the instructions on Form 1 the information that it desires to keep confidential; and
- (2) include as an exhibit to Form 1 a detailed explanation as to why, based on the facts and circumstances of the particular case, the information meets the requirements of paragraph (b) of this Rule.

(d) Pending a determination by the Board as to whether to grant the request for confidential treatment, the information for which confidential treatment has been requested will not be made available to the public.

(e) If the Board determines to deny a confidential treatment request, the requestor will be notified in writing of the Board's decision, and of the date on which the information in question will be made public, a reasonable time in advance of such date.

(f) Unless the applicant requests otherwise, the exhibit containing an explanation supporting a confidential treatment request will be afforded confidential treatment without the need for a request for confidential treatment.

(g) Information as to which the Board grants confidential treatment under this rule will not be made available to the public by the Board. The granting of confidential treatment will not, however, limit the ability of the Board (1) to provide the information as to which confidential treatment was granted to the Commission, or (2) to comply with any subpoena validly issued by a court or other body of competent jurisdiction. In the event the Board receives such a subpoena, the Board will notify the applicant of such

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Registration and Reporting**

subpoena, to the extent permitted by law, to allow the applicant the opportunity to object to such subpoena.

(h) Pursuant to Section 101(g)(2) of the Act, the Board hereby delegates, until the Board orders otherwise, to the Director of Registration and Inspection the Board's functions under this Rule.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

SECTION 3. PROFESSIONAL STANDARDS

Part 1 – General Requirements

Rule 3100. Compliance with Auditing and Related Professional Practice Standards.

A registered public accounting firm and its associated persons shall comply with all applicable auditing and related professional practice standards.

[Effective pursuant to SEC Release No. 34-48730, File No. PCAOB-2003-05 (October 31, 2003)]

Rule 3101. Certain Terms Used in Auditing and Related Professional Practice Standards

(a) The Board's auditing and related professional practice standards use certain terms set forth in this rule to describe the degree of responsibility that the standards impose on auditors.

(1) **Unconditional Responsibility:** The words "must," "shall," and "is required" indicate unconditional responsibilities. The auditor must fulfill responsibilities of this type in all cases in which the circumstances exist to which the requirement applies. Failure to discharge an unconditional responsibility is a violation of the relevant standard and Rule 3100.

(2) **Presumptively Mandatory Responsibility:** The word "should" indicates responsibilities that are presumptively mandatory. The auditor must comply with requirements of this type specified in the Board's standards unless the auditor demonstrates that alternative actions he or she followed in the circumstances were sufficient to achieve the objectives of the standard. Failure to discharge a presumptively mandatory responsibility is a violation of the relevant standard and Rule 3100 unless the auditor demonstrates that, in the circumstances, compliance with the specified responsibility was not necessary to achieve the objectives of the standard.

Note: In the rare circumstances in which the auditor believes the objectives of the standard can be met by alternative means, the auditor, as part of documenting the planning and performance of the work, must document the information that demonstrates that the objectives were achieved.

(3) **Responsibility To Consider:** The words "may," "might," "could," and other terms and phrases describe actions and procedures that auditors have a responsibility to consider. Matters described in this fashion require the auditor's attention and understanding. How and whether the auditor implements these matters in the audit will depend on the exercise of professional judgment in the circumstances consistent with the objectives of the standard.

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Professional Standards

Note: If a Board standard provides that the auditor "should consider" an action or procedure, consideration of the action or procedure is presumptively mandatory, while the action or procedure is not.

(b) The terminology in paragraph (a) of this rule applies to the responsibilities imposed by the auditing and related professional practice standards, including the interim standards adopted in Rules 3200T, 3300T, 3400T, 3500T, and 3600T.

(c) The documentation requirement in paragraph (a)(2) is effective for audits of financial statements or other engagements with respect to fiscal years ending on or after November 15, 2004.

[Effective pursuant to SEC Release No. 34-50331, File No. PCAOB-2004-06 (September 8, 2004)]

Rule 3200T. Interim Auditing Standards.

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with generally accepted auditing standards, as described in the AICPA Auditing Standards Board's Statement of Auditing Standards No. 95, as in existence on April 16, 2003 (Codification of Statements on Auditing Standards, AU § 150 (AICPA 2002)), to the extent not superseded or amended by the Board.

Note: Under Section 102(a) of the Act, public accounting firms are not required to be registered with the Board until 180 days after the date of the determination of the Commission under section 101(d) that the Board has the capacity to carry out the requirements of Title I of the Act (the "mandatory registration date"). The Board intends that, during the period preceding the mandatory registration date, the Interim Auditing Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[Effective pursuant to SEC Release No. 34-49624, File No. PCAOB-2003-11 (April 28, 2004) and SEC Release Nos 33-8233 & 34-47746 (April 25, 2003)]

Rule 3201T. Temporary Transitional Provision for PCAOB Auditing Standard No. 2, "An Audit of Internal Control Over Financial Reporting Performed in Conjunction With an Audit of Financial Statements."

(a) Notwithstanding Auditing Standard No. 2, in connection with the audit of an issuer that does not file *Management's annual report on internal control over financial reporting* in reliance on SEC Release No. 34-50754, Order Under Section 36 of the Securities Exchange Act of 1934 Granting an Exemption from Specified Provisions of

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Professional Standards

Exchange Act Rules 13a-1 and 15d-1 (November 30, 2004), a registered public accounting firm and its associated persons need not:

(1) Date the auditor's report on management's assessment of the effectiveness of internal control over financial reporting with the same date as the auditor's report on the issuer's financial statements, provided that the date of the auditor's report on management's assessment of the effectiveness of internal control over financial reporting is later than the date of the auditor's report on the issuer's financial statements; or

(2) Add a paragraph to the auditor's separate report on the financial statements of an issuer that refers to a separate report on management's assessment of the effectiveness of internal control over financial reporting.

(b) This temporary rule will expire on July 15, 2005.

[Effective pursuant to SEC Release No. 34-50794, File No. PCAOB-2004-08 (December 3, 2004)]

Rule 3300T. Interim Attestation Standards.

In connection with an engagement (i) described in the AICPA's Auditing Standards Board's Statement on Standards for Attestation Engagements No. 10 (Codification of Statements on Auditing Standards, AT § 101.01 (AICPA 2002)) and (ii) related to the preparation or issuance of audit reports for issuers, a registered public accounting firm, and its associated persons, shall comply with the AICPA Auditing Standards Board's Statements on Standards for Attestation Engagements, and related interpretations and Statements of Position, as in existence on April 16, 2003, to the extent not superseded or amended by the Board.

Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Attestation Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[Effective pursuant to SEC Release No. 34-49624, File No. PCAOB-2003-11 (April 28, 2004) and SEC Release Nos 33-8233 & 34-47746 (April 25, 2003)]

Rule 3400T. Interim Quality Control Standards.

A registered public accounting firm, and its associated persons, shall comply with quality control standards, as described in –

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Professional Standards

(a) the AICPA's Auditing Standards Board's Statements on Quality Control Standards, as in existence on April 16, 2003 (AICPA Professional Standards, QC §§ 20-40 (AICPA 2002)), to the extent not superseded or amended by the Board; and

(b) the AICPA SEC Practice Section's Requirements of Membership (d), (f)(first sentence), (l), (m), (n)(1) and (o), as in existence on April 16, 2003 (AICPA SEC Practice Section Manual § 1000.08(d), (f), (j), (m), (n)(1) and (o)), to the extent not superseded or amended by the Board.

Note: The second sentence of requirement (f) of the AICPA SEC Practice Section's Requirements of Membership provided for the AICPA's peer review committee to "authorize alternative procedures" when the requirement for a concurring review could not be met because of the size of the firm. This provision is not adopted as part of the Board's Interim Quality Control Standards. After the effective date of the Interim Quality Control Standards, requests for authorization of alternative procedures to a concurring review may, however, be directed to the Board.

Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Quality Control Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[Effective pursuant to SEC Release No. 34-49624, File No. PCAOB-2003-11 (April 28, 2004) and SEC Release Nos 33-8233 & 34-47746 (April 25, 2003)]

Part 5 – Ethics

Rule 3500T. Interim Ethics Standards.

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with ethics standards, as described in the AICPA's Code of Professional Conduct Rule 102, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 102 and 191 (AICPA 2002)), to the extent not superseded or amended by the Board.

Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Ethics Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[Effective pursuant to SEC Release No. 34-49624, File No. PCAOB-2003-11 (April 28, 2004) and SEC Release Nos 33-8233 & 34-47746 (April 25, 2003)]

Rule 3501. Definitions of Terms Employed in Section 3, Part 5 of the Rules

When used in Section 3, Part 5 of the Rules, unless the context otherwise requires:

(a)(i) Affiliate of the Accounting Firm

The term "affiliate of the accounting firm" (or "affiliate of the registered public accounting firm" or "affiliate of the firm") includes the accounting firm's parents; subsidiaries; pension, retirement, investment or similar plans; and any associated entities of the firm, as that term is used in Rule 2-01 of the Commission's Regulation S-X, 17 C.F.R. § 210.2-01(f)(2).

(a)(ii) Affiliate of the Audit Client

The term "affiliate of the audit client" means –

(1) An entity that has control over the audit client, or over which the audit client has control, or which is under common control with the audit client, including the audit client's parents and subsidiaries;

(2) An entity over which the audit client has significant influence, unless the entity is not material to the audit client;

(3) An entity that has significant influence over the audit client, unless the audit client is not material to the entity; and

(4) Each entity in the investment company complex when the audit client is an entity that is part of an investment company complex.

(a)(iii) Audit and Professional Engagement Period

The term "audit and professional engagement period" includes both –

(1) The period covered by any financial statements being audited or reviewed (the "audit period"); and

(2) The period of the engagement to audit or review the audit client's financial statements or to prepare a report filed with the Commission (the "professional engagement period") –

(A) The professional engagement period begins when the registered public accounting firm either signs an initial engagement letter (or other

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Professional Standards

agreement to review or audit a client's financial statements) or begins audit, review, or attest procedures, whichever is earlier; and

(B) The professional engagement period ends when the audit client or the registered public accounting firm notifies the Commission that the client is no longer that firm's audit client.

(3) For audits of the financial statements of foreign private issuers, the "audit and professional engagement period" does not include periods ended prior to the first day of the last fiscal year before the foreign private issuer first filed, or was required to file, a registration statement or report with the Commission, provided there has been full compliance with home country independence standards in all prior periods covered by any registration statement or report filed with the Commission.

(a)(iv) Audit Client

The term "audit client" means the entity whose financial statements or other information is being audited, reviewed, or attested and any affiliates of the audit client.

(c)(i) Confidential Transaction

The term "confidential transaction" means –

(1) In general. A confidential transaction is a transaction that is offered to a taxpayer under conditions of confidentiality and for which the taxpayer has paid an advisor a fee.

(2) Conditions of confidentiality. A transaction is considered to be offered to a taxpayer under conditions of confidentiality if the advisor who is paid the fee places a limitation on disclosure by the taxpayer of the tax treatment or tax structure of the transaction and the limitation on disclosure protects the confidentiality of that advisor's tax strategies. A transaction is treated as confidential even if the conditions of confidentiality are not legally binding on the taxpayer. A claim that a transaction is proprietary or exclusive is not treated as a limitation on disclosure if the advisor confirms to the taxpayer that there is no limitation on disclosure of the tax treatment or tax structure of the transaction.

(3) Determination of fee. For purposes of this definition, a fee includes all fees for a tax strategy or for services for advice (whether or not tax advice) or for the implementation of a transaction. These fees include consideration in whatever form paid, whether in cash or in kind, for services to analyze the transaction (whether or not related to the tax consequences of the transaction), for services to implement the transaction, for services to document the transaction, and for services to prepare tax returns to the extent that the fees exceed the fees customary for return preparation. For

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Professional Standards

purposes of this definition, a taxpayer also is treated as paying fees to an advisor if the taxpayer knows or should know that the amount it pays will be paid indirectly to the advisor, such as through a referral fee or fee-sharing arrangement. A fee does not include amounts paid to a person, including an advisor, in that person's capacity as a party to the transaction. For example, a fee does not include reasonable charges for the use of capital or the sale or use of property.

(4) Related parties. For purposes of this definition, persons who bear a relationship to each other as described in section 267(b) or 707(b) of the Internal Revenue Code will be treated as the same person.

(c)(ii) Contingent Fee

The term "contingent fee" means –

(1) Except as stated in paragraph (2) below, any fee established for the sale of a product or the performance of any service pursuant to an arrangement in which no fee will be charged unless a specified finding or result is attained, or in which the amount of the fee is otherwise dependent upon the finding or result of such product or service.

(2) Solely for the purposes of this definition, a fee is not a "contingent fee" if the amount is fixed by courts or other public authorities and not dependent on a finding or result.

(f)(i) Financial Reporting Oversight Role

The term "financial reporting oversight role" means a role in which a person is in a position to or does exercise influence over the contents of the financial statements or anyone who prepares them, such as when the person is a member of the board of directors or similar management or governing body, chief executive officer, president, chief financial officer, chief operating officer, general counsel, chief accounting officer, controller, director of internal audit, director of financial reporting, treasurer, or any equivalent position.

(i)(i) Immediate Family Member

The term "immediate family member" means a person's spouse, spousal equivalent, and dependents.

(i)(ii) Investment Company Complex

(1) The term "investment company complex" includes –

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Professional Standards**

- (i) An investment company and its investment adviser or sponsor;
- (ii) Any entity controlled by or controlling an investment adviser or sponsor in paragraph (i) of this definition, or any entity under common control with an investment adviser or sponsor in paragraph (i) of this definition if the entity –
 - (A) Is an investment adviser or sponsor; or
 - (B) Is engaged in the business of providing administrative, custodian, underwriting, or transfer agent services to any investment company, investment adviser, or sponsor; and
- (iii) Any investment company or entity that would be an investment company but for the exclusions provided by section 3(c) of the Investment Company Act of 1940 (15 U.S.C. § 80a-3(c)) that has an investment adviser or sponsor included in this definition by either paragraph (i) or (ii) of this definition.

(2) An investment adviser, for purposes of this definition, does not include a sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser.

(3) A sponsor, for purposes of this definition, is an entity that establishes a unit investment trust.

[Effective pursuant to SEC Release No. 34-53677, File No. PCAOB-2006-01 (April 19, 2006)]

Rule 3502. Responsibility Not to Knowingly or Recklessly Contribute to Violations

A person associated with a registered public accounting firm shall not take or omit to take an action knowing, or recklessly not knowing, that the act or omission would directly and substantially contribute to a violation by that registered public accounting firm of the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards.

[Effective pursuant to SEC Release No. 34-53677, File No. PCAOB-2006-01 (April 19, 2006)]

Subpart 1 – Independence

Rule 3520. Auditor Independence

A registered public accounting firm and its associated persons must be independent of the firm's audit client throughout the audit and professional engagement period.

Note 1: Under Rule 3520, a registered public accounting firm or associated person's independence obligation with respect to an audit client that is an issuer encompasses not only an obligation to satisfy the independence criteria set out in the rules and standards of the PCAOB, but also an obligation to satisfy all other independence criteria applicable to the engagement, including the independence criteria set out in the rules and regulations of the Commission under the federal securities laws.

Note 2: Rule 3520 applies only to those associated persons of a registered public accounting firm required to be independent of the firm's audit client by standards, rules or regulations of the Commission or other applicable independence criteria.

[Effective pursuant to SEC Release No. 34-53677, File No. PCAOB-2006-01 (April 19, 2006)]

Rule 3521. Contingent Fees

A registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any service or product to the audit client for a contingent fee or a commission, or receives from the audit client, directly or indirectly, a contingent fee or commission.

[Effective pursuant to SEC Release No. 34-53677, File No. PCAOB-2006-01 (April 19, 2006)]

Rule 3522. Tax Transactions

A registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the audit and professional engagement period, provides any non-audit service to the audit client related to marketing, planning, or opining in favor of the tax treatment of, a transaction –

(a) **Confidential Transactions** – that is a confidential transaction; or

(b) **Aggressive Tax Position Transactions** – that was initially recommended, directly or indirectly, by the registered public accounting firm and a significant purpose of which is tax avoidance, unless the proposed tax treatment is at least more likely than not to be allowable under applicable tax laws.

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Professional Standards**

Note 1: With respect to transactions subject to the United States tax laws, paragraph (b) of this rule includes, but is not limited to, any transaction that is a listed transaction within the meaning of 26 C.F.R. § 1.6011-4(b)(2).

Note 2: A registered public accounting firm indirectly recommends a transaction when an affiliate of the firm or another tax advisor, with which the firm has a formal agreement or other arrangement related to the promotion of such transactions, recommends engaging in the transaction.

[Effective pursuant to SEC Release No. 34-53677, File No. PCAOB-2006-01 (April 19, 2006)]

Rule 3523. Tax Services for Persons in Financial Reporting Oversight Roles

A registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the professional engagement period provides any tax service to a person in a financial reporting oversight role at the audit client, or an immediate family member of such person, unless –

(a) the person is in a financial reporting oversight role at the audit client only because he or she serves as a member of the board of directors or similar management or governing body of the audit client;

(b) the person is in a financial reporting oversight role at the audit client only because of the person's relationship to an affiliate of the entity being audited –

(1) whose financial statements are not material to the consolidated financial statements of the entity being audited; or

(2) whose financial statements are audited by an auditor other than the firm or an associated person of the firm; or

(c) the person was not in a financial reporting oversight role at the audit client before a hiring, promotion, or other change in employment event and the tax services are –

(1) provided pursuant to an engagement in process before the hiring, promotion, or other change in employment event; and

(2) completed on or before 180 days after the hiring or promotion event.

Note: In an engagement for an audit client whose financial statements for the first time will be required to be audited pursuant to the standards of the

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Professional Standards

PCAOB, the provision of tax services to a person covered by Rule 3523 before the earlier of the date that the firm: (1) signed an initial engagement letter or other agreement to perform an audit pursuant to the standards of the PCAOB, or (2) began procedures to do so, does not impair a registered public accounting firm's independence under Rule 3523.

[Effective pursuant to SEC Release No. 34-53677, File No. PCAOB-2006-01 (April 19, 2006) and SEC Release No. 34-58415, File No. PCAOB-2008-03 (August 22, 2008)]

Rule 3524. Audit Committee Pre-approval of Certain Tax Services

In connection with seeking audit committee pre-approval to perform for an audit client any permissible tax service, a registered public accounting firm shall –

(a) describe, in writing, to the audit committee of the issuer –

(1) the scope of the service, the fee structure for the engagement, and any side letter or other amendment to the engagement letter, or any other agreement (whether oral, written, or otherwise) between the firm and the audit client, relating to the service; and

(2) any compensation arrangement or other agreement, such as a referral agreement, a referral fee or fee-sharing arrangement, between the registered public accounting firm (or an affiliate of the firm) and any person (other than the audit client) with respect to the promoting, marketing, or recommending of a transaction covered by the service;

(b) discuss with the audit committee of the issuer the potential effects of the services on the independence of the firm; and

(c) document the substance of its discussion with the audit committee of the issuer.

[Effective pursuant to SEC Release No. 34-53677, File No. PCAOB-2006-01 (April 19, 2006)]

Rule 3525. Audit Committee Pre-approval of Non-audit Services Related to Internal Control Over Financial Reporting

In connection with seeking audit committee pre-approval to perform for an audit client any permissible non-audit service related to internal control over financial reporting, a registered public accounting firm shall –

(a) describe, in writing, to the audit committee of the issuer the scope of the service;

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Professional Standards

- (b) discuss with the audit committee of the issuer the potential effects of the service on the independence of the firm; and

Note: Independence requirements provide that an auditor is not independent of his or her audit client if the auditor is not, or a reasonable investor with knowledge of all relevant facts and circumstances would conclude that the auditor is not, capable of exercising objective and impartial judgment on all issues encompassed within the accountant's engagement. Several principles guide the application of this general standard, including whether the auditor assumes a management role or audits his or her own work. Therefore, an auditor would not be independent if, for example, management had delegated its responsibility for internal control over financial reporting to the auditor or if the auditor had designed or implemented the audit client's internal control over financial reporting.

- (c) document the substance of its discussion with the audit committee of the issuer.

[Effective pursuant to SEC Release No. 34-56152, File No. PCAOB-2007-02 (July 27, 2007)]

Rule 3526. Communication with Audit Committees Concerning Independence

A registered public accounting firm must –

- (a) prior to accepting an initial engagement pursuant to the standards of the PCAOB –

- (1) describe, in writing, to the audit committee of the issuer, all relationships between the registered public accounting firm or any affiliates of the firm and the potential audit client or persons in financial reporting oversight roles at the potential audit client that, as of the date of the communication, may reasonably be thought to bear on independence;

- (2) discuss with the audit committee of the issuer the potential effects of the relationships described in subsection (a)(1) on the independence of the registered public accounting firm, should it be appointed the issuer's auditor; and

- (3) document the substance of its discussion with the audit committee of the issuer.

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Professional Standards**

(b) at least annually with respect to each of its issuer audit clients –

(1) describe, in writing, to the audit committee of the issuer, all relationships between the registered public accounting firm or any affiliates of the firm and the audit client or persons in financial reporting oversight roles at the audit client that, as of the date of the communication, may reasonably be thought to bear on independence;

(2) discuss with the audit committee of the issuer the potential effects of the relationships described in subsection (b)(1) on the independence of the registered public accounting firm;

(3) affirm to the audit committee of the issuer, in writing, that, as of the date of the communication, the registered public accounting firm is independent in compliance with Rule 3520; and

(4) document the substance of its discussion with the audit committee of the issuer.

[Effective pursuant to SEC Release No. 34-58415, File No. PCAOB-2008-03 (August 22, 2008)]

Rule 3600T. Interim Independence Standards.

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with independence standards –

(a) as described in the AICPA's Code of Professional Conduct Rule 101, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 101 and 191 (AICPA 2002)), to the extent not superseded or amended by the Board; and

(b) Standards Nos. 1, 2, and 3, and Interpretations 99-1, 00-1, and 00-2, of the Independence Standards Board, to the extent not superseded or amended by the Board.

Note: The Board's Interim Independence Standards do not supersede the Commission's auditor independence rules. See Rule 2-01 of Reg. S-X, 17 C.F.R. 240.2-01. Therefore, to the extent that a provision of the Commission's rule is more restrictive – or less restrictive – than the Board's Interim Independence Standards, a registered public accounting firm must comply with the more restrictive rule.

Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Independence Standards apply to public accounting

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Professional Standards

firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.

[Effective pursuant to SEC Release No. 34-49624, File No. PCAOB-2003-11 (April 28, 2004) and SEC Release Nos 33-8233 & 34-47746 (April 25, 2003)]

Part 7 – Establishment of Professional Standards

Rule 3700. Advisory Groups.

(a) Formation.

To assist it in carrying out its responsibility to establish auditing and related professional practice standards, the Board will convene one or more advisory groups, in accordance with Section 103(a)(4) of the Act.

(b) Composition.

Advisory groups, in combination or as sub-groups designated by the Board within one advisory group, will contain individuals with expertise in one or more of the following areas –

- (1) accounting;
- (2) auditing;
- (3) corporate finance;
- (4) corporate governance;
- (5) investing in public companies; and
- (6) other areas that the Board deems to be relevant to one or more auditing or related professional practice standards.

(c) Selection of Members of Advisory Groups.

Members of advisory groups will be selected by the Board, in its sole discretion, based upon nominations, including self-nominations, received from any person or organization.

Note: The Board will announce, from time to time, periods during which it will receive nominations to an advisory group. During those periods, nominations

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Professional Standards**

may be submitted by any person or organization, including, but not limited to, any investor, any accounting firm, any issuer, and any institution of higher learning.

(d) Personal Membership.

Membership in an advisory group will be personal to the individuals selected to serve on the advisory group. A member's functions and responsibilities, including attendance at meetings, may not be delegated to others.

(e) Ethical Duties of Advisory Group Members.

Members of an advisory group shall comply with EC3, EC8(a), EC9, and, with respect to any private publication or public statement about the Board or any advisory group or any of the activities of the Board or any advisory group, EC10 of the Board's Ethics Code.

(f) Ad Hoc Task Forces.

The Board may, in its discretion, establish ad hoc task forces. The membership of such task forces may include, but is not limited to, advisory group members. To the extent not otherwise required, members of ad hoc task forces shall comply with paragraph (e) of this Rule.

[Effective pursuant to SEC Release No. 34-48730, File No. PCAOB-2003-05 (October 31, 2003)]

SECTION 4. INSPECTIONS

Rule 4000. General

Every registered public accounting firm shall be subject to all such regular and special inspections as the Board may from time-to-time conduct in order to assess the degree of compliance of each registered public accounting firm and associated persons of that firm with the Act, the Board's rules, the rules of the Commission, and professional standards, in connection with its performance of audits, issuance of audit reports, and related matters involving issuers. Inspection steps and procedures shall be performed by the staff of the Division of Registration and Inspections, and by such other persons as the Board may authorize to participate in particular inspections or categories of inspections.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Rule 4001. Regular Inspections

In performing a regular inspection, the staff of the Division of Registration and Inspections and any other person authorized by the Board to participate in the inspection shall take such steps, and perform such procedures, as the Board determines are necessary or appropriate. Such steps and procedures must include, but need not be limited to, those set forth in Section 104(d)(1) and (2) of the Act and such other tests of the audit, supervisory, and quality control procedures of the firm as the Director of the Division of Registration and Inspections or the Board determines.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Rule 4002. Special Inspections

In performing a special inspection, the staff of the Division of Registration and Inspections and any other person authorized by the Board to participate in the inspection shall take such steps, and perform such procedures, as are necessary or appropriate concerning the issue or issues specified by the Board in connection with its authorization of the special inspection.

Note: Under Section 104(b)(2) of the Act, the Board may authorize a special inspection on its own initiative or at the request of the Commission.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Rule 4003. Frequency of Inspections

(a) During each calendar year, beginning no later than the calendar year following the calendar year in which its application for registration with the Board is

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Inspections

approved, a registered public accounting firm that, during the prior calendar year, issued audit reports with respect to more than 100 issuers shall be subject to a regular inspection.

(b) At least once in every three calendar years, beginning with the three-year period following the calendar year in which its application for registration with the Board is approved, a registered public accounting firm that, during any of the three prior calendar years, issued an audit report with respect to at least one, but no more than 100, issuers, or that played a substantial role in the preparation or furnishing of an audit report with respect to at least one issuer, shall be subject to a regular inspection.

(c) With respect to a registered public accounting firm that has filed a completed Form 1-WD under Rule 2107, the Board shall have the discretion to forego any regular inspection that would otherwise commence during the period beginning on the fifth day following the filing of the completed Form 1-WD and continuing until the firm's registration is deemed withdrawn or the firm withdraws the Form 1-WD.

(d) Notwithstanding paragraph (b) of this Rule, with respect to any registered public accounting firm that became registered in 2003 or 2004 –

(1) this Rule does not require the first inspection of the firm sooner than the fourth calendar year following the first calendar year in which the firm, while registered, issued an audit report or played a substantial role in the preparation or furnishing of an audit report; and

(2) this Rule does not require the second inspection of the firm sooner than the fifth calendar year following the first calendar year in which the firm, while registered, issued an audit report or played a substantial role in the preparation or furnishing of an audit report.

[Effective pursuant to SEC Release No. 34-56738, File No. PCAOB-2006-03 (November 2, 2007) and SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Rule 4004. Procedure Regarding Possible Violations

If the Board determines that information obtained by the Board's staff during any inspection indicates that the registered public accounting firm subject to such inspection, any associated person thereof, or any other person, may have engaged, or may be engaged, in any act, practice, or omission to act that is or may be in violation of the Act, the rules of the Board, any statute or rule administered by the Commission, the firm's own quality control policies, or any professional standard, the Board shall, if it determines appropriate –

(a) report information concerning such act, practice, or omission to –

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Inspections

- (1) the Commission; and
- (2) each appropriate state regulatory authority; and

(b) commence an investigation of such act, practice, or omission in accordance with Section 105(b) of the Act and the Board's rules thereunder or a disciplinary proceeding in accordance with Section 105(c) of the Act and the Board's rules thereunder.

Note: The Board may, as appropriate, make referrals or report information to regulatory and law enforcement agencies other than those specifically described in Rule 4004.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Rule 4005. Record Retention and Availability

[Reserved]

Rule 4006. Duty to Cooperate With Inspectors

Every registered public accounting firm, and every associated person of a registered public accounting firm, shall cooperate with the Board in the performance of any Board inspection. Cooperation shall include, but is not limited to, cooperating and complying with any request, made in furtherance of the Board's authority and responsibilities under the Act, to –

- (a) provide access to, and the ability to copy, any record in the possession, custody, or control of such firm or person, and
- (b) provide information by oral interviews, written responses, or otherwise.

[Effective pursuant to SEC Release No. 34-56738, File No. PCAOB-2006-03 (November 2, 2007) and SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Rule 4007. Procedures Concerning Draft Inspection Reports

(a) The Director of the Division of Registration and Inspections shall make a draft inspection report available for review by the firm that is the subject of the report. The firm may, within the 30 days after the draft inspection report is first made available for the firm's review, or such longer period as the Board may order, submit to the Board a written response to the draft report.

(b) (1) In submitting a response pursuant to paragraph (a), the firm may indicate any portions of the response for which the firm requests confidential treatment

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Inspections

under Section 104(f) of the Act, and may supply any supporting authority or other justification for according confidential treatment to the information.

(2) The Board shall attach to, and make part of the inspection report, any response submitted pursuant to paragraph (a), but shall redact from the response attached to the inspection report any information for which the firm requested confidential treatment and which it is reasonable to characterize as confidential.

(c) After receiving and reviewing any response letter pursuant to paragraph (a) of this rule, the Board may take such action with respect to the draft inspection report as it considers appropriate, including adopting the draft report as the final report, revising the draft report, or continuing or supplementing the inspection before issuing a final report. In the event that, prior to issuing a final report, the Board directs the staff to continue or supplement the inspection or revise the draft report, the Board may, in its discretion, afford the firm the opportunity to review any revised draft inspection report.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Rule 4008. Procedures Concerning Final Inspection Reports

Promptly following the Board's issuance of a final inspection report, the Board shall –

(a) make the final report available for review by the firm that is the subject of the report;

(b) transmit to the Commission the final report, any additional letter or comments by the Board or the Board's inspectors that the Board deems appropriate, and any response submitted by the firm to a draft inspection report; and

(c) transmit to each appropriate state regulatory authority, in appropriate detail, the final report, any additional letter or comments by the Board or the Board's inspectors that the Board deems appropriate, and any response submitted by the firm to a draft inspection report.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Rule 4009. Firm Response to Quality Control Defects

(a) With respect to any final inspection report that contains criticisms of, or potential defects in, the quality control systems of the firm under inspection, the firm may submit evidence or otherwise demonstrate to the Director of the Division of Registration and Inspections that it has improved such systems, and remedied such defects no later than 12 months after the issuance of the Board's final inspection report. After reviewing such evidence, the Director shall advise the firm whether he or she will

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Inspections

recommend to the Board that the Board determine that the firm has satisfactorily addressed the criticisms or defects in the quality control system of the firm identified in the final inspection report and, if not, why not.

(b) If the Board determines that the firm has satisfactorily addressed the criticisms or defects in the quality control system, the Board shall provide notice of that determination to the Commission and to any appropriate state regulatory authority to which the Board had supplied any portion of the final inspection report.

(c) The Board shall notify the firm of its final determination concerning whether the firm has addressed the criticisms or defects in the quality control system of the firm identified in the final inspection report to the satisfaction of the Board.

(d) The portions of the Board's inspection report that deal with criticisms of or potential defects in quality control systems that the firm has not addressed to the satisfaction of the Board shall be made public by the Board –

(1) upon the expiration of the 12-month period described in paragraph (a) of this rule if the firm fails to make any submission pursuant to paragraph (a); or

(2) upon the expiration of the period in which the firm may seek Commission review of any board determination made under paragraph (c) of this rule, if the firm does not seek Commission review of the Board determination; or

(3) unless otherwise directed by Commission order or rule, 30 days after the firm formally requests Commission review pursuant to Section 104(h)(1)(B) of the Act.

[Effective pursuant to SEC Release No. 34-56738, File No. PCAOB-2006-03 (November 2, 2007) and SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Rule 4010. Board Public Reports

Notwithstanding any provision of Rules 4007, 4008, and 4009, the Board may, at any time, publish such summaries, compilations, or other general reports concerning the procedures, findings, and results of its various inspections as the Board deems appropriate. Such reports may include discussion of criticisms of, or potential defects in, quality control systems of any firm or firms that were the subject of a Board inspection, provided that no such published report shall identify the firm or firms to which such criticisms relate, or at which such defects were found, unless that information has previously been made public in accordance with Rule 4009, by the firm or firms involved, or by other lawful means.

[Effective pursuant to SEC Release No. 34-49787, File No. PCAOB-2003-08 (June 1, 2004)]

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Inspections

Rule 4011. Statement by Foreign Registered Public Accounting Firms

A foreign registered public accounting firm that seeks to have the Board rely, to the extent deemed appropriate by the Board, on a non-U.S. inspection when the Board conducts an inspection of such firm pursuant to Rule 4000 shall submit a written statement signed by an authorized partner or officer of the firm to the Board certifying that the firm seeks such reliance for all Board inspections.

[Effective pursuant to SEC Release No. 34-50291, File No. PCAOB-2004-04 (August 30, 2004)]

Rule 4012. Inspections of Foreign Registered Public Accounting Firms

(a) If a foreign registered public accounting firm has submitted a statement pursuant to Rule 4011, the Board will, at an appropriate time before each inspection of such firm, determine the degree, if any, to which the Board may rely on the non-U.S. inspection. To the extent consistent with the Board's responsibilities under the Act, the Board will conduct its inspection under Rule 4000 in a manner that relies to that degree on the non-U.S. inspection. In making that determination, the Board will evaluate –

(1) information concerning the level of the non-U.S. system's independence and rigor, including the adequacy and integrity of the system, the independence of the system's operation from the auditing profession, the nature of the system's source of funding, the transparency of the system, and the system's historical performance; and

(2) discussions with the appropriate entity or entities within the system concerning an inspection work program.

(b) The Board's evaluation made pursuant to paragraph (a) may include, but not be limited to, consideration of –

(1) the adequacy and integrity of the system, including –

(i) whether the system has the authority to inspect audit and review engagements, evaluate the sufficiency of the quality control system, and perform such other testing as deemed necessary of foreign public accounting firms; and whether the system can exercise such authority without the approval of, or consultation with, any person affiliated or otherwise connected with a public accounting firm or an association of such persons or firms;

(ii) whether the system has the authority to conduct investigations and disciplinary proceedings of foreign public accounting firms, any persons of such firms, or both, that may have violated the laws and standards relating to the issuance of audit reports, and whether the system can exercise such authority

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Inspections

without the approval of, or consultation with, any person affiliated or otherwise connected with a public accounting firm or an association of such persons or firms;

(iii) whether the system has the authority to impose appropriate sanctions for violations of the non-U.S. jurisdiction's laws and standards relating to the issuance of audit reports, and whether the system can exercise such authority without the approval of, or consultation with, any person affiliated or otherwise connected with a public accounting firm or an association of such persons or firms; and

(iv) whether the persons within the system have adequate qualifications and expertise;

(2) the independence of the system from the auditing profession, including –

(i) whether the system has the authority to establish and enforce ethics rules and standards of conduct for the individual or group of individuals who govern the system and its staff and has prohibited conflicts of interest, and whether the system can exercise such authority without the approval of, or consultation with, any person affiliated or otherwise connected with a public accounting firm or an association of such persons or firms;

(ii) whether the person or persons governing the system –

(A) have been appointed, or otherwise selected, by the government of the non-U.S. jurisdiction, without the approval of, or consultation with, any person affiliated or otherwise connected with a public accounting firm or an association of such persons or firms; and

(B) may be removed only by the government of the non-U.S. jurisdiction and may not be removed by any person affiliated or otherwise connected with a public accounting firm or an association of such persons or firms;

(iii) whether a majority of the individuals with whom the system's decision-making authority resides do not hold licenses or certifications authorizing them to engage in the business of auditing or accounting and did not hold such licenses or certificates for at least the last five years immediately before assuming their position within the system;

(iv) whether a majority of the individuals with whom the system's decision-making authority resides, including the individual who functions as the entity's chief executive or equivalent thereof, are not practicing public accountants; and

(v) whether each entity within the system has the authority to conduct its day-to-day operations without the approval of any person affiliated or

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Inspections

otherwise connected with a public accounting firm or an association of such persons or firms;

(3) the source of funding for the system, including whether the system has an appropriate source of funding that is not subject to change, approval or influence by any person affiliated or otherwise connected with a public accounting firm or an association of such persons or firms;

(4) the transparency of the system, including whether the system's rulemaking procedures and periodic reporting to the public are openly visible and accessible; and

(5) the system's historical performance, including whether there is a record of disciplinary proceedings and appropriate sanctions, but only for those systems that have existed for a reasonable period of time.

[Effective pursuant to SEC Release No. 34-50291, File No. PCAOB-2004-04 (August 30, 2004)]

SECTION 5. INVESTIGATIONS AND ADJUDICATIONS

Rule 5000. General

A registered public accounting firm, and any person associated with such a firm, shall comply with all Board orders to which the firm or person is subject.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Part 1 – Inquiries and Investigations

Rule 5100. Informal Inquiries

(a) Commencement of an Informal Inquiry

The Director of Enforcement and Investigations may undertake an informal inquiry where it appears that, or to determine whether, an act or practice, or omission to act, by a registered public accounting firm, any associated person of that firm, or both, may violate –

- (1) any provision of the Act;
- (2) the Rules of the Board;
- (3) the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act; or
- (4) professional standards.

(b) Informal Inquiry Activities

In an informal inquiry, the Director of Enforcement and Investigations may request documents, information or testimony from, or an interview with, any person.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5101. Commencement and Closure of Investigations

(a) Commencement of Investigations

(1) Order of Formal Investigation

Upon the recommendation of the Director of Enforcement and Investigations or the Director of Registration and Inspections, or upon the Board's own initiative, or

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Investigations and Adjudications

otherwise, the Board may issue an order of formal investigation when it appears that an act or practice, or omission to act, by a registered public accounting firm or any person associated with a registered public accounting firm may violate any provision of the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards.

(2) Designation of Staff

In an order of formal investigation, the Board may designate members, or groups of members, of the Board's staff to issue accounting board demands to, and otherwise require or request cooperation of, any person pursuant to Section 105(b)(2) of the Act, and the Board's Rules thereunder, to the extent the information sought is relevant to the matters described in the Board's order of investigation.

(b) Closure of Investigations

Upon the recommendation of the Director of Enforcement and Investigations, or on its own initiative, the Board may issue an order terminating or suspending, for a specified period of time, a formal investigation.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5102. Testimony of Registered Public Accounting Firms and Associated Persons in Investigations

(a) General

The Board, and the staff of the Board designated in an order of formal investigation, may require the testimony of any registered public accounting firm or any person associated with a registered public accounting firm, with respect to any matter that the Board considers relevant or material to an investigation.

(b) Accounting Board Demand for Testimony

The Board, and the staff of the Board designated in an order of formal investigation, shall require testimony by serving an accounting board demand that –

(1) gives reasonable notice of the time and place for the taking of testimony;

(2) states the method or methods by which the testimony shall be recorded, which may be by sound or sound-and-visual, but shall include by stenographic means; and

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

(3) if the person to be examined is a registered public accounting firm, a description with reasonable particularity of the matters on which examination is requested.

(c) Conduct of Examination

(1) Oath or Affirmation

Before testifying, every witness shall be required to declare that the witness will testify truthfully, by oath or affirmation administered in a form calculated to awaken the witness's conscience and impress the witness's mind with the duty to do so.

(2) General

Examinations shall be conducted before a reporter designated by the Board's staff.

(3) Persons Permitted to be Present

Persons permitted to be present at an examination pursuant to this Rule are limited to –

(i) the person being examined and his or her counsel, subject to Rule 5109(b);

(ii) any Board member or member of the staff of the Board;

(iii) the reporter; and

(iv) such other persons as the Board, or the staff of the Board designated in the order of formal investigation, determine are appropriate to permit to be present; provided, however, that in no event shall a person other than the witness who has been or is reasonably likely to be examined in the investigation be present.

(4) Examinations of Registered Public Accounting Firms

A registered public accounting firm subject to an accounting board demand shall designate one or more individuals who consent to testify on its behalf, and may set forth, for each individual designated, the matters on which the individual will testify. The individuals so designated shall testify as to matters known or reasonably available to the registered public accounting firm.

(d) Transcript

A witness shall have 15 days, or such longer period as the Director of Enforcement and Investigations may allow, after being notified by the reporter that the transcript, or, where applicable, video or other recording, is available in which to review the transcript or other recording and, if there are changes in form or substance, to sign a statement reciting such changes and the reasons given by the witness for making them. The reporter shall make a certificate in writing to accompany the transcript, which shall indicate –

(1) that the witness was duly sworn by the officer and that the transcript is a true record of the testimony given by the witness; and

(2) whether the witness requested to review the transcript and, if so, that the reporter has appended any changes made by the witness during the period allowed.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5103. Demands for Production of Audit Workpapers and Other Documents from Registered Public Accounting Firms and Associated Persons

(a) General

The Board, and the staff of the Board designated in an order of formal investigation, may issue an accounting board demand for the production of audit work papers or any other document or information in the possession of a registered public accounting firm or any associated person thereof, wherever domiciled, that the Board or its staff considers relevant or material to the investigation.

(b) Time and Manner of Production

An accounting board demand shall set forth a reasonable time and place for production. Unless an accounting board demand expressly requires the production of original documents, copies of the requested documents may be produced. If the originals are not produced, they shall be maintained in a reasonably accessible manner, shall be readily available for inspection by the staff, and shall not be destroyed without the staff's consent. Unless an accounting board demand expressly requests or permits printed copies of electronic documents, documents that exist in electronic form shall be produced in that form.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5104. Examination of Books and Records in Aid of Investigations

Upon demand and without regard to the Board's Rules under Section 104 of the Act, the Board, and, with the approval of the Director of Enforcement and Investigations, the staff of the Board designated in an order of formal investigation, may examine the books and records of any registered public accounting firm or associated person to verify the accuracy of any documents or information supplied in the course of an informal inquiry or formal investigation.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5105. Requests for Testimony or Production of Documents from Persons Not Associated With Registered Public Accounting Firms

(a) Testimony

The Board, and the staff of the Board designated in an order of formal investigation, may issue an accounting board request for the testimony of any person, including any client of a registered public accounting firm, that the Board considers relevant or material to an investigation.

(1) Requests for Testimony

An accounting board request for testimony pursuant to subparagraph (a) of this Rule shall –

(i) give appropriate notice, subject to the needs of the investigation of the time and place for the taking of testimony;

(ii) state the method or methods by which the testimony shall be recorded, which may be by sound or sound-and-visual, but shall include by stenographic means; and

(iii) if the person to be examined is an issuer, an association, a governmental agency, or other organized entity, provide a description with reasonable particularity of the matters on which examination is requested.

(2) Conduct of Examination and Transcript

An examination requested pursuant to this Rule shall be conducted consistent with Rules 5102(c) and a transcript shall be prepared consistent with Rule 5102(d). If the person to be examined is an issuer, or a partnership or association or governmental agency, the person to be examined shall designate one or more individuals who consent to testify on its behalf and may set forth, for each individual designated, the matters on which the individual will testify. The individuals so designated shall testify as to matters known or reasonably available to the organization.

(b) Documents

The Board, and the staff of the Board designated in an order of formal investigation, may issue an accounting board request to any person, including any issuer, for the production of any document that is relevant or material to an investigation, with appropriate notice, subject to the needs of the investigation. A request issued pursuant to this Rule shall set forth a reasonable time and place for production, subject to the needs of the investigation.

Note: Failure to comply with an accounting board request pursuant to Rule 5105 may result in a Board request for the issuance of a Commission subpoena, pursuant to Rule 5111.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5106. Assertion of Claim of Privilege

(a) Required Information Supporting Assertion

When a claim of privilege is asserted in objecting to any accounting board demand for information, including but not limited to testimony or an examination under Rule 5104, and an answer or document is not provided on the basis of such assertion,

(1) the person asserting the privilege, or his or her attorney, shall identify the nature of the privilege (including attorney work product) that is being claimed and indicate the relevant jurisdiction's privilege rule being invoked; and

(2) the following information shall be provided in the objection, unless divulgence of such information would cause disclosure of the allegedly privileged information –

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

(i) for documents: (A) the type of document, (e.g., letter or memorandum); (B) the general subject matter of the document; (C) the date of the document; and (D) such other information as is sufficient to identify the document for a Commission subpoena duces tecum, including, where appropriate, the author of the document, the addressees of the document, and any other recipients shown in the document, and, where not apparent, the relationship of the author, addressees, and recipients to each other; and

(ii) for oral communications: (A) the name of the person making the communication and the names of persons present while the communication was made and, where not apparent, the relationship of the persons present to the person making the communication; (B) the date and place of communication; and (C) the general subject matter of the communication.

(b) Claims During Testimony

Where a claim of privilege is asserted during testimony, and information is not provided on the basis of such assertion, the information set forth in paragraph (a) shall be furnished –

(1) at the deposition, to the extent it is readily available from the witness or otherwise; or

(2) to the extent the information is not readily available at the deposition, in writing within five business days after the deposition session at which the privilege is asserted, unless otherwise agreed by the staff of the Board.

(c) Claims Other than During Testimony

Where a claim of privilege is asserted in response to an accounting board demand for information other than during testimony, the information set forth in paragraph (a) shall be furnished in writing at the time of the response to such accounting board demand, unless otherwise agreed by the Board or its staff.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5107. Uniform Definitions in Demands and Requests for Information

(a) General

The full text of the definitions and rules of construction set forth in paragraphs (c) and (d) is deemed incorporated by reference into all accounting board demands. This Rule shall not preclude (1) the definition of other terms specific to the particular inquiry or investigation, (2) the use of abbreviations, or (3) a more narrow definition of a term defined in paragraph (c).

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

(b) Scope

This Rule is not intended to broaden or narrow the scope of the Board's authority to request information permitted by the Act.

(c) Definitions

The following definitions apply to all accounting board demands –

(1) Communication

The term "communication" means the transmittal of information (in the form of facts, ideas, inquiries or otherwise).

(2) Document

The term "document" is defined to be synonymous in meaning and equal in scope to the usage of this term in Federal Rule of Civil Procedure 34(a), including, without limitation, electronic or computerized data compilations. A draft or non-identical copy is a separate document within the meaning of this term. In no event shall the term "document" be construed to be limited to audit work papers.

(3) Identify (with respect to person)

When referring to a person, to "identify" means to give, to the extent known, the person's full name, present or last known address, and when referring to a natural person, additionally, the present or last known place of employment. Once a person has been identified in accordance with this subparagraph, only the name of that person need be listed in response to subsequent requests for the identification of that person.

(4) Identify (with respect to documents)

When referring to documents, to "identify" means to give, to the extent known, the (i) type of document, (ii) general subject matter, (iii) date of the document; and (iv) author(s), addressee(s) and recipients(s).

(5) Person

The term "person" is defined as any natural person or any business, legal or governmental entity or association.

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

(6) Concerning

The term "concerning" means relating to, referring to, describing, evidencing or constituting.

(d) Rules of Construction

The following rules of construction apply to all discovery requests –

(1) All/Each

The terms "all" and "each" shall be construed as all and each.

(2) And/Or

The connectives "and" and "or" shall be construed either conjunctively or disjunctively as necessary to bring within the scope of the request for information all responses that might otherwise be construed outside of its scope.

(3) Number

The use of the singular form of any word includes the plural and vice versa.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5108. Confidentiality of Investigatory Records

(a) Informal inquiries and formal investigations, and any documents, testimony or other information prepared or received by or specifically for the Board or the staff of the Board in connection with such inquiries and investigations, shall be confidential in the hands of the Board, unless and until presented in connection with a public proceeding or released in accordance with Section 105(c) of the Act, and the Board's Rules thereunder; provided, however, that the Board may make such information available –

(1) to the Commission; and

(2) in the discretion of the Board, when determined by the Board to be necessary to accomplish the purposes of the Act or to protect investors, to the following –

(a) the Attorney General of the United States;

(b) the appropriate Federal functional regulator (as defined in section 509 of the Gramm-Leach-Bliley Act), other than the Commission, with respect to an audit report for an institution subject to the jurisdiction of such regulator;

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

(c) State attorneys general in connection with any criminal investigation; and

(d) any appropriate State regulatory authority.

(b) Nothing in paragraph (a) of this rule shall prohibit the Board or the staff of the Board from disclosing any documents, testimony, or other information to any other person as is reasonably necessary to carry out the Board's responsibility, under Section 105 of the Act, to conduct investigations according to fair procedures.

Note: Under Section 105(b)(5) of the Act, the documents described in Rule 5108 "shall be confidential and privileged as an evidentiary matter (and shall not be subject to civil discovery or other legal process) in any proceeding in any federal or State court or administrative agency, and shall be exempt from disclosure, in the hands of an agency or establishment of the federal government, under the Freedom of Information Act (5 U.S.C. 552a), or otherwise, unless and until presented in connection with a public proceeding or released in accordance with subsection (c)" of Section 105 of the Act.

Note: The Director of Enforcement and Investigations may engage in and may authorize members of the Board's staff to engage in discussions with persons identified in Rule 5108, or their staff, concerning information obtained in an informal inquiry or a formal investigation.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5109. Rights of Witnesses in Inquiries and Investigations

(a) Review of Order of Formal Investigation

Any person who is compelled to testify or produce documents pursuant to a subpoena issued pursuant to Rule 5111, or who testifies or produces documents pursuant to an accounting board demand or request, shall, upon request, be shown the Board's order of formal investigation. In the discretion of the Director of Enforcement and Investigations, a copy of the order of formal investigation may also be furnished to such a person for his or her retention, subject to such limits on dissemination as the Director may require.

(b) Right to Counsel

Any person compelled to testify pursuant to a subpoena issued pursuant to Rule 5111, or who appears pursuant to an accounting board demand or request, may be accompanied, represented and advised by counsel, subject to Rule 5102(c)(3), provided, however, that the counsel provide the Board's staff with a notice of

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Investigations and Adjudications

appearance that states, or state on the record at the commencement of testimony, that the counsel represents the witness.

(c) Inspection and Copying

Upon written request to the Director of Enforcement and Investigations and proper identification, a witness may inspect the official transcript of the witness's own testimony. Upon written request and payment of the appropriate fees to cover the cost of production or reproduction, a person who has submitted documentary evidence or testimony in an informal inquiry or formal investigation may procure a copy of such evidence or the transcript of such testimony, except that prior to such evidence or testimony being presented in connection with a proceeding or released in accordance with Section 105(c) of the Act, and the Board's Rules thereunder, the Director of Enforcement and Investigations may for good cause deny such request.

(d) Statements of Position

Registered public accounting firms, and persons associated with firms, who become involved in an informal inquiry or a formal investigation may, on their own initiatives, submit a written statement to the Board setting forth their interests and positions in regard to the subject matter of the investigation. Upon request, the Board's staff, in its discretion, may advise such persons of the general nature of the investigation, including the indicated violations as they pertain to those persons and the amount of time that may be available for preparing and submitting a statement prior to the presentation of a staff recommendation to the Board for the commencement of a disciplinary proceeding. In the event a recommendation for the commencement of a disciplinary proceeding is presented by the staff, any submissions by interested persons will be forwarded to the Board in conjunction with the staff recommendation.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5110. Noncooperation with an Investigation

(a) Grounds for Instituting Proceedings

The Board may institute a disciplinary proceeding pursuant to Rule 5200(a)(3) for noncooperation with an investigation if it appears to the Board, on the recommendation of the Director of Enforcement and Investigations or otherwise, that a registered public accounting firm, or a person associated with a such a firm –

- (1) may have failed to comply with an accounting board demand;
- (2) may have knowingly made any false material declaration or made or used any other information, including any book, paper, document,

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

record, recording, or other material, knowing the same to contain any false material declaration;

(3) may have abused the Board's processes for the purpose of obstructing an investigation; or

(4) may otherwise have failed to cooperate in connection with an investigation.

(b) Special and Expedited Procedures

Disciplinary proceedings instituted pursuant to Rule 5200(a)(3) for noncooperation with an investigation shall be subject to special and expedited procedures as described in Rules 5201(b)(3), 5300(b), 5302(d), 5421(b), 5422(a)(2), 5422(d), 5445(b), and 5460(a)(2)(ii).

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5111. Requests for Issuance of Commission Subpoenas in Aid of an Investigation

(a) General

The Board may seek issuance by the Commission, in a manner established by the Commission, of a subpoena to require the testimony of, and the production of, any document in the possession of, any person, including any client of a registered public accounting firm, that the Board considers relevant or material to an investigation.

(b) Application for a Subpoena

An application for a subpoena submitted to the Commission shall include –

- (1) a completed form of subpoena; and
- (2) such other information as the Commission may require.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5112. Coordination and Referral of Investigations

(a) Commission Notification of Order of Formal Investigation

As soon as practicable after entry of an order of formal investigation pursuant to Rule 5101 that involves a potential violation of the securities laws, the Secretary of the

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Investigations and Adjudications

Board shall send a copy of the order to the Commission, or any staff of the Commission designated to receive orders of formal investigation by the Board, and Board staff shall thereafter coordinate their work with the work of the Commission's Division of Enforcement, as necessary to protect any ongoing Commission investigation.

(b) Board Referrals of Investigations

The Board may refer any investigation to the Commission and, in the case of an investigation that concerns an audit report for an institution that is subject to the jurisdiction of any other Federal functional regulator (as defined in section 509 of the Gramm-Leach-Bliley Act), to such regulator.

(c) Commission-directed Referrals of Investigations

At the direction of the Commission, the Board may refer any investigation to –

- (1) the Attorney General of the United States;
- (2) the attorney general of one or more States; and
- (3) an appropriate State regulatory authority.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5113. Reliance on the Investigations of Non-U.S. Authorities

Upon the recommendation of the Director of Enforcement and Investigations or upon the Board's own motion, the Board may, in appropriate circumstances, rely upon the investigation or a sanction, if any, of a foreign registered public accounting firm by a non-U.S. authority.

[Effective pursuant to SEC Release No. 34-50291, File No. PCAOB-2004-04 (August 30, 2004)]

Part 2 – Disciplinary Proceedings

Rule 5200. Commencement of Disciplinary Proceedings

(a) Grounds for Commencement of Disciplinary Proceedings

The Board may commence a disciplinary proceeding when –

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Investigations and Adjudications

(1) it appears to the Board, as the result of an investigation or otherwise, that a hearing is warranted to determine whether a registered public accounting firm, or an associated person of such a firm, has engaged in any act or practice, or omitted to act, in violation of the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards;

(2) it appears to the Board, as the result of an investigation or otherwise, that a hearing is warranted to determine whether a registered public accounting firm, or the supervisory personnel of such a firm, has failed reasonably to supervise an associated person, either as required by the Rules of the Board relating to auditing or quality control standards, or otherwise, with a view to preventing violations of this Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission under the Act, or professional standards, and such associated person commits a violation of the Act, or any of such rules, laws, or standards;

(3) it appears to the Board that a hearing is warranted pursuant to Rule 5110.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

(b) Appointment of a Hearing Officer

As soon as practicable after the Board has issued an order instituting proceedings, or after a registration applicant has requested a hearing pursuant to Rule 5500(b), the Secretary shall assign a hearing officer to preside over the proceeding and shall serve the parties with notice of the hearing officer's assignment. Subject to Rules 5402 and 5403, the hearing officer shall have the authority to do all things necessary and appropriate to discharge his or her duties. The powers of the hearing officer include, but are not limited to, the following –

- (1) obtaining a court reporter to administer oaths and affirmations;
- (2) issuing accounting board demands pursuant to Rule 5424;
- (3) receiving relevant evidence and ruling upon the admission of evidence and offers of proof;
- (4) regulating the course of a proceeding and the conduct of the parties and their counsel;

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

(5) holding prehearing and other conferences and requiring the attendance at any such conference of at least one representative of each party who has authority to negotiate concerning the resolution of issues in controversy;

(6) recusing himself or herself upon motion made by a party or upon his or her own motion;

(7) ordering, in his or her discretion, in a proceeding involving more than one respondent, that the interested division indicate, on the record, at least one day prior to the presentation of any evidence, each respondent against whom that evidence will be offered;

(8) subject to any limitations set forth elsewhere in these Rules, considering and ruling upon all procedural and other motions;

(9) preparing an initial decision as provided in Rule 5204;

(10) upon notice to all parties, reopening any hearing prior to the filing of an initial decision therein, or, if no initial decision is to be filed, prior to the time fixed for the filing of final briefs with the Board;

(11) informing the parties as to the availability of one or more alternative means of dispute resolution, and encouraging the use of such methods; and

(12) scheduling hearing dates, except that a hearing officer may not, absent the approval of the Board, change a hearing date set by Board order.

(c) Separation of Functions

The staff of the Division of Enforcement and Investigations may not participate or advise in the decision, or in Board review of the decision, in any proceeding in which the Division of Enforcement and Investigations is the interested division, except as a witness or counsel in the proceeding. Any other employee or agent of the Board engaged in the performance of investigative or prosecutorial functions for the Board in a proceeding may not, in that proceeding or one that is factually related, participate or advise in the decision, or in Board review of the decision, except as a witness or counsel in the proceeding. A hearing officer may not be responsible to or subject to the supervision or direction of an employee or agent engaged in the performance of investigative or prosecuting functions for the Board.

(d) Consolidation of Proceedings

By order of the Board or a hearing officer, proceedings involving a common question of law or fact may be consolidated for hearing of any or all the matters at issue

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

in such proceedings. The Board or the hearing officer may make such orders concerning the conduct of such proceedings as it deems appropriate to avoid unnecessary cost or delay. Consolidation shall not prejudice any rights under these Rules and shall not affect the right of any party to raise issues that could have been raised if consolidation had not occurred. For purposes of this Rule, no distinction is made between joinder and consolidation of proceedings.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5201. Notification of Commencement of Disciplinary Proceedings

(a) Notice

Whenever an order instituting proceedings is issued by the Board, the Secretary shall give each firm or person charged appropriate notice of the order within a time reasonable in light of the circumstances. If the order instituting proceedings sets a hearing date, each party shall be given notice of the hearing within a time reasonable, in light of the circumstances, in advance of the hearing.

Note: Paragraph (a) requires that appropriate notice of an order instituting proceedings be given. Where emergency or expedited action is sought, notice of a hearing may be given prior to formal service of the order instituting proceedings by any means calculated to give actual notice that a hearing will be held.

(b) Content of Order Instituting Proceedings

An order instituting proceedings issued pursuant to subparagraph (a) shall include a short and plain statement of the matters of fact and law to be considered and determined with respect to each person charged, including –

(1) in the case of a proceeding instituted pursuant to Rule 5200(a)(1) –

(i) the conduct alleged to have violated the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports or the obligations and liabilities of accountants with respect thereto, including the rules of the Commission under the Act and professional standards; and

(ii) the rule, statute or standard violated;

(2) in the case of a proceeding instituted pursuant to Rule 5200(a)(2) –

(i) the failure to supervise alleged to have violated the Rules of the Board or to have failed to prevent violations of the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

or the obligations and liabilities of accountants with respect thereto, including the rules of the Commission under the Act and applicable professional standards; and

(ii) the violative conduct of the supervised associated person and the rule, statute or standard violated; or

(3) in the case of a proceeding instituted pursuant to Rule 5200(a)(3) –

(i) the conduct alleged to constitute the failure to cooperate with an investigation; and

(ii) a hearing date.

(c) Notice of a Hearing on a Registration Application

In the case of a proceeding pursuant to Rule 5500, the notice of a hearing shall state proposed grounds for disapproving the registration application.

(d) Amendment to Order Instituting Proceedings

(1) By the Board

Upon motion by the interested division, the Board may, at any time, amend an order instituting proceedings, or a notice of a hearing, to include new matters of fact or law.

(2) By the Hearing Officer

Upon motion by the interested division, the hearing officer may, at any time prior to the filing of an initial decision or, if no proposed initial decision is to be filed, prior to the time fixed for the filing of final briefs with the Board, amend an order instituting proceedings to include new matters of fact or law that are within the scope of the original order instituting proceedings.

Note: Where amendments to an order instituting proceedings are intended to correct an error, to conform the order to the evidence or to take into account subsequent developments which should be considered in disposing of the proceeding, and the amendments are within the scope of the original order, either a hearing officer or the Board has authority to amend the order. Since, however, the Board has not delegated its authority to authorize orders instituting proceedings, hearing officers do not have authority to initiate new charges or to expand the scope of matters set down for hearing beyond the framework of the original order instituting proceedings.

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5202. Record of Disciplinary Proceedings

(a) Contents of the Record

(1) Record of a Disciplinary Proceeding

A hearing record shall consist of –

- (i) the order instituting proceedings, each notice of hearing and any amendments;
- (ii) each application, supplemental application, motion, submission or other paper, and any amendments, motions, objections, and exceptions to or regarding them;
- (iii) each stipulation, transcript of testimony and document or other information admitted into evidence;
- (iv) each written communication accepted by the hearing officer pursuant to Rule 5420;
- (v) with respect to a request to disqualify a hearing officer or to allow the hearing officer's withdrawal pursuant to Rule 5402, each affidavit or transcript of testimony taken and the decision made in connection with the request;
- (vi) all motions, briefs and other papers filed on interlocutory appeal;
- (vi) any proposed findings and conclusions;
- (viii) each written order or notice issued by the hearing officer or the Board; and
- (ix) any other document or item accepted into the record by the Board or the hearing officer.

(2) Record on Disapproval of Application for Registration

The record on a disapproval of an application with respect to which the applicant has elected to waive its opportunity for a hearing pursuant to Rule 5500 shall consist of –

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

application;

- (i) the application for registration, and any supplemented
- (ii) any additional information provided by the applicant;
- (iii) any other information obtained by the Board in connection with the application;
- (iv) the notice of a hearing and any written order issued by the Board; and
- (v) any other document or item accepted into the record by the Board.

(b) Documents Not Admitted

Any document offered in evidence but excluded, and any document marked for identification but not offered as an exhibit, shall not be considered a part of the record. The Secretary shall retain any documents offered in evidence but excluded until all opportunities for Commission and judicial review have been exhausted or waived.

(c) Substitution of Copies

A true copy of a document may be substituted for any document in the record or any document retained pursuant to paragraph (b) of this Rule.

(d) Preparation of Record and Certification of Record Index

Promptly after the close of a hearing, the hearing officer shall transmit to the Secretary an index of any motions, exhibits or any other documents submitted to, or accepted into evidence by, the hearing officer that have not been previously transmitted to the Secretary, and the Secretary shall prepare a record index. Prior to issuance of an initial decision, the Secretary shall transmit the record index to the hearing officer and serve a copy of the record index on each party. Any party may file proposed corrections to the record index with the hearing officer within 15 days of service of the record index. The hearing officer shall, by order, direct whether any corrections to the record index shall be made. The Secretary shall make such corrections, if any, and issue a revised record index. The initial decision shall include a certification that the record consists of the items set forth in the record index or revised record index issued by the Secretary.

(e) Final Transmittal of Record Items to the Secretary

After the close of a hearing, the hearing officer shall transmit to the Secretary originals of exhibits or any other documents submitted to, or accepted into evidence by,

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Investigations and Adjudications

the hearing officer, and any other portions of the record that have not already been transmitted to the Secretary. Prior to service of the initial decision by the Secretary, the Secretary shall inform the hearing officer if any portions of the record are not in the Secretary's custody.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5203. Public and Private Hearings

No hearing shall be public unless ordered by the Board. In any proceeding commenced pursuant to Rule 5200(a), the Board shall not order that a hearing be public except for good cause shown and with consent of the parties.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5204. Determinations in Disciplinary Proceedings

(a) Burden of Proof

In any disciplinary proceeding instituted pursuant to Rule 5200(a)(1), Rule 5200(a)(2), or Rule 5200(a)(3), the interested division shall bear the burden of proving an alleged violation or failure to supervise by a preponderance of the evidence.

(b) Initial Decision of a Hearing Officer

Unless the Board directs otherwise, a hearing officer shall prepare an initial decision in any proceeding in which the Board directs a hearing officer to preside at a hearing. An initial decision shall include findings and conclusions, including sanctions, if appropriate, and the reasons or basis therefor, as to all the material issues of fact, law or discretion presented on the record and such other information as the Board may require.

Note: Unless the Board has directed otherwise, the Board expects hearing officers in proceedings instituted pursuant to Rule 5200(a)(1) or Rule 5200(a)(2) to prepare initial decisions within 60 days after the deadline for filing post-hearing briefs or other submissions; the Board expects hearing officers in proceedings instituted pursuant to Rule 5200(a)(3) to prepare initial decisions within 30 days after deadline for filing post-hearing briefs; and the Board expects hearing officers in proceedings pursuant to Rule 5500 to prepare initial decisions within 45 days after the deadline for filing post-hearing briefs or other submissions.

(c) Filing, Service and Publication

The hearing officer shall file the initial decision with the Secretary. The Secretary shall promptly serve the initial decision upon the parties. In a public proceeding, the

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

Secretary shall as soon as practicable thereafter publish the initial decision, unless the Board otherwise directs.

(d) When Final

(1) An initial decision as to a party shall become the final decision of the Board as to that party upon issuance of a notice of finality by the Secretary.

(2) Subject to subparagraph (3) of this paragraph, the Secretary shall issue a notice of finality no later than 20 days after the lapsing of the time period for filing a petition for review of the initial decision.

(3) The Secretary shall not issue a notice of finality as to any party

- (i) who has filed a timely petition for review; or
- (ii) with respect to whom the Board has ordered review of the initial decision pursuant to Rule 5460(b).

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5205. Settlement of Disciplinary Proceedings Without a Determination After Hearing

(a) Availability

Any firm or person who is notified that a proceeding may or will be instituted against him or her, or any firm or person that is a party to a proceeding already instituted, may, at any time, propose in writing an offer of settlement.

(b) Procedure

An offer of settlement shall state that it is made pursuant to this Rule; shall recite or incorporate as a part of the offer the provisions of paragraphs (c)(2) and (3) of this Rule; shall be signed by the person making the offer, not by counsel; and shall be submitted to the Director of Enforcement and Investigations.

(c) Consideration of Offers of Settlement

(1) The Director of Enforcement and Investigations shall present an offer of settlement to the Board with his or her recommendation, except that, if the recommendation is unfavorable, the offer shall not be presented to the Board unless the person making the offer so requests.

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

(2) By submitting an offer of settlement, the person making the offer waives, subject to acceptance of the offer –

(i) all hearings pursuant to the statutory provisions under which the proceeding is to be or has been instituted;

(ii) the filing of post-hearing briefs or other submissions, proposed findings of fact and conclusions of law;

(iii) proceedings before, and an initial decision by, a hearing officer;

(iv) all post-hearing procedures; and

(v) judicial review by any court.

(3) By submitting an offer of settlement the person further waives –

(i) such provisions of the Rules of Board Procedure or other requirements of law as may be construed to prevent any member of the Board's staff from participating in the preparation of, or advising the Board as to, any order, opinion, finding of fact, or conclusion of law to be entered pursuant to the offer; and

(ii) any right to claim bias or prejudice by the Board based on the consideration of or discussions concerning settlement of all or any part of the proceeding.

(4) If the Board rejects the offer of settlement, the person making the offer shall be notified of the Board's action and the offer of settlement shall be deemed withdrawn. The rejected offer shall not constitute a part of the record in any proceeding against the person making the offer. Rejection of an offer of settlement does not affect the continued validity of waivers pursuant to paragraph (c)(3) of this Rule with respect to any discussions concerning the rejected offer of settlement.

(5) Final acceptance of any offer of settlement will occur only upon the issuance of findings and an order by the Board.

Note: In a hearing on disapproval of registration, an offer of settlement will be considered and handled by the Director of Registration and Inspections in accordance with Rule 5206 as if the Director of Registration and Inspections were the Director of Enforcement and Investigations.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5206. Automatic Stay of Final Disciplinary Actions

No final disciplinary sanction of the Board shall be effective until the later of –

(a) Commission action to dissolve the stay provided by Section 105(e) of the Act; or

(b) the expiration of the period during which, on its own motion, or upon application pursuant to Section 19(d)(2) of the Exchange Act, the Commission may institute review of the sanction.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Part 3 – Disciplinary Sanctions

Rule 5300. Sanctions

(a) Sanctions in Proceedings Instituted Pursuant to Rule 5200(a)(1) or Rule 5200(a)(2)

If the Board finds, based on all of the facts and circumstances, that a registered public accounting firm or associated person thereof has engaged in any act or practice, or omitted to act, in violation of the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards, the Board may impose such disciplinary or remedial sanctions as it determines appropriate, subject to the applicable limitations under Section 105(c)(5) of the Act, including –

(1) temporary suspension or permanent revocation of registration;

(2) temporary or permanent suspension or bar of a person from further association with any registered public accounting firm;

(3) temporary or permanent limitation on the activities, functions or operations of such firm or person (other than in connection with required additional professional education or training);

Note: Limitations on the activities, functions or operations of a firm may include prohibiting a firm from accepting new audit clients for a period of time, requiring a firm to assign a reviewer or supervisor to an associated person, requiring a firm to terminate one or more audit engagements, and requiring a firm to make functional changes in supervisory personnel organization and/or in engagement team organization.

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

- (4) a civil money penalty for each such violation, in an amount equal to –
- (i) not more than \$100,000 for a natural person or \$2,000,000 for any other person; and
 - (ii) in any case to which Section 105(c)(5) of the Act applies, not more than \$750,000 for a natural person or \$15,000,000 for any other person;
- (5) censure;
- (6) require additional professional education or training;
- (7) require a registered public accounting firm to engage an independent monitor, subject to the approval of the Board, to observe and report on the firm's compliance with the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, or professional standards;
- (8) require a registered public accounting firm to engage counsel or another consultant to design policies to effectuate compliance with the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, or professional standards;
- (9) require a registered public accounting firm, or a person associated with such a firm, to adopt or implement policies, or to undertake other actions, to improve audit quality or to effectuate compliance with the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, or professional standards; and
- (10) require a registered public accounting firm to obtain an independent review and report on one or more engagements.

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

(b) Sanctions in Proceedings Instituted Pursuant to Rule 5200(a)(3)

If the Board finds, based on all of the facts and circumstances, that a registered public accounting firm, or a person associated with such a firm, has failed to comply with an accounting board demand, has given false testimony or has otherwise failed to cooperate in an investigation, the Board may impose such disciplinary or remedial sanctions as it determines appropriate, including –

(1) the sanctions described in subparagraphs (1) – (5) of paragraph (a) of this Rule;

(2) requiring a registered public accounting firm to engage a special master or independent monitor, appointed by the hearing officer, to monitor and report on the firms' compliance with an accounting board demand or with future accounting board demands; or

(3) authorizing the hearing officer to retain jurisdiction to monitor compliance with an accounting board demand or with future account board demands and to rule on future disputes, if any, related to such demands.

Note: Rule 5300 does not preclude the imposition of any sanction, on consent, in the context of a settlement, notwithstanding that the sanction is not listed in the Rule.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5301. Effect of Sanctions

(a) Effect on Persons

No person that is suspended or barred from being associated with a registered public accounting firm, or has failed to comply with any sanction pursuant to Rule 5300, may willfully become or remain associated with any registered public accounting firm, without the consent of the Board, pursuant to Rule 5302, or the Commission.

Note: A person who is suspended or barred from being associated with a registered public accounting firm may not, in connection with the preparation or issuance of any audit report, (i) share in the profits of, or receive compensation in any other form from, any registered public accounting firm, or (ii) participate as agent on behalf of such a firm in any activity of that firm. See Rule 1001(p)(i).

(b) Effect on Registered Public Accounting Firms

No registered public accounting firm that knows, or, in the exercise of reasonable care should have known, of the suspension or bar of a person may permit such person to become or remain associated with it, without the consent of the Board, pursuant to Rule 5302, or the Commission.

Note: Rule 5301(b) prohibits a registered public accounting firm from permitting a person subject to a suspension or bar, in connection with the preparation or issuance of any audit report, to (i) share in the profits of, or receive compensation in any other form from, such firm, or (ii) participate as agent on behalf of such a firm in any activity of that firm. See Rule 1001(p)(i).

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5302. Applications for Relief From, or Modification of, Revocations and Bars

(a) Application for Registration After a Revocation of Registration

Unless the Board orders otherwise, any public accounting firm whose registration has been revoked pursuant to a Board determination that permitted the firm an opportunity to reapply for registration after a specified time period has lapsed may file an application for registration pursuant to Rule 2101 after the specified time period has lapsed. The revocation of the firm's registration shall continue, however, unless and until an application for registration is approved pursuant to Rule 2106(b)(1).

(b) Petition to Terminate a Bar

(1) Scope

Any person subject to a bar imposed by an order that contains a proviso that a petition to terminate the bar may be made to the Board after a specific period of time may file a petition for Board consent to associate, or to change the terms and conditions of association, with a registered public accounting firm.

(2) Form of Petition

A petition to terminate a bar shall be supported by an affidavit that addresses the factors set forth in subparagraph (b)(4) of this Rule and shall include as exhibits –

- (i) a copy of the Board order imposing the bar;
- (ii) a copy of any Commission or court order concerning the bar;

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

(iii) a written statement by the proposed registered public accounting firm with which the petitioner wishes to associate that describes –

(A) the terms and conditions of employment and supervision to be exercised over such petitioner and, where applicable, by such petitioner;

(B) the qualifications, experience, and disciplinary records of the proposed supervisor(s) of the petitioner;

(C) the compliance and disciplinary history, during the two years preceding the filing of the petition, of the registered public accounting firm with which the petitioner wishes to be associated; and

(D) the names of any other associated persons in the same registered public accounting firm who have previously been barred by the Board or the Commission, and whether they are to be supervised by the petitioner.

(3) Required Showing

The petitioner shall make a showing satisfactory for the Board to be able to determine that the proposed association would be consistent with the public interest.

(4) Factors to be Addressed

The affidavit required by paragraph (b)(2) of this Rule shall address each of the following –

(i) the time period since the imposition of the bar;

(ii) any restitution or similar action taken by the petitioner to recompense any person injured by the misconduct that resulted in the bar;

(iii) the petitioner's compliance with the order imposing the bar;

(iv) the petitioner's employment during the period subsequent to the imposition of the bar;

(v) the capacity or position in which the applicant proposes to be associated;

(vi) the manner and extent of supervision to be exercised over such petitioner and, where applicable, by such petitioner;

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

(vii) any relevant courses, seminars, examinations or other actions completed by the applicant subsequent to imposition of the bar to prepare for his or her reassociation; and

(viii) any other information material to the petition.

(5) Notification to Petitioner and Written Statement

In the event an adverse recommendation is proposed by the staff with respect to an application made pursuant to this rule, the applicant shall be so advised and provided with a written statement of the reasons for such recommendation. The applicant shall have 30 days to submit a written statement in response.

(c) Application for Termination of Other Revocations and Bars

Unless the Board orders otherwise, any firm or person that is subject to a revocation or bar pursuant to a Board determination that does not provide for an opportunity to reapply for registration, or to terminate a bar, may request leave to file an application for registration, or a petition to terminate a bar, at any time. The sanction shall continue, however, unless and until the Board has permitted and granted such an application or petition for good cause shown.

(d) Application for Termination of Sanctions for Noncooperation

Unless the Board orders otherwise, any firm or person that has remedied the noncooperation that formed the basis for a disciplinary sanction may file an application for termination of any such sanction that is ongoing. The sanction shall continue, however, unless and until it has been terminated by the Board.

(e) Applications for Termination of Other Sanctions

Unless the Board orders otherwise, any firm or person subject to a sanction pursuant to subparagraphs (3), (6), (7), (8), (9) or (10) of Rule 5300(a) may file an application for termination of any continuing sanction at any time, and the applicant may, in the Board's discretion, be afforded a hearing. The sanction shall continue, however, unless and until it has been terminated by the Board for good cause shown.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Bylaws and Rules – Rules – Investigations and Adjudications**

Rule 5303. Use of Money Penalties

Subject to the availability in advance in an appropriations act, all civil money penalties shall be used to fund a merit scholarship program for undergraduate and graduate students enrolled in accredited accounting degree programs, administered by the Board or by an entity or agent identified by the Board.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5304. Summary Suspension for Failure to Pay Money Penalties

(a) Registered Public Accounting Firms

If, thirty days after exhaustion of all reviews and appeals, and the termination of any stay authorized by law or the Rules of the Board, a registered public accounting firm has failed to pay a money penalty imposed pursuant to Rule 5300(a)(4), the Board may, after seven days' notice in writing, summarily suspend the registration of the registered public accounting firm. Such a suspension of registration shall lapse upon payment, within 90 days, of the money penalty, plus interest. If payment is not made within 90 days, a suspension of registration shall be lifted only upon –

(1) payment of the money penalty, plus interest; and

(2) the filing of an application for registration pursuant to Rule 2101, and Board approval of that application pursuant to the Board's Rules relating to registration.

(b) Associated Persons

If, thirty days after exhaustion of all reviews and appeals, and the termination of any stay, authorized by law or the Rules of the Board, an associated person has failed to pay a money penalty imposed pursuant to Rule 5300(a)(4), the Board may, after seven days' notice in writing, summarily suspend the associated person. If such a money penalty is not paid within 90 days of such notice, the Board may summarily bar such person.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Part 4 – Rules of Board Procedure

GENERAL

Rule 5400. Hearings

Hearings for the purpose of taking evidence shall be held only upon order of the Board. All hearings shall be conducted in a fair, impartial, expeditious and orderly manner.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5401. Appearance and Practice Before the Board

A person shall not be represented before the Board or a hearing officer except as stated in paragraphs (a) or (b) of this Rule or as otherwise permitted by the Board or a hearing officer.

(a) Representing Oneself

In any proceeding, an individual may appear on his or her own behalf.

(b) Representing Others

In any proceeding, a person may be represented by counsel; a member of a partnership may represent the partnership; a bona fide officer of a corporation, trust or association may represent the corporation, trust or association.

(c) Designation of Address for Service; Notice of Appearance; Power of Attorney; Withdrawal

(1) Representing Oneself

When an individual first makes any filing or otherwise appears on his or her own behalf before the Board or a hearing officer, he or she shall file with the Secretary both an electronic and a mailing address at which any notice or other written communication required to be served upon him or her or furnished to him or her may be sent and a telephone number where he or she may be reached during business hours, and the individual shall promptly advise the Secretary of changes to that information during the course of the proceeding.

(2) Representing Others

When a person first makes any filing or otherwise appears in a representative capacity before the Board or a hearing officer, that person shall file with the Secretary, and keep current, a written notice stating the name of the proceeding; the representative's name, mailing address, electronic address and telephone number; and the name and electronic and mailing addresses of the person or persons represented; and, if the person is an attorney, a declaration that the attorney is admitted to practice before the Supreme Court of the United States or the highest court of any state, as defined in Section 3(a)(16) of the Exchange Act.

(3) Power of Attorney

Any individual appearing or practicing before the Board in a representative capacity may be required to file a power of attorney with the Board showing his or her authority to act in such capacity.

(4) Withdrawal

Withdrawal by any individual appearing in a representative capacity shall be permitted only by order of the Board or the hearing officer. A motion seeking leave to withdraw shall state with specificity the reasons for such withdrawal. Leave to withdraw shall not be withheld absent good cause.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5402. Hearing Officer Disqualification and Withdrawal

(a) Motion for Withdrawal

A party who has a reasonable, good faith basis to believe that a hearing officer has a conflict of interest or personal bias, or circumstances otherwise exist such that the hearing officer's fairness may reasonably be questioned, may make a motion to the hearing officer that the hearing officer withdraw, which shall be filed with the Secretary. The motion shall be accompanied by an affidavit setting forth in detail the facts alleged to constitute grounds for disqualification. If the hearing officer finds himself or herself not disqualified, he or she shall so rule and shall continue to preside over the proceeding. A motion for withdrawal shall be filed within 15 days after the later of –

(1) when the party learned of the facts believed to constitute the basis for the disqualification; or

(2) when the party was notified of the assignment of the hearing officer.

(b) Appointment of a Replacement Hearing Officer

Upon withdrawal of a hearing officer, or in the event that a hearing officer is incapacitated or is otherwise unable to continue to serve after being appointed, the Secretary will appoint a replacement hearing officer. To ensure fairness to the parties and expedite completion of the proceeding when a replacement hearing officer is appointed after a hearing has commenced, the replacement hearing officer may recall any witness or may certify familiarity with any part or all of the record.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5403. Ex Parte Communications

Except to the extent permitted for the disposition of ex parte matters as authorized by law or the Board's Rules –

(a) the person presiding over an evidentiary hearing may not consult a person or party on a fact in issue, unless on notice and with opportunity for all parties to participate; and

(b) neither a party, nor any Board staff that substantially assists the interested division on the particular matter, whether before or during the hearing, may –

(1) communicate with the person presiding over an evidentiary hearing on a fact in issue, unless on notice and opportunity for all parties to participate; or

(2) communicate with the Board or any member of the Board on a fact in issue, unless on notice and opportunity for all parties to participate or under circumstances in which a party excluded from the communication has waived the rights described in Rule 5205(c)(3) with respect to the matters that are the subject of the communication.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5404. Service of Papers by Parties

In every proceeding, each paper, including each notice of appearance, written motion, brief, or other written communication, shall be served upon each party in a manner calculated to bring the paper to the attention of the party to be served.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5405. Filing of Papers With the Board: Procedure

(a) When to File

All papers required to be served by a party upon any person shall be filed with the Board at the time of service or promptly thereafter. Papers required to be filed with the Board must be received within the time limit, if any, for such filing.

(b) Where to File

Unless otherwise permitted by the Secretary, filing of papers with the Board shall be made by electronically filing them with the Secretary.

Note: When a document has been filed electronically, the official record is the electronic recording of the document as stored by the Secretary, and the filing party is bound by the document as filed. A document filed electronically is deemed filed at the date received electronically by the Secretary. Upon request, the Secretary may permit regulators granted permission to participate on a limited basis (to request a stay), amici curiae, nonparties and others to file in paper form. Where practicable, the Secretary will scan such a filing into the docket file.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5406. Filing of Papers: Form

(a) Specifications

Papers filed in connection with any proceeding shall –

(1) be formatted in a Portable Document Format on pages measuring 8½ x 11 inches, except that, upon consent of the Secretary for good cause, a document may be filed in paper form;

Note: To the extent that the reduction of larger documents would render them illegible, the Secretary may consent to the filing of such documents on larger paper, in electronic or paper form.

(2) include at the head of the paper, or on a title page, the name of the Board, the title of the proceeding, the names of the parties, the subject of the particular paper or pleading, and the file number assigned to the proceeding;

(3) be paginated with margins at least 1 inch wide; and

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

(4) be double-spaced in a 12-point font, with single-spaced footnotes and single-spaced indented quotations.

(b) Form of Briefs

All briefs containing more than 10 pages shall include a table of contents, an alphabetized table of cases, a table of statutes, and a table of other authorities cited, with references to the pages of the brief wherein they are cited.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5407. Filing of Papers: Signature Requirement and Effect

Following the issuance of an order instituting proceedings, every filing of a party who represents himself or herself shall sign his or her individual name and state the date and his or her address and telephone number on every filing. A party represented by counsel shall be signed by at least one counsel of record in his or her name and shall state that counsel's business address and telephone number.

Note: If practicable, a party's or an attorney's signature should be scanned into an electronic document. In any event, however, the use of an attorney's electronic mail address, or password for the Board's electronic filing system, shall constitute the signature of that attorney.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5408. Motions

(a) Generally

Unless made during a hearing or conference, a motion shall be in writing, shall state with particularity the grounds therefor, shall set forth the relief or order sought, and shall be accompanied by a written brief of the points and authorities relied upon. Unless otherwise ordered by the Board or the hearing officer, if a motion is properly made to the Board concerning a proceeding to which a hearing officer is assigned, the proceeding before the hearing officer shall continue pending the determination of the motion by the Board. No oral argument shall be heard on any motion unless the Board or the hearing officer otherwise directs.

(b) Opposing and Reply Briefs

Except as provided in Rule 5427, and unless otherwise ordered by the Board or a hearing officer, a brief in opposition to a motion shall be filed within five days after service of the motion. Reply briefs are only permitted with leave of the hearing officer.

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

(c) Length Limitation

Except as provided in Rule 5427, a brief in support of or opposition to a motion shall not exceed 10 pages, exclusive of pages containing any table of contents, table of authorities, and/or addendum. The hearing officer may grant requests for leave to file briefs in excess of 10 pages, upon a showing of good cause.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5409. Default and Motions to Set Aside Default

(a) Default

A party to a proceeding may be deemed to be in default and the Board or the hearing officer may determine the proceeding against that party upon consideration of the record, including the order instituting proceedings or notice of a hearing, the allegations of which may be deemed to be true, if that party fails –

- (1) to appear, in person or through a representative, at a hearing or conference of which that party has been notified;
- (2) to answer when required to do so by a Board order, to respond to a dispositive motion within the time provided, or otherwise to defend the proceeding; or
- (3) to cure a deficient filing within the time specified by the Board or the hearing officer.

(b) Motion to Set Aside Default

A motion to set aside a default shall be made within a reasonable time, state the reasons for the failure to appear or defend, and specify the nature of the proposed defense in the proceeding. In order to prevent injustice and on such conditions as may be appropriate, the hearing officer, at any time prior to the filing of the initial decision, or the Board at any time, may for good cause shown set aside a default.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5410. Additional Time For Service by Mail

If service is made by mail, three days shall be added to the prescribed period for response.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

Rule 5411. Modifications of Time, Postponements and Adjournments

Except as otherwise provided by law, the Board, at any time, or the hearing officer, at any time prior to the filing of his or her initial decision, may, for good cause shown, extend or shorten any time limits prescribed by these Rules for the filing of any papers and may, postpone or adjourn any hearing.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rules 5412. – 5419. [Reserved]

PREHEARING RULES

Rule 5420. Stay Requests

(a) Leave to Participate to Request a Stay

The Board or the hearing officer may grant leave to participate on a limited basis only to an authorized representative of the Commission, an authorized representative of the United States Department of Justice, an authorized representative of a United States Attorney, an appropriate state regulatory authority, or an authorized representative of any criminal prosecutorial authority of any State or any other political subdivision of a State for the purpose of requesting a stay during the pendency of a Commission investigation or proceeding, a criminal investigation or prosecution, or a state regulatory proceeding, arising out of the same or similar facts that are at issue in the pending Board or disciplinary proceeding. Motions for leave to participate shall be in writing, shall set forth the nature and extent of the movant's interest in the proceeding, and, except where good cause for late filing is shown, shall be filed not later than 20 days prior to the date fixed for the commencement of the hearing. A stay granted pursuant to this Rule may be granted for such a period and upon such conditions as the Board or the hearing officer deems appropriate.

(b) Stay to Protect Ongoing Commission Investigation

Upon a showing that a stay requested pursuant to this Rule is necessary to protect an ongoing Commission investigation, the motion for the stay shall be granted.

(c) Other Stays

Upon a showing that such a stay is in the public interest or for the protection of investors, the motion for the stay shall be favored.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5421. Answer to Allegations

(a) When Required

In its order instituting proceedings, the Board may require any party to file an answer to each of the allegations contained therein. Even if not so ordered, any party in any proceeding may elect to file an answer.

(b) When to File

Unless additional time is granted by the hearing officer or the Board, a party filing an answer as provided in paragraph (a) of this Rule shall do so within 20 days after service upon the party of an order instituting proceedings pursuant to Rule 5500. If the order instituting proceedings is amended, the Board or the hearing officer may require that an amended answer be filed and, if such an answer is required, shall specify a date for the filing thereof.

(c) Contents of Answer and Effect of Failure to Deny

Unless otherwise directed by the hearing officer or the Board, an answer shall specifically admit, deny, or state that the party does not have, and is unable to obtain, sufficient information to admit or deny each allegation in the order instituting proceedings. When a party intends in good faith to deny only a part of an allegation, the party shall specify so much of it as is true and shall deny only the remainder. A statement of a lack of information shall have the effect of a denial. A defense of res judicata, statute of limitations or any other matter constituting an affirmative defense shall be asserted in the answer. Any allegation not denied shall be deemed admitted.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5422. Availability of Documents For Inspection and Copying

(a) Documents to be Available for Inspection and Copying

(1) Proceedings Commenced Pursuant to Rule 5200(a)(1) and 5200(a)(2)

Unless otherwise provided by this Rule, or by order of the Board or the hearing officer, in proceedings pursuant to Rule 5200(a)(1) or Rule 5200(a)(2), the Division of Enforcement and Investigations shall make available for inspection and copying by any party to the proceeding –

(i) each request, subpoena, or accounting board demand for documents, testimony, or information issued in the investigation or in the informal inquiry, if any, that preceded the investigation or disciplinary proceeding;

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

(ii) responses to any such requests, subpoenas, and accounting board demands, including any documents produced in response;

(iii) testimony transcripts and exhibits, and any other verbatim records of witness statements;

(iv) all other documents prepared or obtained by the Division of Enforcement and Investigations in connection with the investigation prior to the institution of proceedings, except that the Division need not produce any documents described in subparagraph (b) that it does not intend to introduce as evidence.

(2) Proceedings Commenced Pursuant to Rule 5200(a)(3)

Unless otherwise provided by this Rule, or by order of the Board, the Division of Enforcement and Investigations shall make available for inspection and copying by any party to the proceeding all documents upon which the Division intends to rely in seeking a finding of noncooperation but shall not be required to make available any other documents.

(3) Proceedings Commenced Pursuant to Rule 5500

Unless otherwise provided by this Rule, or by order of the Board or the hearing officer, in proceedings pursuant to Rule 5500, the Division of Registration and Inspections shall make available for inspection and copying by the applicant documents obtained by that division in connection with the registration application prior to the notice of hearing, except that the Division need not produce any documents described in subparagraph (b) that it does not intend to introduce as evidence.

(b) Documents That May Be Withheld

(1) The interested division may decline to make available for inspection and copying –

(i) any document prepared by a member of the Board or of the Board's staff that has not been disclosed to any person other than Board members, Board staff, or persons retained by the Board or Board staff to provide services in connection with the investigation, disciplinary proceeding, or hearing on disapproval of registration;

(ii) any other document that is privileged, including any other document protected by the attorney work product doctrine;

(iii) any document that would disclose the identity of a confidential source; and

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

(iv) any other document that the staff identifies for the hearing officer's consideration as to whether the document may be withheld as not relevant to the subject matter of the proceeding or otherwise for good cause shown.

(2) Nothing in this paragraph (b), or in paragraph (a)(2) above, authorizes the interested division in connection with a disciplinary proceeding or hearing on disapproval of registration to withhold documents that contain material exculpatory evidence.

(c) Procedures Concerning Withheld Documents

(1) The interested division shall, at the time it makes documents available to a respondent under this rule, provide the respondent with a log of documents withheld pursuant to paragraph (b)(1)(ii) of this Rule. The log shall provide the same information that a person would be required to supply to the Board under Rule 5106 in connection with a privilege assertion. On a motion by any respondent, a hearing officer may, in his or her discretion, require the interested division to submit any document listed on the log for inspection by the hearing officer in camera. A hearing officer may order that any such document be made available to a respondent for inspection and copying only if the hearing officer determines that the document is not a document described in paragraph (b)(1)(ii).

(2) The interested division shall, at the time it makes documents available to a respondent under this rule, provide the hearing officer and each respondent with a list of documents withheld pursuant to paragraph (b)(1)(iii) or (b)(1)(iv) of this Rule and a brief description of the reason for withholding each document. The list provided to the respondent may be redacted as necessary to protect interests related to the interested division's reason for withholding the document. The hearing officer may require the interested division to submit any such document for inspection by the hearing officer in camera. The hearing officer may order that any such document be made available to the respondent for inspection and copying only if the hearing officer determines that –

(i) with respect to any document withheld pursuant to paragraph (b)(1)(iii) –

(A) producing the document would not have the effect of identifying a confidential source; or

(B) the document contains material, exculpatory evidence, provided, however, that to the extent such evidence can be disclosed without disclosing the identity of a confidential source, such identity shall not be disclosed.

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

(ii) with respect to any document withheld pursuant to paragraph (b)(1)(iv) –

(A) the document is relevant to the subject matter of the proceeding and no good cause exists for withholding it; or

(B) the document contains material, exculpatory evidence.

(d) Timing of Inspection and Copying

Unless otherwise ordered by the Board or the hearing officer, the interested division shall make documents available for inspection and copying to any respondent who is not in default under Rule 5409 no later than 14 days after the institution of proceedings pursuant to Rule 5200(a)(1), Rule 5200(a)(2), or Rule 5500, and no later than 7 days after proceedings have been instituted pursuant to Rule 5200(a)(3).

(e) Place of Inspection and Copying

Documents subject to inspection and copying pursuant to this Rule shall be made available to a party for inspection and copying at the Board office where they are ordinarily maintained, or at such other place as the parties, in writing, may agree. A party shall not be given custody of the documents or leave to remove the documents from the Board's offices pursuant to the requirements of this Rule other than by written agreement of the interested division. Such agreement shall specify the documents subject to the agreement, the date they shall be returned and such other terms or conditions as are appropriate to provide for the safekeeping of the documents.

(f) Copying Costs and Procedures

A party may obtain a photocopy of any documents made available for inspection. The party shall be responsible for the cost of photocopying. The respondent shall be given access to the documents at the Board's offices or such other place as the parties may agree during normal business hours for copying of documents at the respondent's expense.

(g) Failure to Make Documents Available – Harmless Error

In the event that a document required to be made available to a party pursuant to this Rule is not made available by the interested division, no rehearing or rededication of a proceeding already heard or decided shall be required, unless the party shall establish that the failure to make the document available was not harmless error.

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Investigations and Adjudications

Note: The interested division's obligation under this Rule relates to documents obtained by that division. Documents located only in the files of other divisions or offices are beyond the scope of the Rule, except that documents located in the files of other divisions and that the interested division intends to introduce as evidence shall, for purposes of this Rule, be treated as if they have been obtained by the interested division and must therefore be made available under this Rule.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5423. Production of Witness Statements

(a) Availability

Upon motion by any respondent in a disciplinary proceeding, the hearing officer may order that the interested division produce for inspection and copying any statement of any person called or to be called as a witness by the division that pertains, or is expected to pertain, to his or her direct testimony and that would be required to be produced pursuant to the Jencks Act, 18 U.S.C. § 3500, if the Board were a governmental entity. Such production shall be made at a time and place fixed by the hearing officer and shall be made available to any party, provided, however, that the production shall be made under conditions intended to preserve the items to be inspected or copied.

(b) Failure to Produce - Harmless Error

In the event that a statement required to be made available for inspection and copying by a respondent is not turned over by the interested division, no rehearing or redecision of a proceeding already heard or decided shall be required unless the respondent establishes that the failure to turn over the statement was not harmless error.

(c) Definition of Statement

For purposes of this Rule, the term "statement" shall have the meaning set forth in 18 U.S.C. § 3500(e).

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5424. Accounting Board Demands and Commission Subpoenas

(a) Accounting Board Demands and Requests

In connection with any hearing ordered by the Board, a party may request the issuance of an accounting board demand of a registered public accounting firm or an associated person of such a firm, or an accounting board request of any other person. Such a demand or request may call for the attendance and testimony of a witness at the designated time and place of the hearing or for the production of documentary or other tangible evidence returnable at any designated time or place. Unless made on the record at a hearing, an application for issuance of such a demand or request shall be made in writing and served on each party. A party whose application for such a demand or request has been denied or modified may not submit any other application seeking substantially the same testimony or other evidence specified in the denied application or excluded from an otherwise granted application.

(1) Unavailability of Hearing Officer

In the event that the hearing officer assigned to a proceeding is unavailable, any member of the Board, or other person designated by the Board for this purpose, may grant an application for the issuance of an accounting board demand or request. A party seeking such issuance may submit the application to the Secretary, who shall direct it to a person authorized to grant the request, deny the request, or grant the request with modifications.

(2) Signing May be Delegated

A hearing officer may authorize issuance of an accounting board demand, or an accounting board request, and may delegate the manual signing of the demand or request to any other person.

(3) Standards for Issuance

Where it appears that an application for an accounting board demand or request is reasonable in scope and is reasonably calculated to encompass, or lead to the discovery of, admissible evidence, the application shall be granted. If it appears that the accounting board demand or request sought may be unreasonable, oppressive, excessive in scope, unduly burdensome, designed to seek irrelevant information, or sought for the purpose of harassment or delay, the application shall be denied. The hearing officer or other person ruling on the application may, in his or her discretion, as a condition precedent to the issuance of the demand or request, require the party seeking the demand or request to show the general relevance and reasonable scope of the testimony or other evidence sought. After consideration of all the circumstances, the hearing officer or other person ruling on the application may grant the application

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Investigations and Adjudications

upon such conditions or with such modifications as fairness requires. In making the determination, the hearing officer or other person ruling on the application may inquire of the parties whether they will stipulate to the facts sought to be proved.

Note: Whenever possible, the parties should explore the extent to which stipulations of fact may obviate the need for issuance of accounting board demands and requests to non-parties, and the hearing officer or other person ruling on an application for issuance of an accounting board demand or request should encourage the parties to reach such stipulations when possible.

(4) Witness Fees

A witness, other than a party, who is summoned to a Board proceeding pursuant to an accounting board demand, or an accounting board request, or who is deposed pursuant to Rule 5425, shall be paid his or her reasonable expenses by the party at whose instance the witness appears.

(b) Commission Subpoenas

In connection with any hearing ordered by the Board, and upon the application of any party or on its own initiative, the Board may seek issuance by the Commission of a subpoena to any person, including any client of a registered public accounting firm, requiring the person to provide any testimony or produce any documents that the Board considers relevant or material to a Board proceeding.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5425. Depositions to Preserve Testimony for Hearing

(a) Procedure

Any party desiring to take the testimony of a witness by deposition shall make a written motion setting forth the reasons why such deposition should be taken including the specific reasons why the party believes the witness will be unable to attend or testify at the hearing; the name and address of the prospective witness; the matters concerning which the prospective witness is expected to be questioned; and the proposed time and place for the taking of the deposition.

Note: Depositions under the Rules of Board Procedure are used only to preserve testimony of a witness who would be unlikely to be able to attend the hearing. They are not permitted for purposes of discovery.

(b) Required Finding When Ordering a Deposition

In the discretion of the Board or the hearing officer, an order for deposition may be issued upon a finding that the prospective witness will likely give testimony material to the proceeding, that it is likely the prospective witness will be unable to attend or testify at the hearing because of age, sickness, infirmity, imprisonment or other disability, or otherwise unavailable, and that the taking of a deposition will serve the interests of justice.

(c) Procedure at Depositions

A witness whose testimony is taken by deposition shall be sworn or shall affirm before any questions are put to him or her. Examination and cross-examination of deponents may proceed as permitted at a hearing. The witness being deposed may have counsel present during the deposition.

(d) Objections to Questions or Evidence

Objections to questions or evidence shall be in short form, stating the grounds of objection relied upon. Objections to questions or evidence shall be noted in the transcript, but no person other than the hearing officer shall have the power to decide on the competency, materiality or relevance of evidence. Failure to object to questions or evidence during the deposition shall not be deemed a waiver unless the ground of the objection is one that might have been obviated or removed if presented at that time.

(e) Filing of Depositions

The questions propounded and all answers or objections shall be recorded or transcribed verbatim, and a transcript prepared by the deposition officer, or under his or her direction. The transcript shall be subscribed by the witness and certified by the deposition officer. The original deposition and exhibits shall be filed with the Secretary. A copy of the deposition shall be available to the deponent and each party for purchase at prescribed rates.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5426. Prior Sworn Statements of Witnesses in Lieu of Live Testimony

At a hearing, any person wishing to introduce a prior, sworn statement of a nonparty witness otherwise admissible in the proceeding, in lieu of live testimony may make a motion setting forth the reasons therefor. If only part of a statement is offered in evidence, the hearing officer may require that all relevant portions of the statement be introduced. If all of a statement is offered in evidence, the hearing officer may require that portions not relevant to the proceeding be excluded. A motion to introduce a prior sworn statement in lieu of live testimony may be granted if –

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

- (a) the witness is dead;
- (b) the witness is out of the United States, unless it appears that the absence of the witness was procured by the party offering the prior sworn statement;
- (c) the witness is unable to attend or testify because of age, sickness, infirmity, imprisonment or other disability;
- (d) the party offering the prior sworn statement has been unable to procure the attendance of the witness by accounting board demand; or,
- (e) in the discretion of the Board or the hearing officer, it would be desirable, in the interests of justice, to allow the prior sworn statement to be used. In making this determination, due regard shall be given to the presumption that witnesses will testify orally in an open hearing. If the parties have stipulated to accept a prior sworn statement in lieu of live testimony, consideration shall also be given to the convenience of the parties in avoiding unnecessary expense.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5427. Motion for Summary Disposition

(a) For Interested Division

After a party has filed an answer and documents have been made available to that respondent for inspection and copying pursuant to Rule 5422, or after service of a motion for summary disposition by the respondent, the interested division may make a motion for summary disposition of the proceedings with respect to that respondent.

(b) For Respondent

A respondent party may at any time make a motion for summary disposition of the proceeding with respect to that respondent.

(c) Pre-motion Conference Required

A party seeking summary disposition shall request and attend a pre-motion conference with the hearing officer before filing its motion for summary disposition.

(1) Due-date for Filing

At the pre-motion conference, the hearing officer will schedule a due-date for the submission of the motion for summary disposition and may, but is not required to,

schedule a due-date for the submission of a response to the motion for summary judgment.

(2) Review and Decide Procedure

If the hearing officer has not scheduled a due-date for a response to the motion for summary judgment, upon review of the motion the hearing officer may decide to deny the motion or to require a response to the motion. A hearing officer shall not grant a motion for summary disposition until after the due-date for filing a response to the motion has passed.

(d) Decision on Motion

The hearing officer shall promptly grant a motion for summary disposition if the pleadings, depositions, and admissions on file, together with the affidavits, if any, show that there is no genuine issue as to any material fact and that the moving party is entitled to a disposition as a matter of law. A summary disposition, interlocutory in character, may be rendered on the issue of liability alone although there is a genuine issue as to a sanction. A hearing officer's decision to deny a motion for summary disposition is not subject to interlocutory appeal.

(e) Lengths of Briefs

Neither a brief in support of a motion for summary disposition, nor a brief in response to such a motion, shall exceed 25 pages in length, without leave of the hearing officer. Reply briefs are discouraged and are not permitted without leave of the hearing officer.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rules 5428. – 5439. [Reserved]

CONDUCT OF HEARINGS

Rule 5440. Record of Hearings

(a) Recordation

All hearings shall be recorded and a written transcript thereof shall be prepared.

(b) Availability of a Transcript

Transcripts of public hearings shall be available for purchase at prescribed rates. Transcripts of nonpublic proceedings shall be available for purchase only by parties,

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

provided, however, that any person compelled to testify at a hearing may purchase a copy of that person's own testimony.

(c) Transcript Correction

Prior to the filing of post-hearing briefs or other submissions, or within such earlier time as directed by the Board or the hearing officer, a party or witness may make a motion to correct the transcript. Proposed corrections of the transcript may be submitted to the hearing officer by stipulation or by motion. Upon notice to all parties to the proceeding, the hearing officer may, by order, specify corrections to the transcript.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5441. Evidence: Admissibility

The Board or the hearing officer may receive relevant evidence and shall exclude all evidence that is irrelevant, immaterial or unduly repetitious.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5442. Evidence: Objections and Offers of Proof

(a) Objections

Objections to the admission or exclusion of evidence must be made on the record and shall be in short form, stating the grounds relied upon. Exceptions to any ruling thereon by the hearing officer need not be noted at the time of the ruling. Such exceptions will be deemed waived on appeal to the Board, however, unless raised –

- (1) pursuant to interlocutory review in accordance with Rule 5461;
- (2) in a proposed finding or conclusion filed pursuant to Rule 5445; or
- (3) in a petition for Board review of an initial decision filed in accordance with Rule 5460.

(b) Offers of Proof

Whenever evidence is excluded from the record, the party offering such evidence may make an offer of proof, which shall be included in the record. Excluded material shall be retained pursuant to Rule 5202(b).

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

Rule 5443. Evidence: Presentation Under Oath or Affirmation

A witness at a hearing for the purpose of taking evidence shall testify under oath or affirmation.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5444. Evidence: Presentation, Rebuttal and Cross-examination

In any proceeding, a party may present its case or defense by oral or documentary evidence, submit rebuttal evidence, and conduct such cross-examination as, in the discretion of the Board or the hearing officer, may be required for a full and true disclosure of the facts. The scope and form of evidence, rebuttal evidence, if any, and cross-examination, if any, shall be determined by the Board or the hearing officer in each proceeding.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5445. Post-hearing Briefs and Other Submissions

(a) At the end of the hearing in any proceeding instituted pursuant to Rule 5200(a)(1), Rule 5200(a)(2), or Rule 5500 in which an initial decision is to be issued, the hearing officer shall, by order, after consultation with the parties, prescribe the period within which post-hearing briefs or other submissions are to be filed. Unless the hearing officer, for good cause shown, permits a different period and sets forth in the order the reasons why the different period is necessary –

(i) the party or parties directed to file first shall make its or their initial filing within 30 days of the end of the hearing; and

(ii) the total period within which all such filings and any opposition and reply submissions are to be filed shall be no longer than 90 days after the end of the hearing.

(b) In any proceeding instituted pursuant to Rule 5200(a)(3), the hearing officer may, in his or her discretion, render an initial decision without allowing for post-hearing briefs or other submissions, or may allow for such briefs or other submissions according to an expedited schedule.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rules 5446. – 5459. [Reserved]

APPEALS TO THE BOARD

Rule 5460. Board Review of Determinations of Hearing Officers

(a) Petition for Review of Initial Decision by Hearing Officers

Any party to a hearing may obtain Board review of an initial decision by filing a petition for review that –

(1) sets forth specific findings and conclusions of the initial decision as to which exception is taken, together with the supporting reasons for each exception; and

(2) is filed –

(i) in a proceeding instituted pursuant to Rule 5200(a)(1), Rule 5200(a)(2), or Rule 5500, within 30 days after service of the initial decision on the petitioner or within 10 days after the filing of a petition for review by another party, whichever is later; or

(ii) in a proceeding instituted pursuant to Rule 5200(a)(3), within 10 days after service of the initial decision on the petitioner.

(b) Review on Board's Initiative

The Board may, on its own initiative, order review of any initial decision, or a portion of any initial decision, at any time before the initial decision becomes final pursuant to Rule 5204(d).

(c) De Novo Review

Based on a petition for review, or on its own initiative, the Board may affirm, reverse, modify, set aside or remand for further proceedings, in whole or in part, an initial decision by a hearing officer and may make any findings or conclusions that in its judgment are proper based on the record.

(d) Limitations on Matters Reviewed

Review by the Board of an initial decision shall be limited to the issues specified in the petition for review or the issues, if any, specified in the briefing schedule order issued pursuant to Rule 5462(a). On notice to all parties, however, the Board may, at any time prior to issuance of its decision, raise and determine any other matters that it deems material, with opportunity for oral or written argument thereon by the parties.

(e) Summary Affirmance

The Board may summarily affirm an initial decision based upon the petition for review and any response thereto, without further briefing, if it finds that no issue raised in the petition for review warrants further consideration by the Board.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5461. Interlocutory Review

(a) Availability

The Board will not review a hearing officer's ruling prior to its consideration of the entire proceeding in the absence of extraordinary circumstances. The Board may decline to consider a ruling certified by a hearing officer pursuant to paragraph (c) of this Rule if it determines that interlocutory review is not warranted or appropriate under the circumstances. The Board may, at any time, on its own motion, direct that any matter be submitted to it for review.

(b) Certification Process

A ruling submitted to the Board for interlocutory review shall be certified in writing by the hearing officer as appropriate for interlocutory review and shall specify the basis for certification. The hearing officer shall certify a ruling only if –

(1) the ruling would compel testimony of Board members, officers or employees or the production of documentary evidence in their custody; or

(2) upon application by a party, within five days of the hearing officer's ruling, the hearing officer is of the opinion that –

(i) the ruling involves a controlling question of law as to which there is substantial ground for difference of opinion; and

(ii) an immediate review of the order may materially advance the completion of the proceeding.

(c) Proceedings Not Stayed

The filing of an application for interlocutory review or the grant of interlocutory review shall not stay proceedings before the hearing officer unless he or she, or the Board, shall so order. The Board will not consider the motion for a stay unless the motion has first been made to the hearing officer.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5462. Briefs Filed with the Board

(a) Briefing Schedule Order

Upon a timely and valid petition for review, or upon its own timely motion to review an initial decision, other than review ordered pursuant to Rule 5469, the Board shall issue a briefing schedule order directing the parties to file opening briefs and specifying particular issues, if any, as to which briefing should be limited or directed. Unless otherwise provided, opening briefs shall be filed within 40 days of the date of the briefing schedule order. Opposition briefs shall be filed within 30 days after the date opening briefs are due. Reply briefs may be filed within 14 days after the date opposition briefs are due. No briefs in addition to those specified in the briefing schedule order may be filed except with leave of the Board. The briefing schedule order shall be issued –

(1) at the time the Board orders review on its own initiative pursuant to Rule 5460(b), or orders interlocutory review on its own motion pursuant to Rule 5460; or

(2) within 21 days, or such longer time as provided by the Board, after –

(i) the last day permitted for filing a petition for review pursuant to Rule 5204(d);

(ii) certification of a ruling for interlocutory review pursuant to Rule 5461(b).

(b) Contents of Briefs

Briefs shall be confined to the particular matters at issue. Each exception to the findings or conclusions being reviewed shall be stated succinctly. Exceptions shall be supported by citation to the relevant portions of the record, including references to the specific pages relied upon, and by concise argument including citation of such statutes, decisions and other authorities as may be relevant. If the exception relates to the admission or exclusion of evidence, the substance of the evidence admitted or excluded shall be set forth in the brief, in an appendix thereto, or by citation to the record. Reply briefs shall be confined to matters in opposition briefs of other parties.

(c) Length Limitation

Opening and opposition briefs shall not exceed 30 pages and reply briefs shall not exceed 15 pages, exclusive of pages containing the table of contents, table of authorities, and any addendum, except with leave of the Board.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5463. Oral Argument Before the Board

(a) Availability

The Board, on its own motion or the motion of a party, may order oral argument with respect to any matter. Motions for oral argument with respect to whether to affirm all or part of an initial decision by a hearing officer shall be granted unless exceptional circumstances make oral argument impractical or inadvisable. The Board will consider appeals, motions and other matters properly before it on the basis of the papers filed by the parties without oral argument unless the Board determines that the presentation of facts and legal arguments in the briefs and record and the decisional process would be significantly aided by oral argument.

(b) Procedure

Requests for oral argument shall be made by separate motion accompanying the initial brief on the merits. The Board shall issue an order as to whether oral argument is to be heard, and if so, the time and place therefor. The grant or denial of a motion for oral argument shall be made promptly after the filing of the last brief called for by the briefing schedule. If oral argument is granted, the time fixed for oral argument shall be changed only by written order of the Board, for good cause shown. The order shall state at whose request the change is made and the reasons for any such change.

(c) Time Allowed

Unless the Board orders otherwise, not more than one half-hour per side will be allowed for oral argument. The Board may, in its discretion, determine that several persons have a common interest, and that the interests represented will be considered a single side for purposes of allotting time for oral argument. Time will be divided equally among persons on a single side, provided, however, that by mutual agreement they may reallocate their time among themselves. A request for additional time must be made by motion filed reasonably in advance of the date fixed for argument.

Note: The term "side" is used in this Rule to indicate that the time allowed is afforded to opposing interests rather than to individual parties. If multiple parties have a common interest, they may constitute only a single side.

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

(d) Participation of Board Members

A member of the Board who was not present at the oral argument may participate in the decision of the proceeding, provided that the member has reviewed the transcript of such argument prior to such participation. The decision shall state whether the required review was made.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5464. Additional Evidence

Upon its own motion or the motion of a party, the Board may allow the submission of additional evidence. A party may file a motion for leave to adduce additional evidence at any time prior to issuance of a decision by the Board. Such motion shall show with particularity that such additional evidence is material and that there were reasonable grounds for failure to adduce such evidence previously. Any other party may file a response to the motion within 5 days after the motion is filed, or such longer time as the Board may allow. The Board may accept or hear additional evidence, or it may remand or refer the proceeding to a hearing officer for the taking of additional evidence, as appropriate.

[Effective pursuant to SEC Release No. 34-48765, File No. PCAOB-2003-06 (November 10, 2003)]

Rule 5465. Record Before the Board

The Board shall determine each matter on the basis of the record.

(a) Contents of the Record

In proceedings for final decision before the Board, the record shall consist of –

- (1) all items part of the hearing record below in accordance with Rule 5202(a);
- (2) any petitions for review, cross-petitions or oppositions; and
- (3) all briefs, motions, submissions and other papers filed on appeal or review.

(b) Transmittal of Record to Board

Within 14 days after the last date set for filing briefs or such later date as the Board directs, the Secretary shall transmit the record to the Board.

(c) Review of Documents Not Admitted

Any document offered in evidence but excluded by the hearing officer or the Board and any document marked for identification but not offered as an exhibit shall not be considered a part of the record before the Board on appeal but shall be transmitted to the Board by the Secretary if so requested by the Board. In the event that the Board does not request the document, the Secretary shall retain the document not admitted into the record until the later of –

- (1) the date upon which the Board's order becomes final, or
- (2) the conclusion of any Commission and judicial review of that order.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5466. Reconsideration

(a) Scope of Rule

A party may file a motion for reconsideration of a final order issued by the Board.

(b) Procedure

A motion for reconsideration shall be filed within 10 days after service of the order complained of on each party, or within such time as the Board may prescribe upon motion of the person seeking reconsideration, if made within the foregoing 10-day period. The motion for reconsideration shall briefly and specifically state the matters of record alleged to have been erroneously decided, the grounds relied upon, and the relief sought. Except with permission of the Board, a motion for reconsideration shall not exceed 15 pages. No responses to a motion for reconsideration shall be filed unless requested by the Board.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

Rule 5467. Receipt of Petitions for Commission or Judicial Review

A registered public accounting firm –

(a) that has filed a petition for Commission review of a final disciplinary sanction of the Board pursuant to Section 19(d)(2) of the Exchange Act, or a petition for court review of a Commission order with respect to such a sanction pursuant to Section 25(a)(1) of the Exchange Act, or

(b) that is associated with a person, other than a person primarily associated with another registered public accounting firm, who has filed such a petition,

Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications

shall file a notice and copy of the petition with the Secretary within 10 days after the petition is made.

Note: Appeals of final disciplinary sanctions by the Board are instituted by the filing of a petition for review in accordance with the Commission's Rules of Practice. Unless directed otherwise by statute, appeals of Commission orders and decisions on a sanction imposed by the Board to a court of appeals are instituted by the filing of a petition for review in accordance with the Federal Rules of Appellate Procedure. See Fed. R. App. P. 15(a).

Rule 5468. Appeal of Actions Made Pursuant to Delegated Authority

(a) Notice of Intention to Petition for Review

A person intending to seek Board review of an action made pursuant to delegated authority shall file a written notice of intention to petition for review within five days after actual notice to the petitioner of the action or service of notice of the action, whichever is earlier. The notice shall identify the petitioner and the action complained of, and shall be accompanied by a notice of appearance pursuant to Rule 5401(c). The Board will allow late filing of a notice of intention to petition for review upon a showing that a delay in service, through no fault of the petitioner's, made compliance with the time limit set forth in this paragraph impossible or unreasonably burdensome.

(b) Petition for Review

Within five days after the filing of a notice of intention to petition for review pursuant to paragraph (a) of this Rule, the person seeking review shall file a petition for review containing a clear and concise statement of the issues to be reviewed and the reasons why review is appropriate. The petition shall include exceptions to any findings of fact or conclusions of law made, together with supporting reasons for such exceptions based on appropriate citations to such record as may exist. These reasons may be stated in summary form. The Board will review all actions made pursuant to delegated authority with respect to which timely notices of intention to petition for review, and timely petitions for review, have been filed.

Rule 5469. Board Consideration of Actions Made Pursuant to Delegated Authority

(a) Board Review

Upon a petition for review, or upon its own initiative, the Board may affirm, reverse, modify, set aside or remand for further proceedings, in whole or in part, any action made pursuant to delegated authority. The Board may, in its discretion, act

summarily on the basis of the petition, act on the basis of the petition and any written response provided by the staff and served on the petitioner, or request the submission of additional statements in support of or in opposition to the petition.

(b) No Stay of Effect of Delegated Action

An action made pursuant to delegated authority shall have immediate effect and be deemed the action of the Board. The effect of any action made pursuant to delegated authority shall not be stayed, and no petition for review shall operate as a stay, unless otherwise ordered by the Board.

Rules 5470. – 5499. [Reserved]

Part 5 – Hearings on Disapproval of Registration Applications

Rule 5500. Commencement of Hearing on Disapproval of a Registration Application

The Board may commence a proceeding to determine whether to approve or disapprove a public accounting firm's application for registration when, based on review of an application for registration as a registered public accounting firm –

(a) the Board determines, pursuant to Rule 2106(b)(2)(ii), to provide the applicant with written notice of a hearing to determine whether to approve or disapprove the application; and

(b) within such period, as the Board permits, after the date of service of a notice of a hearing whether to approve or disapprove an application for registration pursuant to Rule 2106(b)(2)(ii), the public accounting firm served with such notice files with the Secretary a written request for a hearing date and a notice of appearance pursuant to Rule 5401(c), and includes with the request –

(1) a statement that the public accounting firm has elected not to treat the notice as a written notice of disapproval for purposes of Section 102(c) of the Act; and

(2) a statement describing with specificity why the public accounting firm believes that the Board should not issue a written notice of disapproval.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

**Public Company Accounting Oversight Board
Bylaws and Rules – Rules – Investigations and Adjudications**

Rule 5501. Procedures for a Hearing on Disapproval of a Registration Application

Proceedings instituted pursuant to Rule 5500 shall be subject to procedures as described in Parts 2 and 4 of Section 5 of the Board's Rules.

[Effective pursuant to SEC Release No. 34-49704, File No. PCAOB-2003-07 (May 14, 2004)]

SECTION 6. INTERNATIONAL

Rule 6001. Assisting Non-U.S. Authorities in Inspections

The Board may, as it deems appropriate, provide assistance in an inspection of a registered public accounting firm organized and operating under the laws of the United States conducted pursuant to the laws and/or regulations of a non-U.S. jurisdiction. The Board may consider the independence and rigor of the non-U.S. system in determining the extent of the Board's assistance.

[Effective pursuant to SEC Release No. 34-50291, File No. PCAOB-2004-04 (August 30, 2004)]

Rule 6002. Assisting Non-U.S. Authorities in Investigations

The Board may, as it deems appropriate, provide assistance in an investigation of a registered public accounting firm organized and operating under the laws of the United States conducted pursuant to the laws and/or regulations of a non-U.S. jurisdiction. The Board may consider the independence and rigor of the non-U.S. system in determining the extent of the Board's assistance.

[Effective pursuant to SEC Release No. 34-50291, File No. PCAOB-2004-04 (August 30, 2004)]

SECTION 7. FUNDING

Rule 7000. [Reserved]

[Reserved]

Rule 7100. Accounting Support Fee.

The Board shall calculate an accounting support fee each year. The accounting support fee shall equal the budget of the Board, as approved by the Commission, less the sum of all registration fees and annual fees received during the preceding calendar year from public accounting firms, pursuant to Section 102(f) of the Act and the Rules of the Board.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

Rule 7101. Allocation of Accounting Support Fee.

(a) Classes of Issuers

For purposes of allocating the accounting support fee, those entities that are issuers as of the date the accounting support fee is calculated under Rule 7100 shall be divided into four classes:

(1) Equity Issuers

All issuers whose average, monthly issuer market capitalization during the preceding calendar year is greater than \$25 million, other than those described in paragraphs (a)(2) and (a)(3) of this Rule, and whose share price on a monthly, or more frequent, basis is publicly available.

Note: Average, monthly market capitalization will be based on closing stock prices on the closest trading day on or before the last day of each calendar month measured.

(2) Investment Company Issuers

All issuers (i) who, as of the date the accounting support fee is calculated under Rule 7100, are registered under Section 8 of the Investment Company Act or have elected to be regulated as business development companies pursuant to Section 54 of the Investment Company Act, other than those described in paragraph (a)(3), (ii) whose average, monthly issuer market capitalization during the preceding calendar year is greater than \$250 million, and (iii) whose share price (or net asset value) on a monthly, or more frequent, basis is publicly-available.

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Funding

Note: Average, monthly market capitalization will be based on closing stock prices on the closest trading day on or before the last day of each calendar month measured.

(3) Issuers Permitted Not to File Audited Financial Statements and Bankrupt Issuers that File Modified Reports

All issuers that, as of the date the accounting support fee is calculated under Rule 7100, (i) have a basis, under a Commission rule or pursuant to other action of the Commission or its staff, not to file audited financial statements, (ii) are employee stock purchase, savings and similar plans, interests in which constitute securities registered under the Securities Act, or (iii) are subject to the jurisdiction of a bankruptcy court and satisfy the modified reporting requirements of Commission Staff Legal Bulletin No. 2.

Note: As of April 16, 2003, issuers within paragraph (a)(3)(i) of this Rule include (A) asset-backed issuers, (B) unit investment trusts, as defined in Section 4(2) of the Investment Company Act, that have not filed or updated a registration statement that became effective during the preceding year, and (C) Small Business Investment Companies registered on Form N-5 under the Investment Company Act, that have not filed or updated a registration statement that became effective during the preceding year.

(4) All Other Public Company Issuers

All issuers other than those described in paragraphs (a)(1), (a)(2) or (a)(3) of this Rule.

(b) Allocation of Accounting Support Fee Among Issuers

The accounting support fee shall be allocated among the classes in paragraph (a) of this Rule as follows:

(1) Equity and Investment Company Issuers

Each issuer described in paragraph (a)(1) and (a)(2) of this Rule shall be allocated a share of the accounting support fee in an amount equal to the accounting support fee multiplied by a fraction –

(i) the numerator of which is the average, monthly market capitalization of the issuer during the preceding calendar year, except that for issuers described in paragraph (a)(2) of this Rule, the numerator is one-tenth of the average, monthly market capitalization of the issuer; and

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Funding

(ii) the denominator of which is the sum of the average, monthly market capitalizations of the issuers described in paragraph (a)(1) of this Rule and one-tenth of the average, monthly market capitalizations of the issuers described in paragraph (a)(2) of this Rule.

(2) All Other Classes

Each issuer described in paragraphs (a)(3) and (a)(4) of this Rule shall be allocated a share of the accounting support fee equal to \$0.

(c) Adjustments

After the accounting support fee is calculated under Rule 7100 and allocated under this Rule, any adjustment to the share allocated to an issuer shall not affect the share allocated to any other issuer.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

Rule 7102. Assessment of Accounting Support Fee.

(a) Amount of Assessment

Each issuer is required to pay its share of the accounting support fee, as allocated under Rule 7101, rounded to the nearest hundred.

Note: If an issuer's share of the accounting support fee is less than \$50, that issuer will not be assessed. If the issuer's share of the accounting support fee is exactly \$50 more than a multiple of \$100, then the share will be rounded up to the nearest \$100.

(b) Notice of Assessment

The Board will use its best efforts to send a notice to each issuer, either electronically or by first-class mail, at the address shown on such issuer's most recent periodic report filed with the Commission, at the address submitted to the Commission's EDGAR system, or at such other address as the issuer provides to the Board. The Board's failure to send an issuer a notice, or the issuer's failure to receive a notice sent by the Board, shall not constitute a waiver of the Board's right to assess such issuer for its share of the accounting support fee or of the issuer's responsibility to pay its share of the accounting support fee.

(c) Petition for Correction

Any issuer who disagrees with the class in which it has been placed, or with the calculation by which its share of the accounting support fee was determined, may

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Funding

petition the Board for a correction of the share of the accounting support fee it was allocated. Any such petition shall include an explanation of the nature of the claimed mistake in classification or calculation, in writing, on or before the 30th day after the notice is sent. After a review of such a petition, the Board will determine whether the allocation is consistent with Section 109 of the Act and the Board's rules thereunder and provide the issuer a written explanation of its decision. The provisions of Rule 7103 shall be suspended while such a petition is pending before the Board.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

Rule 7103. Collection of Accounting Support Fee.

(a) Accounting Support Fee Payment Due Date

Unless the Board directs otherwise, payment shall be due on the 30th day after the notice is sent. Beginning on the 31st day, payment shall be deemed past due and interest shall accrue at a rate of 6 percent per annum.

(b) Confirmation of Payment of Accounting Support Fee by Registered Accounting Firm

(1) Except as provided in paragraph (b)(2) of this Rule, no registered public accounting firm shall sign an unqualified audit opinion with respect to an issuer's financial statements, or issue a consent to include an audit opinion issued previously, unless the registered public accounting firm has ascertained that the issuer has outstanding no past-due share of the accounting support fee or has a petition pursuant to Rule 7102(c) pending.

(2) A registered public accounting firm may sign an unqualified audit opinion with respect to an issuer's financial statements, or issue a consent to include an audit opinion issued previously, even though the issuer has outstanding a past-due share of the accounting support fee and has not filed a petition under Rule 7102(c), if the issuer needs the report or consent in order to submit a report to, or make a filing with, the Commission or to issue securities. The issuer shall submit to the Board a notice of the signing of the opinion or issuance of the consent not later than the next business day after the filing is made with the Commission. This exception to paragraph (b)(1) of this Rule shall not continue longer than 15 business days after the earlier of the date of the notice's submission or the filing of the report with the Commission, and may not be invoked for more than one such period with respect to any share of the accounting support fee that the issuer is assessed under Rule 7102.

Note 1: A registered public accounting firm may ascertain that an issuer has no outstanding past-due share of the accounting support fee by obtaining a representation from the issuer or a confirmation from the Board that no past-due share of the accounting support fee is outstanding.

Public Company Accounting Oversight Board Bylaws and Rules – Rules – Funding

Note 2: A notice pursuant to paragraph (b)(2) of this Rule must be submitted electronically by email to rule7103stay@pcaobus.org.

(c) Report to the Commission of Non-payment of an Accounting Support Fee

If an issuer has not paid its share of the accounting support fee by the 60th day after the notice was sent, and the issuer does not have a petition pursuant to Rule 7102(c) pending, the Board may send a second notice to such issuer by certified mail. If the Board has sent such a second notice and has not been paid by the 90th day after the original notice was sent, the Board may report the issuer's nonpayment to the Commission.

Note: Section 13(b)(2) of the Exchange Act provides, in part, that: "Every issuer which has a class of securities registered pursuant to section 12 of this title and every issuer which is required to file reports pursuant to section 15(d) of this title shall – * * * (C) notwithstanding any other provision of law, pay the allocable share of such issuer of a reasonable accounting support fee or fees, determined in accordance with Section 109 of the Sarbanes-Oxley Act of 2002."

(d) Excess Fees

If in any Board fiscal year, the Board receives fees in excess of the budget for that fiscal year, the Board shall hold those excess fees in escrow. Such escrowed excess fees shall be released to the Board at the beginning of the next fiscal year and shall reduce the Board's accounting support fee in that next fiscal year.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

Rule 7104. Service as Designated Collection Agent.

If the Board is designated to serve as collection agent for an accounting support fee of a standard-setting body designated by the Commission pursuant to Section 19(b) of the Securities Act, the assessment and collection of the accounting support fee shall be governed by Rules 7102 and 7103 as if the accounting support fee of the standard-setting body were the accounting support fee of the Board.

[Effective pursuant to SEC Release No. 34-48278, File No. PCAOB-2003-02 (August 1, 2003)]

FORMS

FORM 1 – APPLICATION FOR REGISTRATION

GENERAL INSTRUCTIONS

1. The definitions in the *Board's rules* apply to this form. Italicized terms in the instructions to this form are defined in the *Board's rules*. See Rule 1001.
2. Any *public accounting firm* applying to the *Board* for registration pursuant to Section 102 of the *Act* must file this form with the *Board*. See Rule 2101.
3. In addition to these instructions, the *rules* contained in Section 2 of the *Board's rules* govern applications for registration. Please read these *rules* and the instructions carefully before completing this form.
4. Unless otherwise directed by the *Board*, applicants must submit this form, and all exhibits to the form, to the *Board* electronically by completing the Web-based version of Form 1. Form 1 is available on the Board's Web site at: <http://www.pcaobus.org/Registration/index.aspx>. See Rule 2101.
5. This form must be accompanied by a registration fee in accordance with Section 102(f) of the *Act*. The amount of the required fee is available at <http://www.pcaobus.org/Registration/index.aspx>. An application for registration will not be deemed received by the *Board* until the registration fee has been paid. See Rule 2102.
6. An applicant may request confidential treatment of any portion of its application for registration that has not otherwise been publicly disclosed and that either contains information reasonably identified by the applicant as proprietary information or that is protected from public disclosure by applicable laws related to confidentiality of proprietary, personal, or other information. An applicant that requests confidential treatment must identify the portion of the application that it desires to keep confidential, and include, as Exhibit 99.1 to the application for registration, a detailed explanation as to why, based on the facts and circumstances of the particular case, the information is proprietary or is protected from disclosure by applicable laws related to the confidentiality of proprietary, personal, or other information. The *Board* will normally grant confidential treatment requests for information concerning non-public disciplinary proceedings. The *Board* will determine whether or not to grant other confidential treatment requests on a case-by-case basis. See Rule 2300(c).
7. If an applicant is prohibited by the law(s) of a non-U.S. jurisdiction from submitting to the *Board* information requested by all or a part of an Item to this

**Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1**

form, the applicant shall so indicate by making a notation under the relevant item number of the form and furnishing, as Exhibit 99.2 to the application for registration, the following information: (i) a copy of the relevant portion of the conflicting non-U.S. law, (ii) a legal opinion that submitting the information would cause the applicant to violate the conflicting non-U.S. law; and (iii) an explanation of the applicant's efforts to seek consents or waivers to eliminate the conflict, if the withheld information could be provided to the *Board* with a consent or waiver, and a representation that the applicant was unable to obtain such consents or waivers to eliminate the conflict.

8. Where this form requires disclosure of a sum of money, such amount must be stated in U.S. dollars and rounded to the nearest thousand. If such amount was received or paid in a currency other than U.S. dollars, the amount must be converted to U.S. dollars.
9. Where this form requires non-historical (i.e., current) information, applicants may submit the information as of a date not earlier than 90 days prior to submission of the application. Such information will be deemed current for purposes of this form.
10. Information submitted as part of this form, including any exhibit to this form, must be in the English language.

PART I – IDENTITY OF THE APPLICANT

Item 1.1 Name of Applicant

State the legal name of the applicant; if different, also state the name or names under which the applicant (or any predecessor for which the applicant is the successor in interest with respect to the entity's liabilities) issues *audit reports*, or has issued any *audit report* during the five years prior to the date of this application.

Item 1.2 Applicant Contact Information

State the physical address (and, if different, mailing address) of the applicant's headquarters office. State the telephone number and facsimile number of the applicant's headquarters office. If available, state the Website address of the applicant.

Item 1.3 Primary Contact and Signatories

State the name, title, physical business address (and, if different, business mailing address), telephone number, fax number, and e-mail address of a partner or authorized officer of the applicant who will serve as the applicant's primary contact with the *Board* regarding this application. Provide the same information for every person whose

**Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1**

signature appears in Part VIII or Part IX of this form, if any of those persons are different from the primary contact.

Item 1.4 Applicant's Form of Organization

State the applicant's legal form (e.g., proprietorship, partnership, limited liability partnership) and the jurisdiction (e.g., the *state* of the United States or comparable non-U.S. jurisdiction) under the law of which the applicant is organized or exists.

Item 1.5 Applicant's Offices

If the applicant has more than one office, furnish, as Exhibit 1.5, the physical address (and, if different, mailing address) of each of the applicant's offices.

Item 1.6 *Associated Entities* of Applicant

State the name and physical address (and, if different, mailing address) of all *associated entities* of the applicant that engage in the practice of public accounting or preparing or issuing *audit reports*, or comparable reports prepared for clients that are not *issuers*. Do not include any person listed in Item 7.1.

Item 1.7 Applicant's Licenses

List every license or certification number issued to the applicant authorizing it to engage in the business of auditing or accounting. For each such license or certification number, furnish the name of the issuing *state*, agency, board, or other authority.

PART II – LISTING OF APPLICANT'S PUBLIC COMPANY AUDIT CLIENTS AND RELATED FEES

Item 2.1 *Issuers* for Which Applicant Prepared *Audit Reports* During the Preceding Calendar Year

List the names of all *issuers* for which the applicant prepared or issued any *audit report* dated during the calendar year preceding the calendar year in which this application is filed. In addition to the *issuer's* name, this list must include, with respect to each *issuer*

–

a. The *issuer's* business address (as shown on its most recent filing with the *Commission*).

b. The date of the *audit report*.

**Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1**

- c. The total amount of fees billed for *audit services* for the *issuer's* fiscal year for which the *audit report* was issued.
- d. The total amount of fees billed for *other accounting services* for the *issuer's* fiscal year for which the *audit report* was issued.
- e. The total amount of fees billed for *non-audit services* for the *issuer's* fiscal year for which the *audit report* was issued.

Note: Only fees billed by the principal accountant (i.e., the *public accounting firm* that issued the *audit report*) need be disclosed in response to this Item. To the extent not previously disclosed or known by the applicant, estimated amounts may be used in responding to this Item. For investment company *issuers*, the fees disclosed in response to paragraphs (c) – (e) of this Item should include all fees for services rendered to the *issuer*, to the *issuer's* investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and to any entity controlling, controlled by, or under common control with, the adviser that provides ongoing services to the *issuer*.

Item 2.2 *Issuers* for Which Applicant Prepared *Audit Reports* During the Current Calendar Year

List the names of all *issuers* for which the applicant prepared or issued any *audit report* dated during the current calendar year. (Do not include *audit reports* the applicant expects to prepare or issue during this calendar year, but that have not yet been issued. These are called for in Item 2.3 below.) In addition to the *issuer's* name, include, with respect to each *issuer* –

- a. The *issuer's* business address (as shown on its most recent filing with the *Commission*).
- b. The date of the *audit report*.
- c. The total amount of fees billed for *audit services* for the *issuer's* fiscal year for which the *audit report* was issued.
- d. The total amount of fees billed for *other accounting services* for the *issuer's* fiscal year for which the *audit report* was issued.
- e. The total amount of fees billed for *non-audit services* for the *issuer's* fiscal year for which the *audit report* was issued.

Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1

Note: Only fees billed by the principal accountant (i.e., the *public accounting firm* that issued the *audit report*) need be disclosed in response to this Item. To the extent not previously disclosed or known by the applicant, estimated amounts may be used in responding to this Item. For investment company issuers, the fees disclosed in response to paragraphs (c) – (e) of this Item should include all fees for services rendered to the *issuer*, to the *issuer's* investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and to any entity controlling, controlled by, or under common control with, the adviser that provides ongoing services to the *issuer*.

Item 2.3 *Issuers for Which Applicant Expects to Prepare Audit Reports During the Current Calendar Year*

List the names of all *issuers* for which the applicant expects to prepare or issue any *audit report* dated during the calendar year in which this application is filed. In addition to the *issuer's* name, include, with respect to each *issuer*, the *issuer's* business address (as shown on its most recent filing with the *Commission*).

Note: An applicant may presume that it is expected to prepare or issue an *audit report* for an *issuer* (i) if it has been engaged to do so, or (ii) if it issued an *audit report* during the preceding calendar year for an *issuer*, absent an indication from the *issuer* that it no longer intends to engage the applicant.

Item 2.4 *Issuers for Which Applicant Played, or Expects to Play, a Substantial Role in Audit*

For applicants that did not prepare or issue an *audit report* dated during the preceding or current calendar year, and that do not expect to prepare or issue an *audit report* dated during the current calendar year, list the names of all *issuers* for which the applicant *played, or expects to play, a substantial role in the preparation or furnishing of an audit report* dated during the preceding or current calendar year. In addition to the *issuer's* name, this list must include, with respect to each *issuer* –

- a. The *issuer's* business address (as shown on its most recent filing with the *Commission*).
- b. The name of the *public accounting firm* that issued, or is expected to issue, the *audit report*.
- c. The date of the *audit report*, if it has been issued.
- d. The type of substantial role played by the applicant with respect to the *audit report*.

Note: Applicants that disclosed the name of an *issuer* in response to any of Items 2.1 – 2.3 need not respond to this Item. In responding to the part of this Item that asks about *issuers* for which the applicant expects to *play a substantial role in the preparation or furnishing of an audit report*, an applicant may presume that it is *expected to play a substantial role in the preparation or furnishing of an audit report* for an *issuer* (i) if it has been engaged to do so, or (ii) if it *played a substantial role in the preparation and furnishing of an audit report* during the preceding calendar year, absent an indication from the *issuer* or principal accounting firm that it no longer intends to engage the applicant.

PART III – [RESERVED]

PART IV – STATEMENT OF APPLICANT'S QUALITY CONTROL POLICIES

Item 4.1 Applicant's Quality Control Policies

Furnish, as Exhibit 4.1, a narrative, summary description, in a clear, concise and understandable format, of the quality control policies of the applicant for its accounting and auditing practices, including procedures used to monitor compliance with independence requirements.

PART V – LISTING OF CERTAIN PROCEEDINGS INVOLVING THE APPLICANT

Item 5.1 Certain Criminal, Civil and Administrative Proceedings

a. Indicate whether or not the applicant or any *associated person* of the applicant is a defendant or respondent –

1. in any pending criminal proceeding, or was a defendant in any such proceeding in which a judgment was rendered against the applicant or such person, whether by plea or after trial, during the previous five years;

2. in any pending civil or alternative dispute resolution proceeding initiated by a governmental entity (including a non-U.S. jurisdiction) arising out of the applicant's or such person's conduct in connection with an *audit report*, or a comparable report prepared for a client that is not an *issuer*, or was a defendant or respondent in any such proceeding in which a judgment or award was rendered against the applicant or such person, whether by consent or otherwise, during the previous five years;

Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1

3. in any pending administrative or disciplinary proceeding arising out of the applicant's or such person's conduct in connection with an *audit report*, or a comparable report prepared for a client that is not an issuer, or was a respondent in any such proceeding in which a finding of violation was rendered, or a sanction entered, against the applicant or such person, whether by consent or otherwise, during the previous five years. Administrative or disciplinary proceedings include those of the *Commission*; the *Board*; any other federal, *state*, or non-U.S. agency, board, or administrative or licensing authority; and any professional association or body. Investigations that have not resulted in the commencement of a proceeding need not be included;

b. In the event of an affirmative response to Item 5.1.a, furnish the following information with respect to each such proceeding:

1. The name, filing date, and case or docket number of the proceeding.

2. The name and address of the court, tribunal, or body in which such proceeding was filed.

3. The names of all defendants or respondents in such proceeding who are also the applicant, any person listed in Part VII, or any *person associated with the applicant* at the time that the events in question occurred.

4. The name of the *issuer* or other client that was the subject of the *audit report* or comparable report.

5. With respect to each person named in Item 5.1.b.3, the statutes, rules, or other requirements such person was found to have violated (or, in the case of a pending proceeding, is charged with having violated).

6. With respect to each person named in Item 5.1.b.3, the outcome of the proceeding, including any sentence or sanction imposed. (If no judgment or award has yet been rendered, enter the word "pending.")

Note: *Foreign public accounting firm* applicants need only disclose such proceedings for the applicant and any proprietor, partner, principal, shareholder, officer, or manager of the applicant who provided at least ten hours of *audit services* for any *issuer* during the last calendar year.

Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1

Item 5.2 Pending Private Civil Actions

a. Indicate whether or not the applicant or any *associated person* of the applicant is a defendant or respondent in any pending civil proceeding or alternative dispute resolution proceeding initiated by a non-governmental entity involving conduct in connection with an *audit report*, or a comparable report prepared for a client that is not an *issuer*.

b. In the event of an affirmative response to Item 5.2.a, furnish the following information with respect to each such proceeding:

1. The name, filing date, and case or docket number of the proceeding.
2. The name and address of the court, tribunal or body in which such proceeding was filed.
3. The names of all defendants or respondents in such proceeding who are also the applicant, any person listed in Part VII, or any *person associated with the applicant* at the time that the events in question occurred.
4. The name of the *issuer* or other client that was the subject of the *audit report* or comparable report.
5. With respect to each person named in Item 5.2.b.3, the statutes, rules, or other requirements such person is alleged to have violated.

Note: *Foreign public accounting firm* applicants need only disclose such proceedings for the applicant and any proprietor, partner, principal, shareholder, officer, or manager of the applicant who provided at least ten hours of *audit services* for any *issuer* during the last calendar year.

Item 5.3 Applicant's Discretionary Statement Regarding Proceedings Involving the Applicant's Audit Practice

With respect to any case or proceeding listed in response to Items 5.1 or 5.2, the applicant may, at its discretion, furnish, as Exhibit 5.3, a statement or statements describing the proceeding and the reasons that, in the applicant's view, such proceeding should not be a basis for the denial of its application for registration.

**PART VI – LISTING OF FILINGS DISCLOSING ACCOUNTING DISAGREEMENTS
WITH PUBLIC COMPANY AUDIT CLIENTS**

Item 6.1 Existence of Disagreements With *Issuers*

a. Indicate whether or not the applicant has been the former accountant with respect to any disclosure of a disagreement with an *issuer* made by such *issuer* during the current or preceding calendar year in a filing with the *Commission* pursuant to Item 304(a)(1)(iv) of Regulation S-K, 17 C.F.R. 229.304(a)(1)(iv).

b. Indicate whether or not the applicant has been the former accountant with respect to any filing made by an *issuer* during the current or preceding calendar year with the *Commission* containing a letter submitted by the applicant to the *Commission* pursuant to Item 304(a)(3) of Regulation S-K, 17 C.F.R. 229.304(a)(3), in which the applicant stated that it disagreed with a statement of the issuer in response to Item 304(a).

Item 6.2 Listing of Disagreements With *Issuers*

In the event of an affirmative response to Items 6.1.a or 6.1.b, furnish the following information with respect to each such filing:

a. The name of the *issuer*.

b. The name and date of the filing containing the disclosure of the disagreement or the applicant's letter.

Item 6.3 Copies of Filings

Furnish, as Exhibit 6.3, a copy of every filing described in Item 6.2.

PART VII – ROSTER OF ASSOCIATED ACCOUNTANTS

Item 7.1 Listing of *Accountants* Associated with Applicants

List the names of all *accountants* associated with the applicant who participate in or contribute to the preparation of *audit reports*. For each such person, list every license or certification number (if any) authorizing him or her to engage in the business of auditing or accounting. For each such license or certification number, furnish the name of the issuing *state*, agency, board, or other authority.

Note: For purposes of this Item, applicants that are not *foreign public accounting firms* must list all *accountants* who are *persons associated with the applicant* and who provided at least ten hours of *audit services* for any *issuer* during the last

**Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1**

calendar year. Applicants that are *foreign public accounting firms* must list all *accountants* who are a proprietor, partner, principal, shareholder, officer, or manager of the applicant and who provided at least ten hours of *audit services* for any *issuer* during the last calendar year.

Item 7.2 Number of Firm Personnel

State the –

- a. Total number of *accountants* employed by the applicant.
- b. Total number of certified public accountants, or *accountants* with comparable licenses from non-U.S. jurisdictions, employed by the applicant.
- c. Total number of personnel employed by the applicant.

PART VIII – CONSENTS OF APPLICANT

Item 8.1 Consent to Cooperate with the *Board* and Statement of Acceptance of Registration Condition

Furnish, as Exhibit 8.1, a statement, signed on behalf of the applicant by an authorized partner or officer of the applicant in accordance with Rule 2104, in the following form –

- a. [Name of applicant] consents to cooperate in and comply with any request for testimony or the production of documents made by the Public Company Accounting Oversight Board in furtherance of its authority and responsibilities under the Sarbanes-Oxley Act of 2002.
- b. [Name of applicant] agrees to secure and enforce similar consents from each of its *associated persons* as a condition of their continued employment by or other association with the firm.
- c. [Name of applicant] understands and agrees that cooperation and compliance, as described in the firm's consent in paragraph (a), and the securing and enforcement of such consents from its *associated persons* in accordance with paragraph (b), shall be a condition to the continuing effectiveness of the registration of the firm with the Public Company Accounting Oversight Board.

Note 1: Other than the insertion of the name of the applicant in paragraphs (a), (b), and (c) of this Item, Exhibit 8.1 must be in the exact words contained in this instruction. The consents required by paragraph (b) of this Item must be in the exact words of Note 2 below and must be secured by the applicant not later than 45 days after

**Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1**

submitting this application or, for persons who become *associated persons* of the firm subsequent to the submission of this application, at the time of the person's association with the firm. Consents required by paragraph (b) of this Item are not required to be furnished as an exhibit to this form.

Note 2: Other than the insertion of the name of the *associated person*, the consents required by paragraph (b) of this Item must state: [Name of *associated person*] consents to cooperate in and comply with any request for testimony or the production of documents made by the Public Company Accounting Oversight Board in furtherance of its authority and responsibilities under the Sarbanes-Oxley Act of 2002. [Name of *associated person*] understands and agrees that this consent is a condition of their continued employment by or other association with [name of applicant].

Note 3: For applicants that are *foreign public accounting firms*, the term "*associated persons*" as used in this Item means all *accountants* who are a proprietor, partner, principal, shareholder, officer, or manager of the applicant and who provided at least ten hours of *audit services* for any *issuer* during the last calendar year.

PART IX – SIGNATURE OF APPLICANT

Item 9.1 Signature of Partner or Authorized Officer

The application must be signed on behalf of the applicant by an authorized partner or officer of the applicant in accordance with Rule 2104. The signer must certify that he or she has reviewed the application; that the application is, based on the signer's knowledge, complete and does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading, and that the signer is authorized to execute the application on behalf of the applicant. The signature must be accompanied by the name of the signer, the capacity in which the signer signed the application, and the date of signature.

PART X – EXHIBITS

To the extent applicable under the foregoing instructions, each application must be accompanied by the following exhibits:

Exhibit 1.5 Listing of Offices

Exhibit 4.1 Statement of Quality Control Policies

**Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1**

- Exhibit 5.3 Discretionary Statements Regarding Proceedings Involving Audit Practice
- Exhibit 6.3 Securities and Exchange Commission Filings Disclosing Accounting Disagreements With Public Company Audit Clients
- Exhibit 8.1 Consent of Applicant for Registration
- Exhibit 99.1 Request for Confidential Treatment
- Exhibit 99.2 Evidence of Conflicting Non-U.S. Law

Note: Where an exhibit consists of more than one document, each document must be numbered consecutively (e.g., Exhibit 4.1.1, Exhibit 4.1.2, Exhibit 4.1.3, etc.), and the applicant must provide a list of the title or description of each document comprising the exhibit.

[Effective pursuant to SEC Release No. 34-48180, File No. PCAOB-2003-03 (July 16, 2003)]

FORMS

FORM 1-WD REQUEST FOR LEAVE TO WITHDRAW FROM REGISTRATION

GENERAL INSTRUCTIONS

1. The definitions in the *Board's* rules apply to this form. Italicized terms in the instructions to this form are defined in the *Board's* rules. See Rule 1001.
2. Any *registered public accounting firm* seeking to withdraw from registration with the *Board* must file this form with the *Board*.
3. In addition to these instructions, the *Board's* Rule 2107 governs applications for leave to withdraw from registration. Please read Rule 2107 and the instructions carefully before completing this form.
4. Unless otherwise directed by the *Board*, a *registered public accounting firm* seeking to withdraw from registration must submit this form to the *Board* electronically by completing the Web-based version of Form 1-WD. The date of such submission shall be deemed the date of *Board* receipt of the Form. The registered public accounting firm must also submit an original hard copy of the form with manual signatures in Item 3.1 and Item 5.1, with such signatures dated not later than the date of electronic submission.
5. Pursuant to Rule 2107, any Form 1-WD filed with the *Board* shall be non-public. A registered public accounting firm may submit with Form 1-WD a request for *Board* notification in the event that the *Board* is requested by subpoena or other legal process to disclose the Form 1-WD. The *Board* will make reasonable attempts to honor any such request, although the *Board* will make public the fact that the firm has requested to withdraw from registration.
6. Information submitted as part of this form must be in the English language.

PART I – IDENTITY OF THE REGISTERED PUBLIC ACCOUNTING FIRM

Item 1.1 Name of the Firm Requesting Leave to Withdraw

State the legal name of the firm requesting leave to withdraw; if different, also state the name or names under which the firm (or any predecessor) issues *audit reports*, or has issued any *audit report* during the period of the firm's registration with the *Board*.

Item 1.2 Firm Contact Information

**Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1-WD**

State the physical address (and, if different, mailing address) of the firm's headquarters office. State the telephone number and facsimile number of the firm's headquarters office.

Item 1.3 Primary Contact and Signatories

State the name, title, physical business address (and, if different, business mailing address), telephone number, facsimile number, and e-mail address of a partner or authorized officer of the firm who will serve as the firm's primary contact with the *Board* regarding this application. Provide the same information for every person whose signature appears in Part III or Part V of the form, if any of those persons are different from the primary contact.

PART II – DESCRIPTION OF ONGOING REGULATORY OR LAW ENFORCEMENT PROCEEDINGS

Item 2.1 Description of Ongoing Regulatory or Law Enforcement Proceedings

Identify all ongoing federal, state, or local investigative, disciplinary, regulatory, criminal, or other law enforcement proceedings that are known to the firm, including to any of the firm's partners or officers, and that address in whole or in part (1) conduct of the firm or (2) *audit*-related conduct of any of the firm's associated persons. For each such proceeding, state –

- a. The identity of the federal, state, or local authority conducting the proceeding;
- b. The caption or other identifying information of the proceeding;
- c. The date that the firm or a partner or officer of the firm first became aware of the proceeding;
- d. The firm's understanding of the current status of the proceeding; and
- e. The conduct of the firm and the firm's associated persons that the proceeding addresses.

PART III – CERTIFICATION OF NONPARTICIPATION IN AUDITS

Item 3.1 Statement of Nonparticipation in *Audits*

Furnish a statement, dated and signed on behalf of the firm by an authorized partner or officer of the firm, in the following form –

**Public Company Accounting Oversight Board
Bylaws and Rules – Forms – Form 1-WD**

On behalf of [name of firm], I certify that [name of firm] is not currently, and will not during the pendency of its request for leave to withdraw be, engaged in the preparation or issuance of, or playing a substantial role in the preparation or furnishing of, an audit report, other than to issue a consent to the use of an audit report for a prior period.

Note: Other than the insertion of the name of the firm the statement must be in the exact words contained in this instruction.

Part IV – REASONS FOR SEEKING LEAVE TO WITHDRAW (Optional)

Item 4.1 Description of Reasons for Seeking Leave to Withdraw

Describe, if you choose to do so, the reason or reasons that the firm seeks leave to withdraw from registration.

PART V – SIGNATURE OF FIRM SEEKING LEAVE TO WITHDRAW

Item 5.1 Signature of Authorized Partner or Officer

The request for leave to withdraw from registration must be signed on behalf of the firm by an authorized partner or officer of the firm. The signer must certify that he or she has reviewed the application; that the application is, based on the signer's knowledge, complete and does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statement made, in light of the circumstances under which such statements were made, not misleading, and that the signer is authorized to execute the application on behalf of the firm. The signature must be accompanied by the title of the signer and the date of the signature.

[Effective pursuant to SEC Release No. 34-49694, File No. PCAOB-2003-09 (May 13, 2004)]

**AUDITING STANDARD No. 1 – References in Auditors' Reports to the Standards
of the Public Company Accounting Oversight Board**

May 14, 2004

AUDITING AND RELATED PROFESSIONAL PRACTICE STANDARDS

Auditing Standard No. 1 –

***REFERENCES IN AUDITORS' REPORTS TO THE
STANDARDS OF THE PUBLIC COMPANY
ACCOUNTING OVERSIGHT BOARD***

PCAOB

Public Company Accounting Oversight Board

[Effective pursuant to SEC Release No. 34-49707, File No. PCAOB-2003-10 (May 14, 2004)]

References in Auditors' Reports to the Standards of the Public Company Accounting Oversight Board

1. The Sarbanes-Oxley Act of 2002 authorized the Public Company Accounting Oversight Board ("PCAOB") to establish auditing and related professional practice standards to be used by registered public accounting firms. PCAOB Rule 3100, *Compliance with Auditing and Related Professional Practice Standards*, requires the auditor to comply with all applicable auditing and related professional practice standards of the PCAOB.
2. The Board has adopted as interim standards, on an initial, transitional basis, the generally accepted auditing standards, described in the American Institute of Certified Public Accountants' ("AICPA") Auditing Standards Board's Statement on Auditing Standards No. 95, *Generally Accepted Auditing Standards*, in existence on April 16, 2003.^{1/}
3. Accordingly, in connection with any engagement performed in accordance with the auditing and related professional practice standards of the PCAOB, whenever the auditor is required by the interim standards to make reference in a report to generally accepted auditing standards, U.S. generally accepted auditing standards, auditing standards generally accepted in the United States of America, or standards established by the AICPA, the auditor must instead refer to "the standards of the Public Company Accounting Oversight Board (United States)." An auditor must also include the city and state (or city and country, in the case of non-U.S. auditors) from which the auditor's report has been issued.
4. This auditing standard is effective for auditors' reports issued or reissued on or after the 10th day following approval of this auditing standard by the Securities and Exchange Commission.
5. Audit reports issued prior to the effective date of this standard were required to state that the audits that supported those reports were performed in accordance with generally accepted auditing standards. The PCAOB adopted those generally accepted auditing standards, including their respective effective dates, as they existed on April 16, 2003, as interim standards. Therefore, reference to "the standards of the Public Company Accounting Oversight Board (United States)" with respect to audits of financial statements performed prior to the effective date of this standard is equivalent to the previously-required reference to generally accepted auditing standards. Accordingly, upon adoption of this standard, a reference to generally accepted auditing standards in auditors' reports is no longer appropriate or necessary.

^{1/} The Board's rules on interim standards were adopted by the Board on April 16, 2003, and approved by the Commission on April 25, 2003. See SEC Rel. No. 33-8222 (April 25, 2003).

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS1**

Note: The term "auditor" in this standard is intended to include both registered public accounting firms and associated persons thereof.

**APPENDIX
Illustrative Reports**

The following is an illustrative report on an audit of financial statements:

Report of Independent Registered Public Accounting Firm

We have audited the accompanying balance sheets of X Company as of December 31, 20X3 and 20X2, and the related statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 20X3. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of [at] December 31, 20X3 and 20X2, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 20X3, in conformity with U.S. generally accepted accounting principles.

[Signature]

[City and State or Country]

[Date]

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS1**

The following is an illustrative report on a review of interim financial information:

Report of Independent Registered Public Accounting Firm

We have reviewed the accompanying [*describe the interim financial information or statements reviewed*] of X Company as of September 30, 20X3 and 20X2, and for the three-month and nine-month periods then ended. This (these) interim financial information (statements) is (are) the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial (statements) for it (them) to be in conformity with U.S. generally accepted accounting principles.

Applicability of Standard

1. This standard establishes requirements and provides directions that apply when an auditor is engaged to audit both a company's financial statements and management's assessment of the effectiveness of internal control over financial reporting.

Note: The term *auditor* includes both public accounting firms registered with the Public Company Accounting Oversight Board ("PCAOB" or the "Board") and associated persons thereof.

2. A company subject to the reporting requirements of the Securities Exchange Act of 1934 (an "issuer") is required to include in its annual report a report of management on the company's internal control over financial reporting. Registered investment companies, issuers of asset-backed securities, and nonpublic companies are not subject to the reporting requirements mandated by Section 404 of the Sarbanes-Oxley Act of 2002 (the "Act") (PL 107-204). The report of management is required to contain management's assessment of the effectiveness of the company's internal control over financial reporting as of the end of the company's most recent fiscal year, including a statement as to whether the company's internal control over financial reporting is effective. The auditor that audits the company's financial statements included in the annual report is required to attest to and report on management's assessment. The company is required to file the auditor's attestation report as part of the annual report.

Note: The term issuer means an issuer (as defined in Section 3 of the Securities Exchange Act of 1934), the securities of which are registered under Section 12 of that Act, or that is required to file reports under Section 15(d) of that Act, or that files or has filed a registration statement with the Securities and Exchange Commission ("SEC" or "Commission") that has not yet become effective under the Securities Act of 1933, and that it has not withdrawn.

Note: Various parts of this standard summarize legal requirements imposed on issuers by the SEC, as well as legal requirements imposed on auditors by regulatory authorities other than the PCAOB. These parts of the standard are intended to provide context and to promote the auditor's understanding of the relationship between his or her obligations under this standard and his or her other legal responsibilities. The standard does not incorporate these legal requirements by reference and is not an interpretation of those other requirements and should not be so construed. (This Note does not apply to references in the standard to the existing professional standards and the Board's interim auditing and related professional practice standards.)

3. This standard is the standard on attestation engagements referred to in Section 404(b) of the Act. This standard is also the standard referred to in Section

103(a)(2)(A)(iii) of the Act. Throughout this standard, the auditor's attestation of management's assessment of the effectiveness of internal control over financial reporting required by Section 404(b) of the Act is referred to as the *audit of internal control over financial reporting*.

Note: The two terms *audit of internal control over financial reporting* and *attestation of management's assessment of the effectiveness of internal control over financial reporting* refer to the same professional service. The first refers to the process, and the second refers to the result of that process.

Auditor's Objective in an Audit of Internal Control Over Financial Reporting

4. The auditor's objective in an audit of internal control over financial reporting is to express an opinion on management's assessment of the effectiveness of the company's internal control over financial reporting. To form a basis for expressing such an opinion, the auditor must plan and perform the audit to obtain reasonable assurance about whether the company maintained, in all material respects, effective internal control over financial reporting as of the date specified in management's assessment. The auditor also must audit the company's financial statements as of the date specified in management's assessment because the information the auditor obtains during a financial statement audit is relevant to the auditor's conclusion about the effectiveness of the company's internal control over financial reporting. Maintaining effective internal control over financial reporting means that no material weaknesses exist; therefore, the objective of the audit of internal control over financial reporting is to obtain reasonable assurance that no material weaknesses exist as of the date specified in management's assessment.

5. To obtain reasonable assurance, the auditor evaluates the assessment performed by management and obtains and evaluates evidence about whether the internal control over financial reporting was designed and operated effectively. The auditor obtains this evidence from a number of sources, including using the work performed by others and performing auditing procedures himself or herself.

6. The auditor should be aware that persons who rely on the information concerning internal control over financial reporting include investors, creditors, the board of directors and audit committee, and regulators in specialized industries, such as banking or insurance. The auditor should be aware that external users of financial statements are interested in information on internal control over financial reporting because it enhances the quality of financial reporting and increases their confidence in financial information, including financial information issued between annual reports, such as quarterly information. Information on internal control over financial reporting is also intended to provide an early warning to those inside and outside the company who are in a position to insist on improvements in internal control over financial reporting, such

as the audit committee and regulators in specialized industries. Additionally, Section 302 of the Act and Securities Exchange Act Rule 13a-14(a) or 15d-14(a),^{1/} whichever applies, require management, with the participation of the principal executive and financial officers, to make quarterly and annual certifications with respect to the company's internal control over financial reporting.

Definitions Related to Internal Control Over Financial Reporting

7. For purposes of management's assessment and the audit of internal control over financial reporting in this standard, *internal control over financial reporting* is defined as follows:

A process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Note: This definition is the same one used by the SEC in its rules requiring management to report on internal control over financial reporting, except the word "registrant" has been changed to "company" to conform to the wording in this standard. (See Securities Exchange Act Rules 13a-15(f) and 15d-15(f).^{2/})

^{1/} See 17 C.F.R. 240.13a-14(a) or 17 C.F.R. 240.15d-14(a), whichever applies.

^{2/} See 17 C.F.R. 240, 13a-15(f) and 15d-15(f).

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

Note: Throughout this standard, *internal control over financial reporting* (singular) refers to the process described in this paragraph. Individual controls or subsets of controls are referred to as *controls* or *controls over financial reporting*.

8. A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

- A deficiency in *design* exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective is not always met.
- A deficiency in *operation* exists when a properly designed control does not operate as designed, or when the person performing the control does not possess the necessary authority or qualifications to perform the control effectively.

9. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the company's ability to initiate, authorize, record, process, or report external financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the company's annual or interim financial statements that is more than inconsequential will not be prevented or detected.

Note: The term "remote likelihood" as used in the definitions of *significant deficiency* and *material weakness* (paragraph 10) has the same meaning as the term "remote" as used in Financial Accounting Standards Board Statement No. 5, *Accounting for Contingencies* ("FAS No. 5"). Paragraph 3 of FAS No. 5 states:

When a loss contingency exists, the likelihood that the future event or events will confirm the loss or impairment of an asset or the incurrence of a liability can range from probable to remote. This Statement uses the terms *probable*, *reasonably possible*, and *remote* to identify three areas within that range, as follows:

- a. *Probable*. The future event or events are likely to occur.
- b. *Reasonably possible*. The chance of the future event or events occurring is more than remote but less than likely.
- c. *Remote*. The chance of the future events or events occurring is slight.

Therefore, the likelihood of an event is "more than remote" when it is either reasonably possible or probable.

Note: A misstatement is *inconsequential* if a reasonable person would conclude, after considering the possibility of further undetected misstatements, that the misstatement, either individually or when aggregated with other misstatements, would clearly be immaterial to the financial statements. If a reasonable person could not reach such a conclusion regarding a particular misstatement, that misstatement is *more than inconsequential*.

10. A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

Note: In evaluating whether a control deficiency exists and whether control deficiencies, either individually or in combination with other control deficiencies, are significant deficiencies or material weaknesses, the auditor should consider the definitions in paragraphs 8, 9 and 10, and the directions in paragraphs 130 through 137. As explained in paragraph 23, the evaluation of the materiality of the control deficiency should include both quantitative and qualitative considerations. Qualitative factors that might be important in this evaluation include the nature of the financial statement accounts and assertions involved and the reasonably possible future consequences of the deficiency. Furthermore, in determining whether a control deficiency or combination of deficiencies is a significant deficiency or a material weakness, the auditor should evaluate the effect of compensating controls and whether such compensating controls are effective.

11. Controls over financial reporting may be *preventive controls* or *detective controls*.

- Preventive controls have the objective of preventing errors or fraud from occurring in the first place that could result in a misstatement of the financial statements.
- Detective controls have the objective of detecting errors or fraud that have already occurred that could result in a misstatement of the financial statements.

12. Even well-designed controls that are operating as designed might not prevent a misstatement from occurring. However, this possibility may be countered by overlapping preventive controls or partially countered by detective controls. Therefore, effective internal control over financial reporting often includes a combination of preventive and detective controls to achieve a specific control objective. The auditor's procedures as part of either the audit of internal control over financial reporting or the audit of the financial statements are not part of a company's internal control over financial reporting.

Framework Used by Management to Conduct Its Assessment

13. Management is required to base its assessment of the effectiveness of the company's internal control over financial reporting on a suitable, recognized control framework established by a body of experts that followed due-process procedures, including the broad distribution of the framework for public comment. In addition to being available to users of management's reports, a framework is suitable only when it:

- Is free from bias;
- Permits reasonably consistent qualitative and quantitative measurements of a company's internal control over financial reporting;
- Is sufficiently complete so that those relevant factors that would alter a conclusion about the effectiveness of a company's internal control over financial reporting are not omitted; and
- Is relevant to an evaluation of internal control over financial reporting.

Committee of Sponsoring Organizations Framework

14. In the United States, the Committee of Sponsoring Organizations ("COSO") of the Treadway Commission has published *Internal Control – Integrated Framework*. Known as the COSO report, it provides a suitable and available framework for purposes of management's assessment. For that reason, the performance and reporting directions in this standard are based on the COSO framework. Other suitable frameworks have been published in other countries and may be developed in the future. Such other suitable frameworks may be used in an audit of internal control over financial reporting. Although different frameworks may not contain exactly the same elements as COSO, they should have elements that encompass, in general, all the themes in COSO. Therefore, the auditor should be able to apply the concepts and guidance in this standard in a reasonable manner.

15. The COSO framework identifies three primary objectives of internal control: efficiency and effectiveness of operations, financial reporting, and compliance with laws and regulations. The COSO perspective on internal control over financial reporting does not ordinarily include the other two objectives of internal control, which are the effectiveness and efficiency of operations and compliance with laws and regulations. However, the controls that management designs and implements may achieve more than one objective. Also, operations and compliance with laws and regulations directly related to the presentation of and required disclosures in financial statements are encompassed in internal control over financial reporting. Additionally, not all controls relevant to financial reporting are accounting controls. Accordingly, all controls that

could materially affect financial reporting, including controls that focus primarily on the effectiveness and efficiency of operations or compliance with laws and regulations and also have a material effect on the reliability of financial reporting, are a part of internal control over financial reporting. More information about the COSO framework is included in the COSO report and in AU sec. 319, Consideration of Internal Control in a Financial Statement Audit.^{3/} The COSO report also discusses special considerations for internal control over financial reporting for small and medium-sized companies.

Inherent Limitations in Internal Control Over Financial Reporting

16. Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

The Concept of Reasonable Assurance

17. Management's assessment of the effectiveness of internal control over financial reporting is expressed at the level of *reasonable assurance*. The concept of reasonable assurance is built into the definition of internal control over financial reporting and also is integral to the auditor's opinion.^{4/} Reasonable assurance includes the understanding that there is a remote likelihood that material misstatements will not be prevented or detected on a timely basis. Although not absolute assurance, reasonable assurance is, nevertheless, a high level of assurance.

^{3/} The Board adopted the generally accepted auditing standards, as described in the AICPA Auditing Standards Board's ("ASB") Statement on Auditing Standards No. 95, *Generally Accepted Auditing Standards*, as in existence on April 16, 2003, on an initial, transitional basis. The Statements on Auditing Standards promulgated by the ASB have been codified into the AICPA *Professional Standards*, Volume 1, as AU sections 100 through 900. References in this standard to AU sections refer to those generally accepted auditing standards, as adopted on an interim basis in PCAOB Rule 3200T.

^{4/} See *Final Rule: Management's Reports on Internal Control Over Financial Reporting and Certification of Disclosure in Exchange Act Periodic Reports*, Securities and Exchange Commission Release No. 33-8238 (June 5, 2003) [68 FR 36636] for further discussion of reasonable assurance.

18. Just as there are inherent limitations on the assurance that effective internal control over financial reporting can provide, as discussed in paragraph 16, there are limitations on the amount of assurance the auditor can obtain as a result of performing his or her audit of internal control over financial reporting. Limitations arise because an audit is conducted on a test basis and requires the exercise of professional judgment. Nevertheless, the audit of internal control over financial reporting includes obtaining an understanding of internal control over financial reporting, testing and evaluating the design and operating effectiveness of internal control over financial reporting, and performing such other procedures as the auditor considers necessary to obtain reasonable assurance about whether internal control over financial reporting is effective.

19. There is no difference in the level of work performed or assurance obtained by the auditor when expressing an opinion on management's assessment of effectiveness or when expressing an opinion directly on the effectiveness of internal control over financial reporting. In either case, the auditor must obtain sufficient evidence to provide a reasonable basis for his or her opinion and the use and evaluation of management's assessment is inherent in expressing either opinion.

Note: The auditor's report on internal control over financial reporting does not relieve management of its responsibility for assuring users of its financial reports about the effectiveness of internal control over financial reporting.

Management's Responsibilities in an Audit of Internal Control Over Financial Reporting

20. For the auditor to satisfactorily complete an audit of internal control over financial reporting, management must do the following:^{5/}

- a. Accept responsibility for the effectiveness of the company's internal control over financial reporting;
- b. Evaluate the effectiveness of the company's internal control over financial reporting using suitable control criteria;
- c. Support its evaluation with sufficient evidence, including documentation; and

^{5/} Management is required to fulfill these responsibilities. See Items 308(a) and (c) of Regulation S-B and S-K, 17 C.F.R. 228.308 (a) and (c) and 229.308 (a) and (c), respectively.

- d. Present a written assessment of the effectiveness of the company's internal control over financial reporting as of the end of the company's most recent fiscal year.

21. If the auditor concludes that management has not fulfilled the responsibilities enumerated in the preceding paragraph, the auditor should communicate, in writing, to management and the audit committee that the audit of internal control over financial reporting cannot be satisfactorily completed and that he or she is required to disclaim an opinion. Paragraphs 40 through 46 provide information for the auditor about evaluating management's process for assessing internal control over financial reporting.

Materiality Considerations in an Audit of Internal Control Over Financial Reporting

22. The auditor should apply the concept of materiality in an audit of internal control over financial reporting at both the financial-statement level and at the individual account-balance level. The auditor uses materiality at the financial-statement level in evaluating whether a deficiency, or combination of deficiencies, in controls is a significant deficiency or a material weakness. Materiality at both the financial-statement level and the individual account-balance level is relevant to planning the audit and designing procedures. Materiality at the account-balance level is necessarily lower than materiality at the financial-statement level.

23. The same conceptual definition of materiality that applies to financial reporting applies to information on internal control over financial reporting, including the relevance of both quantitative and qualitative considerations.^{6/}

- The quantitative considerations are essentially the same as in an audit of financial statements and relate to whether misstatements that would not be prevented or detected by internal control over financial reporting, individually or collectively, have a quantitatively material effect on the financial statements.
- The qualitative considerations apply to evaluating materiality with respect to the financial statements and to additional factors that relate to the perceived needs of reasonable persons who will rely on the information. Paragraph 6 describes some qualitative considerations.

Fraud Considerations in an Audit of Internal Control Over Financial Reporting

^{6/} AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, provides additional explanation of materiality.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

24. The auditor should evaluate all controls specifically intended to address the risks of fraud that have at least a reasonably possible likelihood of having a material effect on the company's financial statements. These controls may be a part of any of the five components of internal control over financial reporting, as discussed in paragraph 49. Controls related to the prevention and detection of fraud often have a pervasive effect on the risk of fraud. Such controls include, but are not limited to, the:

- Controls restraining misappropriation of company assets that could result in a material misstatement of the financial statements;
- Company's risk assessment processes;
- Code of ethics/conduct provisions, especially those related to conflicts of interest, related party transactions, illegal acts, and the monitoring of the code by management and the audit committee or board;
- Adequacy of the internal audit activity and whether the internal audit function reports directly to the audit committee, as well as the extent of the audit committee's involvement and interaction with internal audit; and
- Adequacy of the company's procedures for handling complaints and for accepting confidential submissions of concerns about questionable accounting or auditing matters.

25. Part of management's responsibility when designing a company's internal control over financial reporting is to design and implement programs and controls to prevent, deter, and detect fraud. Management, along with those who have responsibility for oversight of the financial reporting process (such as the audit committee), should set the proper tone; create and maintain a culture of honesty and high ethical standards; and establish appropriate controls to prevent, deter, and detect fraud. When management and those responsible for the oversight of the financial reporting process fulfill those responsibilities, the opportunities to commit fraud can be reduced significantly.

26. In an audit of internal control over financial reporting, the auditor's evaluation of controls is interrelated with the auditor's evaluation of controls in a financial statement audit, as required by AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*. Often, controls identified and evaluated by the auditor during the audit of internal control over financial reporting also address or mitigate fraud risks, which the auditor is required to consider in a financial statement audit. If the auditor identifies deficiencies in controls designed to prevent and detect fraud during the audit of internal control over financial reporting, the auditor should alter the nature, timing, or extent of procedures to be performed during the financial statement audit to be responsive to such deficiencies, as provided in paragraphs .44 and .45 of AU sec. 316.

Performing an Audit of Internal Control Over Financial Reporting

27. In an audit of internal control over financial reporting, the auditor must obtain sufficient competent evidence about the design and operating effectiveness of controls over all relevant financial statement assertions related to all significant accounts and disclosures in the financial statements. The auditor must plan and perform the audit to obtain reasonable assurance that deficiencies that, individually or in the aggregate, would represent material weaknesses are identified. Thus, the audit is not designed to detect deficiencies in internal control over financial reporting that, individually or in the aggregate, are less severe than a material weakness. Because of the potential significance of the information obtained during the audit of the financial statements to the auditor's conclusions about the effectiveness of internal control over financial reporting, the auditor cannot audit internal control over financial reporting without also auditing the financial statements.

Note: However, the auditor may audit the financial statements without also auditing internal control over financial reporting, for example, in the case of certain initial public offerings by a company. See the discussion beginning at paragraph 145 for more information about the importance of auditing both internal control over financial reporting as well as the financial statements when the auditor is engaged to audit internal control over financial reporting.

28. The auditor must adhere to the general standards (See paragraphs 30 through 36) and fieldwork and reporting standards (See paragraph 37) in performing an audit of a company's internal control over financial reporting. This involves the following:

- a. Planning the engagement;
- b. Evaluating management's assessment process;
- c. Obtaining an understanding of internal control over financial reporting;
- d. Testing and evaluating design effectiveness of internal control over financial reporting;
- e. Testing and evaluating operating effectiveness of internal control over financial reporting; and
- f. Forming an opinion on the effectiveness of internal control over financial reporting.

29. Even though some requirements of this standard are set forth in a manner that suggests a sequential process, auditing internal control over financial reporting involves a process of gathering, updating, and analyzing information. Accordingly, the auditor

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

may perform some of the procedures and evaluations described in this section on "Performing an Audit of Internal Control Over Financial Reporting" concurrently.

Applying General, Fieldwork, and Reporting Standards

30. The general standards (See AU sec. 150, *Generally Accepted Auditing Standards*) are applicable to an audit of internal control over financial reporting. These standards require technical training and proficiency as an auditor, independence in fact and appearance, and the exercise of due professional care, including professional skepticism.

31. *Technical Training and Proficiency.* To perform an audit of internal control over financial reporting, the auditor should have competence in the subject matter of internal control over financial reporting.

32. *Independence.* The applicable requirements of independence are largely predicated on four basic principles: (1) an auditor must not act as management or as an employee of the audit client, (2) an auditor must not audit his or her own work, (3) an auditor must not serve in a position of being an advocate for his or her client, and (4) an auditor must not have mutual or conflicting interests with his or her audit client.^{7/} If the auditor were to design or implement controls, that situation would place the auditor in a management role and result in the auditor auditing his or her own work. These requirements, however, do not preclude the auditor from making substantive recommendations as to how management may improve the design or operation of the company's internal controls as a by-product of an audit.

33. The auditor must not accept an engagement to provide internal control-related services to an issuer for which the auditor also audits the financial statements unless that engagement has been specifically pre-approved by the audit committee. For any internal control services the auditor provides, management must be actively involved and cannot delegate responsibility for these matters to the auditor. Management's involvement must be substantive and extensive. Management's acceptance of responsibility for documentation and testing performed by the auditor does not by itself satisfy the independence requirements.

34. Maintaining independence, in fact and appearance, requires careful attention, as is the case with all independence issues when work concerning internal control over financial reporting is performed. Unless the auditor and the audit committee are diligent in evaluating the nature and extent of services provided, the services might violate basic principles of independence and cause an impairment of independence in fact or appearance.

^{7/} See the Preliminary Note of Rule 2-01 of Regulation S-X, 17 C.F.R. 210.2-01.

35. The independent auditor and the audit committee have significant and distinct responsibilities for evaluating whether the auditor's services impair independence in fact or appearance. The test for independence in fact is whether the activities would impede the ability of anyone on the engagement team or in a position to influence the engagement team from exercising objective judgment in the audits of the financial statements or internal control over financial reporting. The test for independence in appearance is whether a reasonable investor, knowing all relevant facts and circumstances, would perceive an auditor as having interests which could jeopardize the exercise of objective and impartial judgments on all issues encompassed within the auditor's engagement.

36. *Due Professional Care.* The auditor must exercise due professional care in an audit of internal control over financial reporting. One important tenet of due professional care is exercising professional skepticism. In an audit of internal control over financial reporting, exercising professional skepticism involves essentially the same considerations as in an audit of financial statements, that is, it includes a critical assessment of the work that management has performed in evaluating and testing controls.

37. *Fieldwork and Reporting Standards.* This standard establishes the fieldwork and reporting standards applicable to an audit of internal control over financial reporting.

38. The concept of materiality, as discussed in paragraphs 22 and 23, underlies the application of the general and fieldwork standards.

Planning the Engagement

39. The audit of internal control over financial reporting should be properly planned and assistants, if any, are to be properly supervised. When planning the audit of internal control over financial reporting, the auditor should evaluate how the following matters will affect the auditor's procedures:

- Knowledge of the company's internal control over financial reporting obtained during other engagements.
- Matters affecting the industry in which the company operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes.
- Matters relating to the company's business, including its organization, operating characteristics, capital structure, and distribution methods.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- The extent of recent changes, if any, in the company, its operations, or its internal control over financial reporting.
- Management's process for assessing the effectiveness of the company's internal control over financial reporting based upon control criteria.
- Preliminary judgments about materiality, risk, and other factors relating to the determination of material weaknesses.
- Control deficiencies previously communicated to the audit committee or management.
- Legal or regulatory matters of which the company is aware.
- The type and extent of available evidence related to the effectiveness of the company's internal control over financial reporting.
- Preliminary judgments about the effectiveness of internal control over financial reporting.
- The number of significant business locations or units, including management's documentation and monitoring of controls over such locations or business units. (Appendix B, paragraphs B1 through B17, discusses factors the auditor should evaluate to determine the locations at which to perform auditing procedures.)

Evaluating Management's Assessment Process

40. The auditor must obtain an understanding of, and evaluate, management's process for assessing the effectiveness of the company's internal control over financial reporting. When obtaining the understanding, the auditor should determine whether management has addressed the following elements:

- Determining which controls should be tested, including controls over all relevant assertions related to all significant accounts and disclosures in the financial statements. Generally, such controls include:
 - Controls over initiating, authorizing, recording, processing, and reporting significant accounts and disclosures and related assertions embodied in the financial statements.
 - Controls over the selection and application of accounting policies that are in conformity with generally accepted accounting principles.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- Antifraud programs and controls.
- Controls, including information technology general controls, on which other controls are dependent.
- Controls over significant nonroutine and nonsystematic transactions, such as accounts involving judgments and estimates.
- Company level controls (as described in paragraph 53), including:
 - The control environment and
 - Controls over the period-end financial reporting process, including controls over procedures used to enter transaction totals into the general ledger; to initiate, authorize, record, and process journal entries in the general ledger; and to record recurring and nonrecurring adjustments to the financial statements (for example, consolidating adjustments, report combinations, and reclassifications).

Note: References to the period-end financial reporting process in this standard refer to the preparation of both annual and quarterly financial statements.

- Evaluating the likelihood that failure of the control could result in a misstatement, the magnitude of such a misstatement, and the degree to which other controls, if effective, achieve the same control objectives.
- Determining the locations or business units to include in the evaluation for a company with multiple locations or business units (See paragraphs B1 through B17).
- Evaluating the design effectiveness of controls.
- Evaluating the operating effectiveness of controls based on procedures sufficient to assess their operating effectiveness. Examples of such procedures include testing of the controls by internal audit, testing of controls by others under the direction of management, using a service organization's reports (See paragraphs B18 through B29), inspection of evidence of the application of controls, or testing by means of a self-assessment process, some of which might occur as part of management's ongoing monitoring activities. Inquiry alone is not adequate to complete this evaluation. To evaluate the effectiveness of the company's internal control over financial reporting, management must have evaluated

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

controls over all relevant assertions related to all significant accounts and disclosures.

- Determining the deficiencies in internal control over financial reporting that are of such a magnitude and likelihood of occurrence that they constitute significant deficiencies or material weaknesses.
- Communicating findings to the auditor and to others, if applicable.
- Evaluating whether findings are reasonable and support management's assessment.

41. As part of the understanding and evaluation of management's process, the auditor should obtain an understanding of the results of procedures performed by others. Others include internal audit and third parties working under the direction of management, including other auditors and accounting professionals engaged to perform procedures as a basis for management's assessment. Inquiry of management and others is the beginning point for obtaining an understanding of internal control over financial reporting, but inquiry alone is not adequate for reaching a conclusion on any aspect of internal control over financial reporting effectiveness.

Note: Management cannot use the auditor's procedures as part of the basis for its assessment of the effectiveness of internal control over financial reporting.

42. *Management's Documentation.* When determining whether management's documentation provides reasonable support for its assessment, the auditor should evaluate whether such documentation includes the following:

- The design of controls over all relevant assertions related to all significant accounts and disclosures in the financial statements. The documentation should include the five components of internal control over financial reporting as discussed in paragraph 49, including the control environment and company-level controls as described in paragraph 53;
- Information about how significant transactions are initiated, authorized, recorded, processed and reported;
- Sufficient information about the flow of transactions to identify the points at which material misstatements due to error or fraud could occur;
- Controls designed to prevent or detect fraud, including who performs the controls and the related segregation of duties;
- Controls over the period-end financial reporting process;

- Controls over safeguarding of assets (See paragraphs C1 through C6); and
- The results of management's testing and evaluation.

43. Documentation might take many forms, such as paper, electronic files, or other media, and can include a variety of information, including policy manuals, process models, flowcharts, job descriptions, documents, and forms. The form and extent of documentation will vary depending on the size, nature, and complexity of the company.

44. Documentation of the design of controls over relevant assertions related to significant accounts and disclosures is evidence that controls related to management's assessment of the effectiveness of internal control over financial reporting, including changes to those controls, have been identified, are capable of being communicated to those responsible for their performance, and are capable of being monitored by the company. Such documentation also provides the foundation for appropriate communication concerning responsibilities for performing controls and for the company's evaluation of and monitoring of the effective operation of controls.

45. Inadequate documentation of the design of controls over relevant assertions related to significant accounts and disclosures is a deficiency in the company's internal control over financial reporting. As discussed in paragraph 138, the auditor should evaluate this documentation deficiency. The auditor might conclude that the deficiency is only a deficiency, or that the deficiency represents a significant deficiency or a material weakness. In evaluating the deficiency as to its significance, the auditor should determine whether management can demonstrate the monitoring component of internal control over financial reporting.

46. Inadequate documentation also could cause the auditor to conclude that there is a limitation on the scope of the engagement.

Obtaining an Understanding of Internal Control Over Financial Reporting

47. The auditor should obtain an understanding of the design of specific controls by applying procedures that include:

- Making inquiries of appropriate management, supervisory, and staff personnel;
- Inspecting company documents;
- Observing the application of specific controls; and

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- Tracing transactions through the information system relevant to financial reporting.

48. The auditor could also apply additional procedures to obtain an understanding of the design of specific controls.

49. The auditor must obtain an understanding of the design of controls related to each component of internal control over financial reporting, as discussed below.

- *Control Environment.* Because of the pervasive effect of the control environment on the reliability of financial reporting, the auditor's preliminary judgment about its effectiveness often influences the nature, timing, and extent of the tests of operating effectiveness considered necessary. Weaknesses in the control environment should cause the auditor to alter the nature, timing, or extent of tests of operating effectiveness that otherwise should have been performed in the absence of the weaknesses.
- *Risk Assessment.* When obtaining an understanding of the company's risk assessment process, the auditor should evaluate whether management has identified the risks of material misstatement in the significant accounts and disclosures and related assertions of the financial statements and has implemented controls to prevent or detect errors or fraud that could result in material misstatements. For example, the risk assessment process should address how management considers the possibility of unrecorded transactions or identifies and analyzes significant estimates recorded in the financial statements. Risks relevant to reliable financial reporting also relate to specific events or transactions.
- *Control Activities.* The auditor's understanding of control activities relates to the controls that management has implemented to prevent or detect errors or fraud that could result in material misstatement in the accounts and disclosures and related assertions of the financial statements. For the purposes of evaluating the effectiveness of internal control over financial reporting, the auditor's understanding of control activities encompasses a broader range of accounts and disclosures than what is normally obtained for the financial statement audit.
- *Information and Communication.* The auditor's understanding of management's information and communication involves understanding the same systems and processes that he or she addresses in an audit of financial statements. In addition, this understanding includes a greater emphasis on comprehending the safeguarding controls and the processes for authorization of transactions and the maintenance of records, as well

as the period-end financial reporting process (discussed further beginning at paragraph 76).

- *Monitoring.* The auditor's understanding of management's monitoring of controls extends to and includes its monitoring of all controls, including control activities, which management has identified and designed to prevent or detect material misstatement in the accounts and disclosures and related assertions of the financial statements.

50. Some controls (such as company-level controls, described in paragraph 53) might have a pervasive effect on the achievement of many overall objectives of the control criteria. For example, information technology general controls over program development, program changes, computer operations, and access to programs and data help ensure that specific controls over the processing of transactions are operating effectively. In contrast, other controls are designed to achieve specific objectives of the control criteria. For example, management generally establishes specific controls, such as accounting for all shipping documents, to ensure that all valid sales are recorded.

51. The auditor should focus on combinations of controls, in addition to specific controls in isolation, in assessing whether the objectives of the control criteria have been achieved. The absence or inadequacy of a specific control designed to achieve the objectives of a specific criterion might not be a deficiency if other controls specifically address the same criterion. Further, when one or more controls achieve the objectives of a specific criterion, the auditor might not need to evaluate other controls designed to achieve those same objectives.

52. *Identifying Company-Level Controls.* Controls that exist at the company-level often have a pervasive impact on controls at the process, transaction, or application level. For that reason, as a practical consideration, it may be appropriate for the auditor to test and evaluate the design effectiveness of company-level controls first, because the results of that work might affect the way the auditor evaluates the other aspects of internal control over financial reporting.

53. Company-level controls are controls such as the following:

- Controls within the control environment, including tone at the top, the assignment of authority and responsibility, consistent policies and procedures, and company-wide programs, such as codes of conduct and fraud prevention, that apply to all locations and business units (See paragraphs 113 through 115 for further discussion);
- Management's risk assessment process;

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- Centralized processing and controls, including shared service environments;
- Controls to monitor results of operations;
- Controls to monitor other controls, including activities of the internal audit function, the audit committee, and self-assessment programs;
- The period-end financial reporting process; and
- Board-approved policies that address significant business control and risk management practices.

Note: The controls listed above are not intended to be a complete list of company-level controls nor is a company required to have all the controls in the list to support its assessment of effective company-level controls. However, ineffective company-level controls are a deficiency that will affect the scope of work performed, particularly when a company has multiple locations or business units, as described in Appendix B.

54. Testing company-level controls alone is not sufficient for the purpose of expressing an opinion on the effectiveness of a company's internal control over financial reporting.

55. *Evaluating the Effectiveness of the Audit Committee's Oversight of the Company's External Financial Reporting and Internal Control Over Financial Reporting.* The company's audit committee plays an important role within the control environment and monitoring components of internal control over financial reporting. Within the control environment, the existence of an effective audit committee helps to set a positive tone at the top. Within the monitoring component, an effective audit committee challenges the company's activities in the financial arena.

Note: Although the audit committee plays an important role within the control environment and monitoring components of internal control over financial reporting, management is responsible for maintaining effective internal control over financial reporting. This standard does not suggest that this responsibility has been transferred to the audit committee.

Note: If no such committee exists with respect to the company, all references to the audit committee in this standard apply to the entire board of directors of the company.^{8/} The auditor should be aware that companies whose securities are

^{8/} See 15 U.S.C. 78c(a)58 and 15 U.S.C. 7201(a)(3).

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

not listed on a national securities exchange or an automated inter-dealer quotation system of a national securities association (such as the New York Stock Exchange, American Stock Exchange, or NASDAQ) may not be required to have independent directors for their audit committees. In this case, the auditor should not consider the lack of independent directors at these companies indicative, by itself, of a control deficiency. Likewise, the independence requirements of Securities Exchange Act Rule 10A-3^{9/} are not applicable to the listing of non-equity securities of a consolidated or at least 50 percent beneficially owned subsidiary of a listed issuer that is subject to the requirements of Securities Exchange Act Rule 10A-3(c)(2).^{10/} Therefore, the auditor should interpret references to the audit committee in this standard, as applied to a subsidiary registrant, as being consistent with the provisions of Securities Exchange Act Rule 10A-3(c)(2).^{11/} Furthermore, for subsidiary registrants, communications required by this standard to be directed to the audit committee should be made to the same committee or equivalent body that pre-approves the retention of the auditor by or on behalf of the subsidiary registrant pursuant to Rule 2-01(c)(7) of Regulation S-X^{12/} (which might be, for example, the audit committee of the subsidiary registrant, the full board of the subsidiary registrant, or the audit committee of the subsidiary registrant's parent). In all cases, the auditor should interpret the terms "board of directors" and "audit committee" in this standard as being consistent with provisions for the use of those terms as defined in relevant SEC rules.

56. The company's board of directors is responsible for evaluating the performance and effectiveness of the audit committee; this standard does not suggest that the auditor is responsible for performing a separate and distinct evaluation of the audit committee. However, because of the role of the audit committee within the control environment and monitoring components of internal control over financial reporting, the auditor should assess the effectiveness of the audit committee as part of understanding and evaluating those components.

57. The aspects of the audit committee's effectiveness that are important may vary considerably with the circumstances. The auditor focuses on factors related to the effectiveness of the audit committee's oversight of the company's external financial reporting and internal control over financial reporting, such as the independence of the audit committee members from management and the clarity with which the audit

^{9/} See 17 C.F.R. 240.10A-3.

^{10/} See 17 C.F.R. 240.10A-3(c)(2).

^{11/} See 17 C.F.R. 240.10A-3(c)(2).

^{12/} See 17 C.F.R. 210.2-01(c)(7).

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

committee's responsibilities are articulated (for example, in the audit committee's charter) and how well the audit committee and management understand those responsibilities. The auditor might also consider the audit committee's involvement and interaction with the independent auditor and with internal auditors, as well as interaction with key members of financial management, including the chief financial officer and chief accounting officer.

58. The auditor might also evaluate whether the right questions are raised and pursued with management and the auditor, including questions that indicate an understanding of the critical accounting policies and judgmental accounting estimates, and the responsiveness to issues raised by the auditor.

59. Ineffective oversight by the audit committee of the company's external financial reporting and internal control over financial reporting should be regarded as at least a significant deficiency and is a strong indicator that a material weakness in internal control over financial reporting exists.

60. *Identifying Significant Accounts.* The auditor should identify significant accounts and disclosures, first at the financial-statement level and then at the account or disclosure-component level. Determining specific controls to test begins by identifying significant accounts and disclosures within the financial statements. When identifying significant accounts, the auditor should evaluate both quantitative and qualitative factors.

61. An account is significant if there is more than a remote likelihood that the account could contain misstatements that individually, or when aggregated with others, could have a material effect on the financial statements, considering the risks of both overstatement and understatement. Other accounts may be significant on a qualitative basis based on the expectations of a reasonable user. For example, investors might be interested in a particular financial statement account even though it is not quantitatively large because it represents an important performance measure.

Note: For purposes of determining significant accounts, the assessment as to likelihood should be made without giving any consideration to the effectiveness of internal control over financial reporting.

62. Components of an account balance subject to differing risks (inherent and control) or different controls should be considered separately as potential significant accounts. For instance, inventory accounts often consist of raw materials (purchasing process), work in process (manufacturing process), finished goods (distribution process), and an allowance for obsolescence.

63. In some cases, separate components of an account might be a significant account because of the company's organizational structure. For example, for a

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

company that has a number of separate business units, each with different management and accounting processes, the accounts at each separate business unit are considered individually as potential significant accounts.

64. An account also may be considered significant because of the exposure to unrecognized obligations represented by the account. For example, loss reserves related to a self-insurance program or unrecorded contractual obligations at a construction contracting subsidiary may have historically been insignificant in amount, yet might represent a more than remote likelihood of material misstatement due to the existence of material unrecorded claims.

65. When deciding whether an account is significant, it is important for the auditor to evaluate both quantitative and qualitative factors, including the:

- Size and composition of the account;
- Susceptibility of loss due to errors or fraud;
- Volume of activity, complexity, and homogeneity of the individual transactions processed through the account;
- Nature of the account (for example, suspense accounts generally warrant greater attention);
- Accounting and reporting complexities associated with the account;
- Exposure to losses represented by the account (for example, loss accruals related to a consolidated construction contracting subsidiary);
- Likelihood (or possibility) of significant contingent liabilities arising from the activities represented by the account;
- Existence of related party transactions in the account; and
- Changes from the prior period in account characteristics (for example, new complexities or subjectivity or new types of transactions).

66. For example, in a financial statement audit, the auditor might not consider the fixed asset accounts significant when there is a low volume of transactions and when inherent risk is assessed as low, even though the balances are material to the financial statements. Accordingly, he or she might decide to perform only substantive procedures on such balances. In an audit of internal control over financial reporting, however, such accounts are significant accounts because of their materiality to the financial statements.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

67. As another example, the auditor of the financial statements of a financial institution might not consider trust accounts significant to the institution's financial statements because such accounts are not included in the institution's balance sheet and the associated fee income generated by trust activities is not material. However, in determining whether trust accounts are a significant account for purposes of the audit of internal control over financial reporting, the auditor should assess whether the activities of the trust department are significant to the institution's financial reporting, which also would include considering the contingent liabilities that could arise if a trust department failed to fulfill its fiduciary responsibilities (for example, if investments were made that were not in accordance with stated investment policies). When assessing the significance of possible contingent liabilities, consideration of the amount of assets under the trust department's control may be useful. For this reason, an auditor who has not considered trust accounts significant accounts for purposes of the financial statement audit might determine that they are significant for purposes of the audit of internal control over financial reporting.

68. Identifying Relevant Financial Statement Assertions. For each significant account, the auditor should determine the relevance of each of these financial statement assertions:^{13/}

- Existence or occurrence;
- Completeness;
- Valuation or allocation;
- Rights and obligations; and
- Presentation and disclosure.

69. To identify relevant assertions, the auditor should determine the source of likely potential misstatements in each significant account. In determining whether a particular assertion is relevant to a significant account balance or disclosure, the auditor should evaluate:

- The nature of the assertion;
- The volume of transactions or data related to the assertion; and

^{13/} See AU sec. 326, *Evidential Matter*, which provides additional information on financial statement assertions.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- The nature and complexity of the systems, including the use of information technology by which the company processes and controls information supporting the assertion.

70. *Relevant assertions* are assertions that have a meaningful bearing on whether the account is fairly stated. For example, valuation may not be relevant to the cash account unless currency translation is involved; however, existence and completeness are always relevant. Similarly, valuation may not be relevant to the gross amount of the accounts receivable balance, but is relevant to the related allowance accounts. Additionally, the auditor might, in some circumstances, focus on the presentation and disclosure assertion separately in connection with the period-end financial reporting process.

71. *Identifying Significant Processes and Major Classes of Transactions.* The auditor should identify each significant process over each major class of transactions affecting significant accounts or groups of accounts. Major classes of transactions are those classes of transactions that are significant to the company's financial statements. For example, at a company whose sales may be initiated by customers through personal contact in a retail store or electronically through use of the internet, these types of sales would be two major classes of transactions within the sales process if they were both significant to the company's financial statements. As another example, at a company for which fixed assets is a significant account, recording depreciation expense would be a major class of transactions.

72. Different types of major classes of transactions have different levels of inherent risk associated with them and require different levels of management supervision and involvement. For this reason, the auditor might further categorize the identified major classes of transactions by transaction type: routine, nonroutine, and estimation.

- Routine transactions are recurring financial activities reflected in the accounting records in the normal course of business (for example, sales, purchases, cash receipts, cash disbursements, payroll).
- Nonroutine transactions are activities that occur only periodically (for example, taking physical inventory, calculating depreciation expense, adjusting for foreign currencies). A distinguishing feature of nonroutine transactions is that data involved are generally not part of the routine flow of transactions.
- Estimation transactions are activities that involve management judgments or assumptions in formulating account balances in the absence of a precise means of measurement (for example, determining the allowance for doubtful accounts, establishing warranty reserves, assessing assets for impairment).

73. Most processes involve a series of tasks such as capturing input data, sorting and merging data, making calculations, updating transactions and master files, generating transactions, and summarizing and displaying or reporting data. The processing procedures relevant for the auditor to understand the flow of transactions generally are those activities required to initiate, authorize, record, process and report transactions. Such activities include, for example, initially recording sales orders, preparing shipping documents and invoices, and updating the accounts receivable master file. The relevant processing procedures also include procedures for correcting and reprocessing previously rejected transactions and for correcting erroneous transactions through adjusting journal entries.

74. For each significant process, the auditor should:

- Understand the flow of transactions, including how transactions are initiated, authorized, recorded, processed, and reported.
- Identify the points within the process at which a misstatement – including a misstatement due to fraud – related to each relevant financial statement assertion could arise.
- Identify the controls that management has implemented to address these potential misstatements.
- Identify the controls that management has implemented over the prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets.

Note: The auditor frequently obtains the understanding and identifies the controls described above as part of his or her performance of walkthroughs (as described beginning in paragraph 79).

75. The nature and characteristics of a company's use of information technology in its information system affect the company's internal control over financial reporting. AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*, paragraphs .16 through .20, .30 through .32, and .77 through .79, discuss the effect of information technology on internal control over financial reporting.

76. *Understanding the Period-end Financial Reporting Process.* The period-end financial reporting process includes the following:

- The procedures used to enter transaction totals into the general ledger;

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- The procedures used to initiate, authorize, record, and process journal entries in the general ledger;
- Other procedures used to record recurring and nonrecurring adjustments to the annual and quarterly financial statements, such as consolidating adjustments, report combinations, and classifications; and
- Procedures for drafting annual and quarterly financial statements and related disclosures.

77. As part of understanding and evaluating the period-end financial reporting process, the auditor should evaluate:

- The inputs, procedures performed, and outputs of the processes the company uses to produce its annual and quarterly financial statements;
- The extent of information technology involvement in each period-end financial reporting process element;
- Who participates from management;
- The number of locations involved;
- Types of adjusting entries (for example, standard, nonstandard, eliminating, and consolidating); and
- The nature and extent of the oversight of the process by appropriate parties, including management, the board of directors, and the audit committee.

78. The period-end financial reporting process is always a significant process because of its importance to financial reporting and to the auditor's opinions on internal control over financial reporting and the financial statements. The auditor's understanding of the company's period-end financial reporting process and how it interrelates with the company's other significant processes assists the auditor in identifying and testing controls that are the most relevant to financial statement risks.

79. *Performing Walkthroughs.* The auditor should perform at least one walkthrough for each major class of transactions (as identified in paragraph 71). In a walkthrough, the auditor traces a transaction from origination through the company's information systems until it is reflected in the company's financial reports. Walkthroughs provide the auditor with evidence to:

- Confirm the auditor's understanding of the process flow of transactions;

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- Confirm the auditor's understanding of the design of controls identified for all five components of internal control over financial reporting, including those related to the prevention or detection of fraud;
- Confirm that the auditor's understanding of the process is complete by determining whether all points in the process at which misstatements related to each relevant financial statement assertion that could occur have been identified;
- Evaluate the effectiveness of the design of controls; and
- Confirm whether controls have been placed in operation.

Note: The auditor can often gain an understanding of the transaction flow, identify and understand controls, and conduct the walkthrough simultaneously.

80. The auditor's walkthroughs should encompass the entire process of initiating, authorizing, recording, processing, and reporting individual transactions and controls for each of the significant processes identified, including controls intended to address the risk of fraud. During the walkthrough, at each point at which important processing procedures or controls occur, the auditor should question the company's personnel about their understanding of what is required by the company's prescribed procedures and controls and determine whether the processing procedures are performed as originally understood and on a timely basis. (Controls might not be performed regularly but still be timely.) During the walkthrough, the auditor should be alert for exceptions to the company's prescribed procedures and controls.

81. While performing a walkthrough, the auditor should evaluate the quality of the evidence obtained and perform walkthrough procedures that produce a level of evidence consistent with the objectives listed in paragraph 79. Rather than reviewing copies of documents and making inquiries of a single person at the company, the auditor should follow the process flow of actual transactions using the same documents and information technology that company personnel use and make inquiries of relevant personnel involved in significant aspects of the process or controls. To corroborate information at various points in the walkthrough, the auditor might ask personnel to describe their understanding of the previous and succeeding processing or control activities and to demonstrate what they do. In addition, inquiries should include follow-up questions that could help identify the abuse of controls or indicators of fraud. Examples of follow-up inquiries include asking personnel:

- What they do when they find an error or what they are looking for to determine if there is an error (rather than simply asking them if they perform listed procedures and controls); what kind of errors they have

found; what happened as a result of finding the errors, and how the errors were resolved. If the person being interviewed has never found an error, the auditor should evaluate whether that situation is due to good preventive controls or whether the individual performing the control lacks the necessary skills.

- Whether they have ever been asked to override the process or controls, and if so, to describe the situation, why it occurred, and what happened.

82. During the period under audit, when there have been significant changes in the process flow of transactions, including the supporting computer applications, the auditor should evaluate the nature of the change(s) and the effect on related accounts to determine whether to walk through transactions that were processed both before and after the change.

Note: Unless significant changes in the process flow of transactions, including the supporting computer applications, make it more efficient for the auditor to prepare new documentation of a walkthrough, the auditor may carry his or her documentation forward each year, after updating it for any changes that have taken place.

83. *Identifying Controls to Test.* The auditor should obtain evidence about the effectiveness of controls (either by performing tests of controls himself or herself, or by using the work of others)^{14/} for all relevant assertions related to all significant accounts and disclosures in the financial statements. After identifying significant accounts, relevant assertions, and significant processes, the auditor should evaluate the following to identify the controls to be tested:

- Points at which errors or fraud could occur;
- The nature of the controls implemented by management;
- The significance of each control in achieving the objectives of the control criteria and whether more than one control achieves a particular objective or whether more than one control is necessary to achieve a particular objective; and
- The risk that the controls might not be operating effectively. Factors that affect whether the control might not be operating effectively include the following:

^{14/} See paragraphs 108 through 126 for additional direction on using the work of others.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- Whether there have been changes in the volume or nature of transactions that might adversely affect control design or operating effectiveness;
- Whether there have been changes in the design of controls;
- The degree to which the control relies on the effectiveness of other controls (for example, the control environment or information technology general controls);
- Whether there have been changes in key personnel who perform the control or monitor its performance;
- Whether the control relies on performance by an individual or is automated; and
- The complexity of the control.

84. The auditor should clearly link individual controls with the significant accounts and assertions to which they relate.

85. The auditor should evaluate whether to test preventive controls, detective controls, or a combination of both for individual relevant assertions related to individual significant accounts. For instance, when performing tests of preventive and detective controls, the auditor might conclude that a deficient preventive control could be compensated for by an effective detective control and, therefore, not result in a significant deficiency or material weakness. For example, a monthly reconciliation control procedure, which is a detective control, might detect an out-of-balance situation resulting from an unauthorized transaction being initiated due to an ineffective authorization procedure, which is a preventive control. When determining whether the detective control is effective, the auditor should evaluate whether the detective control is sufficient to achieve the control objective to which the preventive control relates.

Note: Because effective internal control over financial reporting often includes a combination of preventive and detective controls, the auditor ordinarily will test a combination of both.

86. The auditor should apply tests of controls to those controls that are important to achieving each control objective. It is neither necessary to test all controls nor is it necessary to test redundant controls (that is, controls that duplicate other controls that achieve the same objective and already have been tested), unless redundancy is itself a control objective, as in the case of certain computer controls.

87. Appendix B, paragraphs B1 through B17, provide additional direction to the auditor in determining which controls to test when a company has multiple locations or business units. In these circumstances, the auditor should determine significant accounts and their relevant assertions, significant processes, and major classes of transactions based on those that are relevant and significant to the consolidated financial statements. Having made those determinations in relation to the consolidated financial statements, the auditor should then apply the directions in Appendix B.

Testing and Evaluating Design Effectiveness

88. Internal control over financial reporting is effectively designed when the controls complied with would be expected to prevent or detect errors or fraud that could result in material misstatements in the financial statements. The auditor should determine whether the company has controls to meet the objectives of the control criteria by:

- Identifying the company's control objectives in each area;
- Identifying the controls that satisfy each objective; and
- Determining whether the controls, if operating properly, can effectively prevent or detect errors or fraud that could result in material misstatements in the financial statements.

89. Procedures the auditor performs to test and evaluate design effectiveness include inquiry, observation, walkthroughs, inspection of relevant documentation, and a specific evaluation of whether the controls are likely to prevent or detect errors or fraud that could result in misstatements if they are operated as prescribed by appropriately qualified persons.

90. The procedures that the auditor performs in evaluating management's assessment process and obtaining an understanding of internal control over financial reporting also provide the auditor with evidence about the design effectiveness of internal control over financial reporting.

91. The procedures the auditor performs to test and evaluate design effectiveness also might provide evidence about operating effectiveness.

Testing and Evaluating Operating Effectiveness

92. An auditor should evaluate the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control possesses the necessary authority and qualifications to perform the control effectively.

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2

93. *Nature of Tests of Controls.* Tests of controls over operating effectiveness should include a mix of inquiries of appropriate personnel, inspection of relevant documentation, observation of the company's operations, and reperformance of the application of the control. For example, the auditor might observe the procedures for opening the mail and processing cash receipts to test the operating effectiveness of controls over cash receipts. Because an observation is pertinent only at the point in time at which it is made, the auditor should supplement the observation with inquiries of company personnel and inspection of documentation about the operation of such controls at other times. These inquiries might be made concurrently with performing walkthroughs.

94. Inquiry is a procedure that consists of seeking information, both financial and nonfinancial, of knowledgeable persons throughout the company. Inquiry is used extensively throughout the audit and often is complementary to performing other procedures. Inquiries may range from formal written inquiries to informal oral inquiries.

95. Evaluating responses to inquiries is an integral part of the inquiry procedure. Examples of information that inquiries might provide include the skill and competency of those performing the control, the relative sensitivity of the control to prevent or detect errors or fraud, and the frequency with which the control operates to prevent or detect errors or fraud. Responses to inquiries might provide the auditor with information not previously possessed or with corroborative evidence. Alternatively, responses might provide information that differs significantly from other information the auditor obtains (for example, information regarding the possibility of management override of controls). In some cases, responses to inquiries provide a basis for the auditor to modify or perform additional procedures.

96. Because inquiry alone does not provide sufficient evidence to support the operating effectiveness of a control, the auditor should perform additional tests of controls. For example, if the company implements a control activity whereby its sales manager reviews and investigates a report of invoices with unusually high or low gross margins, inquiry of the sales manager as to whether he or she investigates discrepancies would be inadequate. To obtain sufficient evidence about the operating effectiveness of the control, the auditor should corroborate the sales manager's responses by performing other procedures, such as inspecting reports or other documentation used in or generated by the performance of the control, and evaluate whether appropriate actions were taken regarding discrepancies.

97. The nature of the control also influences the nature of the tests of controls the auditor can perform. For example, the auditor might examine documents regarding controls for which documentary evidence exists. However, documentary evidence regarding some aspects of the control environment, such as management's philosophy and operating style, might not exist. In circumstances in which documentary evidence of controls or the performance of controls does not exist and is not expected to exist,

the auditor's tests of controls would consist of inquiries of appropriate personnel and observation of company activities. As another example, a signature on a voucher package to indicate that the signer approved it does not necessarily mean that the person carefully reviewed the package before signing. The package may have been signed based on only a cursory review (or without any review). As a result, the quality of the evidence regarding the effective operation of the control might not be sufficiently persuasive. If that is the case, the auditor should reperform the control (for example, checking prices, extensions, and additions) as part of the test of the control. In addition, the auditor might inquire of the person responsible for approving voucher packages what he or she looks for when approving packages and how many errors have been found within voucher packages. The auditor also might inquire of supervisors whether they have any knowledge of errors that the person responsible for approving the voucher packages failed to detect.

98. *Timing of Tests of Controls.* The auditor must perform tests of controls over a period of time that is adequate to determine whether, as of the date specified in management's report, the controls necessary for achieving the objectives of the control criteria are operating effectively. The period of time over which the auditor performs tests of controls varies with the nature of the controls being tested and with the frequency with which specific controls operate and specific policies are applied. Some controls operate continuously (for example, controls over sales), while others operate only at certain times (for example, controls over the preparation of monthly or quarterly financial statements and controls over physical inventory counts).

99. The auditor's testing of the operating effectiveness of such controls should occur at the time the controls are operating. Controls "as of" a specific date encompass controls that are relevant to the company's internal control over financial reporting "as of" that specific date, even though such controls might not operate until after that specific date. For example, some controls over the period-end financial reporting process normally operate only after the "as of" date. Therefore, if controls over the December 31, 20X4 period-end financial reporting process operate in January 20X5, the auditor should test the control operating in January 20X5 to have sufficient evidence of operating effectiveness "as of" December 31, 20X4.

100. When the auditor reports on the effectiveness of controls "as of" a specific date and obtains evidence about the operating effectiveness of controls at an interim date, he or she should determine what additional evidence to obtain concerning the operation of the control for the remaining period. In making that determination, the auditor should evaluate:

- The specific controls tested prior to the "as of" date and the results of those tests;

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- The degree to which evidence about the operating effectiveness of those controls was obtained;
- The length of the remaining period; and
- The possibility that there have been any significant changes in internal control over financial reporting subsequent to the interim date.

101. For controls over significant nonroutine transactions, controls over accounts or processes with a high degree of subjectivity or judgment in measurement, or controls over the recording of period-end adjustments, the auditor should perform tests of controls closer to or at the "as of" date rather than at an interim date. However, the auditor should balance performing the tests of controls closer to the "as of" date with the need to obtain sufficient evidence of operating effectiveness.

102. Prior to the date specified in management's report, management might implement changes to the company's controls to make them more effective or efficient or to address control deficiencies. In that case, the auditor might not need to evaluate controls that have been superseded. For example, if the auditor determines that the new controls achieve the related objectives of the control criteria and have been in effect for a sufficient period to permit the auditor to assess their design and operating effectiveness by performing tests of controls,^{15/} he or she will not need to evaluate the design and operating effectiveness of the superseded controls for purposes of expressing an opinion on internal control over financial reporting.

103. As discussed in paragraph 207, however, the auditor must communicate all identified significant deficiencies and material weaknesses in controls to the audit committee in writing. In addition, the auditor should evaluate how the design and operating effectiveness of the superseded controls relates to the auditor's reliance on controls for financial statement audit purposes.

104. *Extent of Tests of Controls.* Each year the auditor must obtain sufficient evidence about whether the company's internal control over financial reporting, including the controls for all internal control components, is operating effectively. This means that each year the auditor must obtain evidence about the effectiveness of controls for all relevant assertions related to all significant accounts and disclosures in the financial statements. The auditor also should vary from year to year the nature, timing, and extent of testing of controls to introduce unpredictability into the testing and respond to changes in circumstances. For example, each year the auditor might test

^{15/} Paragraph 179 provides reporting directions in these circumstances when the auditor has not been able to obtain evidence that the new controls were appropriately designed or have been operating effectively for a sufficient period of time.

the controls at a different interim period; increase or reduce the number and types of tests performed; or change the combination of procedures used.

105. In determining the extent of procedures to perform, the auditor should design the procedures to provide a high level of assurance that the control being tested is operating effectively. In making this determination, the auditor should assess the following factors:

- *Nature of the control.* The auditor should subject manual controls to more extensive testing than automated controls. In some circumstances, testing a single operation of an automated control may be sufficient to obtain a high level of assurance that the control operated effectively, provided that information technology general controls also are operating effectively. For manual controls, sufficient evidence about the operating effectiveness of the controls is obtained by evaluating multiple operations of the control and the results of each operation. The auditor also should assess the complexity of the controls, the significance of the judgments that must be made in connection with their operation, and the level of competence of the person performing the controls that is necessary for the control to operate effectively. As the complexity and level of judgment increase or the level of competence of the person performing the control decreases, the extent of the auditor's testing should increase.
- *Frequency of operation.* Generally, the more frequently a manual control operates, the more operations of the control the auditor should test. For example, for a manual control that operates in connection with each transaction, the auditor should test multiple operations of the control over a sufficient period of time to obtain a high level of assurance that the control operated effectively. For controls that operate less frequently, such as monthly account reconciliations and controls over the period-end financial reporting process, the auditor may test significantly fewer operations of the control. However, the auditor's evaluation of each operation of controls operating less frequently is likely to be more extensive. For example, when evaluating the operation of a monthly exception report, the auditor should evaluate whether the judgments made with regard to the disposition of the exceptions were appropriate and adequately supported.

Note: When sampling is appropriate and the population of controls to be tested is large, increasing the population size does not proportionately increase the required sample size.

- *Importance of the control.* Controls that are relatively more important should be tested more extensively. For example, some controls may

address multiple financial statement assertions, and certain period-end detective controls might be considered more important than related preventive controls. The auditor should test more operations of such controls or, if such controls operate infrequently, the auditor should evaluate each operation of the control more extensively.

106. *Use of Professional Skepticism when Evaluating the Results of Testing.* The auditor must conduct the audit of internal control over financial reporting and the audit of the financial statements with professional skepticism, which is an attitude that includes a questioning mind and a critical assessment of audit evidence. For example, even though a control is performed by the same employee whom the auditor believes performed the control effectively in prior periods, the control may not be operating effectively during the current period because the employee could have become complacent, distracted, or otherwise not be effectively carrying out his or her responsibilities. Also, regardless of any past experience with the entity or the auditor's beliefs about management's honesty and integrity, the auditor should recognize the possibility that a material misstatement due to fraud could be present. Furthermore, professional skepticism requires the auditor to consider whether evidence obtained suggests that a material misstatement due to fraud has occurred. In exercising professional skepticism in gathering and evaluating evidence, the auditor must not be satisfied with less-than-persuasive evidence because of a belief that management is honest.

107. When the auditor identifies exceptions to the company's prescribed control procedures, he or she should determine, using professional skepticism, the effect of the exception on the nature and extent of additional testing that may be appropriate or necessary and on the operating effectiveness of the control being tested. A conclusion that an identified exception does not represent a control deficiency is appropriate only if evidence beyond what the auditor had initially planned and beyond inquiry supports that conclusion.

Using the Work of Others

108. In all audits of internal control over financial reporting, the auditor must perform enough of the testing himself or herself so that the auditor's own work provides the principal evidence for the auditor's opinion. The auditor may, however, use the work of others to alter the nature, timing, or extent of the work he or she otherwise would have performed. For these purposes, the work of others includes relevant work performed by internal auditors, company personnel (in addition to internal auditors), and third parties working under the direction of management or the audit committee that provides information about the effectiveness of internal control over financial reporting.

Note: Because the amount of work related to obtaining sufficient evidence to support an opinion about the effectiveness of controls is not susceptible to

precise measurement, the auditor's judgment about whether he or she has obtained the principal evidence for the opinion will be qualitative as well as quantitative. For example, the auditor might give more weight to work he or she performed on pervasive controls and in areas such as the control environment than on other controls, such as controls over low-risk, routine transactions.

109. The auditor should evaluate whether to use the work performed by others in the audit of internal control over financial reporting. To determine the extent to which the auditor may use the work of others to alter the nature, timing, or extent of the work the auditor would have otherwise performed, in addition to obtaining the principal evidence for his or her opinion, the auditor should:

- a. Evaluate the nature of the controls subjected to the work of others (See paragraphs 112 through 116);
- b. Evaluate the competence and objectivity of the individuals who performed the work (See paragraphs 117 through 122); and
- c. Test some of the work performed by others to evaluate the quality and effectiveness of their work (See paragraphs 123 through 125).

Note: AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, applies to using the work of internal auditors in an audit of the financial statements. The auditor may apply the relevant concepts described in that section to using the work of others in the audit of internal control over financial reporting.

110. The auditor must obtain sufficient evidence to support his or her opinion. Judgments about the sufficiency of evidence obtained and other factors affecting the auditor's opinion, such as the significance of identified control deficiencies, should be those of the auditor. Evidence obtained through the auditor's direct personal knowledge, observation, reperformance, and inspection is generally more persuasive than information obtained indirectly from others, such as from internal auditors, other company personnel, or third parties working under the direction of management.

111. The requirement that the auditor's own work must provide the principal evidence for the auditor's opinion is one of the boundaries within which the auditor determines the work he or she must perform himself or herself in the audit of internal control over financial reporting. Paragraphs 112 through 125 provide more specific and definitive direction on how the auditor makes this determination, but the directions allow the auditor significant flexibility to use his or her judgment to determine the work necessary to obtain the principal evidence and to determine when the auditor can use the work of others rather than perform the work himself or herself. Regardless of the auditor's determination of the work that he or she must perform himself or herself, the auditor's

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

responsibility to report on the effectiveness of internal control over financial reporting rests solely with the auditor; this responsibility cannot be shared with the other individuals whose work the auditor uses. Therefore, when the auditor uses the work of others, the auditor is responsible for the results of their work.

112. *Evaluating the Nature of the Controls Subjected to the Work of Others.* The auditor should evaluate the following factors when evaluating the nature of the controls subjected to the work of others. As these factors increase in significance, the need for the auditor to perform his or her own work on those controls increases. As these factors decrease in significance, the need for the auditor to perform his or her own work on those controls decreases.

- The materiality of the accounts and disclosures that the control addresses and the risk of material misstatement.
- The degree of judgment required to evaluate the operating effectiveness of the control (that is, the degree to which the evaluation of the effectiveness of the control requires evaluation of subjective factors rather than objective testing).
- The pervasiveness of the control.
- The level of judgment or estimation required in the account or disclosure.
- The potential for management override of the control.

113. Because of the nature of the controls in the control environment, the auditor should not use the work of others to reduce the amount of work he or she performs on controls in the control environment. The auditor should, however, consider the results of work performed in this area by others because it might indicate the need for the auditor to increase his or her work.

114. The control environment encompasses the following factors:^{16/}

- Integrity and ethical values;
- Commitment to competence;
- Board of directors or audit committee participation;

^{16/} See the COSO report and paragraph .110 of AU sec. 319, *Internal Control in a Financial Statement Audit*, for additional information about the factors included in the control environment.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- Management's philosophy and operating style;
- Organizational structure;
- Assignment of authority and responsibility; and
- Human resource policies and procedures.

115. Controls that are part of the control environment include, but are not limited to, controls specifically established to prevent and detect fraud that is at least reasonably possible to result in material misstatement of the financial statements.

Note: The term "reasonably possible" has the same meaning as in FAS No. 5. See the first note to paragraph 9 for further discussion.

116. The auditor should perform the walkthroughs (as discussed beginning at paragraph 79) himself or herself because of the degree of judgment required in performing this work. However, to provide additional evidence, the auditor may also review the work of others who have performed and documented walkthroughs. In evaluating whether his or her own evidence provides the principal evidence, the auditor's work on the control environment and in performing walkthroughs constitutes an important part of the auditor's own work.

117. *Evaluating the Competence and Objectivity of Others.* The extent to which the auditor may use the work of others depends on the degree of competence and objectivity of the individuals performing the work. The higher the degree of competence and objectivity, the greater use the auditor may make of the work; conversely, the lower the degree of competence and objectivity, the less use the auditor may make of the work. Further, the auditor should not use the work of individuals who have a low degree of objectivity, regardless of their level of competence. Likewise, the auditor should not use the work of individuals who have a low level of competence regardless of their degree of objectivity.

118. When evaluating the competence and objectivity of the individuals performing the tests of controls, the auditor should obtain, or update information from prior years, about the factors indicated in the following paragraph. The auditor should determine whether to test the existence and quality of those factors and, if so, the extent to which to test the existence and quality of those factors, based on the intended effect of the work of others on the audit of internal control over financial reporting.

119. Factors concerning the competence of the individuals performing the tests of controls include:

- Their educational level and professional experience.

- Their professional certification and continuing education.
- Practices regarding the assignment of individuals to work areas.
- Supervision and review of their activities.
- Quality of the documentation of their work, including any reports or recommendations issued.
- Evaluation of their performance.

120. Factors concerning the objectivity of the individuals performing the tests of controls include:

- The organizational status of the individuals responsible for the work of others ("testing authority") in testing controls, including—
 - a. Whether the testing authority reports to an officer of sufficient status to ensure sufficient testing coverage and adequate consideration of, and action on, the findings and recommendations of the individuals performing the testing.
 - b. Whether the testing authority has direct access and reports regularly to the board of directors or the audit committee.
 - c. Whether the board of directors or the audit committee oversees employment decisions related to the testing authority.
- Policies to maintain the individuals' objectivity about the areas being tested, including—
 - a. Policies prohibiting individuals from testing controls in areas in which relatives are employed in important or internal control-sensitive positions.
 - b. Policies prohibiting individuals from testing controls in areas to which they were recently assigned or are scheduled to be assigned upon completion of their controls testing responsibilities.

121. Internal auditors normally are expected to have greater competence with regard to internal control over financial reporting and objectivity than other company personnel. Therefore, the auditor may be able to use their work to a greater extent than the work of other company personnel. This is particularly true in the case of internal auditors who

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

follow the *International Standards for the Professional Practice of Internal Auditing* issued by the Institute of Internal Auditors. If internal auditors have performed an extensive amount of relevant work and the auditor determines they possess a high degree of competence and objectivity, the auditor could use their work to the greatest extent an auditor could use the work of others. On the other hand, if the internal audit function reports solely to management, which would reduce internal auditors' objectivity, or if limited resources allocated to the internal audit function result in very limited testing procedures on its part or reduced competency of the internal auditors, the auditor should use their work to a much lesser extent and perform more of the testing himself or herself.

122. When determining how the work of others will alter the nature, timing, or extent of the auditor's work, the auditor should assess the interrelationship of the nature of the controls, as discussed in paragraph 112, and the competence and objectivity of those who performed the work, as discussed in paragraphs 117 through 121. As the significance of the factors listed in paragraph 112 increases, the ability of the auditor to use the work of others decreases at the same time that the necessary level of competence and objectivity of those who perform the work increases. For example, for some pervasive controls, the auditor may determine that using the work of internal auditors to a limited degree would be appropriate and that using the work of other company personnel would not be appropriate because other company personnel do not have a high enough degree of objectivity as it relates to the nature of the controls.

123. *Testing the Work of Others.* The auditor should test some of the work of others to evaluate the quality and effectiveness of the work. The auditor's tests of the work of others may be accomplished by either (a) testing some of the controls that others tested or (b) testing similar controls not actually tested by others.

124. The nature and extent of these tests depend on the effect of the work of others on the auditor's procedures but should be sufficient to enable the auditor to make an evaluation of the overall quality and effectiveness of the work the auditor is considering. The auditor also should assess whether this evaluation has an effect on his or her conclusions about the competence and objectivity of the individuals performing the work.

125. In evaluating the quality and effectiveness of the work of others, the auditor should evaluate such factors as to whether the:

- Scope of work is appropriate to meet the objectives.
- Work programs are adequate.
- Work performed is adequately documented, including evidence of supervision and review.

- Conclusions are appropriate in the circumstances.
- Reports are consistent with the results of the work performed.

126. The following examples illustrate how to apply the directions discussed in this section:

- *Controls over the period-end financial reporting process.* Many of the controls over the period-end financial reporting process address significant risks of misstatement of the accounts and disclosures in the annual and quarterly financial statements, may require significant judgment to evaluate their operating effectiveness, may have a higher potential for management override, and may affect accounts that require a high level of judgment or estimation. Therefore, the auditor could determine that, based on the nature of controls over the period-end financial reporting process, he or she would need to perform more of the tests of those controls himself or herself. Further, because of the nature of the controls, the auditor should use the work of others only if the degree of competence and objectivity of the individuals performing the work is high; therefore, the auditor might use the work of internal auditors to some extent but not the work of others within the company.
- *Information technology general controls.* Information technology general controls are part of the control activities component of internal control; therefore, the nature of the controls might permit the auditor to use the work of others. For example, program change controls over routine maintenance changes may have a highly pervasive effect, yet involve a low degree of judgment in evaluating their operating effectiveness, can be subjected to objective testing, and have a low potential for management override. Therefore, the auditor could determine that, based on the nature of these program change controls, the auditor could use the work of others to a moderate extent so long as the degree of competence and objectivity of the individuals performing the test is at an appropriate level. On the other hand, controls to detect attempts to override controls that prevent unauthorized journal entries from being posted may have a highly pervasive effect, may involve a high degree of judgment in evaluating their operating effectiveness, may involve a subjective evaluation, and may have a reasonable possibility for management override. Therefore, the auditor could determine that, based on the nature of these controls over systems access, he or she would need to perform more of the tests of those controls himself or herself. Further, because of the nature of the controls, the auditor should use the work of others only if the degree of competence and objectivity of the individuals performing the tests is high.

- *Management self-assessment of controls.* As described in paragraph 40, management may test the operating effectiveness of controls using a self-assessment process. Because such an assessment is made by the same personnel who are responsible for performing the control, the individuals performing the self-assessment do not have sufficient objectivity as it relates to the subject matter. Therefore, the auditor should not use their work.
- *Controls over the calculation of depreciation of fixed assets.* Controls over the calculation of depreciation of fixed assets are usually not pervasive, involve a low degree of judgment in evaluating their operating effectiveness, and can be subjected to objective testing. If these conditions describe the controls over the calculation of depreciation of fixed assets and if there is a low potential for management override, the auditor could determine that, based on the nature of these controls, the auditor could use the work of others to a large extent (perhaps entirely) so long as the degree of competence and objectivity of the individuals performing the test is at an appropriate level.
- *Alternating tests of controls.* Many of the controls over accounts payable, including controls over cash disbursements, are usually not pervasive, involve a low degree of judgment in evaluating their operating effectiveness, can be subjected to objective testing, and have a low potential for management override. When these conditions describe the controls over accounts payable, the auditor could determine that, based on the nature of these controls, he or she could use the work of others to a large extent (perhaps entirely) so long as the degree of competence and objectivity of the individuals performing the test is at an appropriate level. However, if the company recently implemented a major information technology change that significantly affected controls over cash disbursements, the auditor might decide to use the work of others to a lesser extent in the audit immediately following the information technology change and then return, in subsequent years, to using the work of others to a large extent in this area. As another example, the auditor might use the work of others for testing controls over the depreciation of fixed assets (as described in the point above) for several years' audits but decide one year to perform some extent of the work himself or herself to gain an understanding of these controls beyond that provided by performing a walkthrough.

Forming an Opinion on the Effectiveness of Internal Control Over Financial Reporting

127. When forming an opinion on internal control over financial reporting, the auditor should evaluate all evidence obtained from all sources, including:

- The adequacy of the assessment performed by management and the results of the auditor's evaluation of the design and tests of operating effectiveness of controls;
- The negative results of substantive procedures performed during the financial statement audit (for example, recorded and unrecorded adjustments identified as a result of the performance of the auditing procedures); and
- Any identified control deficiencies.

128. As part of this evaluation, the auditor should review all reports issued during the year by internal audit (or similar functions, such as loan review in a financial institution) that address controls related to internal control over financial reporting and evaluate any control deficiencies identified in those reports. This review should include reports issued by internal audit as a result of operational audits or specific reviews of key processes if those reports address controls related to internal control over financial reporting.

129. *Issuing an Unqualified Opinion.* The auditor may issue an unqualified opinion only when there are no identified material weaknesses and when there have been no restrictions on the scope of the auditor's work. The existence of a material weakness requires the auditor to express an adverse opinion on the effectiveness of internal control over financial reporting (See paragraph 175), while a scope limitation requires the auditor to express a qualified opinion or a disclaimer of opinion, depending on the significance of the limitation in scope (See paragraph 178).

130. *Evaluating Deficiencies in Internal Control Over Financial Reporting.* The auditor must evaluate identified control deficiencies and determine whether the deficiencies, individually or in combination, are significant deficiencies or material weaknesses. The evaluation of the significance of a deficiency should include both quantitative and qualitative factors.

131. The auditor should evaluate the significance of a deficiency in internal control over financial reporting initially by determining the following:

- The likelihood that a deficiency, or a combination of deficiencies, could result in a misstatement of an account balance or disclosure; and

- The magnitude of the potential misstatement resulting from the deficiency or deficiencies.

132. The significance of a deficiency in internal control over financial reporting depends on the *potential* for a misstatement, not on whether a misstatement actually has occurred.

133. Several factors affect the *likelihood* that a deficiency, or a combination of deficiencies, could result in a misstatement of an account balance or disclosure. The factors include, but are not limited to, the following:

- The nature of the financial statement accounts, disclosures, and assertions involved; for example, suspense accounts and related party transactions involve greater risk.
- The susceptibility of the related assets or liability to loss or fraud; that is, greater susceptibility increases risk.
- The subjectivity, complexity, or extent of judgment required to determine the amount involved; that is, greater subjectivity, complexity, or judgment, like that related to an accounting estimate, increases risk.
- The cause and frequency of known or detected exceptions for the operating effectiveness of a control; for example, a control with an observed non-negligible deviation rate is a deficiency.
- The interaction or relationship of the control with other controls; that is, the interdependence or redundancy of the control.
- The interaction of the deficiencies; for example, when evaluating a combination of two or more deficiencies, whether the deficiencies could affect the same financial statement accounts and assertions.
- The possible future consequences of the deficiency.

134. When evaluating the likelihood that a deficiency or combination of deficiencies could result in a misstatement, the auditor should evaluate how the controls interact with other controls. There are controls, such as information technology general controls, on which other controls depend. Some controls function together as a group of controls. Other controls overlap, in the sense that these other controls achieve the same objective.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

135. Several factors affect the magnitude of the misstatement that could result from a deficiency or deficiencies in controls. The factors include, but are not limited to, the following:

- The financial statement amounts or total of transactions exposed to the deficiency.
- The volume of activity in the account balance or class of transactions exposed to the deficiency that has occurred in the current period or that is expected in future periods.

136. In evaluating the magnitude of the potential misstatement, the auditor should recognize that the maximum amount that an account balance or total of transactions can be overstated is generally the recorded amount. However, the recorded amount is not a limitation on the amount of potential understatement. The auditor also should recognize that the risk of misstatement might be different for the maximum possible misstatement than for lesser possible amounts.

137. When evaluating the significance of a deficiency in internal control over financial reporting, the auditor also should determine the level of detail and degree of assurance that would satisfy prudent officials in the conduct of their own affairs that they have reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in conformity with generally accepted accounting principles. If the auditor determines that the deficiency would prevent prudent officials in the conduct of their own affairs from concluding that they have reasonable assurance,^{17/} then the auditor should deem the deficiency to be at least a significant deficiency. Having determined in this manner that a deficiency represents a significant deficiency, the auditor must further evaluate the deficiency to determine whether individually, or in combination with other deficiencies, the deficiency is a material weakness.

Note: Paragraphs 9 and 10 provide the definitions of significant deficiency and material weakness, respectively.

138. Inadequate documentation of the design of controls and the absence of sufficient documented evidence to support management's assessment of the operating effectiveness of internal control over financial reporting are control deficiencies. As with other control deficiencies, the auditor should evaluate these deficiencies as to their significance.

^{17/} See SEC Staff Accounting Bulletin Topic 1M2, *Immaterial Misstatements That Are Intentional*, for further discussion about the level of detail and degree of assurance that would satisfy prudent officials in the conduct of their own affairs.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

139. The interaction of qualitative considerations that affect internal control over financial reporting with quantitative considerations ordinarily results in deficiencies in the following areas being at least significant deficiencies in internal control over financial reporting:

- Controls over the selection and application of accounting policies that are in conformity with generally accepted accounting principles;
- Antifraud programs and controls;
- Controls over non-routine and non-systematic transactions; and
- Controls over the period-end financial reporting process, including controls over procedures used to enter transaction totals into the general ledger; initiate, authorize, record, and process journal entries into the general ledger; and record recurring and nonrecurring adjustments to the financial statements

140. Each of the following circumstances should be regarded as at least a significant deficiency and as a strong indicator that a material weakness in internal control over financial reporting exists:

- Restatement of previously issued financial statements to reflect the correction of a misstatement.

Note: The correction of a misstatement includes misstatements due to error or fraud; it does not include restatements to reflect a change in accounting principle to comply with a new accounting principle or a voluntary change from one generally accepted accounting principle to another generally accepted accounting principle.

- Identification by the auditor of a material misstatement in financial statements in the current period that was not initially identified by the company's internal control over financial reporting. (This is a strong indicator of a material weakness even if management subsequently corrects the misstatement.)
- Oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective. (Paragraphs 55 through 59 present factors to evaluate when determining whether the audit committee is ineffective.)
- The internal audit function or the risk assessment function is ineffective at a company for which such a function needs to be effective for the

company to have an effective monitoring or risk assessment component, such as for very large or highly complex companies.

Note: The evaluation of the internal audit or risk assessment functions is similar to the evaluation of the audit committee, as described in paragraphs 55 through 59, that is, the evaluation is made within the context of the monitoring and risk assessment components. The auditor is not required to make a separate evaluation of the effectiveness and performance of these functions. Instead, the auditor should base his or her evaluation on evidence obtained as part of evaluating the monitoring and risk assessment components of internal control over financial reporting.

- For complex entities in highly regulated industries, an ineffective regulatory compliance function. This relates solely to those aspects of the ineffective regulatory compliance function in which associated violations of laws and regulations could have a material effect on the reliability of financial reporting.
- Identification of fraud of any magnitude on the part of senior management.

Note: The auditor is required to plan and perform procedures to obtain reasonable assurance that material misstatement caused by fraud is detected by the auditor. However, for the purposes of evaluating and reporting deficiencies in internal control over financial reporting, the auditor should evaluate fraud of any magnitude (including fraud resulting in immaterial misstatements) on the part of senior management of which he or she is aware. Furthermore, for the purposes of this circumstance, "senior management" includes the principal executive and financial officers signing the company's certifications as required under Section 302 of the Act as well as any other member of management who play a significant role in the company's financial reporting process.

- Significant deficiencies that have been communicated to management and the audit committee remain uncorrected after some reasonable period of time.
- An ineffective control environment.

141. Appendix D provides examples of significant deficiencies and material weaknesses.

Requirement for Written Representations

142. In an audit of internal control over financial reporting, the auditor should obtain written representations from management:

- a. Acknowledging management's responsibility for establishing and maintaining effective internal control over financial reporting;
- b. Stating that management has performed an assessment of the effectiveness of the company's internal control over financial reporting and specifying the control criteria;
- c. Stating that management did not use the auditor's procedures performed during the audits of internal control over financial reporting or the financial statements as part of the basis for management's assessment of the effectiveness of internal control over financial reporting;
- d. Stating management's conclusion about the effectiveness of the company's internal control over financial reporting based on the control criteria as of a specified date;
- e. Stating that management has disclosed to the auditor all deficiencies in the design or operation of internal control over financial reporting identified as part of management's assessment, including separately disclosing to the auditor all such deficiencies that it believes to be significant deficiencies or material weaknesses in internal control over financial reporting;
- f. Describing any material fraud and any other fraud that, although not material, involves senior management or management or other employees who have a significant role in the company's internal control over financial reporting;
- g. Stating whether control deficiencies identified and communicated to the audit committee during previous engagements pursuant to paragraph 207 have been resolved, and specifically identifying any that have not; and
- h. Stating whether there were, subsequent to the date being reported on, any changes in internal control over financial reporting or other factors that might significantly affect internal control over financial reporting, including any corrective actions taken by management with regard to significant deficiencies and material weaknesses.

143. The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the audit sufficient to preclude an unqualified opinion. As discussed further in paragraph 178, when management limits the scope of the audit, the auditor should either withdraw from the engagement or disclaim an opinion. Further, the auditor should evaluate the effects of management's refusal on his or her ability to rely on other representations, including, if applicable, representations obtained in an audit of the company's financial statements.

144. AU sec. 333, *Management Representations*, explains matters such as who should sign the letter, the period to be covered by the letter, and when to obtain an updating letter.

Relationship of an Audit of Internal Control over Financial Reporting to an Audit of Financial Statements

145. The audit of internal control over financial reporting should be integrated with the audit of the financial statements. The objectives of the procedures for the audits are not identical, however, and the auditor must plan and perform the work to achieve the objectives of both audits.

146. The understanding of internal control over financial reporting the auditor obtains and the procedures the auditor performs for purposes of expressing an opinion on management's assessment are interrelated with the internal control over financial reporting understanding the auditor obtains and procedures the auditor performs to assess control risk for purposes of expressing an opinion on the financial statements. As a result, it is efficient for the auditor to coordinate obtaining the understanding and performing the procedures.

Tests of Controls in an Audit of Internal Control Over Financial Reporting

147. The objective of the tests of controls in an audit of internal control over financial reporting is to obtain evidence about the effectiveness of controls to support the auditor's opinion on whether management's assessment of the effectiveness of the company's internal control over financial reporting is fairly stated. The auditor's opinion relates to the effectiveness of the company's internal control over financial reporting as of a *point in time* and *taken as a whole*.

148. To express an opinion on internal control over financial reporting effectiveness as of a *point in time*, the auditor should obtain evidence that internal control over financial reporting has operated effectively for a sufficient period of time, which may be less than the entire period (ordinarily one year) covered by the company's financial statements. To express an opinion on internal control over financial reporting effectiveness *taken as a whole*, the auditor must obtain evidence about the effectiveness of controls over all relevant assertions related to all significant accounts and disclosures in the financial

statements. This requires that the auditor test the design and operating effectiveness of controls he or she ordinarily would not test if expressing an opinion only on the financial statements.

149. When concluding on the effectiveness of internal control over financial reporting for purposes of expressing an opinion on management's assessment, the auditor should incorporate the results of any additional tests of controls performed to achieve the objective related to expressing an opinion on the financial statements, as discussed in the following section.

Tests of Controls in an Audit of Financial Statements

150. To express an opinion on the financial statements, the auditor ordinarily performs tests of controls and substantive procedures. The objective of the tests of controls the auditor performs for this purpose is to assess control risk. To assess control risk for specific financial statement assertions at less than the maximum, the auditor is required to obtain evidence that the relevant controls operated effectively during the *entire period* upon which the auditor plans to place reliance on those controls. However, the auditor is not required to assess control risk at less than the maximum for *all* relevant assertions and, for a variety of reasons, the auditor may choose not to do so.^{18/}

151. When concluding on the effectiveness of controls for the purpose of assessing control risk, the auditor also should evaluate the results of any additional tests of controls performed to achieve the objective related to expressing an opinion on management's assessment, as discussed in paragraphs 147 through 149. Consideration of these results may require the auditor to alter the nature, timing, and extent of substantive procedures and to plan and perform further tests of controls, particularly in response to identified control deficiencies.

Effect of Tests of Controls on Substantive Procedures

152. Regardless of the assessed level of control risk or the assessed risk of material misstatement in connection with the audit of the financial statements, the auditor should perform substantive procedures for all relevant assertions related to all significant accounts and disclosures. Performing procedures to express an opinion on internal control over financial reporting does not diminish this requirement.

153. The substantive procedures that the auditor should perform consist of tests of details of transactions and balances and analytical procedures. Before using the results obtained from substantive analytical procedures, the auditor should either test the design and operating effectiveness of controls over financial information used in the

^{18/} See paragraph 160 for additional documentation requirements when the auditor assesses control risk as other than low.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

substantive analytical procedures or perform other procedures to support the completeness and accuracy of the underlying information. For significant risks of material misstatement, it is unlikely that audit evidence obtained from substantive analytical procedures alone will be sufficient.

154. When designing substantive analytical procedures, the auditor also should evaluate the risk of management override of controls. As part of this process, the auditor should evaluate whether such an override might have allowed adjustments outside of the normal period-end financial reporting process to have been made to the financial statements. Such adjustments might have resulted in artificial changes to the financial statement relationships being analyzed, causing the auditor to draw erroneous conclusions. For this reason, substantive analytical procedures alone are not well suited to detecting fraud.

155. The auditor's substantive procedures must include reconciling the financial statements to the accounting records. The auditor's substantive procedures also should include examining material adjustments made during the course of preparing the financial statements. Also, other auditing standards require auditors to perform specific tests of details in the financial statement audit. For instance, AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, requires the auditor to perform certain tests of details to further address the risk of management override, whether or not a specific risk of fraud has been identified. Paragraph .34 of AU Sec. 330, *The Confirmation Process*, states that there is a presumption that the auditor will request the confirmation of accounts receivable. Similarly, paragraph .01 of AU Sec. 331, *Inventories*, states that observation of inventories is a generally accepted auditing procedure and that the auditor who issues an opinion without this procedure "has the burden of justifying the opinion expressed."

156. If, during the audit of internal control over financial reporting, the auditor identifies a control deficiency, he or she should determine the effect on the nature, timing, and extent of substantive procedures to be performed to reduce the risk of material misstatement of the financial statements to an appropriately low level.

Effect of Substantive Procedures on the Auditor's Conclusions About the Operating Effectiveness of Controls

157. In an audit of internal control over financial reporting, the auditor should evaluate the effect of the findings of all substantive auditing procedures performed in the audit of financial statements on the effectiveness of internal control over financial reporting. This evaluation should include, but not be limited to:

- The auditor's risk evaluations in connection with the selection and application of substantive procedures, especially those related to fraud (See paragraph 26);

- Findings with respect to illegal acts and related party transactions;
- Indications of management bias in making accounting estimates and in selecting accounting principles; and
- Misstatements detected by substantive procedures. The extent of such misstatements might alter the auditor's judgment about the effectiveness of controls.

158. However, the absence of misstatements detected by substantive procedures does not provide evidence that controls related to the assertion being tested are effective.

Documentation Requirements

159. In addition to the documentation requirements in AU sec. 339, *Audit Documentation*, the auditor should document:

- The understanding obtained and the evaluation of the design of each of the five components of the company's internal control over financial reporting;
- The process used to determine significant accounts and disclosures and major classes of transactions, including the determination of the locations or business units at which to perform testing;
- The identification of the points at which misstatements related to relevant financial statement assertions could occur within significant accounts and disclosures and major classes of transactions;
- The extent to which the auditor relied upon work performed by others as well as the auditor's assessment of their competence and objectivity;
- The evaluation of any deficiencies noted as a result of the auditor's testing; and
- Other findings that could result in a modification to the auditor's report.

160. For a company that has effective internal control over financial reporting, the auditor ordinarily will be able to perform sufficient testing of controls to be able to assess control risk for all relevant assertions related to significant accounts and disclosures at a low level. If, however, the auditor assesses control risk as other than low for certain assertions or significant accounts, the auditor should document the reasons for that

conclusion. Examples of when it is appropriate to assess control risk as other than low include:

- When a control over a relevant assertion related to a significant account or disclosure was superseded late in the year and only the new control was tested for operating effectiveness.
- When a material weakness existed during the period under audit and was corrected by the end of the period.

161. The auditor also should document the effect of a conclusion that control risk is other than low for any relevant assertions related to any significant accounts in connection with the audit of the financial statements on his or her opinion on the audit of internal control over financial reporting.

Reporting on Internal Control Over Financial Reporting

Management's Report

162. Management is required to include in its annual report its assessment of the effectiveness of the company's internal control over financial reporting in addition to its audited financial statements as of the end of the most recent fiscal year. Management's report on internal control over financial reporting is required to include the following:^{19/}

- A statement of management's responsibility for establishing and maintaining adequate internal control over financial reporting for the company;
- A statement identifying the framework used by management to conduct the required assessment of the effectiveness of the company's internal control over financial reporting;
- An assessment of the effectiveness of the company's internal control over financial reporting as of the end of the company's most recent fiscal year, including an explicit statement as to whether that internal control over financial reporting is effective; and
- A statement that the registered public accounting firm that audited the financial statements included in the annual report has issued an attestation report on management's assessment of the company's internal control over financial reporting.

^{19/} See Item 308(a) of Regulation S-B and S-K, 17 C.F.R. 228.308(a) and 17 C.F.R. 229.308(a), respectively.

163. Management should provide, both in its report on internal control over financial reporting and in its representation letter to the auditor, a written conclusion about the effectiveness of the company's internal control over financial reporting. The conclusion about the effectiveness of a company's internal control over financial reporting can take many forms; however, management is required to state a direct conclusion about whether the company's internal control over financial reporting is effective. This standard, for example, includes the phrase "management's assessment that W Company maintained effective internal control over financial reporting as of [date]" to illustrate such a conclusion. Other phrases, such as "management's assessment that W Company's internal control over financial reporting as of [date] is sufficient to meet the stated objectives," also might be used. However, the conclusion should not be so subjective (for example, "very effective internal control") that people having competence in and using the same or similar criteria would not ordinarily be able to arrive at similar conclusions.

164. Management is precluded from concluding that the company's internal control over financial reporting is effective if there are one or more material weaknesses.^{20/} In addition, management is required to disclose all material weaknesses that exist as of the end of the most recent fiscal year.

165. Management might be able to accurately represent that internal control over financial reporting, as of the end of the company's most recent fiscal year, is effective even if one or more material weaknesses existed during the period. To make this representation, management must have changed the internal control over financial reporting to eliminate the material weaknesses sufficiently in advance of the "as of" date and have satisfactorily tested the effectiveness over a period of time that is adequate for it to determine whether, as of the end of the fiscal year, the design and operation of internal control over financial reporting is effective.^{21/}

²⁰ See Item 308(a)(3) of Regulation S-B and S-K, 17 C.F.R. 228.308(a) and 17 C.F.R. 229.308(a), respectively.

²¹ However, when the reason for a change in internal control over financial reporting is the correction of a material weakness, management and the auditor should evaluate whether the reason for the change and the circumstances surrounding the change are material information necessary to make the disclosure about the change not misleading in a filing subject to certification under Securities Exchange Act Rule 13a-14(a) or 15d-14(a), 17 C.F.R. 240.13a-14(a) or 17 C.F.R. 240.15d-14(a). See discussion beginning at paragraph 200 for further direction.

Auditor's Evaluation of Management's Report

166. With respect to management's report on its assessment, the auditor should evaluate the following matters:

- a. Whether management has properly stated its responsibility for establishing and maintaining adequate internal control over financial reporting.
- b. Whether the framework used by management to conduct the evaluation is suitable. (As discussed in paragraph 14, the framework described in COSO constitutes a suitable and available framework.)
- c. Whether management's assessment of the effectiveness of internal control over financial reporting, as of the end of the company's most recent fiscal year, is free of material misstatement.
- d. Whether management has expressed its assessment in an acceptable form.
 - Management is required to state whether the company's internal control over financial reporting is effective.
 - A negative assurance statement indicating that, "Nothing has come to management's attention to suggest that the company's internal control over financial reporting is not effective," is not acceptable.
 - Management is not permitted to conclude that the company's internal control over financial reporting is effective if there are one or more material weaknesses in the company's internal control over financial reporting.
- e. Whether material weaknesses identified in the company's internal control over financial reporting, if any, have been properly disclosed, including material weaknesses corrected during the period.^{22/}

^{22/} See paragraph 206 for direction when a material weakness was corrected during the fourth quarter and the auditor believes that modification to the disclosures about changes in internal control over financial reporting are necessary for the annual certifications to be accurate and to comply with the requirements of Section 302 of the Act.

Auditor's Report on Management's Assessment of Internal Control Over Financial Reporting

167. The auditor's report on management's assessment of the effectiveness of internal control over financial reporting must include the following elements:

- a. A title that includes the word *independent*;
- b. An identification of management's conclusion about the effectiveness of the company's internal control over financial reporting as of a specified date based on the control criteria [for example, criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)];
- c. An identification of the title of the management report that includes management's assessment (the auditor should use the same description of the company's internal control over financial reporting as management uses in its report);
- d. A statement that the assessment is the responsibility of management;
- e. A statement that the auditor's responsibility is to express an opinion on the assessment and an opinion on the company's internal control over financial reporting based on his or her audit;
- f. A definition of internal control over financial reporting as stated in paragraph 7;
- g. A statement that the audit was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States);
- h. A statement that the standards of the Public Company Accounting Oversight Board require that the auditor plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects;
- i. A statement that an audit includes obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as the auditor considered necessary in the circumstances;

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

- j. A statement that the auditor believes the audit provides a reasonable basis for his or her opinions;
- k. A paragraph stating that, because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements and that projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate;
- l. The auditor's opinion on whether management's assessment of the effectiveness of the company's internal control over financial reporting as of the specified date is fairly stated, in all material respects, based on the control criteria (See discussion beginning at paragraph 162);
- m. The auditor's opinion on whether the company maintained, in all material respects, effective internal control over financial reporting as of the specified date, based on the control criteria;
- n. The manual or printed signature of the auditor's firm;
- o. The city and state (or city and country, in the case of non-U.S. auditors) from which the auditor's report has been issued; and
- p. The date of the audit report.

168. Example A-1 in Appendix A is an illustrative auditor's report for an unqualified opinion on management's assessment of the effectiveness of the company's internal control over financial reporting and an unqualified opinion on the effectiveness of the company's internal control over financial reporting.

169. *Separate or Combined Reports.* The auditor may choose to issue a combined report (that is, one report containing both an opinion on the financial statements and the opinions on internal control over financial reporting) or separate reports on the company's financial statements and on internal control over financial reporting. Example A-7 in Appendix A is an illustrative combined audit report on internal control over financial reporting. Appendix A also includes examples of separate reports on internal control over financial reporting.

170. If the auditor chooses to issue a separate report on internal control over financial reporting, he or she should add the following paragraph to the auditor's report on the financial statements:

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of W Company's internal control over financial reporting as of December 31, 20X3, based on *[identify control criteria]* and our report dated *[date of report, which should be the same as the date of the report on the financial statements]* expressed *[include nature of opinions]*.

and add the following paragraph to the report on internal control over financial reporting:

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the *[identify financial statements]* of W Company and our report dated *[date of report, which should be the same as the date of the report on the effectiveness of internal control over financial reporting]* expressed *[include nature of opinion]*.

171. *Report Date.* As stated previously, the auditor cannot audit internal control over financial reporting without also auditing the financial statements. Therefore, the reports should be dated the same.

172. When the auditor elects to issue a combined report on the audit of the financial statements and the audit of internal control over financial reporting, the audit opinion will address multiple reporting periods for the financial statements presented but only the end of the most recent fiscal year for the effectiveness of internal control over financial reporting and management's assessment of the effectiveness of internal control over financial reporting. See a combined report in Example A-7 in Appendix A.

173. *Report Modifications.* The auditor should modify the standard report if any of the following conditions exist.

- a. Management's assessment is inadequate or management's report is inappropriate. (See paragraph 174.)
- b. There is a material weakness in the company's internal control over financial reporting. (See paragraphs 175 through 177.)
- c. There is a restriction on the scope of the engagement. (See paragraphs 178 through 181.)
- d. The auditor decides to refer to the report of other auditors as the basis, in part, for the auditor's own report. (See paragraphs 182 through 185.)
- e. A significant subsequent event has occurred since the date being reported on. (See paragraphs 186 through 189.)

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

- f. There is other information contained in management's report on internal control over financial reporting. (See paragraphs 190 through 192.)

174. *Management's Assessment Inadequate or Report Inappropriate.* If the auditor determines that management's process for assessing internal control over financial reporting is inadequate, the auditor should modify his or her opinion for a scope limitation (discussed further beginning at paragraph 178). If the auditor determines that management's report is inappropriate, the auditor should modify his or her report to include, at a minimum, an explanatory paragraph describing the reasons for this conclusion.

175. *Material Weaknesses.* Paragraphs 130 through 141 describe significant deficiencies and material weaknesses. If there are significant deficiencies that, individually or in combination, result in one or more material weaknesses, management is precluded from concluding that internal control over financial reporting is effective. In these circumstances, the auditor must express an adverse opinion on the company's internal control over financial reporting.

176. When expressing an adverse opinion on the effectiveness of internal control over financial reporting because of a material weakness, the auditor's report must include:

- The definition of a material weakness, as provided in paragraph 10.
- A statement that a material weakness has been identified and included in management's assessment. (If the material weakness has not been included in management's assessment, this sentence should be modified to state that the material weakness has been identified but not included in management's assessment. In this case, the auditor also is required to communicate in writing to the audit committee that the material weakness was not disclosed or identified as a material weakness in management's report.)
- A description of any material weaknesses identified in a company's internal control over financial reporting. This description should provide the users of the audit report with specific information about the nature of any material weakness, and its actual and potential effect on the presentation of the company's financial statements issued during the existence of the weakness. This description also should address requirements described in paragraph 194.

177. Depending on the circumstances, the auditor may express both an unqualified opinion and an other-than-unqualified opinion within the same report on internal control over financial reporting. For example, if management makes an adverse assessment because a material weakness has been identified and not corrected ("...internal control

over financial reporting is not effective..."), the auditor would express an unqualified opinion on management's assessment ("...management's assessment that internal control over financial reporting is not effective is fairly stated, in all material respects..."). At the same time, the auditor would express an adverse opinion about the effectiveness of internal control over financial reporting ("In our opinion, because of the effect of the material weakness described..., the company's internal control over financial reporting is not effective."). Example A-2 in Appendix A illustrates the form of the report that is appropriate in this situation. Example A-6 in Appendix A illustrates a report that reflects disagreement between management and the auditor that a material weakness exists.

178. *Scope Limitations.* The auditor can express an unqualified opinion on management's assessment of internal control over financial reporting and an unqualified opinion on the effectiveness of internal control over financial reporting only if the auditor has been able to apply all the procedures necessary in the circumstances. If there are restrictions on the scope of the engagement imposed by the circumstances, the auditor should withdraw from the engagement, disclaim an opinion, or express a qualified opinion. The auditor's decision depends on his or her assessment of the importance of the omitted procedure(s) to his or her ability to form an opinion on management's assessment of internal control over financial reporting and an opinion on the effectiveness of the company's internal control over financial reporting. However, when the restrictions are imposed by management, the auditor should withdraw from the engagement or disclaim an opinion on management's assessment of internal control over financial reporting and the effectiveness of internal control over financial reporting.

179. For example, management might have identified a material weakness in its internal control over financial reporting prior to the date specified in its report and implemented controls to correct it. If management believes that the new controls have been operating for a sufficient period of time to determine that they are both effectively designed and operating, management would be able to include in its assessment its conclusion that internal control over financial reporting is effective as of the date specified. However, if the auditor disagrees with the sufficiency of the time period, he or she would be unable to obtain sufficient evidence that the new controls have been operating effectively for a sufficient period. In that case, the auditor should modify the opinion on the effectiveness of internal control over financial reporting and the opinion on management's assessment of internal control over financial reporting because of a scope limitation.

180. When the auditor plans to disclaim an opinion and the limited procedures performed by the auditor caused the auditor to conclude that a material weakness exists, the auditor's report should include:

- The definition of a material weakness, as provided in paragraph 10.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- A description of any material weaknesses identified in the company's internal control over financial reporting. This description should provide the users of the audit report with specific information about the nature of any material weakness, and its actual and potential effect on the presentation of the company's financial statements issued during the existence of the weakness. This description also should address the requirements in paragraph 194.

181. Example A-3 in Appendix A illustrates the form of report when there is a limitation on the scope of the audit causing the auditor to issue qualified opinions. Example A-4 illustrates the form of report when restrictions on the scope of the audit cause the auditor to disclaim opinions.

182. *Opinions Based, in Part, on the Report of Another Auditor.* When another auditor has audited the financial statements and internal control over financial reporting of one or more subsidiaries, divisions, branches, or components of the company, the auditor should determine whether he or she may serve as the principal auditor and use the work and reports of another auditor as a basis, in part, for his or her opinions. AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, provides direction on the auditor's decision of whether to serve as the principal auditor of the financial statements. If the auditor decides it is appropriate to serve as the principal auditor of the financial statements, then that auditor also should be the principal auditor of the company's internal control over financial reporting. This relationship results from the requirement that an audit of the financial statements must be performed to audit internal control over financial reporting; only the principal auditor of the financial statements can be the principal auditor of internal control over financial reporting. In this circumstance, the principal auditor of the financial statements needs to participate sufficiently in the audit of internal control over financial reporting to provide a basis for serving as the principal auditor of internal control over financial reporting.

183. When serving as the principal auditor of internal control over financial reporting, the auditor should decide whether to make reference in the report on internal control over financial reporting to the audit of internal control over financial reporting performed by the other auditor. In these circumstances, the auditor's decision is based on factors similar to those of the independent auditor who uses the work and reports of other independent auditors when reporting on a company's financial statements as described in AU sec. 543.

184. The decision about whether to make reference to another auditor in the report on the audit of internal control over financial reporting might differ from the corresponding decision as it relates to the audit of the financial statements. For example, the audit report on the financial statements may make reference to the audit of a significant equity investment performed by another independent auditor, but the report on internal control over financial reporting might not make a similar reference because

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

management's evaluation of internal control over financial reporting ordinarily would not extend to controls at the equity method investee.^{23/}

185. When the auditor decides to make reference to the report of the other auditor as a basis, in part, for his or her opinions, the auditor should refer to the report of the other auditor when describing the scope of the audit and when expressing the opinions.

186. *Subsequent Events.* Changes in internal control over financial reporting or other factors that might significantly affect internal control over financial reporting might occur subsequent to the date as of which internal control over financial reporting is being audited but before the date of the auditor's report. The auditor should inquire of management whether there were any such changes or factors. As described in paragraph 142, the auditor should obtain written representations from management relating to such matters. Additionally, to obtain information about whether changes have occurred that might affect the effectiveness of the company's internal control over financial reporting and, therefore, the auditor's report, the auditor should inquire about and examine, for this subsequent period, the following:

- Relevant internal audit reports (or similar functions, such as loan review in a financial institution) issued during the subsequent period;
- Independent auditor reports (if other than the auditor's) of significant deficiencies or material weaknesses;
- Regulatory agency reports on the company's internal control over financial reporting; and
- Information about the effectiveness of the company's internal control over financial reporting obtained through other engagements.

187. The auditor could inquire about and examine other documents for the subsequent period. Paragraphs .01 through .09 of AU sec. 560, *Subsequent Events*, provides direction on subsequent events for a financial statement audit that also may be helpful to the auditor performing an audit of internal control over financial reporting.

188. If the auditor obtains knowledge about subsequent events that materially and adversely affect the effectiveness of the company's internal control over financial reporting as of the date specified in the assessment, the auditor should issue an adverse opinion on the effectiveness of internal control over financial reporting (and issue an adverse opinion on management's assessment of internal control over financial reporting if management's report does not appropriately assess the affect of the

^{23/} See Appendix B, paragraph B15, for further discussion of the evaluation of the controls over financial reporting for an equity method investment.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

subsequent event). If the auditor is unable to determine the effect of the subsequent event on the effectiveness of the company's internal control over financial reporting, the auditor should disclaim opinions. As described in paragraph 190, the auditor should disclaim an opinion on management's disclosures about corrective actions taken by the company after the date of management's assessment, if any.

189. The auditor may obtain knowledge about subsequent events with respect to conditions that did not exist at the date specified in the assessment but arose subsequent to that date. If a subsequent event of this type has a material effect on the company, the auditor should include in his or her report an explanatory paragraph describing the event and its effects or directing the reader's attention to the event and its effects as disclosed in management's report. Management's consideration of such events to be disclosed in its report should be limited to a change that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

190. *Management's Report Containing Additional Information.* Management's report on internal control over financial reporting may contain information in addition to management's assessment of the effectiveness of its internal control over financial reporting. Such information might include, for example:

- Disclosures about corrective actions taken by the company after the date of management's assessment;
- The company's plans to implement new controls; and
- A statement that management believes the cost of correcting a material weakness would exceed the benefits to be derived from implementing new controls.

191. If management's assessment includes such additional information, the auditor should disclaim an opinion on the information. For example, the auditor should use the following language as the last paragraph of the report to disclaim an opinion on management's cost-benefit statement:

We do not express an opinion or any other form of assurance on management's statement referring to the costs and related benefits of implementing new controls.

192. If the auditor believes that management's additional information contains a material misstatement of fact, he or she should discuss the matter with management. If the auditor concludes that there is a valid basis for concern, he or she should propose that management consult with some other party whose advice might be useful, such as the company's legal counsel. If, after discussing the matter with management and

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

those management has consulted, the auditor concludes that a material misstatement of fact remains, the auditor should notify management and the audit committee, in writing, of the auditor's views concerning the information. The auditor also should consider consulting the auditor's legal counsel about further actions to be taken, including the auditor's responsibility under Section 10A of the Securities Exchange Act of 1934.^{24/}

Note: If management makes the types of disclosures described in paragraph 190 outside its report on internal control over financial reporting and includes them elsewhere within its annual report on the company's financial statements, the auditor would not need to disclaim an opinion, as described in paragraph 191. However, in that situation, the auditor's responsibilities are the same as those described in paragraph 192 if the auditor believes that the additional information contains a material misstatement of fact.

193. *Effect of Auditor's Adverse Opinion on Internal Control Over Financial Reporting on the Opinion on Financial Statements.* In some cases, the auditor's report on internal control over financial reporting might describe a material weakness that resulted in an adverse opinion on the effectiveness of internal control over financial reporting while the audit report on the financial statements remains unqualified. Consequently, during the audit of the financial statements, the auditor did not rely on that control. However, he or she performed additional substantive procedures to determine whether there was a material misstatement in the account related to the control. If, as a result of these procedures, the auditor determines that there was not a material misstatement in the account, he or she would be able to express an unqualified opinion on the financial statements.

194. When the auditor's opinion on the financial statements is unaffected by the adverse opinion on the effectiveness of internal control over financial reporting, the report on internal control over financial reporting (or the combined report, if a combined report is issued) should include the following or similar language in the paragraph that describes the material weakness:

This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the 20X3 financial statements, and this report does not affect our report dated [*date of report*] on those financial statements. [*Revise this wording appropriately for use in a combined report.*]

195. Such disclosure is important to ensure that users of the auditor's report on the financial statements understand why the auditor issued an unqualified opinion on those statements.

^{24/} See Section 10A of the Securities Exchange Act of 1934, 15 U.S.C. 78j-1.

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2

196. Disclosure is also important when the auditor's opinion on the financial statements is affected by the adverse opinion on the effectiveness of internal control over financial reporting. In that circumstance, the report on internal control over financial reporting (or the combined report, if a combined report is issued) should include the following or similar language in the paragraph that describes the material weakness:

This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the 20X3 financial statements.

197. *Subsequent Discovery of Information Existing at the Date of the Auditor's Report on Internal Control Over Financial Reporting.* After the issuance of the report on internal control over financial reporting, the auditor may become aware of conditions that existed at the report date that might have affected the auditor's opinions had he or she been aware of them. The auditor's evaluation of such subsequent information is similar to the auditor's evaluation of information discovered subsequent to the date of the report on an audit of financial statements, as described in AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report.* That standard requires the auditor to determine whether the information is reliable and whether the facts existed at the date of his or her report. If so, the auditor should determine (1) whether the facts would have changed the report if he or she had been aware of them and (2) whether there are persons currently relying on or likely to rely on the auditor's report. For instance, if previously issued financial statements and the auditor's report have been recalled and reissued to reflect the correction of a misstatement, the auditor should presume that his or her report on the company's internal control over financial reporting as of same specified date also should be recalled and reissued to reflect the material weakness that existed at that date. Based on these considerations, paragraph .06 of AU sec. 561 provides detailed requirements for the auditor.

198. *Filings Under Federal Securities Statutes.* AU sec. 711, *Filings Under Federal Securities Statutes*, describes the auditor's responsibilities when an auditor's report is included in registration statements, proxy statements, or periodic reports filed under the federal securities statutes. The auditor should also apply AU sec. 711 with respect to the auditor's report on management's assessment of the effectiveness of internal control over financial reporting included in such filings. In addition, the direction in paragraph .10 of AU sec. 711 to inquire of and obtain written representations from officers and other executives responsible for financial and accounting matters about whether any events have occurred that have a material effect on the audited financial statements should be extended to matters that could have a material effect on management's assessment of internal control over financial reporting.

199. When the auditor has fulfilled these responsibilities and intends to consent to the inclusion of his or her report on management's assessment of the effectiveness of internal control over financial reporting in the securities filing, the auditor's consent

should clearly indicate that both the audit report on financial statements and the audit report on management's assessment of the effectiveness of internal control over financial reporting (or both opinions if a combined report is issued) are included in his or her consent.

Auditor's Responsibilities for Evaluating Management's Certification Disclosures About Internal Control Over Financial Reporting

Required Management Certifications

200. Section 302 of the Act, and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), whichever applies,^{25/} requires a company's management, with the participation of the principal executive and financial officers (the certifying officers), to make the following quarterly and annual certifications with respect to the company's internal control over financial reporting:

- A statement that the certifying officers are responsible for establishing and maintaining internal control over financial reporting;
- A statement that the certifying officers have designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under their supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles; and
- A statement that the report discloses any changes in the company's internal control over financial reporting that occurred during the most recent fiscal quarter (the company's fourth fiscal quarter in the case of an annual report) that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.

201. When the reason for a change in internal control over financial reporting is the correction of a material weakness, management has a responsibility to determine and the auditor should evaluate whether the reason for the change and the circumstances surrounding that change are material information necessary to make the disclosure about the change not misleading.^{26/}

^{25/} See 17 C.F.R., 240.13a-14a or 15d-14a, whichever applies.

^{26/} See Securities Exchange Act Rule 12b-20, 17 C.F.R. 240.12b-20.

Auditor Evaluation Responsibilities

202. The auditor's responsibility as it relates to management's quarterly certifications on internal control over financial reporting is different from the auditor's responsibility as it relates to management's annual assessment of internal control over financial reporting. The auditor should perform limited procedures quarterly to provide a basis for determining whether he or she has become aware of any material modifications that, in the auditor's judgment, should be made to the disclosures about changes in internal control over financial reporting in order for the certifications to be accurate and to comply with the requirements of Section 302 of the Act.

203. To fulfill this responsibility, the auditor should perform, on a quarterly basis, the following procedures:

- Inquire of management about significant changes in the design or operation of internal control over financial reporting as it relates to the preparation of annual as well as interim financial information that could have occurred subsequent to the preceding annual audit or prior review of interim financial information;
- Evaluate the implications of misstatements identified by the auditor as part of the auditor's required review of interim financial information (See AU sec. 722, *Interim Financial Information*) as it relates to effective internal control over financial reporting; and
- Determine, through a combination of observation and inquiry, whether any change in internal control over financial reporting has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

Note: Foreign private issuers filing Forms 20-F and 40-F are not subject to quarterly reporting requirements, therefore, the auditor's responsibilities would extend only to the certifications in the annual report of these companies.

204. When matters come to auditor's attention that lead him or her to believe that modification to the disclosures about changes in internal control over financial reporting is necessary for the certifications to be accurate and to comply with the requirements of Section 302 of the Act and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), whichever applies,^{27/} the auditor should communicate the matter(s) to the appropriate level of management as soon as practicable.

^{27/} See 17 C.F.R. 240.13a-14(a) or 17 C.F.R. 240.15d-14(a), whichever applies.

205. If, in the auditor's judgment, management does not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should inform the audit committee. If, in the auditor's judgment, the audit committee does not respond appropriately to the auditor's communication within a reasonable period of time, the auditor should evaluate whether to resign from the engagement. The auditor should evaluate whether to consult with his or her attorney when making these evaluations. In these circumstances, the auditor also has responsibilities under AU sec. 317, *Illegal Acts by Clients*, and Section 10A of the Securities Exchange Act of 1934.^{28/} The auditor's responsibilities for evaluating the disclosures about changes in internal control over financial reporting do not diminish in any way management's responsibility for ensuring that its certifications comply with the requirements of Section 302 of the Act and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), whichever applies.^{29/}

206. If matters come to the auditor's attention as a result of the audit of internal control over financial reporting that lead him or her to believe that modifications to the disclosures about changes in internal control over financial reporting (addressing changes in internal control over financial reporting occurring during the fourth quarter) are necessary for the annual certifications to be accurate and to comply with the requirements of Section 302 of the Act and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), whichever applies,^{30/} the auditor should follow the same communication responsibilities as described in paragraphs 204 and 205. However, if management and the audit committee do not respond appropriately, in addition to the responsibilities described in the preceding two paragraphs, the auditor should modify his or her report on the audit of internal control over financial reporting to include an explanatory paragraph describing the reasons the auditor believes management's disclosures should be modified.

Required Communications in An Audit of Internal Control Over Financial Reporting

207. The auditor must communicate in writing to management and the audit committee all significant deficiencies and material weaknesses identified during the audit. The written communication should be made prior to the issuance of the auditor's report on internal control over financial reporting. The auditor's communication should distinguish clearly between those matters considered to be significant deficiencies and

^{28/} See 15 U.S.C. 78j-1.

^{29/} See 17 C.F.R. 240.13a-14(a) or 17 C.F.R. 240.15d-14(a), whichever applies.

^{30/} See 17 C.F.R. 240.13a-14(a) or 17 C.F.R. 240.15d-14(a), whichever applies.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

those considered to be material weaknesses, as defined in paragraphs 9 and 10, respectively.

208. If a significant deficiency or material weakness exists because the oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, the auditor must communicate that specific significant deficiency or material weakness in writing to the board of directors.

209. In addition, the auditor should communicate to management, in writing, all deficiencies in internal control over financial reporting (that is, those deficiencies in internal control over financial reporting that are of a lesser magnitude than significant deficiencies) identified during the audit and inform the audit committee when such a communication has been made. When making this communication, it is not necessary for the auditor to repeat information about such deficiencies that have been included in previously issued written communications, whether those communications were made by the auditor, internal auditors, or others within the organization. Furthermore, the auditor is not required to perform procedures sufficient to identify all control deficiencies; rather, the auditor should communicate deficiencies in internal control over financial reporting of which he or she is aware.

Note: As part of his or her evaluation of the effectiveness of internal control over financial reporting, the auditor should determine whether control deficiencies identified by internal auditors and others within the company, for example, through ongoing monitoring activities and the annual assessment of internal control over financial reporting, are reported to appropriate levels of management in a timely manner. The lack of an internal process to report deficiencies in internal control to management on a timely basis represents a control deficiency that the auditor should evaluate as to severity.

210. These written communications should state that the communication is intended solely for the information and use of the board of directors, audit committee, management, and others within the organization. When there are requirements established by governmental authorities to furnish such reports, specific reference to such regulatory agencies may be made.

211. These written communications also should include the definitions of control deficiencies, significant deficiencies, and material weaknesses and should clearly distinguish to which category the deficiencies being communicated relate.

212. Because of the potential for misinterpretation of the limited degree of assurance associated with the auditor issuing a written report representing that no significant deficiencies were noted during an audit of internal control over financial reporting, the auditor should not issue such representations.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

213. When auditing internal control over financial reporting, the auditor may become aware of fraud or possible illegal acts. If the matter involves fraud, it must be brought to the attention of the appropriate level of management. If the fraud involves senior management, the auditor must communicate the matter directly to the audit committee as described in AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*. If the matter involves possible illegal acts, the auditor must assure himself or herself that the audit committee is adequately informed, unless the matter is clearly inconsequential, in accordance with AU sec. 317, *Illegal Acts by Clients*. The auditor also must determine his or her responsibilities under Section 10A of the Securities Exchange Act of 1934.^{31/}

214. When timely communication is important, the auditor should communicate the preceding matters during the course of the audit rather than at the end of the engagement. The decision about whether to issue an interim communication should be determined based on the relative significance of the matters noted and the urgency of corrective follow-up action required.

Effective Date

215. Companies considered *accelerated filers* under Securities Exchange Act Rule 12b-2^{32/} are required to comply with the internal control reporting and disclosure requirements of Section 404 of the Act *for fiscal years ending on or after November 15, 2004*. (Other companies have until fiscal years ending on or after July 15, 2005, to comply with these internal control reporting and disclosure requirements.) Accordingly, independent auditors engaged to audit the financial statements of accelerated filers for fiscal years ending on or after November 15, 2004, also are required to audit and report on the company's internal control over financial reporting as of the end of such fiscal year. This standard is required to be complied with for such engagements, except as it relates to the auditor's responsibilities for evaluating management's certification disclosures about internal control over financial reporting. The auditor's responsibilities for evaluating management's certification disclosures about internal control over financial reporting described in paragraphs 202 through 206 take effect beginning with the first quarter after the auditor's first audit report on the company's internal control over financial reporting.

216. Early compliance with this standard is permitted.

^{31/} See 15 U.S.C. 78j-1.

^{32/} See 17 C.F.R. 240.12b-2.

APPENDIX A

Illustrative Reports on Internal Control Over Financial Reporting

A1. Paragraphs 167 through 199 of this standard provide direction on the auditor's report on management's assessment of internal control over financial reporting. The following examples illustrate how to apply that direction in several different situations.

<u>ILLUSTRATIVE REPORT</u>	<u>PAGE</u>
Example A-1— <i>Expressing an Unqualified Opinion on Management's Assessment of the Effectiveness of Internal Control Over Financial Reporting and an Unqualified Opinion on the Effectiveness of Internal Control Over Financial Reporting (Separate Report)</i>	209
Example A-2— <i>Expressing an Unqualified Opinion on Management's Assessment of the Effectiveness of Internal Control Over Financial Reporting and an Adverse Opinion on the Effectiveness of Internal Control Over Financial Reporting Because of the Existence of a Material Weakness</i>	212
Example A-3— <i>Expressing a Qualified Opinion on Management's Assessment of the Effectiveness of Internal Control Over Financial Reporting and a Qualified Opinion on the Effectiveness of Internal Control Over Financial Reporting Because of a Limitation on the Scope of the Audit</i>	215
Example A-4— <i>Disclaiming an Opinion on Management's Assessment of the Effectiveness of Internal Control Over Financial Reporting and Disclaiming an Opinion on the Effectiveness of Internal Control Over Financial Reporting Because of a Limitation on the Scope of the Audit</i>	218

Example A-5—*Expressing an Unqualified Opinion on Management's Assessment of the Effectiveness of Internal Control Over Financial Reporting That Refers to the Report of Other Auditors As a Basis, in Part, for the Auditor's Opinion and an Unqualified Opinion on the Effectiveness of Internal Control Over Financial Reporting*..... 220

Example A-6—*Expressing an Adverse Opinion on Management's Assessment of the Effectiveness of Internal Control Over Financial Reporting and an Adverse Opinion on the Effectiveness of Internal Control Over Financial Reporting Because of the Existence of a Material Weakness* 223

Example A-7—*Expressing an Unqualified Opinion on Financial Statements, an Unqualified Opinion on Management's Assessment of the Effectiveness of Internal Control Over Financial Reporting, and an Unqualified Opinion on the Effectiveness of Internal Control Over Financial Reporting (Combined Report)* 226

Example A-1

ILLUSTRATIVE REPORT EXPRESSING AN UNQUALIFIED OPINION ON MANAGEMENT'S ASSESSMENT OF THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING AND AN UNQUALIFIED OPINION ON THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING (SEPARATE REPORT)^{1/}

Report of Independent Registered Public Accounting Firm

[Introductory paragraph]

We have audited management's assessment, included in the accompanying [*title of management's report*], that W Company maintained effective internal control over financial reporting as of December 31, 20X3, based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. W Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the company's internal control over financial reporting based on our audit.

[Scope paragraph]

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

[Definition paragraph]

^{1/} If the auditor issues separate reports on the audit of internal control over financial reporting and the audit of the financial statements, both reports should include a statement that the audit was conducted in accordance with standards of the Public Company Accounting Oversight Board (United States).

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, management's assessment that W Company maintained effective internal control over financial reporting as of December 31, 20X3, is fairly stated, in all material respects, based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*. Also in our opinion, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20X3, based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*.

[Explanatory paragraph]

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the *[identify financial statements]* of W Company and our report dated *[date of report, which should be the same as the date of the report on the effectiveness of internal control over financial reporting]* expressed *[include nature of opinion]*.

Example A-2

ILLUSTRATIVE REPORT EXPRESSING AN UNQUALIFIED OPINION ON MANAGEMENT'S ASSESSMENT OF THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING AND AN ADVERSE OPINION ON THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING BECAUSE OF THE EXISTENCE OF A MATERIAL WEAKNESS

Report of Independent Registered Public Accounting Firm

[Introductory paragraph]

We have audited management's assessment, included in the accompanying *[title of management's report]*, that W Company did not maintain effective internal control over financial reporting as of December 31, 20X3, because of the effect of *[material weakness identified in management's assessment]*, based on *[Identify criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*. W Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the company's internal control over financial reporting based on our audit.

[Scope paragraph]

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

[Definition paragraph]

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Explanatory paragraph]

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. The following material weakness has been identified and included in management's assessment. *[Include a description of the material weakness and its effect on the achievement of the objectives of the control criteria.]* This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the 20X3 financial statements, and this report does not affect our report dated *[date of report, which should be the same as the date of this report on internal control]* on those financial statements.^{1/}

[Opinion paragraph]

In our opinion, management's assessment that W Company did not maintain effective internal control over financial reporting as of December 31, 20X3, is fairly stated, in all material respects, based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*. Also, in our opinion, because of the effect of the material weakness described above on the achievement of the objectives of the control criteria, W Company has not maintained effective internal control over financial reporting as of December 31, 20X3, based on *[Identify control*

^{1/} Modify this sentence when the auditor's opinion on the financial statements is affected by the adverse opinion on the effectiveness of internal control over financial reporting, as described in paragraph 196.

Example A-3

ILLUSTRATIVE REPORT EXPRESSING A QUALIFIED OPINION ON MANAGEMENT'S ASSESSMENT OF THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING AND A QUALIFIED OPINION ON THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING BECAUSE OF A LIMITATION ON THE SCOPE OF THE AUDIT

Report of Independent Registered Public Accounting Firm

[Introductory paragraph]

We have audited management's assessment, included in the accompanying [*title of management's report*], that W Company maintained effective internal control over financial reporting as of December 31, 20X3, based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. W Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the company's internal control over financial reporting based on our audit.

[Scope paragraph]

Except as described below, we conducted our audit in accordance the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

[Explanatory paragraph that describes scope limitation]

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. The following material

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

weakness has been identified and included in management's assessment.^{1/} Prior to December 20, 20X3, W Company had an inadequate system for recording cash receipts, which could have prevented the Company from recording cash receipts on accounts receivable completely and properly. Therefore, cash received could have been diverted for unauthorized use, lost, or otherwise not properly recorded to accounts receivable. We believe this condition was a material weakness in the design or operation of the internal control of W Company in effect prior to December 20, 20X3. Although the Company implemented a new cash receipts system on December 20, 20X3, the system has not been in operation for a sufficient period of time to enable us to obtain sufficient evidence about its operating effectiveness.

[Definition paragraph]

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

^{1/} If the auditor has identified a material weakness that is not included in management's assessment, add the following wording to the report: "In addition, we have identified the following material weakness that has not been identified as a material weakness in management's assessment."

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

In our opinion, except for the effect of matters we might have discovered had we been able to examine evidence about the effectiveness of the new cash receipts system, management's assessment that W Company maintained effective internal control over financial reporting as of December 31, 20X3, is fairly stated, in all material respects, based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. Also, in our opinion, except for the effect of matters we might have discovered had we been able to examine evidence about the effectiveness of the new cash receipts system, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20X3, based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*].

[*Explanatory paragraph*]

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the [*identify financial statements*] of W Company and our report dated [*date of report, which should be the same as the date of the report on the effectiveness of internal control over financial reporting*] expressed [*include nature of opinion*].

Example A-4

ILLUSTRATIVE REPORT DISCLAIMING AN OPINION ON MANAGEMENT'S ASSESSMENT OF THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING AND DISCLAIMING AN OPINION ON THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING BECAUSE OF A LIMITATION ON THE SCOPE OF THE AUDIT

Report of Independent Registered Public Accounting Firm

[Introductory paragraph]

We were engaged to audit management's assessment included in the accompanying *[title of management's report]* that W Company maintained effective internal control over financial reporting as of December 31, 20X3 based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*. W Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting.

[Omit scope paragraph]

[Explanatory paragraph that describes scope limitation]^{1/}

[Definition paragraph]

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or

^{1/} If, through the limited procedures performed, the auditor concludes that a material weakness exists, the auditor should add the definition of material weakness (as provided in paragraph 10) to the explanatory paragraph. In addition, the auditor should include a description of the material weakness and its effect on the achievement of the objectives of the control criteria.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

Since management *[describe scope restrictions]* and we were unable to apply other procedures to satisfy ourselves as to the effectiveness of the company's internal control over financial reporting, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion either on management's assessment or on the effectiveness of the company's internal control over financial reporting.

[Explanatory paragraph]

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the *[identify financial statements]* of W Company and our report dated *[date of report, which should be the same as the date of the report on the effectiveness of internal control over financial reporting]* expressed *[include nature of opinion]*.

Example A-5

ILLUSTRATIVE REPORT EXPRESSING AN UNQUALIFIED OPINION ON MANAGEMENT'S ASSESSMENT OF THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING THAT REFERS TO THE REPORT OF OTHER AUDITORS AS A BASIS, IN PART, FOR THE AUDITOR'S OPINION AND AN UNQUALIFIED OPINION ON THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING

Report of Independent Registered Public Accounting Firm

[Introductory paragraph]

We have audited management's assessment, included in the accompanying [*title of management's report*], that W Company maintained effective internal control over financial reporting as of December 31, 20X3, based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. W Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the company's internal control over financial reporting based on our audit. We did not examine the effectiveness of internal control over financial reporting of B Company, a wholly owned subsidiary, whose financial statements reflect total assets and revenues constituting 20 and 30 percent, respectively, of the related consolidated financial statement amounts as of and for the year ended December 31, 20X3. The effectiveness of B Company's internal control over financial reporting was audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the effectiveness of B Company's internal control over financial reporting, is based solely on the report of the other auditors.

[Scope paragraph]

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit and the report of the other auditors provide a reasonable basis for our opinion.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

[Definition paragraph]

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

ILLUSTRATIVE REPORT EXPRESSING AN ADVERSE OPINION ON MANAGEMENT'S ASSESSMENT OF THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING AND AN ADVERSE OPINION ON THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING BECAUSE OF THE EXISTENCE OF A MATERIAL WEAKNESS

Report of Independent Registered Public Accounting Firm

[Introductory paragraph]

We have audited management's assessment, included in the accompanying [*title of management's report*], that W Company maintained effective internal control over financial reporting as of December 31, 20X3, based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. W Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the company's internal control over financial reporting based on our audit.

[Scope paragraph]

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

[Definition paragraph]

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Explanatory paragraph]

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. We have identified the following material weakness that has not been identified as a material weakness in management's assessment *[Include a description of the material weakness and its effect on the achievement of the objectives of the control criteria.]* This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the 20X3 financial statements, and this report does not affect our report dated *[date of report, which should be the same as the date of this report on internal control]* on those financial statements.^{1/}

[Opinion paragraph]

In our opinion, because of the effect of the material weakness described above on the achievement of the objectives of the control criteria, management's assessment that W Company maintained effective internal control over financial reporting as of December 31, 20X3, is not fairly stated, in all material respects, based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*. Also, in our opinion, because of the effect of the material weakness described above on the achievement of the objectives of the control criteria, W Company has not maintained effective internal control over financial reporting as of December 31, 20X3, based on

ILLUSTRATIVE COMBINED REPORT EXPRESSING AN UNQUALIFIED OPINION ON FINANCIAL STATEMENTS, AN UNQUALIFIED OPINION ON MANAGEMENT'S ASSESSMENT OF THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING AND AN UNQUALIFIED OPINION ON THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING

Report of Independent Registered Public Accounting Firm

[Introductory paragraph]

We have audited the accompanying balance sheets of W Company as of December 31, 20X3 and 20X2, and the related statements of income, stockholders' equity and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 20X3. We also have audited management's assessment, included in the accompanying *[title of management's report]*, that W Company maintained effective internal control over financial reporting as of December 31, 20X3, based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*. W Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on these financial statements, an opinion on management's assessment, and an opinion on the effectiveness of the company's internal control over financial reporting based on our audits.

[Scope paragraph]

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audit of financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

[Definition paragraph]

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of W Company as of December 31, 20X3 and 20X2, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 20X3 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, management's assessment that W Company maintained effective internal control over financial reporting as of December 31, 20X3, is fairly stated, in all material respects, based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*. Furthermore, in our opinion, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20X3, based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*.

APPENDIX B

Additional Performance Requirements and Directions; Extent-of-Testing Examples

Tests to be Performed When a Company Has Multiple Locations or Business Units

B1. To determine the locations or business units for performing audit procedures, the auditor should evaluate their relative financial significance and the risk of material misstatement arising from them. In making this evaluation, the auditor should identify the locations or business units that are individually important, evaluate their documentation of controls, and test controls over significant accounts and disclosures. For locations or business units that contain specific risks that, by themselves, could create a material misstatement, the auditor should evaluate their documentation of controls and test controls over the specific risks.

B2. The auditor should determine the other locations or business units that, when aggregated, represent a group with a level of financial significance that could create a material misstatement in the financial statements. For that group, the auditor should determine whether there are company-level controls in place. If so, the auditor should evaluate the documentation and test such company-level controls. If not, the auditor should perform tests of controls at some of the locations or business units.

B3. No further work is necessary on the remaining locations or businesses, provided that they are not able to create, either individually or in the aggregate, a material misstatement in the financial statements.

Locations or Business Units That Are Financially Significant

B4. Because of the importance of financially significant locations or business units, the auditor should evaluate management's documentation of and perform tests of controls over all relevant assertions related to significant accounts and disclosures at each financially significant location or business unit, as discussed in paragraphs 83 through 105. Generally, a relatively small number of locations or business units will encompass a large portion of a company's operations and financial position, making them financially significant.

B5. In determining the nature, timing, and extent of testing at the individual locations or business units, the auditor should evaluate each entity's involvement, if any, with a central processing or shared service environment.

Locations or Business Units That Involve Specific Risks

B6. Although a location or business unit might not be individually financially significant, it might present specific risks that, by themselves, could create a material misstatement in the company's financial statements. The auditor should test the controls over the specific risks that could create a material misstatement in the company's financial statements. The auditor need not test controls over all relevant assertions related to all significant accounts at these locations or business units. For example, a business unit responsible for foreign exchange trading could expose the company to the risk of material misstatement, even though the relative financial significance of such transactions is low.

Locations or Business Units That Are Significant Only When Aggregated with Other Locations and Business Units

B7. In determining the nature, timing, and extent of testing, the auditor should determine whether management has documented and placed in operation company-level controls (See paragraph 53) over individually unimportant locations and business units that, when aggregated with other locations or business units, might have a high level of financial significance. A high level of financial significance could create a greater than remote risk of material misstatement of the financial statements.

B8. For the purposes of this evaluation, company-level controls are controls management has in place to provide assurance that appropriate controls exist throughout the organization, including at individual locations or business units.

B9. The auditor should perform tests of company-level controls to determine whether such controls are operating effectively. The auditor might conclude that he or she cannot evaluate the operating effectiveness of such controls without visiting some or all of the locations or business units.

B10. If management does not have company-level controls operating at these locations and business units, the auditor should determine the nature, timing, and extent of procedures to be performed at each location, business unit, or combination of locations and business units. When determining the locations or business units to visit and the controls to test, the auditor should evaluate the following factors:

- The relative financial significance of each location or business unit.
- The risk of material misstatement arising from each location or business unit.
- The similarity of business operations and internal control over financial reporting at the various locations or business units.
- The degree of centralization of processes and financial reporting applications.

- The effectiveness of the control environment, particularly management's direct control over the exercise of authority delegated to others and its ability to effectively supervise activities at the various locations or business units. An ineffective control environment over the locations or business units might constitute a material weakness.
- The nature and amount of transactions executed and related assets at the various locations or business units.
- The potential for material unrecognized obligations to exist at a location or business unit and the degree to which the location or business unit could create an obligation on the part of the company.
- Management's risk assessment process and analysis for excluding a location or business unit from its assessment of internal control over financial reporting.

B11. Testing company-level controls is not a substitute for the auditor's testing of controls over a large portion of the company's operations or financial position. If the auditor cannot test a large portion of the company's operations and financial position by selecting a relatively small number of locations or business units, he or she should expand the number of locations or business units selected to evaluate internal control over financial reporting.

Note: The evaluation of whether controls over a large portion of the company's operations or financial position have been tested should be made at the overall level, not at the individual significant account level.

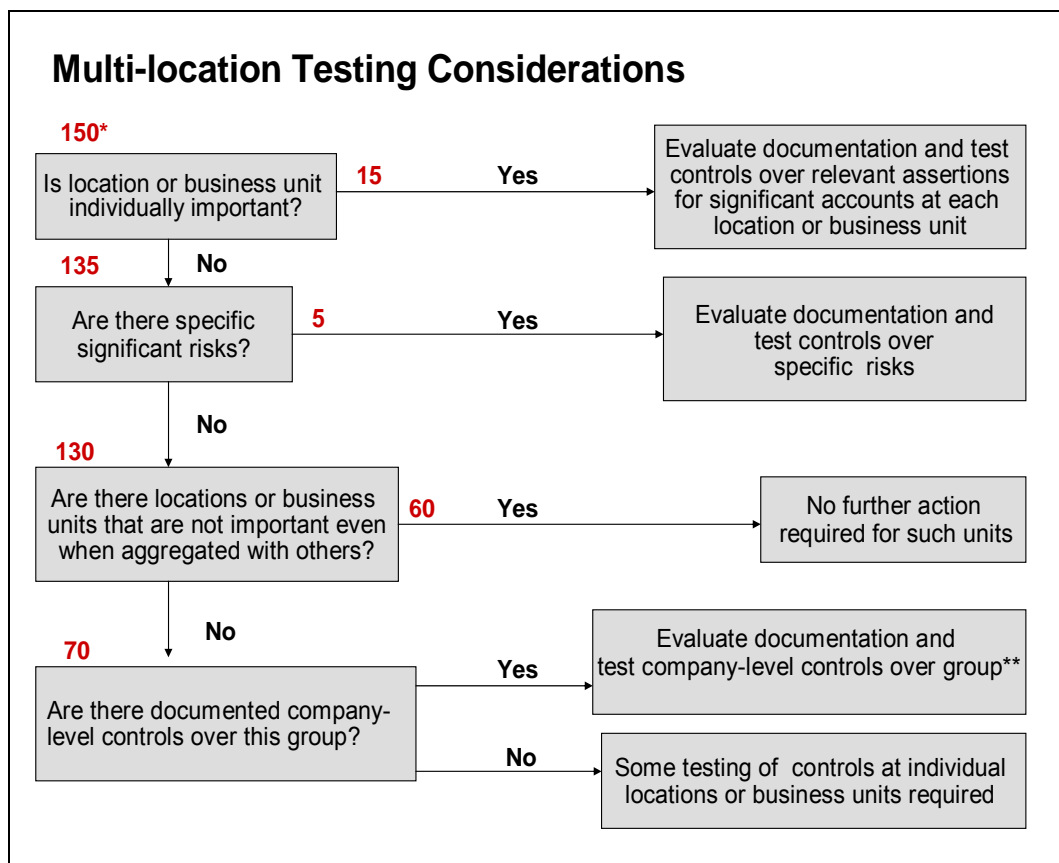

Locations and Business Units That Do Not Require Testing

B12. No testing is required for locations or business units that individually, and when aggregated with others, could not result in a material misstatement to the financial statements.

Multi-Location Testing Considerations Flowchart

B13. Illustration B-1 depicts how to apply the directions in this section to a hypothetical company with 150 locations or business units, along with the auditor's testing considerations for those locations or business units.

Illustration B-1

* Numbers represent number of locations affected.

** See paragraph B7.

Special Situations

B14. The scope of the evaluation of the company's internal control over financial reporting should include entities that are acquired on or before the date of management's assessment and operations that are accounted for as discontinued operations on the date of management's assessment. The auditor should consider this multiple locations discussion in determining whether it will be necessary to test controls at these entities or operations.

B15. For equity method investments, the evaluation of the company's internal control over financial reporting should include controls over the reporting in accordance with generally accepted accounting principles, in the company's financial statements, of the company's portion of the investees' income or loss, the investment balance, adjustments to the income or loss and investment balance, and related disclosures. The evaluation ordinarily would not extend to controls at the equity method investee.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

B16. In situations in which the SEC allows management to limit its assessment of internal control over financial reporting by excluding certain entities, the auditor may limit the audit in the same manner and report without reference to the limitation in scope. However, the auditor should evaluate the reasonableness of management's conclusion that the situation meets the criteria of the SEC's allowed exclusion and the appropriateness of any required disclosure related to such a limitation. If the auditor believes that management's disclosure about the limitation requires modification, the auditor should follow the same communication responsibilities as described in paragraphs 204 and 205. If management and the audit committee do not respond appropriately, in addition to fulfilling those responsibilities, the auditor should modify his or her report on the audit of internal control over financial reporting to include an explanatory paragraph describing the reasons why the auditor believes management's disclosure should be modified.

B17. For example, for entities that are consolidated or proportionately consolidated, the evaluation of the company's internal control over financial reporting should include controls over significant accounts and processes that exist at the consolidated or proportionately consolidated entity. In some instances, however, such as for some variable interest entities as defined in Financial Accounting Standards Board Interpretation No. 46, *Consolidation of Variable Interest Entities*, management might not be able to obtain the information necessary to make an assessment because it does not have the ability to control the entity. If management is allowed to limit its assessment by excluding such entities,^{1/} the auditor may limit the audit in the same manner and report without reference to the limitation in scope. In this case, the evaluation of the company's internal control over financial reporting should include evaluation of controls over the reporting in accordance with generally accepted accounting principles, in the company's financial statements, of the company's portion of the entity's income or loss, the investment balance, adjustments to the income or loss and investment balances, and related disclosures. However, the auditor should evaluate the reasonableness of management's conclusion that it does not have the ability to obtain the necessary

^{1/} It is our understanding that the SEC Staff may conclude that management can limit the scope of its assessment if it does not have the authority to affect, and therefore cannot assess, the controls in place over certain amounts. This would relate to entities that are consolidated or proportionately consolidated when the issuer does not have sufficient control over the entity to assess and affect controls. If management's report on its assessment of the effectiveness of internal control over financial reporting is limited in that manner, the SEC staff may permit the company to disclose this fact as well as information about the magnitude of the amounts included in the financial statements from entities whose controls cannot be assessed. This disclosure would be required in each filing, but outside of management's report on its assessment of the effectiveness of internal control over financial reporting.

information as well as the appropriateness of any required disclosure related to such a limitation.

Use of Service Organizations

B18. AU sec. 324, *Service Organizations*, applies to the audit of financial statements of a company that obtains services from another organization that are part of its information system. The auditor may apply the relevant concepts described in AU sec. 324 to the audit of internal control over financial reporting. Further, although AU sec. 324 was designed to address auditor-to-auditor communications as part of the audit of financial statements, it also is appropriate for management to apply the relevant concepts described in that standard to its assessment of internal control over financial reporting.

B19. Paragraph .03 of AU sec. 324 describes the situation in which a service organization's services are part of a company's information system. If the service organization's services are part of a company's information system, as described therein, then they are part of the information and communication component of the company's internal control over financial reporting. When the service organization's services are part of the company's internal control over financial reporting, management should consider the activities of the service organization in making its assessment of internal control over financial reporting, and the auditor should consider the activities of the service organization in determining the evidence required to support his or her opinion.

Note: The use of a service organization does not reduce management's responsibility to maintain effective internal control over financial reporting.

B20. Paragraphs .07 through .16 in AU sec. 324 describe the procedures that management and the auditor should perform with respect to the activities performed by the service organization. The procedures include:

- a. Obtaining an understanding of the controls at the service organization that are relevant to the entity's internal control and the controls at the user organization over the activities of the service organization, and
- b. Obtaining evidence that the controls that are relevant to management's assessment and the auditor's opinion are operating effectively.

B21. Evidence that the controls that are relevant to management's assessment and the auditor's opinion are operating effectively may be obtained by following the procedures described in paragraph .12 of AU sec. 324. These procedures include:

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2

- a. Performing tests of the user organization's controls over the activities of the service organization (for example, testing the user organization's independent reperformance of selected items processed by the service organization or testing the user organization's reconciliation of output reports with source documents).
- b. Performing tests of controls at the service organization.
- c. Obtaining a service auditor's report on controls placed in operation and tests of operating effectiveness, or a report on the application of agreed-upon procedures that describes relevant tests of controls.

Note: The service auditor's report referred to above means a report with the service auditor's opinion on the service organization's description of the design of its controls, the tests of controls, and results of those tests performed by the service auditor, and the service auditor's opinion on whether the controls tested were operating effectively during the specified period (in other words, "reports on controls placed in operation and tests of operating effectiveness" described in paragraph .24b of AU sec. 324). A service auditor's report that does not include tests of controls, results of the tests, and the service auditor's opinion on operating effectiveness (in other words, "reports on controls placed in operation" described in paragraph .24a of AU sec. 324) does not provide evidence of operating effectiveness. Furthermore, if the evidence regarding operating effectiveness of controls comes from an agreed-upon procedures report rather than a service auditor's report issued pursuant to AU sec. 324, management and the auditor should evaluate whether the agreed-upon procedures report provides sufficient evidence in the same manner described in the following paragraph.

B22. If a service auditor's report on controls placed in operation and tests of operating effectiveness is available, management and the auditor may evaluate whether this report provides sufficient evidence to support the assessment and opinion, respectively. In evaluating whether such a service auditor's report provides sufficient evidence, management and the auditor should consider the following factors:

- The time period covered by the tests of controls and its relation to the date of management's assessment,
- The scope of the examination and applications covered, the controls tested, and the way in which tested controls relate to the company's controls,
- The results of those tests of controls and the service auditor's opinion on the operating effectiveness of the controls.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

Note: These factors are similar to factors the auditor would consider in determining whether the report provides sufficient evidence to support the auditor's assessed level of control risk in an audit of the financial statements as described in paragraph .16 of AU sec. 324.

B23. If the service auditor's report on controls placed in operation and tests of operating effectiveness contains a qualification that the stated control objectives might be achieved only if the company applies controls contemplated in the design of the system by the service organization, the auditor should evaluate whether the company is applying the necessary procedures. For example, completeness of processing payroll transactions might depend on the company's validation that all payroll records sent to the service organization were processed by checking a control total.

B24. In determining whether the service auditor's report provides sufficient evidence to support management's assessment and the auditor's opinion, management and the auditor should make inquiries concerning the service auditor's reputation, competence, and independence. Appropriate sources of information concerning the professional reputation of the service auditor are discussed in paragraph .10a of AU sec. 543, *Part of Audit Performed by Other Independent Auditors*.

B25. When a significant period of time has elapsed between the time period covered by the tests of controls in the service auditor's report and the date of management's assessment, additional procedures should be performed. The auditor should inquire of management to determine whether management has identified any changes in the service organization's controls subsequent to the period covered by the service auditor's report (such as changes communicated to management from the service organization, changes in personnel at the service organization with whom management interacts, changes in reports or other data received from the service organization, changes in contracts or service level agreements with the service organization, or errors identified in the service organization's processing). If management has identified such changes, the auditor should determine whether management has performed procedures to evaluate the effect of such changes on the effectiveness of the company's internal control over financial reporting. The auditor also should consider whether the results of other procedures he or she performed indicate that there have been changes in the controls at the service organization that management has not identified.

B26. The auditor should determine whether to obtain additional evidence about the operating effectiveness of controls at the service organization based on the procedures performed by management or the auditor and the results of those procedures and on an evaluation of the following factors. As these factors increase in significance, the need for the auditor to obtain additional evidence increases.

- The elapsed time between the time period covered by the tests of controls in the service auditor's report and the date of management's assessment,

- The significance of the activities of the service organization,
- Whether there are errors that have been identified in the service organization's processing, and
- The nature and significance of any changes in the service organization's controls identified by management or the auditor.

B27. If the auditor concludes that additional evidence about the operating effectiveness of controls at the service organization is required, the auditor's additional procedures may include:

- Evaluating the procedures performed by management and the results of those procedures.
- Contacting the service organization, through the user organization, to obtain specific information.
- Requesting that a service auditor be engaged to perform procedures that will supply the necessary information.
- Visiting the service organization and performing such procedures.

B28. Based on the evidence obtained, management and the auditor should determine whether they have obtained sufficient evidence to obtain the reasonable assurance necessary for their assessment and opinion, respectively.

B29. The auditor should not refer to the service auditor's report when expressing an opinion on internal control over financial reporting.

Examples of Extent-of-Testing Decisions

B30. As discussed throughout this standard, determining the effectiveness of a company's internal control over financial reporting includes evaluating the design and operating effectiveness of controls over all relevant assertions related to all significant accounts and disclosures in the financial statements. Paragraphs 88 through 107 provide the auditor with directions about the nature, timing, and extent of testing of the design and operating effectiveness of internal control over financial reporting.

B31. Examples B-1 through B-4 illustrate how to apply this information in various situations. These examples are for illustrative purposes only.

Example B-1 – *Daily Programmed Application Control and Daily Information Technology-Dependent Manual Control*

The auditor has determined that cash and accounts receivable are significant accounts to the audit of XYZ Company's internal control over financial reporting. Based on discussions with company personnel and review of company documentation, the auditor learned that the company had the following procedures in place to account for cash received in the lockbox:

- a. The company receives a download of cash receipts from the banks.
- b. The information technology system applies cash received in the lockbox to individual customer accounts.
- c. Any cash received in the lockbox and not applied to a customer's account is listed on an exception report (Unapplied Cash Exception Report).
 - Therefore, the application of cash to a customer's account is a programmed application control, while the review and follow-up of unapplied cash from the exception report is a manual control.

To determine whether misstatements in cash (existence assertion) and accounts receivable (existence, valuation, and completeness) would be prevented or detected on a timely basis, the auditor decided to test the controls provided by the system in the daily reconciliation of lock box receipts to customer accounts, as well as the control over reviewing and resolving unapplied cash in the Unapplied Cash Exception Report.

Nature, Timing, and Extent of Procedures. To test the programmed application control, the auditor:

- Identified, through discussion with company personnel, the software used to receive the download from the banks and to process the transactions and determined that the banks supply the download software.
 - The company uses accounting software acquired from a third-party supplier. The software consists of a number of modules. The client modifies the software only for upgrades supplied by the supplier.
- Determined, through further discussion with company personnel, that the cash module operates the lockbox functionality and the posting of cash to the general ledger. The accounts receivable module posts the cash to individual customer accounts and produces the Unapplied Cash Exception Report, a standard report supplied with the package. The auditor agreed this information to the supplier's documentation.
- Identified, through discussions with company personnel and review of the supplier's documentation, the names, file sizes (in bytes), and locations of the

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

executable files (programs) that operate the functionality under review. The auditor then identified the compilation dates of these programs and agreed them to the original installation date of the application.

- Identified the objectives of the programs to be tested. The auditor wanted to determine whether only appropriate cash items are posted to customers' accounts and matched to customer number, invoice number, amount, etc., and that there is a listing of inappropriate cash items (that is, any of the above items not matching) on the exception report.

In addition, the auditor had evaluated and tested general computer controls, including program changes (for example, confirmation that no unauthorized changes are undertaken) and logical access (for example, data file access to the file downloaded from the banks and user access to the cash and accounts receivable modules) and concluded that they were operating effectively.

To determine whether such programmed controls were operating effectively, the auditor performed a walkthrough in the month of July. The computer controls operate in a systematic manner, therefore, the auditor concluded that it was sufficient to perform a walkthrough for only the one item. During the walkthrough, the auditor performed and documented the following items:

- a. Selected one customer and agreed the amount billed to the customer to the cash received in the lockbox.
- b. Agreed the total of the lockbox report to the posting of cash receipts in the general ledger.
- c. Agreed the total of the cash receipt download from the bank to the lockbox report and supporting documentation.
- d. Selected one customer's remittance and agreed amount posted to the customer's account in the accounts receivable subsidiary ledger.

To test the detective control of review and follow up on the Daily Unapplied Cash Exception Report, the auditor:

- a. Made inquiries of company personnel. To understand the procedures in place to ensure that all unapplied items are resolved, the time frame in which such resolution takes place, and whether unapplied items are handled properly within the system, the auditor discussed these matters with the employee responsible for reviewing and resolving the Daily Unapplied Cash Exception Reports. The auditor learned that, when items appear on the Daily-Unapplied Cash Exception Report, the employee must manually enter the correction into the system. The employee typically performs the resolution procedures the next business day. Items that typically appear on the Daily Unapplied Cash Exception Report relate to payments

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

made by a customer without reference to an invoice number/purchase order number or to underpayments of an invoice due to quantity or pricing discrepancies.

- b. Observed personnel performing the control. The auditor then observed the employee reviewing and resolving a Daily Unapplied Cash Exception Report. The day selected contained four exceptions – three related to payments made by a customer without an invoice number, and one related to an underpayment due to a pricing discrepancy.
- For the pricing discrepancy, the employee determined, through discussions with a sales person, that the customer had been billed an incorrect price; a price break that the sales person had granted to the customer was not reflected on the customer's invoice. The employee resolved the pricing discrepancy, determined which invoices were being paid, and entered a correction into the system to properly apply cash to the customer's account and reduce accounts receivable and sales accounts for the amount of the price break.
- c. Reperformed the control. Finally, the auditor selected 25 Daily Unapplied Cash Exception Reports from the period January to September. For the reports selected, the auditor reperformed the follow-up procedures that the employee performed. For instance, the auditor inspected the documents and sources of information used in the follow-up and determined that the transaction was properly corrected in the system. The auditor also scanned other Daily Unapplied Cash Exception Reports to determine that the control was performed throughout the period of intended reliance.

Because the tests of controls were performed at an interim date, the auditor had to determine whether there were any significant changes in the controls from interim to year-end. Therefore, the auditor asked company personnel about the procedures in place at year-end. Such procedures had not changed from the interim period, therefore, the auditor observed that the controls were still in place by scanning Daily Unapplied Cash Exception Reports to determine the control was performed on a timely basis during the period from September to year-end.

Based on the auditor's procedures, the auditor concluded that the employee was clearing exceptions in a timely manner and that the control was operating effectively as of year-end.

Example B-2 – *Monthly Manual Reconciliation*

The auditor determined that accounts receivable is a significant account to the audit of XYZ Company's internal control over financial reporting. Through discussions with company personnel and review of company documentation, the auditor learned that

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

company personnel reconcile the accounts receivable subsidiary ledger to the general ledger on a monthly basis. To determine whether misstatements in accounts receivable (existence, valuation, and completeness) would be detected on a timely basis, the auditor decided to test the control provided by the monthly reconciliation process.

Nature, Timing, and Extent of Procedures. The auditor tested the company's reconciliation control by selecting a sample of reconciliations based upon the number of accounts, the dollar value of the accounts, and the volume of transactions affecting the account. Because the auditor considered all other receivable accounts immaterial, and because such accounts had only minimal transactions flowing through them, the auditor decided to test only the reconciliation for the trade accounts receivable account. The auditor elected to perform the tests of controls over the reconciliation process in conjunction with the auditor's substantive procedures over the accounts receivable confirmation procedures, which were performed in July.

To test the reconciliation process, the auditor:

- a. Made inquiries of personnel performing the control. The auditor asked the employee performing the reconciliation a number of questions, including the following:
 - What documentation describes the account reconciliation process?
 - How long have you been performing the reconciliation work?
 - What is the reconciliation process for resolving reconciling items?
 - How often are the reconciliations formally reviewed and signed off?
 - If significant issues or reconciliation problems are noticed, to whose attention do you bring them?
 - On average, how many reconciling items are there?
 - How are old reconciling items treated?
 - If need be, how is the system corrected for reconciling items?
 - What is the general nature of these reconciling items?
- b. Observed the employee performing the control. The auditor observed the employee performing the reconciliation procedures. For nonrecurring reconciling items, the auditor observed whether each item included a clear explanation as to its nature, the action that had been taken to resolve it, and whether it had been resolved on a timely basis.

- c. Reperformed the control. Finally, the auditor inspected the reconciliations and reperformed the reconciliation procedures. For the May and July reconciliations, the auditor traced the reconciling amounts to the source documents on a test basis. The only reconciling item that appeared on these reconciliations was cash received in the lockbox the previous day that had not been applied yet to the customer's account. The auditor pursued the items in each month's reconciliation to determine that the reconciling item cleared the following business day. The auditor also scanned through the file of all reconciliations prepared during the year and noted that they had been performed on a timely basis. To determine that the company had not made significant changes in its reconciliation control procedures from interim to year-end, the auditor made inquiries of company personnel and determined that such procedures had not changed from interim to year-end. Therefore, the auditor verified that controls were still in place by scanning the monthly account reconciliations to determine that the control was performed on a timely basis during the interim to year-end period.

Based on the auditor's procedures, the auditor concluded that the reconciliation control was operating effectively as of year-end.

Example B-3 – *Daily Manual Preventive Control*

The auditor determined that cash and accounts payable were significant accounts to the audit of the company's internal control over financial reporting. Through discussions with company personnel, the auditor learned that company personnel make a cash disbursement only after they have matched the vendor invoice to the receiver and purchase order. To determine whether misstatements in cash (existence) and accounts payable (existence, valuation, and completeness) would be prevented on a timely basis, the auditor tested the control over making a cash disbursement only after matching the invoice with the receiver and purchase.

Nature, Timing, and Extent of Procedures. On a haphazard basis, the auditor selected 25 disbursements from the cash disbursement registers from January through September. In this example, the auditor deemed a test of 25 cash disbursement transactions an appropriate sample size because the auditor was testing a manual control performed as part of the routine processing of cash disbursement transactions through the system. Furthermore, the auditor expected no errors based on the results of company-level tests performed earlier. [If, however, the auditor had encountered a control exception, the auditor would have attempted to identify the root cause of the exception and tested an additional number of items. If another control exception had been noted, the auditor would have decided that this control was not effective. As a result, the auditor would have decided to increase the extent of substantive procedures to be performed in connection with the financial statement audit of the cash and accounts payable accounts.]

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

- a. After obtaining the related voucher package, the auditor examined the invoice to see if it included the signature or initials of the accounts payable clerk, evidencing the clerk's performance of the matching control. However, a signature on a voucher package to indicate signor approval does not necessarily mean that the person carefully reviewed it before signing. The voucher package may have been signed based on only a cursory review, or without any review.
- b. The auditor decided that the quality of the evidence regarding the effective operation of the control evidenced by a signature or initials was not sufficiently persuasive to ensure that the control operated effectively during the test period. In order to obtain additional evidence, the auditor reperformed the matching control corresponding to the signature, which included examining the invoice to determine that (a) its items matched to the receiver and purchase order and (b) it was mathematically accurate.

Because the auditor performed the tests of controls at an interim date, the auditor updated the testing through the end of the year (initial tests are through September to December) by asking the accounts payable clerk whether the control was still in place and operating effectively. The auditor confirmed that understanding by performing a walkthrough of one transaction in December.

Based on the auditor's procedures, the auditor concluded that the control over making a cash disbursement only after matching the invoice with the receiver and purchase was operating effectively as of year-end.

Example B-4 – *Programmed Prevent Control and Weekly Information Technology-Dependent Manual Detective Control*

The auditor determined that cash, accounts payable, and inventory were significant accounts to the audit of the company's internal control over financial reporting. Through discussions with company personnel, the auditor learned that the company's computer system performs a three-way match of the receiver, purchase order, and invoice. If there are any exceptions, the system produces a list of unmatched items that employees review and follow up on weekly.

In this case, the computer match is a programmed application control, and the review and follow-up of the unmatched items report is a detective control. To determine whether misstatements in cash (existence) and accounts payable/inventory (existence, valuation, and completeness) would be prevented or detected on a timely basis, the auditor decided to test the programmed application control of matching the receiver, purchase order, and invoice as well as the review and follow-up control over unmatched items.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

Nature, Timing, and Extent of Procedures. To test the programmed application control, the auditor:

- a. Identified, through discussion with company personnel, the software used to process receipts and purchase invoices. The software used was a third-party package consisting of a number of modules.
- b. Determined, through further discussion with company personnel, that they do not modify the core functionality of the software, but sometimes make personalized changes to reports to meet the changing needs of the business. From previous experience with the company's information technology environment, the auditor believes that such changes are infrequent and that information technology process controls are well established.
- c. Established, through further discussion, that the inventory module operated the receiving functionality, including the matching of receipts to open purchase orders. Purchase invoices were processed in the accounts payable module, which matched them to an approved purchase order against which a valid receipt has been made. That module also produced the Unmatched Items Report, a standard report supplied with the package to which the company has not made any modifications. That information was agreed to the supplier's documentation and to documentation within the information technology department.
- d. Identified, through discussions with the client and review of the supplier's documentation, the names, file sizes (in bytes), and locations of the executable files (programs) that operate the functionality under review. The auditor then identified the compilation dates of the programs and agreed them to the original installation date of the application. The compilation date of the report code was agreed to documentation held within the information technology department relating to the last change made to that report (a change in formatting).
- e. Identified the objectives of the programs to be tested. The auditor wanted to determine whether appropriate items are received (for example, match a valid purchase order), appropriate purchase invoices are posted (for example, match a valid receipt and purchase order, non-duplicate reference numbers) and unmatched items (for example, receipts, orders or invoices) are listed on the exception report. The auditor then reperformed all those variations in the packages on a test-of-one basis to determine that the programs operated as described.

In addition, the auditor had evaluated and tested general computer controls, including program changes (for example, confirmation that no unauthorized changes are undertaken to the functionality and that changes to reports are appropriately authorized, tested, and approved before being applied) and logical access (for example, user access to the inventory and accounts payable modules and access to the area on the

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

system where report code is maintained), and concluded that they were operating effectively. (Since the computer is deemed to operate in a systematic manner, the auditor concluded that it was sufficient to perform a walkthrough for only the one item.)

To determine whether the programmed control was operating effectively, the auditor performed a walkthrough in the month of July. As a result of the walkthrough, the auditor performed and documented the following items:

- a. Receiving cannot record the receipt of goods without matching the receipt to a purchase order on the system. The auditor tested that control by attempting to record the receipt of goods into the system without a purchase order. However, the system did not allow the auditor to do that. Rather, the system produced an error message stating that the goods could not be recorded as received without an active purchase order.
- b. An invoice will not be paid unless the system can match the receipt and vendor invoice to an approved purchase order. The auditor tested that control by attempting to approve an invoice for payment in the system. The system did not allow the auditor to do that. Rather, it produced an error message indicating that invoices could not be paid without an active purchase order and receiver.
- c. The system disallows the processing of invoices with identical vendor and identical invoice numbers. In addition, the system will not allow two invoices to be processed against the same purchase order unless the sum of the invoices is less than the amount approved on the purchase order. The auditor tested that control by attempting to process duplicate invoices. However, the system produced an error message indicating that the invoice had already been processed.
- d. The system compares the invoice amounts to the purchase order. If there are differences in quantity/extended price, and such differences fall outside a pre-approved tolerance, the system does not allow the invoice to be processed. The auditor tested that control by attempting to process an invoice that had quantity/price differences outside the tolerance level of 10 pieces, or \$1,000. The system produced an error message indicating that the invoice could not be processed because of such differences.
- e. The system processes payments only for vendors established in the vendor master file. The auditor tested that control by attempting to process an invoice for a vendor that was not established in the vendor master file. However, the system did not allow the payment to be processed.
- f. The auditor tested user access to the vendor file and whether such users can make modifications to such file by attempting to access and make changes to the vendor tables. However, the system did not allow the auditor to perform that

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

function and produced an error message stating that the user was not authorized to perform that function.

- g. The auditor verified the completeness and accuracy of the Unmatched Items Report by verifying that one unmatched item was on the report and one matched item was not on the report.

Note: It is inadvisable for the auditor to have uncontrolled access to the company's systems in his or her attempts described above to record the receipt of goods without a purchase order, approve an invoice for payment, process duplicate invoices, etc. These procedures ordinarily are performed in the presence of appropriate company personnel so that they can be notified immediately of any breach to their systems.

To test the detect control of review and follow up on the Unmatched Items Report, the auditor performed the following procedures in the month of July for the period January to July:

- a. Made inquiries of company personnel. To gain an understanding of the procedures in place to ensure that all unmatched items are followed-up properly and that corrections are made on a timely basis, the auditor made inquiries of the employee who follows up on the weekly-unmatched items reports. On a weekly basis, the control required the employee to review the Unmatched Items Report to determine why items appear on it. The employee's review includes proper follow-up on items, including determining whether:
- All open purchase orders are either closed or voided within an acceptable amount of time.
 - The requesting party is notified periodically of the status of the purchase order and the reason for its current status.
 - The reason the purchase order remains open is due to incomplete shipment of goods and, if so, whether the vendor has been notified.
 - There are quantity problems that should be discussed with purchasing.
- b. Observed the performance of the control. The auditor observed the employee performing the control for the Unmatched Items Reports generated during the first week in July.
- c. Reperformed the control. The auditor selected five weekly Unmatched Items Reports, selected several items from each, and reperformed the procedures that the employee performed. The auditor also scanned other Unmatched Items Reports to determine that the control was performed throughout the period of intended reliance.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

To determine that the company had not made significant changes in their controls from interim to year-end, the auditor discussed with company personnel the procedures in place for making such changes. Since the procedures had not changed from interim to year-end, the auditor observed that the controls were still in place by scanning the weekly Unmatched Items Reports to determine that the control was performed on a timely basis during the interim to year-end period.

Based on the auditor's procedures, the auditor concluded that the employee was clearing exceptions in a timely manner and that the control was operating effectively as of year-end.

APPENDIX C

Safeguarding of Assets

C1. *Safeguarding of assets* is defined in paragraph 7 as those policies and procedures that "provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements." This definition is consistent with the definition provided in the Committee of Sponsoring Organizations (COSO) of the Treadway Commission's Addendum, *Reporting to External Parties*, which provides the following definition of internal control over safeguarding of assets:

Internal control over safeguarding of assets against unauthorized acquisition, use or disposition is a process, effected by an entity's board of directors, management and other personnel, designed to provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements. Such internal control can be judged effective if the board of directors and management have reasonable assurance that unauthorized acquisition, use or disposition of the entity's assets that could have a material effect on the financial statements is being prevented or detected on a timely basis.

C2. For example, a company has safeguarding controls over inventory tags (preventive controls) and also performs periodic physical inventory counts (detective control) timely in relation to its quarterly and annual financial reporting dates. Although the physical inventory count does not safeguard the inventory from theft or loss, it prevents a material misstatement to the financial statements if performed effectively and timely.

C3. Therefore, given that the definitions of material weakness and significant deficiency relate to the likelihood of misstatement of the financial statements, the failure of a preventive control such as inventory tags will not result in a significant deficiency or material weakness if the detective control (physical inventory) prevents a misstatement of the financial statements. The COSO Addendum also indicates that to the extent that such losses might occur, controls over financial reporting are effective if they provide reasonable assurance that those losses are properly reflected in the financial statements, thereby alerting financial statement users to consider the need for action.

Note: *Properly reflected* in the financial statements includes both correctly recording the loss and adequately disclosing the loss.

C4. Material weaknesses relating to controls over the safeguarding of assets would only exist when the company does not have effective controls (considering both

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

safeguarding and other controls) to prevent or detect a material misstatement of the financial statements.

C5. Furthermore, management's plans that could potentially affect financial reporting in future periods are not controls. For example, a company's business continuity or contingency planning has no effect on the company's current abilities to initiate, authorize, record, process, or report financial data. Therefore, a company's business continuity or contingency planning is not part of internal control over financial reporting.

C6. The COSO Addendum provides further information about safeguarding of assets as it relates to internal control over financial reporting.

APPENDIX D

Examples of Significant Deficiencies and Material Weaknesses

D1. Paragraph 8 of this standard defines a control deficiency. Paragraphs 9 and 10 go on to define a significant deficiency and a material weakness, respectively.

Paragraphs 22 through 23 of this standard discuss materiality in an audit of internal control over financial reporting, and paragraphs 130 through 140 provide additional direction on evaluating deficiencies in internal control over financial reporting.

The following examples illustrate how to evaluate the significance of internal control deficiencies in various situations. These examples are for illustrative purposes only.

Example D-1— *Reconciliations of Intercompany Accounts Are Not Performed on a Timely Basis*

Scenario A – Significant Deficiency. The company processes a significant number of routine intercompany transactions on a monthly basis. Individual intercompany transactions are not material and primarily relate to balance sheet activity, for example, cash transfers between business units to finance normal operations.

A formal management policy requires monthly reconciliation of intercompany accounts and confirmation of balances between business units. However, there is not a process in place to ensure performance of these procedures. As a result, detailed reconciliations of intercompany accounts are not performed on a timely basis. Management does perform monthly procedures to investigate selected large-dollar intercompany account differences. In addition, management prepares a detailed monthly variance analysis of operating expenses to assess their reasonableness.

Based only on these facts, the auditor should determine that this deficiency represents a significant deficiency for the following reasons: The magnitude of a financial statement misstatement resulting from this deficiency would reasonably be expected to be more than inconsequential, but less than material, because individual intercompany transactions are not material, and the compensating controls operating monthly should detect a material misstatement. Furthermore, the transactions are primarily restricted to balance sheet accounts. However, the compensating detective controls are designed only to detect material misstatements. The controls do not address the detection of misstatements that are more than inconsequential but less than material. Therefore, the likelihood that a misstatement that was more than inconsequential, but less than material, could occur is more than remote.

Scenario B - Material Weakness. The company processes a significant number of intercompany transactions on a monthly basis. Intercompany transactions relate to a

wide range of activities, including transfers of inventory with intercompany profit between business units, allocation of research and development costs to business units and corporate charges. Individual intercompany transactions are frequently material.

A formal management policy requires monthly reconciliation of intercompany accounts and confirmation of balances between business units. However, there is not a process in place to ensure that these procedures are performed on a consistent basis. As a result, reconciliations of intercompany accounts are not performed on a timely basis, and differences in intercompany accounts are frequent and significant. Management does not perform any alternative controls to investigate significant intercompany account differences.

Based only on these facts, the auditor should determine that this deficiency represents a material weakness for the following reasons: The magnitude of a financial statement misstatement resulting from this deficiency would reasonably be expected to be material, because individual intercompany transactions are frequently material and relate to a wide range of activities. Additionally, actual unreconciled differences in intercompany accounts have been, and are, material. The likelihood of such a misstatement is more than remote because such misstatements have frequently occurred and compensating controls are not effective, either because they are not properly designed or not operating effectively. Taken together, the magnitude and likelihood of misstatement of the financial statements resulting from this internal control deficiency meet the definition of a material weakness.

Example D-2—*Modifications to Standard Sales Contract Terms Not Reviewed To Evaluate Impact on Timing and Amount of Revenue Recognition*

Scenario A – Significant Deficiency. The company uses a standard sales contract for most transactions. Individual sales transactions are not material to the entity. Sales personnel are allowed to modify sales contract terms. The company's accounting function reviews significant or unusual modifications to the sales contract terms, but does not review changes in the standard shipping terms. The changes in the standard shipping terms could require a delay in the timing of revenue recognition. Management reviews gross margins on a monthly basis and investigates any significant or unusual relationships. In addition, management reviews the reasonableness of inventory levels at the end of each accounting period. The entity has experienced limited situations in which revenue has been inappropriately recorded in advance of shipment, but amounts have not been material.

Based only on these facts, the auditor should determine that this deficiency represents a significant deficiency for the following reasons: The magnitude of a financial statement misstatement resulting from this deficiency would reasonably be expected to be more than inconsequential, but less than material, because individual sales transactions are not material and the compensating detective controls operating

monthly and at the end of each financial reporting period should reduce the likelihood of a material misstatement going undetected. Furthermore, the risk of material misstatement is limited to revenue recognition errors related to shipping terms as opposed to broader sources of error in revenue recognition. However, the compensating detective controls are only designed to detect material misstatements. The controls do not effectively address the detection of misstatements that are more than inconsequential but less than material, as evidenced by situations in which transactions that were not material were improperly recorded. Therefore, there is a more than remote likelihood that a misstatement that is more than inconsequential but less than material could occur.

Scenario B - Material Weakness. The company has a standard sales contract, but sales personnel frequently modify the terms of the contract. The nature of the modifications can affect the timing and amount of revenue recognized. Individual sales transactions are frequently material to the entity, and the gross margin can vary significantly for each transaction.

The company does not have procedures in place for the accounting function to regularly review modifications to sales contract terms. Although management reviews gross margins on a monthly basis, the significant differences in gross margins on individual transactions make it difficult for management to identify potential misstatements. Improper revenue recognition has occurred, and the amounts have been material.

Based only on these facts, the auditor should determine that this deficiency represents a material weakness for the following reasons: The magnitude of a financial statement misstatement resulting from this deficiency would reasonably be expected to be material, because individual sales transactions are frequently material, and gross margin can vary significantly with each transaction (which would make compensating detective controls based on a reasonableness review ineffective). Additionally, improper revenue recognition has occurred, and the amounts have been material. Therefore, the likelihood of material misstatements occurring is more than remote. Taken together, the magnitude and likelihood of misstatement of the financial statements resulting from this internal control deficiency meet the definition of a material weakness.

Scenario C – Material Weakness. The company has a standard sales contract, but sales personnel frequently modify the terms of the contract. Sales personnel frequently grant unauthorized and unrecorded sales discounts to customers without the knowledge of the accounting department. These amounts are deducted by customers in paying their invoices and are recorded as outstanding balances on the accounts receivable aging. Although these amounts are individually insignificant, they are material in the aggregate and have occurred consistently over the past few years.

Based on only these facts, the auditor should determine that this deficiency represents a material weakness for the following reasons: The magnitude of a financial statement

misstatement resulting from this deficiency would reasonably be expected to be material, because the frequency of occurrence allows insignificant amounts to become material in the aggregate. The likelihood of material misstatement of the financial statements resulting from this internal control deficiency is more than remote (even assuming that the amounts were fully reserved for in the company's allowance for uncollectible accounts) due to the likelihood of material misstatement of the gross accounts receivable balance. Therefore, this internal control deficiency meets the definition of a material weakness.

Example D-3—*Identification of Several Deficiencies*

Scenario A – Material Weakness. During its assessment of internal control over financial reporting, management identified the following deficiencies. Based on the context in which the deficiencies occur, management and the auditor agree that these deficiencies individually represent significant deficiencies:

- Inadequate segregation of duties over certain information system access controls.
- Several instances of transactions that were not properly recorded in subsidiary ledgers; transactions were not material, either individually or in the aggregate.
- A lack of timely reconciliations of the account balances affected by the improperly recorded transactions.

Based only on these facts, the auditor should determine that the combination of these significant deficiencies represents a material weakness for the following reasons: Individually, these deficiencies were evaluated as representing a more than remote likelihood that a misstatement that is more than inconsequential, but less than material, could occur. However, each of these significant deficiencies affects the same set of accounts. Taken together, these significant deficiencies represent a more than remote likelihood that a material misstatement could occur and not be prevented or detected. Therefore, in combination, these significant deficiencies represent a material weakness.

Scenario B – Material Weakness. During its assessment of internal control over financial reporting, management of a financial institution identifies deficiencies in: the design of controls over the estimation of credit losses (a critical accounting estimate); the operating effectiveness of controls for initiating, processing, and reviewing adjustments to the allowance for credit losses; and the operating effectiveness of controls designed to prevent and detect the improper recognition of interest income. Management and the auditor agree that, in their overall context, each of these deficiencies individually represent a significant deficiency.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

In addition, during the past year, the company experienced a significant level of growth in the loan balances that were subjected to the controls governing credit loss estimation and revenue recognition, and further growth is expected in the upcoming year.

Based only on these facts, the auditor should determine that the combination of these significant deficiencies represents a material weakness for the following reasons:

- The balances of the loan accounts affected by these significant deficiencies have increased over the past year and are expected to increase in the future.
- This growth in loan balances, coupled with the combined effect of the significant deficiencies described, results in a more than remote likelihood that a material misstatement of the allowance for credit losses or interest income could occur.

Therefore, in combination, these deficiencies meet the definition of a material weakness.

Introduction

E1. This appendix summarizes factors that the Public Company Accounting Oversight Board (the "Board") deemed significant in reaching the conclusions in the standard. This appendix includes reasons for accepting certain views and rejecting others.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

Background

E2. Section 404(a) of the Sarbanes-Oxley Act of 2002 (the "Act"), and the Securities and Exchange Commission's (SEC) related implementing rules, require the management of a public company to assess the effectiveness of the company's internal control over financial reporting, as of the end of the company's most recent fiscal year. Section 404(a) of the Act also requires management to include in the company's annual report to shareholders management's conclusion as a result of that assessment of whether the company's internal control over financial reporting is effective.

E3. Sections 103(a)(2)(A) and 404(b) of the Act direct the Board to establish professional standards governing the independent auditor's attestation and reporting on management's assessment of the effectiveness of internal control over financial reporting.

E4. The backdrop for the development of the Board's first major auditing standard was, of course, the spectacular audit failures and corporate malfeasance that led to the passage of the Act. Although all of the various components of the Act work together to help restore investor confidence and help prevent the types of financial reporting breakdowns that lead to the loss of investor confidence, Section 404 of the Act is certainly one of the most visible and tangible changes required by the Act.

E5. The Board believes that effective controls provide the foundation for reliable financial reporting. Congress believed this too, which is why the new reporting by management and the auditor on the effectiveness of internal control over financial reporting received such prominent attention in the Act. Internal control over financial reporting enhances a company's ability to produce fair and complete financial reports. Without reliable financial reports, making good judgments and decisions about a company becomes very difficult for anyone, including the board of directors, management, employees, investors, lenders, customers, and regulators. The auditor's reporting on management's assessment of the effectiveness of internal control over financial reporting provides users of that report with important assurance about the reliability of the company's financial reporting.

E6. The Board's efforts to develop this standard were an outward expression of the Board's mission, "to protect the interests of investors and further the public interest in the preparation of informative, fair, and independent audit reports." As part of fulfilling that mission as it relates to this standard, the Board considered the advice that respected groups had offered to other auditing standards setters in the past. For example, the Public Oversight Board's Panel on Audit Effectiveness recommended that "auditing standards need to provide clear, concise and definitive imperatives for auditors to follow."^{1/} As another example, the International Organization of Securities

^{1/} Panel on Audit Effectiveness, *Report and Recommendations*, sec. 2.228 (August 31, 2000).

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

Commissioners advised the International Auditing and Assurance Standards Board "that the IAASB must take care to avoid language that could inadvertently encourage inappropriate shortcuts in audits, at a time when rigorous audits are needed more than ever to restore investor confidence."^{2/}

E7. The Board understood that, to effectively fulfill its mission and for this standard to achieve its ultimate goal of restoring investor confidence by increasing the reliability of public company financial reporting, the Board's standard must contain clear directions to the auditor consistent with investor's expectations that the reliability of financial reporting be significantly improved. Just as important, the Board recognized that this standard must appropriately balance the costs to implement the standard's directions with the benefits of achieving these important goals. As a result, all of the Board's decisions about this standard were guided by the additional objective of creating a rational relationship between costs and benefits.

E8. When the Board adopted its interim attestation standards in Rule 3300T on an initial, transitional basis, the Board adopted a pre-existing standard governing an auditor's attestation on internal control over financial reporting.^{3/} As part of the Board's process of evaluating that pre-existing standard, the Board convened a public roundtable discussion on July 29, 2003 to discuss issues and hear views related to reporting on internal control over financial reporting. The participants at the roundtable included representatives from public companies, accounting firms, investor groups, and regulatory organizations. Based on comments made at the roundtable, advice from the Board's staff, and other input the Board received, the Board determined that the pre-existing standard governing an auditor's attestation on internal control over financial reporting was insufficient for effectively implementing the requirements of Section 404 of the Act and for the Board to appropriately discharge its standard-setting obligations under Section 103(a) of the Act. In response, the Board developed and issued, on October 7, 2003, a proposed auditing standard titled, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with An Audit of Financial Statements*.

^{2/} April 8, 2003 comment letter from the International Organization of Securities Commissions to the International Auditing and Assurance Standards Board regarding the proposed international standards on audit risk (Amendment to ISA 200, "Objective and Principles Governing an Audit of Financial Statements;" proposed ISAs, "Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement;" "Auditor's Procedures in Response to Assessed Risks;" and "Audit Evidence").

^{3/} The pre-existing standard is Chapter 5, "Reporting on an Entity's Internal Control Over Financial Reporting" of Statement on Standards for Attestation Engagements (SSAE) No. 10, *Attestation Standards: Revision and Recodification* (AICPA, *Professional Standards*, Vol. 1, AT sec. 501). SSAE No. 10 has been codified into AICPA *Professional Standards*, Volume 1, as AT sections 101 through 701.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

E9. The Board received 189 comment letters on a broad array of topics from a variety of commenters, including auditors, investors, internal auditors, issuers, regulators, and others. Those comments led to changes in the standard, intended to make the requirements of the standard clearer and more operational. This appendix summarizes significant views expressed in those comment letters and the Board's responses.

Fundamental Scope of the Auditor's Work in an Audit of Internal Control over Financial Reporting

E10. The proposed standard stated that the auditor's objective in an audit of internal control over financial reporting was to express an opinion on management's assessment of the effectiveness of the company's internal control over financial reporting. To render such an opinion, the proposed standard required the auditor to obtain reasonable assurance about whether the company maintained, in all material respects, effective internal control over financial reporting as of the date specified in management's report. To obtain reasonable assurance, the auditor was required to evaluate both management's process for making its assessment and the effectiveness of internal control over financial reporting.

E11. Virtually all investors and auditors who submitted comment letters expressed support for this approach. Other commenters, primarily issuers, expressed concerns that this approach was contrary to the intent of Congress and, therefore, beyond what was specifically required by Section 404 of the Act. Further, issuers stated their views that this approach would lead to unnecessary and excessive costs. Some commenters in this group suggested the auditor's work should be limited to evaluating management's assessment process and the testing performed by management and internal audit. Others acknowledged that the auditor would need to test at least some controls directly in addition to evaluating and testing management's assessment process. However, these commenters described various ways in which the auditor's own testing could be significantly reduced from the scope expressed in the proposed standard. For instance, they proposed that the auditor could be permitted to use the work of management and others to a much greater degree; that the auditor could use a "risk analysis" to identify only a few controls to be tested; and a variety of other methods to curtail the extent of the auditor's work. Of those opposed to the scope, most cited their belief that the scope of work embodied in the standard would lead to a duplication of effort between management and the auditor which would needlessly increase costs without adding significant value.

E12. After considering the comments, the Board retained the approach described in the proposed standard. The Board concluded that the approach taken in the standard is consistent with the intent of Congress. Also, to provide the type of report, at the level of assurance called for in Sections 103 and 404, the Board concluded that the auditor must evaluate both management's assessment process and the effectiveness of internal control over financial reporting. Finally, the Board noted the majority of the cost

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

to be borne by companies (and ultimately investors) results directly from the work the company will have to perform to maintain effective internal control over financial reporting and to comply with Section 404(a) of the Act. The cost of the auditor's work as described in this standard ultimately will represent a smaller portion of the total cost to companies of implementing Section 404.

E13. The Board noted that large, federally insured financial institutions have had a similar internal control reporting requirement for over ten years. The Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) has required, since 1993, managements of large financial institutions to make an assessment of internal control over financial reporting effectiveness and the institution's independent auditor to issue an attestation report on management's assessment.

E14. The attestation standards under which FDICIA engagements are currently performed are clear that, when performing an examination of management's assertion on the effectiveness of internal control over financial reporting (management's report on the assessment required by Section 404(a) of the Act must include a statement as to whether the company's internal control over financial reporting is effective), the auditor may express an opinion either on management's assertion (that is, whether management's assessment about the effectiveness of the internal control over financial reporting is fairly stated) or directly on the subject matter (that is, whether the internal control over financial reporting is effective) because the level of work that must be performed is the same in either case.

E15. The Board observed that Congress indicated an intent to require an examination level of work in Section 103(a) of the Act, which states, in part, that each registered public accounting firm shall:

describe in each audit report the scope of the auditor's testing of the internal control structure and procedures of the issuer, required by Section 404(b), and present (in such report or in a separate report)—

- (I) the findings of the auditor from such testing;
- (II) an evaluation of whether such internal control structure and procedures—
 - (aa) include maintenance of records that in reasonable detail accurately reflect the transactions and dispositions of the assets of the issuer;
 - (bb) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the issuer are being made only in

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

accordance with authorizations of management and directors of the issuer; and

- (III) a description, at a minimum, of material weaknesses in such internal controls, and of any material noncompliance found on the basis of such testing. [emphasis added].

E16. The Board concluded that the auditor must test internal control over financial reporting directly, in the manner and extent described in the standard, to make the evaluation described in Section 103. The Board also interpreted Section 103 to provide further support that the intent of Congress was to require an opinion on the effectiveness of internal control over financial reporting.

E17. The Board concluded that the auditor must obtain a high level of assurance that the conclusion expressed in management's assessment is correct to provide an opinion on management's assessment. An auditing process restricted to evaluating what management has done would not provide the auditor with a sufficiently high level of assurance that management's conclusion is correct. Instead, it is necessary for the auditor to evaluate management's assessment process to be satisfied that management has an appropriate basis for its statement, or assertion, about the effectiveness of the company's internal control over financial reporting. It also is necessary for the auditor to directly test the effectiveness of internal control over financial reporting to be satisfied that management's conclusion is correct, and that management's assertion is fairly stated.

E18. This testing takes on added importance with the public nature of the internal control reporting. Because of the auditor's association with a statement by management that internal control over financial reporting is effective, it is reasonable for a user of the auditor's report to expect that the auditor tested the effectiveness of internal control over financial reporting. For the auditor to do otherwise would create an expectation gap, in which the assurance that the auditor obtained is less than what users reasonably expect.

E19. Auditors, investors, and the Federal bank regulators reaffirmed in their comment letters on the proposed auditing standard that the fundamental approach taken by the Board was appropriate and necessary. Investors were explicit in their expectation that the auditor must test the effectiveness of controls directly in addition to evaluating management's assessment process. Investors further recognized that this kind of assurance would come at a price and expressed their belief that the cost of the anticipated benefits was reasonable. The federal banking regulators, based on their experience examining financial institutions' internal control assessments and independent auditors' attestation reports under FDICIA, commented that the proposed auditing standard was a significant improvement over the existing attestation standard.

Reference to Audit vs. Attestation

E20. The proposed standard referred to the attestation required by Section 404(b) of the Act as the *audit* of internal control over financial reporting instead of an *attestation* of management's assessment. The proposed standard took that approach both because the auditor's objective is to express an opinion on management's assessment of the effectiveness of internal control over financial reporting, just as the auditor's objective in an audit of the financial statements is to express an opinion on the fair presentation of the financial statements, and because the level of assurance obtained by the auditor is the same in both cases. Furthermore, the proposed standard described an *integrated* audit of the financial statements and internal control over financial reporting and allowed the auditor to express his or her opinions on the financial statements and on the effectiveness of internal control in separate reports or in a single, combined report.

E21. Commenters' views on this matter frequently were related to their views on whether the proposed scope of the audit was appropriate. Those who agreed that the scope in the proposed standard was appropriate generally agreed that referring to the engagement as an *audit* was appropriate. On the other hand, commenters who objected to the scope of work described in the proposed standard often drew an important distinction between an *audit* and an *attestation*. Because Section 404 calls for an *attestation*, they believed it was inappropriate to call the engagement anything else (or to mandate a scope that called for a more extensive level of work).

E22. Based, in part, on the Board's decisions about the scope of the audit of internal control over financial reporting, the Board concluded that the engagement should continue to be referred to as an "audit." This term emphasizes the nature of the auditor's objective and communicates that objective most clearly to report users. Use of this term also is consistent with the integrated approach described in the standard and the requirement in Section 404 of the Act that this reporting not be subject to a separate engagement.

E23. Because the Board's standard on internal control is an auditing standard, it is preferable to use the term *audit* to describe the engagement rather than the term *examination*, which is used in the attestation standards to describe an engagement designed to provide a high level of assurance.

E24. Finally, the Board believes that using the term *audit* helps dispel the misconception that an audit of internal control over financial reporting is a different level of service than an attestation of management's assessment of internal control over financial reporting.

Form of the Auditor's Opinion

E25. The proposed auditing standard required that the auditor's opinion in his or her report state whether management's assessment of the effectiveness of the company's internal control over financial reporting as of the specified date is fairly stated, in all

material respects, based on the control criteria. However, the proposed standard also stated that nothing precluded the auditor from auditing management's assessment and opining directly on the effectiveness of internal control over financial reporting. This is because the scope of the work, as defined by the proposed standard, was the same, regardless of whether the auditor reports on management's assessment or directly on the effectiveness of internal control over financial reporting. The form of the opinion was essentially interchangeable between the two.

E26. However, if the auditor planned to issue other than an unqualified opinion, the proposed standard required the auditor to report directly on the effectiveness of the company's internal control over financial reporting rather than on management's assessment. The Board initially concluded that expressing an opinion on management's assessment, in these circumstances, did not most effectively communicate the auditor's conclusion that internal control was not effective. For example, if management expresses an adverse assessment because a material weakness exists at the date of management's assessment ("...internal control over financial reporting is not effective...") and the auditor expresses his or her opinion on management's assessment ("...management's assessment that internal control over financial reporting is not effective is fairly stated, in all material respects..."), a reader might not be clear about the results of the auditor's testing and about the auditor's conclusions. The Board initially decided that reporting directly on the effectiveness of the company's internal control over financial reporting better communicates to report users the effect of such conditions, because direct reporting more clearly states the auditor's conclusions about the effectiveness of internal control over financial reporting ("In our opinion, because of the effect of the material weakness described..., the Company's internal control over financial reporting is not effective.").

E27. A number of commenters were supportive of the model described in the previous paragraph, as they agreed with the Board's reasoning. However, several commenters believed that report users would be confused as to why the form of the auditor's opinion would be different in various circumstances. These commenters thought that the auditor's opinion should be consistently expressed in all reports. Several auditors recommended that auditors always report directly on the effectiveness of the company's internal control over financial reporting. They reasoned that the scope of the audit—which always would require the auditor to obtain reasonable assurance about whether the internal control over financial reporting was effective—would be more clearly communicated, in all cases, by the auditor reporting directly on the effectiveness of internal control over financial reporting. Other commenters suggested that the auditor always should express two opinions: one on management's assessment and one directly on the effectiveness of internal control over financial reporting. They believed the Act called for two opinions: Section 404 calls for an opinion on management's assessment, while Section 103 calls for an opinion directly on the effectiveness of internal control over financial reporting.

E28. The Board believes that the reporting model in the proposed standard is appropriate. However, the Board concluded that the expression of two opinions—one on management's assessment and one on the effectiveness of internal control over financial reporting—in all reports is a superior approach that balances the concerns of many different interested parties. This approach is consistent with the scope of the audit, results in more consistent reporting in differing circumstances, and makes the reports more easily understood by report users. Therefore, the standard requires that the auditor express two opinions in all reports on internal control over financial reporting.

Use of the Work of Others

E29. After giving serious consideration to a rational relationship between costs and benefits, the Board decided to change the provisions in the proposed standard regarding using the work of others. The proposed standard required the auditor to evaluate whether to use the work of others, such as internal auditors and others working under the direction of management, and described an evaluation process focused on the competence and objectivity of the persons who performed the work that the auditor was required to use when determining the extent to which he or she could use the work of others.

E30. The proposed standard also described two principles that limited the auditor's ability to use of the work of others. First, the proposed standard defined three categories of controls and the extent to which the auditor could use the work of others in each of those categories:

- Controls for which the auditor should not rely on the work of others, such as controls in the control environment and controls specifically intended to prevent or detect fraud that is reasonably likely to have a material effect on the company's financial statements,
- Controls for which the auditor may rely on the work of others, but his or her reliance on the work of others should be limited, such as controls over nonroutine transactions that are considered high risk because they involve judgments and estimates, and
- Controls for which the auditor's reliance on the work of others is not specifically limited, such as controls over routine processing of significant accounts.

E31. Second, the proposed standard required that, on an overall basis, the auditor's own work must provide the principal evidence for the audit opinion (this is referred to as the *principal evidence provision*).

E32. In the proposed standard, these two principles provided the auditor with flexibility in using the work of others while preventing him or her from placing inappropriate over-reliance on the work of others. Although the proposed standard required the auditor to

reperform some of the tests performed by others to use their work, it did not establish specific requirements for the extent of the reperformance. Rather, it allowed the auditor to use his or her judgment and the directions provided by the two principles discussed in the previous two paragraphs to determine the appropriate extent of reperformance.

E33. The Board received a number of comments that agreed with the proposed three categories of controls and the principal evidence provision. However, most commenters expressed some level of concern with the categories, the principal evidence provision, or both.

E34. Comments opposing or criticizing the categories of controls varied from general to very specific. In general terms, many commenters (particularly issuers) expressed concern that the categories described in the proposed standard were too restrictive. They believed the auditor should be able to use his or her judgment to determine in which areas and to what extent to rely on the work of others. Other commenters indicated that the proposed standard did not place enough emphasis on the work of internal auditors whose competence and objectivity, as well as adherence to professional standards of internal auditing, should clearly set their work apart from the work performed by others in the organization (such as management or third parties working under management's direction). Further, these commenters believed that the standard should clarify that the auditor should be able to use work performed by internal auditors extensively. In that case, their concerns about excessive cost also would be partially alleviated.

E35. Other commenters expressed their belief that the proposed standard repudiated the approach established in AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, for the auditor's use of the work of internal auditors in a financial statement audit. Commenters also expressed very specific and pointed views on the three categories of controls. As defined in the proposed standard, the first category (in which the auditor should not use the work of others at all) included:

- Controls that are part of the control environment, including controls specifically established to prevent and detect fraud that is reasonably likely to result in material misstatement of the financial statements.
- Controls over the period-end financial reporting process, including controls over procedures used to enter transaction totals into the general ledger; to initiate, record, and process journal entries in the general ledger; and to record recurring and nonrecurring adjustments to the financial statements (for example, consolidating adjustments, report combinations, and reclassifications).
- Controls that have a pervasive effect on the financial statements, such as certain information technology general controls on which the operating effectiveness of other controls depend.

- Walkthroughs.

E36. Commenters expressed concern that the prohibition on using the work of others in these areas would (a) drive unnecessary and excessive costs, (b) not give appropriate recognition to those instances in which the auditor evaluated internal audit as having a high degree of competence and objectivity, and (c) be impractical due to resource constraints at audit firms. Although each individual area was mentioned, the strongest and most frequent objections were to the restrictions imposed over the inclusion in the first category of walkthroughs, controls over the period-end financial reporting process, and information technology general controls. Some commenters suggested the Board should consider moving these areas from the first category to the second category (in which using the work of others would be limited, rather than prohibited); others suggested removing any limitation on using the work of others in these areas altogether.

E37. Commenters also expressed other concerns with respect to the three control categories. Several commenters asked for clarification on what constituted *limited* use of the work of others for areas included in the second category. Some commenters asked for clarification about the extent of reperformance necessary for the auditor to use the work of others. Other commenters questioned the meaning of the term *without specific limitation* in the third category by asking, did this mean that the auditor could use the work of others in these areas without performing *or* reperforming *any* work in those areas?

E38. Although most commenters suggested that the principal evidence threshold for the auditor's own work be retained, some commenters objected to the principal evidence provision. Although many commenters identified the broad array of areas identified in the first category (in which the auditor should not use the work of others at all) as the key driver of excessive costs, others identified the principal evidence provision as the real source of their excessive cost concerns. Even if the categories were redefined in such a way as to permit the auditor to use the work of others in more areas, any associated decrease in audit cost would be limited by the principal evidence provision which, if retained, would still require significant original work on the part of the auditor. On the other hand, both investors and auditors generally supported retaining the principal evidence provision as playing an important role in ensuring the independence of the auditor's opinion and preventing inappropriate overreliance on the work of internal auditors and others.

E39. Commenters who both supported and opposed the principal evidence provision indicated that implementing it would be problematic because the nature of the work in an audit of internal control over financial reporting does not lend itself to a purely quantitative measurement. Thus, auditors would be forced to use judgment when determining whether the principal evidence provision has been satisfied.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

E40. In response to the comments, the Board decided that some changes to the guidance on using the work of others were necessary. The Board did not intend to reject the concepts in AU sec. 322 and replace them with a different model. Although AU sec. 322 is designed to apply to an audit of financial statements, the Board concluded that the concepts contained in AU sec. 322 are sound and should be used in an audit of internal control over financial reporting, with appropriate modification to take into account the differences in the nature of the evidence necessary to support an opinion on financial statements and the evidence necessary to support an opinion on internal control effectiveness. The Board also wanted to make clear that the concepts in AU sec. 322 also may be applied, with appropriate auditor judgment, to the relevant work of others.

E41. The Board remained concerned, however, with the possibility that auditors might overrely on the work of internal auditors and others. Inappropriate overreliance can occur in a variety of ways. For example, an auditor might rely on the work of a highly competent and objective internal audit function for proportionately too much of the evidence that provided the basis for the auditor's opinion. Inappropriate overreliance also occurs when the auditor incorrectly concludes that internal auditors have a high degree of competence and objectivity when they do not, perhaps because the auditor did not exercise professional skepticism or due professional care when making his or her evaluation. In either case, the result is the same: unacceptable risk that the auditor's conclusion that internal control over financial reporting is effective is incorrect. For example, federal bank regulators commented that, in their experience with FDICIA, auditors have a tendency to rely too heavily on the work of management and others, further noting that this situation diminishes the independence of the auditor's opinion on control effectiveness.

E42. The Board decided to revise the categories of controls by focusing on the nature of the controls being tested, evaluating the competence and objectivity of the individuals performing the work, and testing the work of others. This allows the auditor to exercise substantial judgment based on the outcome of this work as to the extent to which he or she can make use of the work of internal auditors or others who are suitably qualified.

E43. This standard emphasizes the direct relationship between the assessed level of competence and objectivity and the extent to which the auditor may use the work of others. The Board included this clarification to highlight the special status that a highly competent and objective internal auditor has in the auditor's work as well as to caution against inappropriate overreliance on the work of management and others who would be expected to have lower degrees of competence and objectivity in assessing controls. Indeed, the Board noted that, with regard to internal control over financial reporting, internal auditors would normally be assessed as having a higher degree of competence and objectivity than management or others and that an auditor will be able to rely to a greater extent on the work of a highly competent and objective internal auditor than on work performed by others within the company.

E44. The Board concluded that the principal evidence provision is critical to preventing overreliance on the work of others in an audit of internal control over financial reporting. The requirement for the auditor to perform enough of the control testing himself or herself so that the auditor's own work provides the principal evidence for the auditor's opinion is of paramount importance to the auditor's assurance providing the level of reliability that investors expect. However, the Board also decided that the final standard should articulate clearly that the auditor's judgment about whether he or she has obtained the principal evidence required is qualitative as well as quantitative. Therefore, the standard now states, "Because the amount of work related to obtaining sufficient evidence to support an opinion about the effectiveness of controls is not susceptible to precise measurement, the auditor's judgment about whether he or she has obtained the principal evidence for the opinion will be qualitative as well as quantitative. For example, the auditor might give more weight to work performed on pervasive controls and in areas such as the control environment than on other controls, such as controls over low-risk, routine transactions."

E45. The Board also concluded that a better balance could be achieved in the standard by instructing the auditor to factor into the determination of the extent to which to use the work of others an evaluation of the nature of the controls on which others performed their procedures.

E46. Paragraph 112 of the standard provides the following factors the auditor should consider when evaluating the nature of the controls subjected to the work of others:

- The materiality of the accounts and disclosures that the control addresses and the risk of material misstatement.
- The degree of judgment required to evaluate the operating effectiveness of the control (that is, the degree to which the evaluation of the effectiveness of the control requires evaluation of subjective factors rather than objective testing).
- The pervasiveness of the control.
- The level of judgment or estimation required in the account or disclosure.
- The potential for management override of the control.

E47. As these factors increase in significance, the need for the auditor to perform his or her own work on those controls increases. As these factors decrease in significance, the auditor may rely more on the work of others. Because of the nature of controls in the control environment, however, the standard does not allow the auditor to use the work of others to reduce the amount of work he or she performs on such controls. In addition, the standard also does not allow the auditor to use the work of others in connection with the performance of walkthroughs of major classes of transactions

because of the high degree of judgment required when performing them (See separate discussion in paragraphs E51 through E57).

E48. The Board decided that this approach was responsive to those who believed that the auditor should be able to use his or her judgment in determining the extent to which to use the work of others. The Board designed the requirement that the auditor's own work must provide the principal evidence for the auditor's opinion as one of the boundaries within which the auditor determines the work he or she must perform himself or herself in the audit of internal control over financial reporting. The other instructions about using the work of others provide more specific direction about how the auditor makes this determination, but allow the auditor significant flexibility to use his or her judgment to determine the work necessary to obtain the principal evidence, and to determine when the auditor can use the work of others rather than perform the work himself or herself. Although some of the directions are specific and definitive, such as the directions for the auditor to perform tests of controls in the control environment and walkthroughs himself or herself, the Board decided that these areas were of such audit importance that the auditor should always perform this testing as part of obtaining the principal evidence for his or her opinion. The Board concluded that this approach appropriately balances the use of auditor judgment and the risk of inappropriate overreliance.

E49. The Board was particularly concerned by comments that issuers might choose to reduce their internal audit staff or the extent of internal audit testing in the absence of a significant change in the proposed standard that would significantly increase the extent to which the auditor may use the work of internal auditors. The Board believes the standard makes clear that an effective internal audit function does permit the auditor to reduce the work that otherwise would be necessary.

E50. Finally, as part of clarifying the linkage between the degree of competence and objectivity of the others and the ability to use their work, the Board decided that additional clarification should be provided on the extent of testing that should be required of the work of others. The Board noted that the interaction of the auditor performing walkthroughs of every significant process and the retention of the principal evidence provision precluded the need for the auditor to test the work of others in every significant account. However, testing the work of others is an important part of an ongoing assessment of their competence and objectivity. Therefore, as part of the emphasis on the direct relationship between the assessed level of competence and objectivity to the extent of the use of the work of others, additional provisions were added discussing how the results of the testing of the work of others might affect the auditor's assessment of competence and objectivity. The Board also concluded that testing the work of others should be clearly linked to an evaluation of the quality and effectiveness of their work.

Walkthroughs

E51. The proposed standard included a requirement that the auditor perform walkthroughs, stating that the auditor should perform a walkthrough for all of the company's significant processes. In the walkthrough, the auditor was to trace all types of transactions and events, both recurring and unusual, from origination through the company's information systems until they were included in the company's financial reports. As stated in the proposed standard, walkthroughs provide the auditor with evidence to:

- Confirm the auditor's understanding of the process flow of transactions;
- Confirm the auditor's understanding of the design of controls identified for all five components of internal control over financial reporting, including those related to the prevention or detection of fraud;
- Confirm that the auditor's understanding of the process is complete by determining whether all points in the process at which misstatements related to each relevant financial statement assertion that could occur have been identified;
- Evaluate the effectiveness of the design of controls; and
- Confirm whether controls have been placed in operation.

E52. A number of commenters expressed strong support for the requirement for the auditor to perform walkthroughs as described in the proposed standard. They agreed that auditors who did not already perform the type of walkthrough described in the proposed standard should perform them as a matter of good practice. These commenters further recognized that the first-hand understanding an auditor obtains from performing these walkthroughs puts the auditor in a much better position to design an effective audit and to evaluate the quality and effectiveness of the work of others. They considered the walkthrough requirement part of "getting back to basics," which they viewed as a positive development.

E53. Some commenters expressed general support for walkthroughs as required procedures, but had concerns about the scope of the work. A number of commenters suggested that requiring walkthroughs of *all* significant processes and *all* types of transactions would result in an overwhelming and unreasonable number of walkthroughs required. Commenters made various suggestions for alleviating this problem, including permitting the auditor to determine, using broad auditor judgment, which classes of transactions to walk through or refining the scope of "all types of transactions" to include some kind of consideration of risk and materiality.

E54. Other commenters believed that required walkthroughs would result in excessive cost if the auditor were prohibited from using the work of others. These commenters

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

suggested that the only way that required walkthroughs would be a reasonable procedure is to permit the auditor to use the work of others. Although commenters varied on whether the auditor's use of the work of others for walkthroughs should be liberal or limited, and whether it should include management or be limited to internal auditors, a large number of commenters suggested that limiting walkthroughs to only the auditor himself or herself was impractical.

E55. The Board concluded that the objectives of the walkthroughs cannot be achieved second-hand. For the objectives to be effectively achieved, the auditor must perform the walkthroughs himself or herself. Several commenters who objected to the prohibition on using the work of internal auditors for walkthroughs described situations in which internal auditors would be better able to effectively perform walkthroughs because internal auditors understood the company's business and controls better than the external auditor and because the external auditor would struggle in performing walkthroughs due to a lack of understanding. The Board observed that these commenters' perspectives support the importance of requiring the external auditor to perform walkthroughs. If auditors struggle to initially perform walkthroughs because their knowledge of the company and its controls is weak, then that situation would only emphasize the necessity for the auditor to increase his or her level of understanding. After considering the nature and extent of the procedures that would be required to achieve these objectives, the Board concluded that performing walkthroughs would be the most efficient means of doing so. The first-hand understanding the auditor will obtain of the company's processes and its controls through the walkthroughs will translate into increased effectiveness and quality throughout the rest of the audit, in a way that cannot be achieved otherwise.

E56. The Board also decided that the scope of the transactions that should be subjected to walkthroughs should be more narrowly defined. To achieve the objectives the Board intended for walkthroughs to accomplish, the auditor should not be forced to perform walkthroughs on what many commenters reasoned was an unreasonably large population. The Board decided that the auditor should be able to use judgment in considering risk and materiality to determine which transactions and events within a given significant process to walk through. As a result, the directions in the standard on determining significant processes and major classes of transactions were expanded, and the population of transactions for which auditors will be required to walk through narrowed by replacing "all types of transactions" with "major classes of transactions."

E57. Although judgments of risk and materiality are inherent in identifying major classes of transactions, the Board decided to also remove from the standard the statement, "walkthroughs are required procedures" as a means of further clarifying that auditor judgment plays an important role in determining the major classes of transactions for which to perform a walkthrough. The Board observed that leading off the discussion of walkthroughs in the standard with such a sentence could be read as setting a tone that diminished the role of judgment in selecting the transactions to walk through. As a result, the directions in the standard on performing walkthroughs begin

with, "The auditor should perform at least one walkthrough for each major class of transactions..." The Board's decision to eliminate the statement "walkthroughs are required procedures" should not be viewed as an indication that performing walkthroughs are optional under the standard's directions. The Board believes the auditor might be able to achieve the objectives of a walkthrough by performing a combination of procedures, including inquiry, inspection, observation, and reperformance; however, performing a walkthrough represents the most efficient and effective means of doing so. The auditor's work on the control environment and walkthroughs is an important part of the principal evidence that the auditor must obtain himself or herself.

Small Business Issues

E58. Appendix E of the proposed standard discussed small and medium-sized company considerations. Comments were widely distributed on this topic. A number of commenters indicated that the proposed standard gave adequate consideration to how internal control is implemented in, and how the audit of internal control over financial reporting should be conducted at, small and medium-sized companies. Other commenters, particularly smaller issuers and smaller audit firms, indicated that the proposed standard needed to provide much more detail on how internal control over financial reporting could be different at a small or medium-sized issuer and how the auditor's approach could differ. Some of these commenters indicated that the concepts articulated in the Board's proposing release concerning accommodations for small and medium-sized companies were not carried through to the proposed standard itself.

E59. On the other hand, other commenters, particularly large audit firms and investors, expressed views that the proposed standard went too far in creating too much of an accommodation for small and medium-sized issuers. In fact, many believed that the proposed standard permitted those issuers to have less effective internal control over financial reporting than larger issuers, while providing guidance to auditors permitting them to perform less extensive testing at those small and medium-sized issuers than they might have at larger issuers. These commenters stressed that effective internal control over financial reporting is equally important at small and medium-sized issuers. Some commenters also expressed concerns that the guidance in proposed Appendix E appeared to emphasize that the actions of senior management, if carried out with integrity, could offset deficiencies in internal control over financial reporting, such as the lack of written policies and procedures. Because the risk of management override of controls is higher in these types of environments, such commenters were concerned that the guidance in proposed Appendix E might result in an increased fraud risk at small and medium-sized issuers. At a minimum, they argued, the interpretation of Appendix E might result in a dangerous expectation gap for users of their internal control reports. Some commenters who were of this view suggested that Appendix E be deleted altogether or replaced with a reference to the report of the Committee of Sponsoring Organizations (COSO) of the Treadway Commission, *Internal*

Control—Integrated Framework, which they felt contained sufficient guidance on small and medium-sized company considerations.

E60. Striking an appropriate balance regarding the needs of smaller issuers is particularly challenging. The Board considered cautionary views about the difficulty in expressing accommodations for small and medium-sized companies without creating an inappropriate second class of internal control effectiveness and audit assurance. Further, the Board noted that the COSO framework currently provides management and the auditor with more guidance and flexibility regarding small and medium-sized companies than the Board had provided in the proposed Appendix E. As a result, the Board eliminated proposed Appendix E and replaced the appendix with a reference to COSO in paragraph 15 of the standard. The Board believes providing internal control criteria for small and medium-sized companies within the internal control framework is more appropriately within the purview of COSO. Furthermore, the COSO report was already tailored for special small and medium-sized company considerations. The Board decided that emphasizing the existing guidance within COSO was the best way of recognizing the special considerations that can and should be given to small and medium-sized companies without inappropriately weakening the standard to which these smaller entities should, nonetheless, be held. If additional tailored guidance on the internal control framework for small and medium-sized companies is needed, the Board encourages COSO, or some other appropriate body, to develop this guidance.

Evaluation of the Effectiveness of the Audit Committee

E61. The proposed standard identified a number of circumstances that, because of their likely significant negative effect on internal control over financial reporting, are significant deficiencies as well as *strong indicators* that a material weakness exists. A particularly notable significant deficiency and strong indicator of a material weakness was the ineffective oversight by the audit committee of the company's external financial reporting and internal control over financial reporting. In addition, the proposed standard required the auditor to evaluate factors related to the effectiveness of the audit committee's oversight of the external financial reporting process and the internal control over financial reporting.

E62. This provision related to evaluating the effectiveness of the audit committee was included in the proposed standard for two primary reasons. First, the Board initially decided that, because of the significant role that the audit committee has in the control environment and monitoring components of internal control over financial reporting, an ineffective audit committee is a gravely serious control weakness that is strongly indicative of a material weakness. Most auditors should have already been reaching this conclusion when confronted with an obviously ineffective audit committee. Second, highlighting the adverse consequences of an ineffective audit committee would, perhaps, further encourage weak audit committees to improve.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

E63. Investors supported this provision. They expressed an expectation that the auditor would evaluate the audit committee's effectiveness and speak up if the audit committee was determined to be ineffective. Investors drew a link among restoring their confidence, audit committees having new and enhanced responsibilities, and the need for assurance that audit committees are, in fact, meeting their responsibilities.

E64. Auditors also were generally supportive of such an evaluation. However, many requested that the proposed standard be refined to clearly indicate that the auditor's responsibility to evaluate the effectiveness of the audit committee's oversight of the company's external financial reporting and internal control over financial reporting is not a separate and distinct evaluation. Rather, the evaluation is one element of the auditor's overall understanding and assessment of the company's control environment and monitoring components. Some commenters suggested that, in addition to needing clarification of the auditor's responsibility, the auditor would have difficulty in evaluating all of the factors listed in the proposed standard, because the auditor's normal interaction with the audit committee would not provide sufficient basis to conclude on some of those factors.

E65. Issuers and some others were opposed to the auditor evaluating the effectiveness of the audit committee on the fundamental grounds that such an evaluation would represent an unacceptable conflict of interest. Several commenters shared the view that this provision would reverse an important improvement in governance and audit quality. Whereas the auditor was formerly retained and compensated by management, the Act made clear that these responsibilities should now be those of the audit committee. In this way, commenters saw a conflict of interest being remedied. Requiring the auditor to evaluate the effectiveness of the audit committee led commenters to conclude that the same kind of conflict of interest was being reestablished. These commenters also believed that the auditor would not have a sufficient basis on which to evaluate the effectiveness of the audit committee because the auditor does not have complete and free access to the audit committee, does not have appropriate expertise to evaluate audit committee members (who frequently are more experienced businesspeople than the auditor), does not have the legal expertise to make determinations about some of the specific factors listed in the proposed standard, and other shortcomings. These commenters also emphasized that the board of directors' evaluation of the audit committee is important and that the proposed standard could be read to supplant this important evaluation with that of the auditor's.

E66. The Board concluded that this provision should be retained but decided that clarification was needed to emphasize that the auditor's evaluation of the audit committee was not a separate evaluation but, rather, was made as part of the auditor's evaluation of the control environment and monitoring components of internal control over financial reporting. The Board reasoned that clarifying both this context and limitation on the auditor's evaluation of the audit committee would also address, to some degree, the conflict-of-interest concerns raised by other commenters. The Board also observed, however, that conflict is, to some extent, inherent in the duties that society

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

expects of auditors. Just as auditors were expected in the past to challenge management when the auditor believed a material misstatement of the financial statements or material weakness in internal control over financial reporting existed, the auditor similarly is expected to speak up when he or she believes the audit committee is ineffective in its oversight.

E67. The Board decided that when the auditor is evaluating the control environment and monitoring components, if the auditor concludes that the audit committee's oversight of the company's external financial reporting and internal control over financial reporting is ineffective, the auditor should be strongly encouraged to consider that situation a material weakness and, at a minimum, a significant deficiency. The objective of the evaluation is not to grade the effectiveness of the audit committee along a scale. Rather, in the course of performing procedures related to evaluating the effectiveness of the control environment and monitoring components, including evaluating factors related to the effectiveness of the audit committee's oversight, if the auditor concludes that the audit committee's oversight of the external financial reporting and internal control over financial reporting is ineffective, then the auditor should consider that a strong indicator of a material weakness.

E68. The Board concluded that several refinements should be made to this provision. As part of emphasizing that the auditor's evaluation of the audit committee is to be made as part of evaluating the control environment and not as a separate evaluation, the Board determined that the evaluation factors should be modified. The factors that addressed compliance with listing standards and sections of the Act were deleted, because those factors were specifically criticized in comment letters as being either outside the scope of the auditor's expertise or outside the scope of internal control over financial reporting. The Board also believed that those factors were not significant to the type of evaluation the auditor was expected to make of the audit committee. The Board decided to add the following factors, which are based closely on factors described in COSO, as relevant to evaluating those who govern, including the audit committee:

- Extent of direct and independent interaction with key members of financial management, including the chief financial officer and chief accounting officer.
- Degree to which difficult questions are raised and pursued with management and the auditor, including questions that indicate an understanding of the critical accounting policies and judgmental accounting estimates.
- Level of responsiveness to issues raised by the auditor, including those required to be communicated by the auditor to the audit committee.

E69. The Board also concluded that the standard should explicitly acknowledge that the board of directors is responsible for evaluating the effectiveness of the audit committee and that the auditor's evaluation of the control environment is not intended to

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

supplant those evaluations. In addition, the Board concluded that, in the event the auditor determines that the audit committee's oversight is ineffective, the auditor should communicate that finding to the full board of directors. This communication should occur regardless of whether the auditor concludes that the condition represents a significant deficiency or a material weakness, and the communication should take place in addition to the normal communication requirements that attach to those deficiencies.

Definitions of Significant Deficiency and Material Weakness

E70. As part of developing the proposed standard, the Board evaluated the existing definitions of significant deficiency (which the SEC defined as being the same as a reportable condition) and material weakness to determine whether they would permit the most effective implementation of the internal control reporting requirements of the Act.

E71. AU sec. 325, *Communication of Internal Control Related Matters Noted in an Audit*, defined a material weakness as follows:

A *material weakness* in internal control is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a *relatively low level* the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

E72. The framework that defined a material weakness focused on likelihood of and magnitude for evaluating a weakness. The Board decided that this framework would facilitate effective implementation of the Act's internal control reporting requirements; therefore, the Board's proposed definitions focused on likelihood and magnitude. However, as part of these deliberations, the Board decided that likelihood and magnitude needed to be defined in terms that would encourage more consistent application.

E73. Within the existing definition of material weakness, the magnitude of "material in relation to the financial statements" was well supported by the professional standards, SEC rules and guidance, and other literature. However, the Board decided that the definition of likelihood would be improved if it used "more than remote" instead of "relatively low level." FASB Statement No. 5, *Accounting for Contingencies* (FAS No. 5) defines "remote." The Board decided that, because auditors were familiar with the application of the likelihood definitions in FAS No. 5, using "more than remote" in the definition of material weakness would infuse the evaluation of whether a control deficiency was a material weakness with the additional consistency that the Board wanted to encourage.

E74. AU sec. 325 defined *reportable conditions* as follows:

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

...matters coming to the auditor's attention that, in his judgment, should be communicated to the audit committee because they represent significant deficiencies in the design or operation of internal control, which could adversely affect the organization's ability to initiate, record, process, and report financial data consistent with the assertions of management in the financial statements.

E75. The Board observed that this definition makes the determination of whether a condition is reportable solely a matter of the auditor's judgment. The Board believed that this definition was insufficient for purposes of the Act because management also needs a definition to determine whether a deficiency is significant and that the definition should be the same as the definition used by the auditor. Furthermore, using this existing definition, the auditor's judgment could never be questioned.

E76. The Board decided that the same framework that represented an appropriate framework for defining a material weakness also should be used for defining a significant deficiency. Although auditor judgment is integral and essential to the audit process (including in determining the severity of control weaknesses), auditors, nonetheless, must be accountable for their judgments. Increasing the accountability of auditors for their judgments about whether a condition represents a significant deficiency and increasing the consistency with which those judgments are made are interrelated. Hence, the same framework of likelihood and magnitude were applied in the Board's proposed definition of significant deficiency.

E77. In applying the likelihood and magnitude framework to defining a significant deficiency, the Board decided that the "more than remote" likelihood of occurrence used in the definition of material weakness was the best benchmark. In terms of magnitude, the Board decided that "more than inconsequential" should be the threshold for a significant deficiency.

E78. A number of commenters were supportive of the definitions in the proposed standard. These commenters believed the definitions were an improvement over the previous definitions, used terms familiar to auditors, and would promote increased consistency in evaluations.

E79. Most commenters, however, objected to these definitions. The primary, overarching objection was that these definitions set too low a threshold for the reporting of significant deficiencies. Some commenters focused on "more than remote" likelihood as the driver of an unreasonably low threshold, while others believed "more than inconsequential" in the definition of significant deficiency was the main culprit. While some commenters understood "more than inconsequential" well enough, others indicated significant concerns that this represented a new term of art that needed to be accompanied by a clear definition of "inconsequential" as well as supporting examples. Several commenters suggested retaining the likelihood and magnitude approach to a definition but suggested alternatives for likelihood (such as reasonably likely,

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

reasonably possible, more likely than not, probable) and magnitude (such as material, significant, insignificant).

E80. Some commenters suggested that the auditing standard retain the existing definitions of material weakness and significant deficiency, consistent with the SEC's final rules implementing Section 404. In their final rules, the SEC tied management's assessment to the existing definitions of material weakness and significant deficiency (through the existing definition of a reportable condition) in AU sec. 325. These commenters suggested that, if the auditing standard used a different definition, a dangerous disconnect would result, whereby management would be using one set of definitions under the SEC's rules and auditors would be using another set under the Board's auditing standards. They further suggested that, absent rulemaking by the SEC to change its definitions, the Board should simply defer to the existing definitions.

E81. A number of other commenters questioned the reference to "a misstatement of the annual or interim financial statements" in the definitions, with the emphasis on why "interim" financial statements were included in the definition, since Section 404 required only an annual assessment of internal control over financial reporting effectiveness, made as of year-end. They questioned whether this definition implied that the auditor was required to identify deficiencies that could result in a misstatement in interim financial statements; they did not believe that the auditor should be required to plan his or her audit of internal control over financial reporting at a materiality level of the interim financial statements.

E82. The Board ultimately concluded that focusing the definitions of material weakness and significant deficiency on likelihood of misstatement and magnitude of misstatement provides the best framework for evaluating deficiencies. Defaulting to the existing definitions would not best serve the public interest nor facilitate meaningful and effective implementation of the auditing standard.

E83. The Board observed that the SEC's final rules requiring management to report on internal control over financial reporting define material weakness, for the purposes of the final rules, as having "the same meaning as the definition under GAAS and attestation standards." Those rules state:

The term "significant deficiency" has the same meaning as the term "reportable condition" as used in AU §325 and AT§501. The terms "material weakness" and "significant deficiency" both represent deficiencies in the design or operation of internal control that could adversely affect a company's ability to record, process, summarize and report financial data consistent with the assertions of management in the company's financial statements, with a "material weakness" constituting a greater deficiency than a "significant deficiency." Because of this relationship, it is our judgment that an aggregation of significant deficiencies

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

could constitute a material weakness in a company's internal control over financial reporting.^{4/}

E84. The Board considered the SEC's choice to cross-reference to generally accepted auditing standards (GAAS) and the attestation standards as the means of defining these terms, rather than defining them outright within the final rules, noteworthy as it relates to the question of whether any disconnect could result between auditors' and managements' evaluations if the Board changed the definitions in its standards. Because the standard changes the definition of these terms within the interim standards, the Board believes the definitions are, therefore, changed for both auditors' and managements' purposes.

E85. The Board noted that commenters who were concerned that the definitions in the proposed standard set too low of a threshold for significant deficiencies and material weaknesses believed that the proposed standard required that each control deficiency be evaluated in isolation. The intent of the proposed standard was that control deficiencies should first be evaluated individually; the determination as to whether they are significant deficiencies or material weaknesses should be made considering the effects of compensating controls. The effect of compensating controls should be taken into account when assessing the likelihood of a misstatement occurring and not being prevented or detected. The proposed standard illustrated this type of evaluation, including the effect of compensating controls when assessing likelihood, in the examples in Appendix D. Based on the comments received, however, the Board determined that additional clarification within the standard was necessary to emphasize the importance of considering compensating controls when evaluating the likelihood of a misstatement occurring. As a result, the note to paragraph 10 was added.

E86. The Board concluded that considering the effect of compensating controls on the likelihood of a misstatement occurring and not being prevented or detected sufficiently addressed the concerns that the definitions set too low a threshold. For example, several issuer commenters cited concerns that the proposed definitions precluded a rational cost-benefit analysis of whether to correct a deficiency. These issuers believed they would be compelled to correct deficiencies (because the deficiencies would be considered to be at least significant deficiencies) in situations in which management had made a previous conscious decision that the costs of correcting the deficiency outweighed the benefits. The Board observed that, in cases in which management has determined not to correct a known deficiency based on a cost-benefit analysis, effective compensating controls usually lie at the heart of management's decision. The standard's use of "likelihood" in the definition of a significant deficiency or material weakness accommodates such a consideration of compensating controls. If a

^{4/} See footnote 73 to *Final Rule: Management's Reports on Internal Control Over Financial Reporting and Certification of Disclosure in Exchange Act Periodic Reports*, Securities and Exchange Commission Release No. 33-8238 (June 5, 2003) [68 FR 36636].

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

deficiency is effectively mitigated by compensating controls, then the likelihood of a misstatement occurring and not being prevented or detected may very well be remote.

E87. The Board disagreed with comments that "more than inconsequential" was too low a threshold; however, the Board decided the term "inconsequential" needed additional clarity. The Board considered the term "inconsequential" in relation to the SEC's guidance on audit requirements and materiality. Section 10A(b)(1)(B)^{5/} describes the auditor's communication requirements when the auditor detects or otherwise becomes aware of information indicating that an illegal act has or may have occurred, "unless the illegal act is clearly inconsequential." Staff Accounting Bulletin (SAB) No. 99, *Materiality*, provides the most recent and definitive guidance on the concept of materiality as it relates to the financial reporting of a public company. SAB No. 99 uses the term "inconsequential" in several places to draw a distinction between amounts that are not material. SAB No. 99 provides the following guidance to assess the significance of a misstatement:

Though the staff does not believe that registrants need to make finely calibrated determinations of significance with respect to immaterial items, plainly it is "reasonable" to treat misstatements whose effects are clearly inconsequential differently than more significant ones.

E88. The discussion in the previous paragraphs provided the Board's context for using "material" and "more than inconsequential" for the magnitude thresholds in the standard's definitions. "More than inconsequential" indicates an amount that is less than material yet has significance.

E89. The Board also considered the existing guidance in the Board's interim standards for evaluating materiality and accumulating audit differences in a financial statement audit. Paragraph .41 of AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, states:

In aggregating likely misstatements that the entity has not corrected, pursuant to paragraphs .34 and .35, the auditor may designate an amount below which misstatements need not be accumulated. This amount should be set so that any such misstatements, either individually or when aggregated with other such misstatements, would not be material to the financial statements, after the possibility of further undetected misstatements is considered.

E90. The Board considered the discussion in AU sec. 312 that spoke specifically to evaluating differences individually *and in the aggregate*, as well as to considering the possibility of additional undetected misstatements, important distinguishing factors that should be carried through to the evaluation of whether a control deficiency represents a

^{5/} See Section 10A of the Securities Exchange Act of 1934, 15 U.S.C., 78j-1.

significant deficiency because the magnitude of the potential misstatement is more than inconsequential.

E91. The Board combined its understanding of the salient concepts in AU sec. 312 and the SEC guidance on materiality to develop the following definition of inconsequential:

A misstatement is *inconsequential* if a reasonable person would conclude, after considering the possibility of further undetected misstatements, that the misstatement, either individually or when aggregated with other misstatements, would clearly be immaterial to the financial statements. If a reasonable person could not reach such a conclusion regarding a particular misstatement, that misstatement is *more than inconsequential*.

E92. Finally, the inclusion of *annual or interim financial statements* in the definitions rather than just "annual financial statements" was intentional and, in the Board's opinion, closely aligned with the spirit of what Section 404 seeks to accomplish. However, the Board decided that this choice needed clarification within the auditing standard. The Board did not intend the inclusion of the interim financial statements in the definition to require the auditor to perform *an audit of internal control over financial reporting* at each interim date. Rather, the Board believed that the SEC's definition of internal control over financial reporting included all financial reporting that a public company makes publicly available. In other words, internal control over financial reporting includes controls over the preparation of annual and quarterly financial statements. Thus, an evaluation of internal control over financial reporting as of year-end encompasses controls over the annual financial reporting and quarterly financial reporting as such controls exist at that point in time.

E93. Paragraphs 76 and 77 of the standard clarify this interpretation, as part of the discussion of the period-end financial reporting process. The period-end financial reporting process includes procedures to prepare both annual and quarterly financial statements.

Strong Indicators of Material Weaknesses and DeFacto Significant Deficiencies

E94. The proposed standard identified a number of circumstances that, because of their likely significant negative effect on internal control over financial reporting, are significant deficiencies as well as strong indicators that a material weakness exists. The Board developed this list to promote increased rigor and consistency in auditors' evaluations of weaknesses. For the implementation of Section 404 of the Act to achieve its objectives, the public must have confidence that all material weaknesses that exist as of the company's year-end will be publicly reported. Historically, relatively few material weaknesses have been reported by the auditor to management and the audit committee. That condition is partly due to the nature of a financial statement audit. In an audit of only the financial statements, the auditor does not have a detection

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

responsibility for material weaknesses in internal control; such a detection responsibility is being newly introduced for all public companies through Sections 103 and 404 of the Act. However, the Board was concerned about instances in which auditors had identified a condition that should have been, but was not, communicated as a material weakness. The intention of including the list of strong indicators of material weaknesses in the proposed standard was to bring further clarity to conditions that were likely to be material weaknesses in internal control and to create more consistency in auditors' evaluations.

E95. Most commenters were generally supportive of a list of significant deficiencies and strong indicators of the existence of material weaknesses. They believed such a list provided instructive guidance to both management and the auditor. Some commenters, however, disagreed with the proposed approach of providing such a list. They believed that the determination of the significance of a deficiency should be left entirely to auditor judgment. A few commenters requested clarification of the term "strong indicator" and specific guidance on how and when a "strong indicator" could be overcome. A number of commenters expressed various concerns with individual circumstances included in the list.

- *Restatement of previously issued financial statements to reflect the correction of a misstatement.* Some commenters expressed concern about the kinds of restatements that would trigger this provision. A few mentioned the specific instance in which the restatement reflected the SEC's subsequent view of an accounting matter when the auditor, upon reevaluation, continued to believe that management had reasonable support for its original position. They believed this specific circumstance would not necessarily indicate a significant deficiency in internal control over financial reporting. Others commented that a restatement of previously issued financial statements would indicate a significant deficiency and strong indicator of a material weakness *in the prior period* but not necessarily in the current period.
- *Identification by the auditor of a material misstatement in financial statements in the current period that was not initially identified by the company's internal control over financial reporting (even if management subsequently corrects the misstatement).* Several commenters, issuers and auditors alike, expressed concern about including this circumstance on the list. They explained that, frequently, management is completing the preparation of the financial statements at the same time that the auditor is completing his or her auditing procedures. In the face of this "strong indicator" provision, a lively debate of "who found it first" would ensue whenever the auditor identifies a misstatement that management subsequently corrects. Another argument is that the company's controls would have detected a misstatement identified by the auditor if the controls had an opportunity to operate (that is, the auditor performed his or her testing before the company's controls had an opportunity to operate). Several issuers indicated

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

that they would prevent this latter situation by delaying the auditor's work until the issuers had clearly completed their entire period-end financial reporting process – a delay they viewed as detrimental.

- *For larger, more complex entities, the internal audit function or the risk assessment function is ineffective.* Several commenters asked for specific factors the auditor was expected to use to assess the effectiveness of these functions.
- *For complex entities in highly regulated industries, an ineffective regulatory compliance function.* Several commenters, particularly issuers in highly regulated industries, objected to the inclusion of this circumstance because they believed this to be outside the scope of internal control over financial reporting. (They agreed that this would be an internal control-related matter, but one that falls into operating effectiveness and compliance with laws and regulations, not financial reporting.) Many of these commenters suggested that this circumstance be deleted from the list altogether. Fewer commenters suggested that this problem could be addressed by simply clarifying that this circumstance is limited to situations in which the ineffective regulatory function relates solely to those aspects for which related violations of laws and regulations could have a direct and material effect on the financial statements.
- *Identification of fraud of any magnitude on the part of senior management.* Several commenters expressed concern that the inclusion of this circumstance created a detection responsibility for the auditor such that the auditor would have to plan and perform procedures to detect fraud *of any magnitude* on the part of senior management. Others expressed concern that identification of fraud on the part of senior management by the company's system of internal control over financial reporting might indicate that controls were operating effectively rather than indicating a significant deficiency or material weakness. Still others requested clarification on how to determine who constituted "senior management."

E96. A couple of commenters also suggested that an ineffective control environment should be added to the list.

E97. The Board concluded that the list of significant deficiencies and strong indicators of material weakness should be retained. Such a list will promote consistency in auditors' and managements' evaluations of deficiencies consistent with the definitions of significant deficiency and material weakness. The Board also decided to retain the existing structure of the list. Although the standard leaves auditor judgment to determine whether those deficiencies are material weaknesses, the existence of one of the listed deficiencies is by definition a significant deficiency. Furthermore, the "strong indicator" construct allows the auditor to factor extenuating or unique circumstances into

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

the evaluation and possibly to conclude that the situation does not represent a material weakness, rather, only a significant deficiency.

E98. The Board decided that further clarification was not necessary within the standard itself addressing specifically how and when a "strong indicator" can be overcome. The term "strong indicator" was selected as opposed to the stronger "presumption" or other such term precisely because the Board did not intend to provide detailed instruction on how to overcome such a presumption. It is, nevertheless, the Board's view that auditors should be biased toward considering the listed circumstances as material weaknesses.

E99. The Board decided to clarify several circumstances included in the list:

- *Restatement of previously issued financial statements to reflect the correction of a misstatement.* The Board observed that the circumstance in which a restatement reflected the SEC's subsequent view of an accounting matter, when the auditor concluded that management had reasonable support for its original position, might present a good example of only a significant deficiency and not a material weakness. However, the Board concluded that requiring this situation to, nonetheless, be considered by definition a significant deficiency is appropriate, especially considering that the primary result of the circumstance being considered a significant deficiency is the communication of the matter to the audit committee. Although the audit committee might already be well aware of the circumstances of any restatement, a restatement to reflect the SEC's view on an accounting matter at least has implications for the quality of the company's accounting principles, which is already a required communication to the audit committee.

With regard to a restatement being a strong indicator of a material weakness in the prior period but not necessarily the current period, the Board disagreed with these comments. By virtue of the restatement occurring during the current period, the Board views it as appropriate to consider that circumstance a strong indicator that a material weakness existed during the current period. Depending on the circumstances of the restatement, however, the material weakness may also have been corrected during the current period. The construct of the standard does not preclude management and the auditor from determining that the circumstance was corrected prior to year-end and, therefore, that a material weakness did not exist at year-end. The emphasis here is that the circumstance is a strong indicator that a material weakness exists; management and the auditor will separately need to determine whether it has been corrected. The Board decided that no further clarification was needed in this regard.

- *Identification by the auditor of a material misstatement in financial statements in the current period that was not initially identified by the company's internal control over financial reporting (even if management subsequently corrects the*

misstatement). Regarding the "who-found-it-first" dilemma, the Board recognizes that this circumstance will present certain implementation challenges. However, the Board decided that none of those challenges were so significant as to require eliminating this circumstance from the list.

When the Board developed the list of strong indicators, the Board observed that it is not uncommon for the financial statement auditor to identify material misstatements in the course of the audit that are corrected by management prior to the issuance of the company's financial statements. In some cases, management has relied on the auditor to identify misstatements in certain financial statement items and to propose corrections in amount, classification, or disclosure. With the introduction of the requirement for management and the auditor to report on the effectiveness of internal control over financial reporting, it becomes obvious that this situation is unacceptable, unless management is willing to accept other than an unqualified report on the internal control effectiveness. (This situation also raises the question as to the extent management may rely on the annual audit to produce accurate and fair financial statements without impairing the auditor's independence.) This situation is included on the list of strong indicators because the Board believes it will encourage management and auditors to evaluate this situation with intellectual honesty and to recognize, first, that the company's internal control should provide reasonable assurance that the company's financial statements are presented fairly in accordance with generally accepted accounting principles.

Timing might be a concern for some issuers. However, to the extent that management takes additional steps to ensure that the financial information is correct prior to providing it to their auditors, this may, at times, result in an improved control environment. When companies and auditors work almost simultaneously on completing the preparation of the annual financial statements and the audit, respectively, the role of the auditor can blur with the responsibility of management. In the year-end rush to complete the annual report, some companies might have come to rely on their auditors as a "control" to further ensure no misstatements are accidentally reflected in the financial statements. The principal burden seems to be for management's work schedule and administration of their financial reporting deadlines to allow the auditor sufficient time to complete his or her procedures.

Further, if the auditor initially identified a material misstatement in the financial statements but, given the circumstances, determined that management ultimately would have found the misstatement, the auditor could determine that the circumstance was a significant deficiency but not a material weakness. The Board decided to retain the provision that this circumstance is at least a significant deficiency because reporting such a circumstance to the audit committee would always be appropriate.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

- *For larger, more complex entities, the internal audit function or the risk assessment function is ineffective.* Relatively few commenters requested clarification on how to evaluate these functions. The Board expects that most auditors will not have trouble making this evaluation. Similar to the audit committee evaluation, this evaluation is not a separate evaluation of the internal audit or risk assessment functions but, rather, is a way of requiring the auditor to speak up if either of these functions is obviously ineffective at an entity that needs them to have an effective monitoring or risk assessment component. Unlike the audit committee discussion, most commenters seemed to have understood that this was the context for the internal audit and risk assessment function evaluation. Nonetheless, the Board decided to add a clarifying note to this circumstance emphasizing the context.
- *For complex entities in highly regulated industries, an ineffective regulatory compliance function.* The Board decided that this circumstance, as described in the proposed standard, would encompass aspects that are outside internal control over financial reporting (which would, of course, be inappropriate for purposes of this standard given its definition of internal control over financial reporting). The Board concluded that this circumstance should be retained, though clarified, to only apply to those aspects of an ineffective regulatory compliance function that could have a material effect on the financial statements.
- *Identification of fraud of any magnitude on the part of senior management.* The Board did not intend to create any additional detection responsibility for the auditor; rather, it intended that this circumstance apply to fraud on the part of senior management that came to the auditor's attention, regardless of amount. The Board decided to clarify the standard to make this clear. The Board noted that identification of fraud by the company's system of internal control over financial reporting might indicate that controls were operating effectively, except when that fraud involves senior management. Because of the critical role of tone-at-the-top in the overall effectiveness of the control environment and due to the significant negative evidence that fraud of any magnitude on the part of senior management reflects on the control environment, the Board decided that it is appropriate to include this circumstance in the list, regardless of whether the company's controls detected the fraud. The Board also decided to clarify who is included in "senior management" for this purpose.

E100. The Board agreed that an ineffective control environment was a significant deficiency and a strong indicator that a material weakness exists and decided to add it to the list.

Independence

E101. The proposed standard explicitly prohibited the auditor from accepting an engagement to provide an internal control-related service to an audit client that has not

been specifically pre-approved by the audit committee. In other words, the audit committee would not be able to pre-approve internal control-related services as a category. The Board did not propose any specific guidance on permissible internal control-related services in the proposed standard but, rather, indicated its intent to conduct an in-depth evaluation of independence requirements in the future and highlighted its ability to amend the independence information included in the standard pending the outcome of that analysis.

E102. Comments were evenly split among investors, auditors, and issuers who believed the existing guidance was sufficient versus those who believed the Board should provide additional guidance. Commenters who believed existing guidance was sufficient indicated that the SEC's latest guidance on independence needed to be given more time to take effect given its recency and because existing guidance was clear enough. Commenters who believed more guidance was necessary suggested various additions, from more specificity about permitted and prohibited services to a sweeping ban on any internal control-related work for an audit client. Other issuers commented about auditors participating in the Section 404 implementation process at their audit clients in a manner that could be perceived as affecting their independence.

E103. Some commenters suggested that the SEC should change the pre-approval requirements on internal control-related services to specific pre-approval. Another commenter suggested that specific pre-approval of all internal control-related services would pose an unreasonable burden on the audit committee and suggested reverting to pre-approval by category.

E104. The Board clearly has the authority to set independence standards as it may deem necessary or appropriate in the public interest or for the protection of investors. Given ongoing concerns about the appropriateness of auditors providing these types of services to audit clients, the fact-specific nature of each engagement, and the critical importance of ongoing audit committee oversight of these types of services, the Board continues to believe that specific pre-approval of internal control-related services is a logical step that should not pose a burden on the audit committee beyond that which effective oversight of financial reporting already entails. Therefore, the standard retains this provision unchanged.

Requirement for Adverse Opinion When a Material Weakness Exists

E105. The existing attestation standard (AT sec. 501) provides that, when the auditor has identified a material weakness in internal control over financial reporting, depending on the significance of the material weakness and its effect on the achievement of the objectives of the control criteria, the auditor may qualify his or her opinion ("except for the effect of the material weakness, internal control over financial reporting was effective") or express an adverse opinion ("internal control over financial reporting was not effective").

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

E106. The SEC's final rules implementing Section 404 state that, "Management is not permitted to conclude that the registrant's internal control over financial reporting is effective if there are one or more material weaknesses in the registrant's internal control over financial reporting." In other words, in such a case, management must conclude that internal control over financial reporting is not effective (that is, a qualified or "except-for" conclusion is not acceptable).

E107. The Board initially decided that the reporting model for the auditor should follow the required reporting model for management. Therefore, because management is required to express an "adverse" conclusion in the event a material weakness exists, the auditor's opinion also must be adverse. The proposed standard did not permit a qualified audit opinion in the event of a material weakness.

E108. Comments received on requiring an adverse opinion when a material weakness exists were split. A large number affirmed that this seemed to be the only logical approach, based on a philosophical belief that if a material weakness exists, then internal control over financial reporting is ineffective. These commenters suggested that permitting a qualified opinion would be akin to creating another category of control deficiency—material weaknesses that were really material (resulting in an adverse opinion) and material weaknesses that weren't so material (resulting in a qualified opinion).

E109. A number of commenters agreed that the auditor's report must follow the same model as management' reporting, but they believe strongly that the SEC's guidance for management accommodated either a qualified or adverse opinion when a material weakness existed.

E110. These commenters cited Section II.B.3.c of the SEC Final Rule and related footnote no. 72:

The final rules therefore preclude management from determining that a company's internal control over financial reporting is effective if it identifies one or more material weaknesses in the company's internal control over financial reporting. This is consistent with interim attestation standards. See AT sec. 501.

E111. They believe this reference to the interim attestation standard in the SEC Final Rule is referring to paragraph .37 of AT sec. 501, which states, in part,

Therefore, the presence of a material weakness will preclude the practitioner from concluding that the entity has effective internal control. However, depending on the significance of the material weakness and its effect on the achievement of the objectives of the control criteria, the practitioner may qualify his or her opinion (that is, express an opinion that

internal control is effective "except for" the material weakness noted) or may express an adverse opinion.

E112. Their reading of the SEC Final Rule and the interim attestation standard led them to conclude that it would be appropriate for the auditor to express either an adverse opinion or a qualified "except-for" opinion about the effectiveness of the company's internal control over financial reporting depending on the circumstances.

E113. Some commenters responded that they thought a qualified opinion would be appropriate in certain cases, such as an acquisition close to year-end (too close to be able to assess controls at the acquiree).

E114. After additional consultation with the SEC staff about this issue, the Board decided to retain the proposed reporting model in the standard. The primary reason for that decision was the Board's continued understanding that the SEC staff would expect only an adverse conclusion from management (not a qualified conclusion) in the event a material weakness existed as of the date of management's report.

E115. The commenters who suggested that a qualified opinion should be permitted in certain circumstances, such as an acquisition close to year-end, were essentially describing scope limitations. The standard permits a qualified opinion, a disclaimer of opinion, or withdrawal from the engagement if there are restrictions on the scope of the engagement. As it relates specifically to acquisitions near year-end, this is another case in which the auditor's model needs to follow the model that the SEC sets for management. The standard added a new paragraph to Appendix B permitting the auditor to limit the scope of his or her work (without referring to a scope limitation in the auditor's report) in the same manner that the SEC permits management to limit its assessment. In other words, if the SEC permits management to exclude an entity acquired late in the year from a company's assessment of internal control over financial reporting, then the auditor could do the same.

Rotating Tests of Controls

E116. The proposed standard directed the auditor to perform tests of controls on "relevant assertions" rather than on "significant controls." To comply with those requirements, the auditor would be required to apply tests to those controls that are important to presenting each relevant assertion in the financial statements. The proposed standard emphasized controls that affect relevant assertions because those are the points at which misstatements could occur. However, it is neither necessary to test all controls nor to test redundant controls (unless redundancy is itself a control objective, as in the case of certain computer controls). Thus, the proposed standard encouraged the auditor to identify and test controls that addressed the primary areas in which misstatements could occur, yet limited the auditor's work to only the necessary controls.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

E117. Expressing the extent of testing in this manner also simplified other issues involving extent of testing decisions from year to year (the so-called "rotating tests of controls" issue). The proposed standard stated that the auditor should vary testing from year to year, both to introduce unpredictability into the testing and to respond to changes at the company. However, the proposed standard maintained that each year's audit must stand on its own. Therefore, the auditor must obtain evidence of the effectiveness of controls over all relevant assertions related to all significant accounts and disclosures every year.

E118. Auditors and investors expressed support for these provisions as described in the proposed standard. In fact, some commenters compared the notion of rotating tests of control in an audit of internal control over financial reporting to an auditor testing accounts receivable only once every few years in a financial statement audit. Permitting so-called rotation of testing would compromise the auditor's ability to obtain reasonable assurance that his or her opinion was correct.

E119. Others, especially issuers concerned with limiting costs, strongly advocated some form of rotating tests of controls. Some commenters suggested that the auditor should have broad latitude to perform some cursory procedures to determine whether any changes had occurred in controls and, if not, to curtail any further testing in that area. Some suggested that testing as described in the proposed standard should be required in the first year of the audit (the "baseline" year) and that in subsequent years the auditor should be able to reduce the required testing. Others suggested progressively less aggressive strategies for reducing the amount of work the auditor should be required to perform. In fact, several commenters (primarily internal auditors) described "baselining" controls as an important strategy to retain. They argued, for example, that IT application controls, once tested, could be relied upon (without additional testing) in subsequent years as long as general controls over program changes and access controls were effective and continued to be tested.

E120. The Board concluded that each year's audit must stand on its own. Cumulative audit knowledge is not to be ignored; some natural efficiencies will emerge as the auditor repeats the audit process. For example, the auditor will frequently spend less time to obtain the requisite understanding of the company's internal control over financial reporting in subsequent years compared with the time necessary in the first year's audit of internal control over financial reporting. Also, to the extent that the auditor has previous knowledge of control weaknesses, his or her audit strategy should, of course, reflect that knowledge. For example, a pattern of mistakes in prior periods is usually a good indicator of the areas in which misstatements are likely to occur. However, the absence of fraud in prior periods is not a reasonable indicator of the likelihood of misstatement due to fraud.

E121. However, the auditor needs to test controls every year, regardless of whether controls have obviously changed. Even if nothing else changed about the company – no changes in the business model, employees, organization, etc. – controls that were

effective last year may not be effective this year due to error, complacency, distraction, and other human conditions that result in the inherent limitations in internal control over financial reporting.

E122. What several commenters referred to as "baselining" (especially as it relates to IT controls) is more commonly referred to by auditors as "benchmarking." This type of testing strategy for application controls is not precluded by the standard. However, the Board believes that providing a description of this approach is beyond the scope of this standard. For these reasons, the standard does not address it.

Mandatory Integration with the Audit of the Financial Statements

E123. Section 404(b) of the Act provides that the auditor's attestation of management's assessment of internal control shall not be the subject of a separate engagement. Because the objectives of and work involved in performing both an attestation of management's assessment of internal control over financial reporting and an audit of the financial statements are closely interrelated, the proposed auditing standard introduced an integrated audit of internal control over financial reporting and audit of financial statements.

E124. However, the proposed standard went even further. Because of the potential significance of the information obtained during the audit of the financial statements to the auditor's conclusions about the effectiveness of internal control over financial reporting, the proposed standard stated that the auditor could not audit internal control over financial reporting without also auditing the financial statements. (However, the proposed standard retained the auditor's ability to audit *only* the financial statements, which might be necessary in the case of certain initial public offerings.)

E125. Although the Board solicited specific comment on whether the auditor should be prohibited from performing an audit of internal control over financial reporting without also performing an audit of the financial statements, few commenters focused on the significance of the potentially negative evidence that would be obtained during the audit of the financial statements or the implications of this prohibition. Most commenters focused on the wording of Section 404(b), which indicates that the auditor's attestation of management's assessment of internal control over financial reporting shall not be the subject of a separate engagement. Based on this information, most commenters saw the prohibition in the proposed standard as superfluous and benign.

E126. Several commenters recognized the importance of the potentially negative evidence that might be obtained as part of the audit of the financial statements and expressed strong support for requiring that an audit of financial statements be performed to audit internal control over financial reporting.

E127. Others recognized the implications of this prohibition and expressed concern: What if a company wanted or needed an opinion on the effectiveness of internal control

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS2

over financial reporting as of an interim date? For the most part, these commenters (primarily issuers) objected to the implication that an auditor would have to audit a company's financial statements as of an interim date to enable him or her to audit and report on its internal control over financial reporting as of that same interim date. Other issuers expressed objections related to their desires to engage one auditor to provide an opinion on the effectiveness of internal control over financial reporting and another to audit the financial statements. Others requested clarification about which guidance would apply when other forms of internal control work were requested by companies.

E128. The Board concluded that an auditor should perform an audit of internal control over financial reporting only when he or she has also audited company's financial statements. The auditor *must* audit the financial statements to have a high level of assurance that his or her conclusion on the effectiveness of internal control over financial reporting is correct. Inherent in the reasonable assurance provided by the auditor's opinion on internal control over financial reporting is a responsibility for the auditor to plan and perform his or her work to obtain reasonable assurance that material weaknesses, if they exist, are detected. As previously discussed, this standard states that the identification by the auditor of a *material misstatement* in the financial statements that was not initially identified by the company's internal control over financial reporting, is a strong indicator of a material weakness. Without performing a financial statement audit, the auditor would not have reasonable assurance that he or she had detected all material misstatements. The Board believes that allowing the auditor to audit internal control over financial reporting without also auditing the financial statements would not provide the auditor with a high level of assurance and would mislead investors in terms of the level of assurance obtained.

E129. In response to other concerns, the Board noted that an auditor can report on the effectiveness of internal control over financial reporting using existing AT sec. 501 for purposes other than satisfying the requirements of Section 404. This standard supersedes AT sec. 501 only as it relates to complying with Section 404 of the Act.

E130. Although reporting under the remaining provisions of AT sec. 501 is currently permissible, the Board believes reports issued for public companies under the remaining provisions of AT sec. 501 will be infrequent. In any event, additional rulemaking might be necessary to prevent confusion that might arise from reporting on internal control engagements under two different standards. For example, explanatory language could be added to reports issued under AT sec. 501 to clarify that an audit of financial statements was not performed in conjunction with the attestation on internal control over financial reporting and that such a report is not the report resulting from an audit of internal control over financial reporting performed in conjunction with an audit of the financial statements under this standard. This report modification would alert report readers, particularly if such a report were to appear in an SEC filing or otherwise be made publicly available, that the assurance obtained by the auditor in that engagement is different from the assurance that would have been obtained by the auditor for Section 404 purposes. Another example of the type of change that might be necessary in

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS2**

separate rulemaking to AT sec. 501 would be to supplement the performance directions to be comparable to those in this standard. Auditors should remain alert for additional rulemaking by the Board that affects AT sec. 501.

AUDITING STANDARD No. 3 – Audit Documentation

June 9, 2004

AUDITING AND RELATED PROFESSIONAL PRACTICE STANDARDS

Auditing Standard No. 3 –

Audit Documentation

[Note: The Board made conforming amendments to Auditing Standard No. 3 when it adopted Auditing Standard No. 5. These conforming amendments are not reflected in this version of Auditing Standard No. 3. The conforming amendments are available at http://www.pcaobus.org/Rules/Rules_of_the_Board/Conforming_Amendments_AS5.pdf]

[Effective pursuant to SEC Release No. 34-50253, File No. PCAOB-2004-05 (August 25, 2004)]

Auditing and Related Professional Practice Standards

Auditing Standard No. 3, *Audit Documentation* [supersedes SAS No. 96, *Audit Documentation*]

Introduction

1. This standard establishes general requirements for documentation the auditor should prepare and retain in connection with engagements conducted pursuant to the standards of the Public Company Accounting Oversight Board ("PCAOB"). Such engagements include an audit of financial statements, an audit of internal control over financial reporting, and a review of interim financial information. This standard does not replace specific documentation requirements of other standards of the PCAOB.

Objectives of Audit Documentation

2. *Audit documentation* is the written record of the basis for the auditor's conclusions that provides the support for the auditor's representations, whether those representations are contained in the auditor's report or otherwise. Audit documentation also facilitates the planning, performance, and supervision of the engagement, and is the basis for the review of the quality of the work because it provides the reviewer with written documentation of the evidence supporting the auditor's significant conclusions. Among other things, audit documentation includes records of the planning and performance of the work, the procedures performed, evidence obtained, and conclusions reached by the auditor. Audit documentation also may be referred to as *work papers* or *working papers*.

Note: An auditor's representations to a company's board of directors or audit committee, stockholders, investors, or other interested parties are usually included in the auditor's report accompanying the financial statements of the company. The auditor also might make oral representations to the company or others, either on a voluntary basis or if necessary to comply with professional standards, including in connection with an engagement for which an auditor's report is not issued. For example, although an auditor might not issue a report in connection with an engagement to review interim financial information, he or she ordinarily would make oral representations about the results of the review.

3. Audit documentation is reviewed by members of the engagement team performing the work and might be reviewed by others. Reviewers might include, for example:

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS3**

- a. Auditors who are new to an engagement and review the prior year's documentation to understand the work performed as an aid in planning and performing the current engagement.
- b. Supervisory personnel who review documentation prepared by assistants on the engagement.
- c. Engagement supervisors and engagement quality reviewers who review documentation to understand how the engagement team reached significant conclusions and whether there is adequate evidential support for those conclusions.
- d. A successor auditor who reviews a predecessor auditor's audit documentation.
- e. Internal and external inspection teams that review documentation to assess audit quality and compliance with auditing and related professional practice standards; applicable laws, rules, and regulations; and the auditor's own quality control policies.
- f. Others, including advisors engaged by the audit committee or representatives of a party to an acquisition.

Audit Documentation Requirement

4. The auditor must prepare audit documentation in connection with each engagement conducted pursuant to the standards of the PCAOB. Audit documentation should be prepared in sufficient detail to provide a clear understanding of its purpose, source, and the conclusions reached. Also, the documentation should be appropriately organized to provide a clear link to the significant findings or issues.^{1/} Examples of audit documentation include memoranda, confirmations, correspondence, schedules, audit programs, and letters of representation. Audit documentation may be in the form of paper, electronic files, or other media.

5. Because audit documentation is the written record that provides the support for the representations in the auditor's report, it should:

- a. Demonstrate that the engagement complied with the standards of the PCAOB,

^{1/} See paragraph 12 of this standard for a description of significant findings or issues.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS3**

- b. Support the basis for the auditor's conclusions concerning every relevant financial statement assertion, and
- c. Demonstrate that the underlying accounting records agreed or reconciled with the financial statements.

6. The auditor must document the procedures performed, evidence obtained, and conclusions reached with respect to relevant financial statement assertions.^{2/} Audit documentation must clearly demonstrate that the work was in fact performed. This documentation requirement applies to the work of all those who participate in the engagement as well as to the work of specialists the auditor uses as evidential matter in evaluating relevant financial statement assertions. Audit documentation must contain sufficient information to enable an experienced auditor, having no previous connection with the engagement:

- a. To understand the nature, timing, extent, and results of the procedures performed, evidence obtained, and conclusions reached, and
- b. To determine who performed the work and the date such work was completed as well as the person who reviewed the work and the date of such review.

Note: An *experienced auditor* has a reasonable understanding of audit activities and has studied the company's industry as well as the accounting and auditing issues relevant to the industry.

7. In determining the nature and extent of the documentation for a financial statement assertion, the auditor should consider the following factors:

- Nature of the auditing procedure;
- Risk of material misstatement associated with the assertion;
- Extent of judgment required in performing the work and evaluating the results, for example, accounting estimates require greater judgment and commensurately more extensive documentation;
- Significance of the evidence obtained to the assertion being tested; and

^{2/} *Relevant financial statement assertions* are described in paragraphs 68-70 of PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with An Audit of Financial Statements*.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

- Responsibility to document a conclusion not readily determinable from the documentation of the procedures performed or evidence obtained.

Application of these factors determines whether the nature and extent of audit documentation is adequate.

8. In addition to the documentation necessary to support the auditor's final conclusions, audit documentation must include information the auditor has identified relating to significant findings or issues that is inconsistent with or contradicts the auditor's final conclusions. The relevant records to be retained include, but are not limited to, procedures performed in response to the information, and records documenting consultations on, or resolutions of, differences in professional judgment among members of the engagement team or between the engagement team and others consulted.

9. If, after the documentation completion date (defined in paragraph 15), the auditor becomes aware, as a result of a lack of documentation or otherwise, that audit procedures may not have been performed, evidence may not have been obtained, or appropriate conclusions may not have been reached, the auditor must determine, and if so demonstrate, that sufficient procedures were performed, sufficient evidence was obtained, and appropriate conclusions were reached with respect to the relevant financial statement assertions. To accomplish this, the auditor must have persuasive other evidence. Oral explanation alone does not constitute persuasive other evidence, but it may be used to clarify other written evidence.

- If the auditor determines and demonstrates that sufficient procedures were performed, sufficient evidence was obtained, and appropriate conclusions were reached, but that documentation thereof is not adequate, then the auditor should consider what additional documentation is needed. In preparing additional documentation, the auditor should refer to paragraph 16.
- If the auditor cannot determine or demonstrate that sufficient procedures were performed, sufficient evidence was obtained, or appropriate conclusions were reached, the auditor should comply with the provisions of AU sec. 390, *Consideration of Omitted Procedures After the Report Date*.

Documentation of Specific Matters

10. Documentation of auditing procedures that involve the inspection of documents or confirmation, including tests of details, tests of operating effectiveness of controls, and walkthroughs, should include identification of the items inspected. Documentation

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

of auditing procedures related to the inspection of significant contracts or agreements should include abstracts or copies of the documents.

Note: The identification of the items inspected may be satisfied by indicating the source from which the items were selected and the specific selection criteria, for example:

- If an audit sample is selected from a population of documents, the documentation should include identifying characteristics (for example, the specific check numbers of the items included in the sample).
- If all items over a specific dollar amount are selected from a population of documents, the documentation need describe only the scope and the identification of the population (for example, all checks over \$10,000 from the October disbursements journal).
- If a systematic sample is selected from a population of documents, the documentation need only provide an identification of the source of the documents and an indication of the starting point and the sampling interval (for example, a systematic sample of sales invoices was selected from the sales journal for the period from October 1 to December 31, starting with invoice number 452 and selecting every 40th invoice).

11. Certain matters, such as auditor independence, staff training and proficiency and client acceptance and retention, may be documented in a central repository for the public accounting firm ("firm") or in the particular office participating in the engagement. If such matters are documented in a central repository, the audit documentation of the engagement should include a reference to the central repository. Documentation of matters specific to a particular engagement should be included in the audit documentation of the pertinent engagement.

12. The auditor must document significant findings or issues, actions taken to address them (including additional evidence obtained), and the basis for the conclusions reached in connection with each engagement. *Significant findings or issues* are substantive matters that are important to the procedures performed, evidence obtained, or conclusions reached, and include, but are not limited to, the following:

- a. Significant matters involving the selection, application, and consistency of accounting principles, including related disclosures. Significant matters include, but are not limited to, accounting for complex or unusual transactions, accounting estimates, and uncertainties as well as related management assumptions.

- b. Results of auditing procedures that indicate a need for significant modification of planned auditing procedures, the existence of material misstatements, omissions in the financial statements, the existence of significant deficiencies, or material weaknesses in internal control over financial reporting.
- c. Audit adjustments. For purposes of this standard, an *audit adjustment* is a correction of a misstatement of the financial statements that was or should have been proposed by the auditor, whether or not recorded by management, that could, either individually or when aggregated with other misstatements, have a material effect on the company's financial statements.
- d. Disagreements among members of the engagement team or with others consulted on the engagement about final conclusions reached on significant accounting or auditing matters.
- e. Circumstances that cause significant difficulty in applying auditing procedures.
- f. Significant changes in the assessed level of audit risk for particular audit areas and the auditor's response to those changes.
- g. Any matters that could result in modification of the auditor's report.

13. The auditor must identify all significant findings or issues in an *engagement completion document*. This document may include either all information necessary to understand the significant findings, issues or cross-references, as appropriate, to other available supporting audit documentation. This document, along with any documents cross-referenced, should collectively be as specific as necessary in the circumstances for a reviewer to gain a thorough understanding of the significant findings or issues.

Note: The engagement completion document prepared in connection with the annual audit should include documentation of significant findings or issues identified during the review of interim financial information.

Retention of and Subsequent Changes to Audit Documentation

14. The auditor must retain audit documentation for seven years from the date the auditor grants permission to use the auditor's report in connection with the issuance of the company's financial statements (*report release date*), unless a longer period of time is required by law. If a report is not issued in connection with an engagement, then the audit documentation must be retained for seven years from the date that fieldwork was substantially completed. If the auditor was unable to complete the engagement, then

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

the audit documentation must be retained for seven years from the date the engagement ceased.

15. Prior to the report release date, the auditor must have completed all necessary auditing procedures and obtained sufficient evidence to support the representations in the auditor's report. A complete and final set of audit documentation should be assembled for retention as of a date not more than 45 days after the report release date (*documentation completion date*). If a report is not issued in connection with an engagement, then the documentation completion date should not be more than 45 days from the date that fieldwork was substantially completed. If the auditor was unable to complete the engagement, then the documentation completion date should not be more than 45 days from the date the engagement ceased.

16. Circumstances may require additions to audit documentation after the report release date. Audit documentation must not be deleted or discarded after the documentation completion date, however, information may be added. Any documentation added must indicate the date the information was added, the name of the person who prepared the additional documentation, and the reason for adding it.

17. Other standards require the auditor to perform procedures subsequent to the report release date in certain circumstances. For example, in accordance with AU sec. 711, *Filings Under Federal Securities Statutes*, auditors are required to perform certain procedures up to the effective date of a registration statement.^{3/} The auditor must identify and document any additions to audit documentation as a result of these procedures consistent with the previous paragraph.

18. The office of the firm issuing the auditor's report is responsible for ensuring that all audit documentation sufficient to meet the requirements of paragraphs 4-13 of this standard is prepared and retained. Audit documentation supporting the work performed by other auditors (including auditors associated with other offices of the firm, affiliated firms, or non-affiliated firms), must be retained by or be accessible to the office issuing the auditor's report.^{4/}

19. In addition, the office issuing the auditor's report must obtain, and review and retain, prior to the report release date, the following documentation related to the work

^{3/} Section 11 of the Securities Act of 1933 makes specific mention of the auditor's responsibility as an expert when the auditor's report is included in a registration statement under the 1933 Act.

^{4/} Section 106(b) of the Sarbanes-Oxley Act of 2002 imposes certain requirements concerning production of the work papers of a foreign public accounting firm on whose opinion or services the auditor relies. Compliance with this standard does not substitute for compliance with Section 106(b) or any other applicable law.

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS3

performed by other auditors (including auditors associated with other offices of the firm, affiliated firms, or non-affiliated firms):

- a. An engagement completion document consistent with paragraphs 12 and 13.

Note: This engagement completion document should include all cross-referenced, supporting audit documentation.

- b. A list of significant fraud risk factors, the auditor's response, and the results of the auditor's related procedures.
- c. Sufficient information relating to any significant findings or issues that are inconsistent with or contradict the final conclusions, as described in paragraph 8.
- d. Any findings affecting the consolidating or combining of accounts in the consolidated financial statements.
- e. Sufficient information to enable the office issuing the auditor's report to agree or to reconcile the financial statement amounts audited by the other auditor to the information underlying the consolidated financial statements.
- f. A schedule of audit adjustments, including a description of the nature and cause of each misstatement.
- g. All significant deficiencies and material weaknesses in internal control over financial reporting, including a clear distinction between those two categories.
- h. Letters of representations from management.
- i. All matters to be communicated to the audit committee.

If the auditor decides to make reference in his or her report to the audit of the other auditor, however, the auditor issuing the report need not perform the procedures in this paragraph and, instead, should refer to AU sec. 543, *Part of Audit Performed by Other Independent Auditors*.

20. The auditor also might be required to maintain documentation in addition to that required by this standard.^{5/}

^{5/} For example, the SEC requires auditors to retain, in addition to documentation required by this standard, memoranda, correspondence, communications (for example, electronic mail), other documents, and records (in the

Effective Date

21. This standard is effective for audits of financial statements, which may include an audit of internal control over financial reporting, with respect to fiscal years ending on or after November 15, 2004. For other engagements conducted pursuant to the standards of the PCAOB, including reviews of interim financial information, this standard takes effect beginning with the first quarter ending after the first financial statement audit covered by this standard.

form of paper, electronic, or other media) that are created, sent, or received in connection with an engagement conducted in accordance with auditing and related professional practice standards and that contain conclusions, opinions, analyses, or data related to the engagement. (*Retention of Audit and Review Records*, 17 CFR §210.2-06, effective for audits or reviews completed on or after October 31, 2003.)

Introduction

A1. This appendix summarizes considerations that the Public Company Accounting Oversight Board ("PCAOB" or "Board") deemed significant in developing this standard. This appendix includes reasons for accepting certain views and rejecting others.

A2. Section 103(a)(2)(A)(i) of the Sarbanes-Oxley Act of 2002 (the "Act") directs the Board to establish auditing standards that require registered public accounting firms to prepare and maintain, for at least seven years, audit documentation "in sufficient detail to support the conclusions reached" in the auditor's report. Accordingly, the Board has made audit documentation a priority.

Background

A3. Auditors support the conclusions in their reports with a work product called *audit documentation*, also referred to as *working papers* or *work papers*. Audit documentation supports the basis for the conclusions in the auditor's report. Audit documentation also facilitates the planning, performance, and supervision of the engagement and provides the basis for the review of the quality of the work by providing the reviewer with written documentation of the evidence supporting the auditor's significant conclusions. Examples of audit documentation include memoranda, confirmations, correspondence, schedules, audit programs, and letters of representation. Audit documentation may be in the form of paper, electronic files, or other media.

A4. The Board's standard on audit documentation is one of the fundamental building blocks on which both the integrity of audits and the Board's oversight will rest. The Board believes that the quality and integrity of an audit depends, in large part, on the existence of a complete and understandable record of the work the auditor performed, the conclusions the auditor reached, and the evidence the auditor obtained that supports those conclusions. Meaningful reviews, whether by the Board in the context of its inspections or through other reviews, such as internal quality control reviews, would be difficult or impossible without adequate documentation. Clear and comprehensive audit documentation is essential to enhance the quality of the audit and, at the same time, to allow the Board to fulfill its mandate to inspect registered public accounting firms to assess the degree of compliance of those firms with applicable standards and laws.

A5. The Board began a standards-development project on audit documentation by convening a public roundtable discussion on September 29, 2003, to discuss issues and hear views on the subject. Participants at the roundtable included representatives from public companies, public accounting firms, investor groups, and regulatory organizations.

A6. Prior to this roundtable discussion, the Board prepared and released a briefing paper on audit documentation that posed several questions to help identify the objectives – and the appropriate scope and form – of audit documentation. In addition, the Board asked participants to address specific issues in practice relating to, among other things, changes in audit documentation after release of the audit report, essential elements and the appropriate amount of detail of audit documentation, the effect on audit documentation of a principal auditor's decision to use the work of other auditors, and retention of audit documentation. Based on comments made at the roundtable, advice from the Board's staff, and other input the Board received, the Board determined that the pre-existing standard on audit documentation, Statement on Auditing Standards ("SAS") No. 96, *Audit Documentation*, was insufficient for the Board to discharge appropriately its standard-setting obligations under Section 103(a) of the Act. In response, the Board developed and issued for comment, on November 17, 2003, a proposed auditing standard titled, *Audit Documentation*.

A7. The Board received 38 comment letters from a variety of interested parties, including auditors, regulators, professional associations, government agencies, and others. Those comments led to some changes in the requirements of the standard. Also, other changes made the requirements easier to understand. The following sections summarize significant views expressed in those comment letters and the Board's responses to those comments.

Objective of This Standard

A8. The objective of this standard is to improve audit quality and enhance public confidence in the quality of auditing. Good audit documentation improves the quality of the work performed in many ways, including, for example:

- Providing a record of actual work performed, which provides assurance that the auditor accomplishes the planned objectives.
- Facilitating the reviews performed by supervisors, managers, engagement partners, engagement quality reviewers,^{1/} and PCAOB inspectors.
- Improving effectiveness and efficiency by reducing time-consuming, and sometimes inaccurate, oral explanations of what was done (or not done).

^{1/} The engagement quality reviewer is referred to as the concurring partner reviewer in the membership requirements of the AICPA SEC Practice Section. The Board adopted certain of these membership requirements as they existed on April 16, 2003. Some firms also may refer to this designated reviewer as the second partner reviewer.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

A9. The documentation requirements in this standard should result in more effective and efficient oversight of registered public accounting firms and associated persons, thereby improving audit quality and enhancing investor confidence.

A10. Inadequate audit documentation diminishes audit quality on many levels. First, if audit documentation does not exist for a particular procedure or conclusion related to a significant matter, it casts doubt as to whether the necessary work was done. If the work was not documented, then it becomes difficult for the engagement team, and others, to know what was done, what conclusions were reached, and how those conclusions were reached. In addition, good audit documentation is very important in an environment in which engagement staff changes or rotates. Due to engagement staff turnover, knowledgeable staff on an engagement may not be available for the next engagement.

Audit Programs

A11. Several commenters suggested that audit documentation should include audit programs. Audit programs were specifically mentioned in SAS No. 96 as a form of audit documentation.

A12. The Board accepted this recommendation, and paragraph 4 in the final standard includes audit programs as an example of documentation. Audit programs may provide evidence of audit planning as well as limited evidence of the execution of audit procedures, but the Board believes that signed-off audit programs should generally not be used as the sole documentation that a procedure was performed, evidence was obtained, or a conclusion was reached. An audit program aids in the conduct and supervision of an engagement, but completed and initialed audit program steps should be supported with proper documentation in the working papers.

Reviewability Standard

A13. The proposed standard would have adapted a standard of reviewability from the U.S. General Accounting Office's ("GAO") documentation standard for government and other audits conducted in accordance with generally accepted government auditing standards ("GAGAS"). The GAO standard provides that "Audit documentation related to planning, conducting, and reporting on the audit should contain sufficient information to enable an experienced auditor who has had no previous connection with the audit to ascertain from the audit documentation the evidence that supports the auditors' significant judgments and conclusions."^{2/} This requirement has been important in the field of government auditing because government audits have long been reviewed by

^{2/} U.S. General Accounting Office, *Government Auditing Standards*, "Field Work Standards for Financial Audits" (2003 Revision), paragraph 4.22.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

GAO auditors who, although experienced in auditing, do not participate in the actual audits. Moreover, the Panel on Audit Effectiveness recommended that sufficient, specific requirements for audit documentation be established to enable public accounting firms' internal inspection teams as well as others, including reviewers outside of the firms, to assess the quality of engagement performance.^{3/} Audits and reviews of issuers' financial statements will now, under the Act, be subject to review by PCAOB inspectors. Therefore, a documentation standard that enables an inspector to understand the work that was performed in an audit or review is appropriate.

A14. Accordingly, the Board's proposed standard would have required that audit documentation contain sufficient information to enable an experienced auditor, having no previous connection with the engagement, to understand the work that was performed, the name of the person(s) who performed it, the date it was completed, and the conclusions reached. This experienced auditor also should have been able to determine who reviewed the work and the date of such review.

A15. Some commenters suggested that the final standard more specifically describe the qualifications of an experienced auditor. These commenters took the position that only an engagement partner with significant years of experience would have the experience necessary to be able to understand all the work that was performed and the conclusions that were reached. One commenter suggested that an auditor who is reviewing audit documentation should have experience and knowledge consistent with the experience and knowledge that the auditor performing the audit would be required to possess, including knowledge of the current accounting, auditing, and financial reporting issues of the company's industry. Another said that the characteristics defining an experienced auditor should be consistent with those expected of the auditor with final responsibility for the engagement.

A16. After considering these comments, the Board has provided additional specificity about the meaning of the term, *experienced auditor*. The standard now describes an experienced auditor as one who has a reasonable understanding of audit activities and has studied the company's industry as well as the accounting and auditing issues relevant to the industry.

A17. Some commenters also suggested that the standard, as proposed, did not allow for the use of professional judgment. These commenters pointed to the omission of a statement about professional judgment found in paragraph 4.23 of GAGAS that states, "The quantity, type, and content of audit documentation are a matter of the auditors' professional judgment." A nearly identical statement was found in the interim auditing standard, SAS No. 96, *Audit Documentation*.

^{3/} Panel on Audit Effectiveness, *Report and Recommendations* (Stamford, Ct: Public Oversight Board, August 31, 2000).

A18. Auditors exercise professional judgment in nearly every aspect of planning, performing, and reporting on an audit. Auditors also exercise professional judgment in the documentation of an audit and other engagements. An objective of this standard is to ensure that auditors give proper consideration to the need to document procedures performed, evidence obtained, and conclusions reached in light of time and cost considerations in completing an engagement.

A19. Nothing in the standard precludes auditors from exercising their professional judgment. Moreover, because professional judgment might relate to any aspect of an audit, the Board does not believe that an explicit reference to professional judgment is necessary every time the use of professional judgment may be appropriate.

Audit Documentation Must Demonstrate That the Work was Done

A20. A guiding principle of the proposed standard was that auditors must document procedures performed, evidence obtained, and conclusions reached. This principle is not new and was found in the interim standard, SAS No. 96, *Audit Documentation*, which this standard supersedes. Audit documentation also should demonstrate compliance with the standards of the PCAOB and include justification for any departures.

A21. The proposed standard would have adapted a provision in the California Business and Professions Code which provides that if documentation does not exist, then there is a rebuttable presumption that the work had not been done.

A22. The objections to this proposal fell into two general categories: the effect of the rebuttable presumption on legal proceedings and the perceived impracticality of documenting every conversation or conclusion that affected the engagement. Discussion of these issues follows.

Rebuttable Presumption

A23. Commenters expressed concern about the effects of the proposed language on regulatory or legal proceedings outside the context of the PCAOB's oversight. They argued that the rebuttable presumption might be understood to establish evidentiary rules for use in judicial and administrative proceedings in other jurisdictions.

A24. Some commenters also had concerns that oral explanation alone would not constitute persuasive other evidence that work was done, absent any documentation. Those commenters argued that not allowing oral explanations when there was no documentation would essentially make the presumption "irrebuttable." Moreover, those commenters argued that it was inappropriate for a professional standard to predetermine for a court the relative value of evidence.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

A25. The Board believes that complete audit documentation is necessary for a quality audit or other engagement. The Board intends the standard to require auditors to document procedures performed, evidence obtained, and conclusions reached to improve the quality of audits. The Board also intends that a deficiency in documentation is a departure from the Board's standards. Thus, although the Board removed the phrase *rebuttable presumption*, the Board continues to stress, in paragraph 9 of the standard, that the auditor must have persuasive other evidence that the procedures were performed, evidence was obtained, and appropriate conclusions were reached with respect to relevant financial statement assertions.

A26. The term *should* (presumptively mandatory responsibility) was changed to *must* (unconditional responsibility) in paragraph 6 to establish a higher threshold for the auditor. Auditors have an unconditional requirement to document their work. Failure to discharge an unconditional responsibility is a violation of the standard and Rule 3100, which requires all registered public accounting firms to adhere to the Board's auditing and related professional practice standards in connection with an audit or review of an issuer's financial statements.

A27. The Board also added two new paragraphs to the final standard to explain the importance and associated responsibility of performing the work and adequately documenting all work that was performed. Paragraph 7 provides a list of factors the auditor should consider in determining the nature and extent of documentation. These factors should be considered by both the auditor in preparing the documentation and the reviewer in evaluating the documentation.

A28. In paragraph 9 of this standard, if, after the documentation completion date, as a result of a lack of documentation or otherwise, it appears that audit procedures may not have been performed, evidence may not have been obtained, or appropriate conclusions may not have been reached, the auditor must determine, and if so demonstrate, that sufficient procedures were performed, sufficient evidence was obtained, and appropriate conclusions were reached with respect to the relevant financial statement assertions. In those circumstances, for example, during an inspection by the Board or during the firm's internal quality control review, the auditor is required to demonstrate with persuasive other evidence that the procedures were performed, the evidence was obtained, and appropriate conclusions were reached. In this and similar contexts, oral explanation alone does not constitute persuasive other evidence. However, oral evidence may be used to clarify other written evidence.

A29. In addition, more reliable, objective evidence may be required depending on the nature of the test and the objective the auditor is trying to achieve. For example, if there is a high risk of a material misstatement with respect to a particular assertion, then the auditor should obtain and document sufficient procedures for the auditor to conclude on the fairness of the assertion.

Impracticality

A30. Some commenters expressed concern that the proposed standard could be construed or interpreted to require the auditor to document every conversation held with company management or among the engagement team members. Some commenters also argued that they should not be required to document every conclusion, including preliminary conclusions that were part of a thought process that may have led them to a different conclusion, on the ground that this would result in needless and costly work performed by the auditor. Commenters also expressed concern that an unqualified requirement to document procedures performed, evidence obtained, and conclusions reached without allowing the use of auditor judgment would increase the volume of documentation but not the quality. They stated that it would be unnecessary, time-consuming, and potentially counterproductive to require the auditor to make a written record of everything he or she did.

A31. The Board's standard distinguishes between (1) an audit procedure that must be documented and (2) a conversation with company management or among the members of the engagement team. Inquiries with management should be documented when an inquiry is important to a particular procedure. The inquiry could take place during planning, performance, or reporting. The auditor need not document each conversation that occurred.

A32. A final conclusion is an integral part of a working paper, unless the working paper is only for informational purposes, such as documentation of a discussion or a process. This standard does not require that the auditor document each interim conclusion reached in arriving at the risk assessments or final conclusions. Conclusions reached early on during an audit may be based on incomplete information or an incorrect understanding. Nevertheless, auditors should document a final conclusion for every audit procedure performed, if that conclusion is not readily apparent based on documented results of the procedures.

A33. The Board also believes the reference to *specialists* is an important element of paragraph 6. Specialists play a vital role in audit engagements. For example, appraisers, actuaries, and environmental consultants provide valuable data concerning asset values, calculation assumptions, and loss reserves. When using the work of a specialist, the auditor must ensure that the specialist's work, as it relates to the audit objectives, also is adequately documented. For example, if the auditor relies on the work of an appraiser in obtaining the fair value of commercial property available for sale, then the auditor must ensure the appraisal report is adequately documented. Moreover, the term *specialist* in this standard is intended to include any specialist the auditor relies on in conducting the work, including those employed or retained by the auditor or by the company.

Audit Adjustments

A34. Several commenters recommended that the definition of *audit adjustments* in this proposed standard should be consistent with the definition contained in AU sec. 380, *Communication with Audit Committees*.

A35. Although the Board recognizes potential benefits of having a uniform definition of the term *audit adjustments*, the Board does not believe that the definition in AU sec. 380 is appropriate for this documentation standard because that definition was intended for communication with audit committees. The Board believes that the definition should be broader so that the engagement partner, engagement quality reviewer, and others can be aware of all proposed corrections of misstatements, whether or not recorded by the entity, of which the auditor is aware, that were or should have been proposed based on the audit evidence.

A36. Adjustments that should have been proposed based on known audit evidence are material misstatements that the auditor identified but did not propose to management. Examples include situations in which (1) the auditor identifies a material error but does not propose an adjustment and (2) the auditor proposes an adjustment in the working papers, but fails to note the adjustment in the summary or schedule of proposed adjustments.

Information That Is Inconsistent with or Contradicts the Auditor's Final Conclusions

A37. Paragraph .25 of AU sec. 326, *Evidential Matter*, states: "In developing his or her opinion, the auditor should consider relevant evidential matter regardless of whether it appears to corroborate or to contradict the assertions in the financial statements." Thus, during the conduct of an audit, the auditor should consider all relevant evidential matter even though it might contradict or be inconsistent with other conclusions. Audit documentation must contain information or data relating to significant findings or issues that are inconsistent with the auditor's final conclusions on the relevant matter.

A38. Also, information that initially appears to be inconsistent or contradictory, but is found to be incorrect or based on incomplete information, need not be included in the final audit documentation, provided that the apparent inconsistencies or contradictions were satisfactorily resolved by obtaining complete and correct information. In addition, with respect to differences in professional judgment, auditors need not include in audit documentation preliminary views based on incomplete information or data.

Retention of Audit Documentation

A39. The proposed standard would have required an auditor to retain audit documentation for seven years after completion of the engagement, which is the

minimum period permitted under Section 103(a)(2)(A)(i) of the Act. In addition, the proposed standard would have added a new requirement that the audit documentation must be assembled for retention within a reasonable period of time after the auditor's report is released. Such reasonable period of time should not exceed 45 days.

A40. In general, those commenting on this documentation retention requirement did not have concerns with the time period of 45 days to assemble the working papers. However, some commenters suggested the Board tie this 45-day requirement to the filing date of the company's financial statements with the SEC. One commenter recommended that the standard refer to the same trigger date for initiating both the time period during which the auditor should complete work paper assembly and the beginning of the seven-year retention period.

A41. For consistency and practical implications, the Board agreed that the standard should have the same date for the auditor to start assembling the audit documentation and initiating the seven-year retention period. The Board decided that the seven-year retention period begins on the *report release date*, which is defined as the date the auditor grants permission to use the auditor's report in connection with the issuance of the company's financial statements. In addition, auditors will have 45 days to assemble the complete and final set of audit documentation, beginning on the report release date. The Board believes that using the report release date is preferable to using the filing date of the company's financial statements, since the auditor has ultimate control over granting permission to use his or her report. If an auditor's report is not issued, then the audit documentation is to be retained for seven years from the date that fieldwork was substantially completed. If the auditor was unable to complete the engagement, then the seven-year period begins when the work on the engagement ceased.

Section 802 of Sarbanes-Oxley and the SEC's Implementing Rule

A42. Many commenters had concerns about the similarity in language between the proposed standard and the SEC final rule (issued in January 2003) on record retention, *Retention of Records Relevant to Audits and Reviews*.^{4/} Some commenters recommended that the PCAOB undertake a project to identify and resolve all differences between the proposed standard and the SEC's final rule. These commenters also suggested that the Board include similar language from the SEC final rule, Rule 2-06 of Regulation S-X, which limits the requirement to retain some items.

Differences between Section 802 and This Standard

A43. The objective of the Board's standard is different from the objective of the SEC's rule on record retention. The objective of the Board's standard is to require auditors to

^{4/} SEC Regulation S-X, 17 C.F.R. § 210.2-06 (SEC Release No. 33-8180, January 2003). (The final rule was effective in March 2003.)

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

create certain documentation to enhance the quality of audit documentation, thereby improving the quality of audits and other related engagements. The records retention section of this standard, mandated by Section 103 of the Act, requires registered public accounting firms to "prepare and maintain for a period of not less than 7 years, *audit work papers, and other information related to any audit report*, in sufficient detail to support the conclusions reached in such report." (emphasis added)

A44. In contrast, the focus of the SEC rule is to require auditors to *retain* documents that the auditor does create, in order that those documents will be available in the event of a regulatory investigation or other proceeding. As stated in the release accompanying the SEC's final rule (SEC Release No. 33-8180):

Section 802 of the Sarbanes-Oxley Act is intended to address the destruction or fabrication of evidence and the preservation of "financial and audit records." We are directed under that section to promulgate rules related to the retention of records relevant to the audits and reviews of financial statements that companies file with the Commission.

A45. The SEC release further states, "New rule 2-06 ... addresses the retention of documents relevant to enforcement of the securities laws, Commission rules, and criminal laws."

A46. Despite their different objectives, the proposed standard and SEC Rule 2-06 use similar language in describing documentation generated during an audit or review. Paragraph 4 of the proposed standard stated that, "Audit documentation ordinarily consists of *memoranda, correspondence, schedules, and other documents created or obtained in connection with* the engagement and may be in the form of paper, electronic files, or other media." Paragraph (a) of SEC Rule 2-06 describes "records relevant to the audit or review" that must be retained as, (1) "workpapers and other documents that form the basis of the audit or review and (2) *memoranda, correspondence, communications, other documents, and records (including electronic records), which: [a]re created, sent or received in connection with* the audit or review and [c]ontain conclusions, opinions, analyses, or financial data related to the audit or review. ..." (numbering and emphasis added).

A47. The SEC makes a distinction between the objectives of categories (1) and (2). Category (1) includes audit documentation. Documentation to be retained according to the Board's standard clearly falls within category (1). Items in category (2) include "desk files" which are more than "what traditionally has been thought of as auditor's 'workpapers'." The SEC's rule requiring auditors to retain items in category (2) have the principal purpose of facilitating enforcement of securities laws, SEC rules, and criminal laws. This is not an objective of the Board's standard. According to SEC Rule 2-06, items in category (2) are limited to those which: (a) are created, sent or received in connection with the audit or review, and (b) contain conclusions, opinions, analyses, or

financial data related to the audit or review. The limitations, (a) and (b), do not apply to category (1).

A48. Paragraph 4 of the final standard deletes the reference in the proposed standard to "other documents created or obtained in connection with the engagement." The Board decided to keep "correspondence" in the standard because correspondence can be valid audit evidence. Paragraph 20 of the standard reminds the auditor that he or she may be required to maintain documentation in addition to that required by this standard.

Significant Matters and Significant Findings or Issues

A49. Some commenters asked how the term *significant matters*, in Rule 2-06, relates to the term *significant findings or issues* in the Board's standard. The SEC's release accompanying its final Rule 2-06 states that "... *significant matters* is intended to refer to the documentation of substantive matters that are important to the audit or review process or to the financial statements of the issuer. ..." This is very similar to the term *significant findings or issues* contained in paragraph 12 of the Board's standard which requires auditors to document *significant findings or issues*, actions taken to address them (including additional evidence obtained), and the basis for the conclusions reached. Examples of significant findings or issues are provided in the standard.

A50. Based on the explanation in the SEC's final rule and accompanying release, the Board believes that *significant matters* are included in the meaning of *significant findings or issues* in the Board's standard. The Board is of the view that *significant findings or issues* is more comprehensive and provides more clarity than *significant matters* and, therefore, has not changed the wording in the final standard.

Changes to Audit Documentation

A51. The proposed standard would have required that any changes to the working papers after completion of the engagement be documented without deleting or discarding the original documents. Such documentation must indicate the date the information was added, by whom it was added, and the reason for adding it.

A52. One commenter recommended that the Board provide examples of auditing procedures that should be performed before the report release date and procedures that may be performed after the report release date. Some commenters also requested clarification about the treatment of changes to documentation that occurred after the completion of the engagement but before the report release date. Many commenters recommended that the Board more specifically describe post-issuance procedures. The Board generally agreed with these comments.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

A53. The final standard includes two important dates for the preparation of audit documentation: (1) the report release date and (2) the documentation completion date.

- Prior to the report release date, the auditor must have completed all necessary auditing procedures, including clearing review notes and providing support for all final conclusions. In addition, the auditor must have obtained sufficient evidence to support the representations in the auditor's reports before the report release date.
- After the report release date and prior to the documentation completion date, the auditor has 45 calendar days in which to assemble the documentation.

A54. During the audit, audit documentation may be superseded for various reasons. Often, during the review process, reviewers annotate the documentation with clarifications, questions, and edits. The completion process often involves revising the documentation electronically and generating a new copy. The SEC's final rule on record retention, *Retention of Records Relevant to Audits and Reviews*,^{5/} explains that the SEC rule does not require that the following documents generally need to be retained: superseded drafts of memoranda, financial statements or regulatory filings; notes on superseded drafts of memoranda, financial statements or regulatory filings that reflect incomplete or preliminary thinking; previous copies of workpapers that have been corrected for typographical errors or errors due to training of new employees; and duplicates of documents. This standard also does not require auditors to retain such documents as a general matter.

A55. Any documents, however, that reflect information that is either inconsistent with or contradictory to the conclusions contained in the final working papers may not be discarded. Any documents added must indicate the date they were added, the name of the person who prepared them, and the reason for adding them.

A56. If the auditor obtains and documents evidence after the report release date, the auditor should refer to the interim auditing standards, AU sec. 390, *Consideration of Omitted Procedures After the Report Date* and AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*. Auditors should not discard any previously existing documentation in connection with obtaining and documenting evidence after the report release date.

A57. The auditor may perform certain procedures subsequent to the report release date. For example, pursuant to AU sec. 711, *Filings Under Federal Securities Statutes*, auditors are required to perform certain procedures up to the effective date of a registration statement. The auditor should identify and document any additions to audit

^{5/} See footnote 4.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

documentation as a result of these procedures. No audit documentation should be discarded after the documentation completion date, even if it is superseded in connection with any procedures performed, including those performed pursuant to AU sec. 711.

A58. Additions to the working papers may take the form of memoranda that explain the work performed, evidence obtained, and conclusions reached. Documentation added to the working papers must indicate the date the information was added, the name of the person adding it, and the reason for adding it. All previous working papers must remain intact and not be discarded.

A59. Documentation added to the working papers well after completion of the audit or other engagement is likely to be of a lesser quality than that produced contemporaneously when the procedures were performed. It is very difficult to reconstruct activities months, and perhaps years, after the work was actually performed. The turnover of both firm and company staff can cause difficulty in reconstructing conversations, meetings, data, or other evidence. Also, with the passage of time memories fade. Oral explanation can help confirm that procedures were performed during an audit, but oral explanation alone does not constitute persuasive other evidence. The primary source of evidence should be documented at the time the procedures are performed, and oral explanation should not be the primary source of evidence. Furthermore, any oral explanation should not contradict the documented evidence, and appropriate consideration should be given to the credibility of the individual providing the oral explanation.

Multi-Location Audits and Using the Work of Other Auditors

A60. The proposed standard would have required the principal auditor to maintain specific audit documentation when he or she decided not to make reference to the work of another auditor.

A61. The Board also proposed an amendment to AU sec. 543 concurrently with the proposed audit documentation standard. The proposed amendment would have required the principal auditor to review the documentation of the other auditor to the same extent and in the same manner that the audit work of all those who participated in the engagement is reviewed.

A62. Commenters expressed concerns that these proposals could present conflicts with certain non-U.S. laws. Those commenters also expressed concern about the costs associated with the requirement for the other auditor to ship their audit documentation to the principal auditor. In addition, the commenters also objected to the requirement that principal auditors review the work of other auditors as if they were the principal auditor's staff.

Audit Documentation Must be Accessible to the Office Issuing the Auditor's Report

A63. After considering these comments, the Board decided that it could achieve one of the objectives of the proposed standard (that is, to require that the issuing office have access to those working papers on which it placed reliance) without requiring that the working papers be shipped to the issuing office. Further, given the potential difficulties of shipping audit documentation from various non-U.S. locations, the Board decided to modify the proposed standard to require that audit documentation either be retained by or be accessible to the issuing office.

A64. In addition, instead of requiring that all of the working papers be shipped to the issuing office, the Board decided to require that the issuing office obtain, review, and retain certain summary documentation. Thus, the public accounting firm issuing an audit report on consolidated financial statements of a multinational company may not release that report without the documentation described in paragraph 19 of the standard.

A65. The auditor must obtain and review and retain, prior to the report release date, documentation described in paragraph 19 of the standard, in connection with work performed by other offices of the public accounting firm or other auditors, including affiliated or non-affiliated firms, that participated in the audit. For example, an auditor that uses the work of another of its offices or other affiliated or non-affiliated public accounting firms to audit a subsidiary that is material to a company's consolidated financial statements must obtain the documentation described in paragraph 19 of the standard, prior to the report release date. On the other hand, an auditor that uses the work of another of its offices or other affiliated or non-affiliated firms, to perform selected procedures, such as observing the physical inventories of a company, may not be required to obtain the documentation specified in paragraph 19 of the standard. However, this does not reduce the need for the auditor to obtain equivalent documentation prepared by the other auditor when those instances described in paragraph 19 of the standard are applicable.

Amendment to AU Sec. 543, *Part of Audit Performed by Other Independent Auditors*

A66. Some commenters also objected to the proposed requirement in the amendment to AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, that the principal auditor review another auditor's audit documentation. They objected because they were of the opinion such a review would impose an unnecessary cost and burden given that the other auditor will have already reviewed the documentation in accordance with the standards established by the principal auditor. The commenters also indicated that any review by the principal auditor would add excessive time to the SEC reporting

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS3

process, causing even more difficulties as the SEC Form 10-K reporting deadlines have become shorter recently and will continue to shorten next year.

A67. The Board accepted the recommendation to modify the proposed amendment to AU sec. 543, *Part of Audit Performed by Other Independent Auditors*. Thus, in the final amendment, the Board imposes the same unconditional responsibility on the principal auditor to obtain certain audit documentation from the other auditor prior to the report release date. The final amendment also provides that the principal auditor should consider performing one or more of the following procedures:

- Visit the other auditors and discuss the audit procedures followed and results thereof.
- Review the audit programs of the other auditors. In some cases, it may be appropriate to issue instructions to the other auditors as to the scope of the audit work.
- Review additional audit documentation of the other auditors relating to significant findings or issues in the engagement completion document.

Effective Date

A68. The Board proposed that the standard and related amendment would be effective for engagements completed on or after June 15, 2004. Many commenters were concerned that the effective date was too early. They pointed out that some audits, already begun as of the proposed effective date, would be affected and that it could be difficult to retroactively apply the standard. Some commenters also recommended delaying the effective date to give auditors adequate time to develop and implement processes and provide training with respect to several aspects of the standard.

A69. After considering the comments, the Board has delayed the effective date. However, the Board also believes that a delay beyond 2004 is not in the public interest.

A70. The Board concluded that the implementation date of this standard should coincide with that of PCAOB Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with an Audit of Financial Statements*, because of the documentation issues prevalent in PCAOB Auditing Standard No. 2. Therefore, the Board has decided that the standard will be effective for audits of financial statements with respect to fiscal years ending on or after November 15, 2004. The effective date for reviews of interim financial information and other engagements, conducted pursuant to the standards of the PCAOB, would occur beginning with the first quarter ending after the first financial statement audit covered by this standard.

Reference to Audit Documentation As the Property of the Auditor

A71. Several commenters noted that SAS No. 96, *Audit Documentation*, the interim auditing standard on audit documentation, referred to audit documentation as the property of the auditor. This was not included in the proposed standard because the Board did not believe ascribing property rights would have furthered this standard's purpose to enhance the quality of audit documentation.

Confidential Client Information

A72. SAS No. 96, *Audit Documentation*, also stated that, "the auditor has an ethical, and in some situations a legal, obligation to maintain the confidentiality of client information," and referenced Rule 301, *Confidential Client Information*, of the AICPA's Code of Professional Conduct. Again, the Board's proposed standard on audit documentation did not include this provision. In adopting certain interim standards and rules as of April 16, 2003, the Board did not adopt Rule 301 of the AICPA's Code of Professional Conduct. In this standard on audit documentation, the Board seeks neither to establish confidentiality standards nor to modify or detract from any existing applicable confidentiality requirements.

AUDITING AND RELATED PROFESSIONAL PRACTICE STANDARDS

Auditing Standard – Reporting on Whether a Previously Reported Material Weakness Continues to Exist

Applicability of Standard

1. This standard establishes requirements and provides direction that apply when an auditor is engaged to report on whether a previously reported material weakness in internal control over financial reporting (hereinafter referred to as a material weakness) continues to exist as of a date specified by management.

Note 1: In this context, *previously reported material weakness* means a material weakness that was described previously in an auditor's report issued pursuant to Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with an Audit of Financial Statements*.

Note 2: The date specified by management as the date that the previously reported material weakness no longer exists must be a date after the date of management's most recent annual assessment.

2. An auditor may conduct an engagement to report on whether a previously reported material weakness continues to exist if (1) the auditor has audited the company's financial statements and internal control over financial reporting in accordance with Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with an Audit of Financial Statements*, as of the date of the company's most recent annual assessment of internal control over financial reporting, or (2) the auditor has been engaged to perform an audit of the financial statements and internal control over financial reporting in accordance with Auditing Standard No. 2 in the current year and has a sufficient basis for performing this engagement. (See paragraph 26 of this standard for additional requirements that apply specifically to a successor auditor's application of this standard.)

Note: References in this standard to the company's most recent annual assessment of internal control over financial reporting apply to the company's most recent assessment of internal control over financial reporting overall, either as of the company's year-end or as of a more recent interim date, as audited by the auditor in accordance with Auditing Standard No. 2.

3. The auditor may report on more than one previously reported material weakness as part of a single engagement.

4. The engagement described by this standard is voluntary. The standards of the PCAOB do not require an auditor to undertake an engagement to report on whether a previously reported material weakness continues to exist. The auditor may audit the company's internal control over financial reporting in accordance with Auditing Standard No. 2 without ever performing an engagement in accordance with this standard.

Auditor's Objective in an Engagement to Report on Whether a Previously Reported Material Weakness Continues to Exist

5. The auditor's objective in an engagement to report on whether a previously reported material weakness continues to exist is to obtain reasonable assurance about whether the previously reported material weakness exists as of a date specified by management and to express an opinion thereon. The auditor's opinion relates to the existence of a specifically identified material weakness as of a specified date and does not relate to the effectiveness of the company's internal control over financial reporting overall.

6. To obtain reasonable assurance, the auditor should obtain and evaluate evidence about whether specified controls were designed and operated effectively as of the date specified by management and whether those controls satisfy the company's stated control objective.

Note: Obtaining and evaluating evidence about whether the specified controls are designed effectively without also obtaining evidence about whether those controls operated effectively would not result in the auditor obtaining reasonable assurance for the purpose of expressing an opinion on whether a material weakness continues to exist.

Conditions for Engagement Performance

7. The auditor may report on whether a previously reported material weakness continues to exist at a company only if all of the following conditions are met:

- a. Management accepts responsibility for the effectiveness of internal control over financial reporting;
- b. Management evaluates the effectiveness of the specific control(s) that it believes addresses the material weakness using the same control criteria that management used for its most recent annual assessment of internal control over financial reporting and management's stated control objective(s);
- c. Management asserts that the specific control(s) identified is effective in achieving the stated control objective;

- d. Management supports its assertion with sufficient evidence, including documentation; and
- e. Management presents a written report that will accompany the auditor's report that contains all the elements described in paragraph 48 of this standard.

8. If all the conditions in paragraph 7 of this standard are not met, the auditor is not permitted to complete the engagement to report on whether a previously reported material weakness continues to exist.

Framework and Definitions for Evaluation

9. The terms *internal control over financial reporting*, *control deficiency*, *significant deficiency*, and *material weakness* have the same meanings as the definitions of those terms in paragraphs 7 through 10, respectively, of Auditing Standard No. 2.

10. Paragraph 13 of Auditing Standard No. 2 states that management is required to base its annual assessment of the effectiveness of the company's internal control over financial reporting on a suitable, recognized control framework (also known as *control criteria*) and describes the characteristics that make a framework suitable for this purpose. For purposes of an engagement to report on whether a previously reported material weakness continues to exist, both management and the auditor must use both (1) the same control criteria used for the company's most recent annual assessment of internal control over financial reporting, and (2) the company's stated control objective(s) to evaluate whether a material weakness continues to exist.

Note: The performance and reporting requirements in Auditing Standard No. 2 and in this standard are based on the Committee of Sponsoring Organizations ("COSO") of the Treadway Commission's publication, *Internal Control – Integrated Framework*. Known as the COSO report, it provides a suitable and available framework for purposes of management's annual assessment of internal control over financial reporting. (More information about the COSO framework is included in paragraphs 14 and 15 of Auditing Standard No. 2, the COSO report, and AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*.)

11. A *control objective* provides a specific target against which to evaluate the effectiveness of controls. A control objective for internal control over financial reporting generally relates to a relevant financial statement assertion and states a criterion for evaluating whether the company's control procedures in a specific area provide

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

reasonable assurance that a misstatement to or omission in that relevant assertion is prevented or detected by controls on a timely basis.^{1/}

12. Management establishes control objectives that are tailored to the individual company. The process of tailoring control objectives to the individual company allows the control criteria used for management's annual assessment to be applied to the facts and circumstances in a reasonable and appropriate manner. Although control objectives are used most frequently to evaluate the effectiveness of control activities, the other components of internal control over financial reporting (*i.e.*, control environment, risk assessment, information and communication, and monitoring) also can be expressed in terms of control objectives.

13. In an audit of internal control over financial reporting, the auditor is required to identify the company's control objectives in each area and to identify the controls that satisfy each control objective to evaluate whether the company's internal control over financial reporting is designed effectively.^{2/}

^{1/} See paragraphs 68 to 70 of Auditing Standard No. 2 for additional information on relevant assertions.

^{2/} See paragraph 88 of Auditing Standard No. 2.

14. Table 1 includes examples of control objectives and their related assertions:

**Table 1
Examples of Control Objectives and Related Assertions**

Control Objectives	Assertions
Recorded sales of product X initiated on the company's Web site are real	Existence or occurrence
Product X warranty losses that are probable and can be reasonably estimated are recorded as of the company's quarterly financial statement period-ends	Completeness
Interest rate swaps are recorded at fair value	Valuation or allocation
The company has legal title to recorded product X inventory in the company's Dallas, TX warehouse	Rights and obligations
Pending litigation that is reasonably possible to result in a material loss is disclosed in the quarterly and annual financial statements	Presentation and disclosure

15. If a material weakness has previously been reported, a necessary control objective (or objectives) has not been achieved.

16. A *stated control objective* in the context of an engagement to report on whether a material weakness continues to exist is the specific control objective identified by management that, if achieved, would result in the material weakness no longer existing.

17. Because the stated control objective, for purposes of this engagement, provides management and the auditor with a specific target against which to evaluate whether the material weakness continues to exist, management and the auditor must be satisfied that, if the stated control objective were achieved, the material weakness would no longer exist.

Note: When a material weakness has a pervasive effect on the company's internal control over financial reporting, identifying the related control objectives that are not being achieved may be difficult because of the large number of control objectives affected. A material weakness related to an ineffective control environment would be an example of this circumstance. If management and the auditor have difficulty identifying *all* of the stated control objectives affected by a material weakness, the material weakness probably is not suitable for this engagement and should be addressed, instead, through the auditor's annual audit of internal control over financial reporting conducted under Auditing Standard No. 2.

Performing an Engagement to Report on Whether a Previously Reported Material Weakness Continues to Exist

18. In an engagement to report on whether a previously reported material weakness continues to exist, the auditor must obtain sufficient competent evidence about the design and operating effectiveness of specified controls that provide reasonable assurance that the company's stated control objective is achieved in the context of the control criteria (e.g., COSO).

Note 1: An individual material weakness may be associated with a single stated control objective or with more than one stated control objective, depending on the nature of the material weakness and the manner in which the company tailors its stated control objectives to its business.

Note 2: Depending on the nature of the company's business, its organization, its internal control over financial reporting, and the specific material weakness that is the subject of this engagement, the auditor may determine that he or she is not able to obtain a sufficient basis for reporting on whether a previously reported material weakness continues to exist without performing a complete audit of internal control over financial reporting in accordance with Auditing Standard No. 2.

Applying the Standards of the PCAOB

19. The auditor must adhere to the standards of the PCAOB in performing an engagement to report on whether a previously reported material weakness continues to exist. Adherence to the standards involves:

- a. Planning the engagement,
- b. Obtaining an understanding of internal control over financial reporting,

- c. Testing and evaluating whether a material weakness continues to exist, including using the work of others, and
- d. Forming an opinion on whether a previously reported material weakness continues to exist.

20. Even though some requirements of this standard are set forth in a manner that suggests a sequential process, auditing whether a previously reported material weakness continues to exist involves a process of gathering, updating, and analyzing information. Accordingly, the auditor may perform some of the procedures and evaluations described in this section of the standard concurrently.

21. The engagement to report on whether a previously reported material weakness continues to exist must be performed by a person or persons having adequate technical training and proficiency as an auditor. In all matters related to the assignment, an independence in mental attitude must be maintained. Due professional care must be exercised in the performance of the engagement and the preparation of the report. Paragraphs 30 through 36 of Auditing Standard No. 2 describe the application of these standards in the context of an internal control-related service.

22. This standard establishes the fieldwork and reporting standards applicable to an engagement to report on whether a previously reported material weakness continues to exist.

23. The concept of materiality, as discussed in paragraphs 22 and 23 of Auditing Standard No. 2, underlies the application of the general and fieldwork standards in an engagement to report on whether a previously reported material weakness continues to exist. Therefore, the auditor uses materiality at the financial-statement level, rather than at the individual account-balance level, in evaluating whether a material weakness exists. The auditor should assess materiality as of the date that management asserts that the previously reported material weakness no longer exists.

Planning the Engagement

24. The auditor should properly plan the engagement to report on whether a previously reported material weakness continues to exist and should properly supervise any assistants. When planning the engagement, the auditor should evaluate how the matters described in paragraph 39 of Auditing Standard No. 2 will affect the auditor's procedures.

Obtaining an Understanding of Internal Control over Financial Reporting

25. To perform this engagement, the auditor must have a sufficient knowledge of the company and its internal control over financial reporting. An auditor who has audited the company's internal control over financial reporting in accordance with Auditing

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

Standard No. 2 as of the date of the company's most recent annual assessment of internal control over financial reporting would be expected to have obtained a sufficient knowledge of the company and its internal control over financial reporting to perform this engagement.

Note: The second sentence of the paragraph above contemplates that the auditor's previous engagement under Auditing Standard No. 2 resulted in rendering an opinion. If an auditor previously engaged to perform an audit of internal control over financial reporting in accordance with Auditing Standard No. 2 has not yet rendered an opinion on the effectiveness of the company's internal control over financial reporting as of the company's most recent year-end or more recently, then that auditor should follow the requirements for a successor auditor in paragraphs 26a-b and 27. Additionally, if an auditor has previously performed an audit of internal control over financial reporting at the company and is now a successor auditor (because another auditor has subsequently performed an audit of internal control over financial reporting at the company in intervening years), the auditor should follow the requirements in paragraphs 26 and 27 for a successor auditor.

26. When a successor auditor^{3/} performs an engagement to report on whether a previously reported material weakness continues to exist and he or she has not yet completed an audit of internal control over financial reporting at the company, he or she must perform procedures to obtain sufficient knowledge of the company's business and its internal control over financial reporting to achieve the objective of the engagement, as described in paragraph 5 of this standard. A successor auditor who has not yet completed an audit of internal control over financial reporting at the company must perform the following procedures as part of obtaining sufficient knowledge of the company's business and its internal control over financial reporting:

- a. Comply with paragraphs 47 through 51 of Auditing Standard No. 2 regarding obtaining an understanding of internal control over financial reporting. The extent of understanding of internal control over financial reporting needed to satisfy these requirements in the context of an engagement to report on whether a previously reported material weakness continues to exist depends on the nature of the material weakness on which the auditor is reporting. The more pervasive the effects of the material weakness, the more extensive the understanding of internal control over financial reporting should be under these requirements. For example, if the material weakness affects company-level controls, a more extensive understanding of internal control over financial reporting will be

^{3/} The term *successor auditor* has the same meaning as the definition of that term in paragraph .02 of AU sec. 315, *Communications Between Predecessor and Successor Auditors*.

necessary than if the effects of the material weakness are isolated at the transaction level.

- b. Perform a walkthrough as described in paragraphs 79 through 82 of Auditing Standard No. 2 for all major classes of transactions that are directly affected by controls specifically identified by management as addressing the material weakness.

Note: Some controls have only an indirect effect on a major class of transactions, such as certain controls in the control environment or risk assessment components of internal control over financial reporting. The auditor need not perform a walkthrough of major classes of transactions that are affected only indirectly by the controls specifically identified by management as addressing the material weakness.

- c. In addition to the communication requirements described in AU sec. 315, *Communications Between Predecessor and Successor Auditors*, the successor auditor should make specific inquiries of the predecessor auditor. These inquiries should address the basis for the predecessor auditor's determination that a material weakness existed in the company's internal control over financial reporting and the predecessor auditor's awareness of any information bearing on the company's ability to successfully address that material weakness.

27. A successor auditor may determine that he or she needs to perform procedures in addition to those specified in paragraph 26 of this standard to obtain a sufficient knowledge of the company's business and its internal control over financial reporting. Depending on the nature of the company's business, its organization, its internal control over financial reporting, and the specific material weakness that is the subject of this engagement, a successor auditor may determine that he or she is not able to obtain a sufficient basis for reporting on whether a previously reported material weakness continues to exist without performing a complete audit of internal control over financial reporting in accordance with Auditing Standard No. 2.

Testing and Evaluating Whether a Material Weakness Continues to Exist

28. The auditor must obtain an understanding of and evaluate management's evidence supporting its assertion that the specified controls related to the material weakness are designed and operated effectively, that these controls achieve the company's stated control objective(s) consistent with the control criteria, and that the identified material weakness no longer exists. If the auditor determines that management has not supported its assertion with sufficient evidence, the auditor cannot complete the engagement to report on whether a previously reported material weakness

continues to exist, because one of the conditions for engagement completion described in paragraph 7 of this standard would not be met.

Note: Paragraphs 40 through 46 of Auditing Standard No. 2 apply to the auditor's evaluation of management's annual assessment of internal control over financial reporting and management's related documentation. The auditor may apply the relevant concepts described in that section to the evaluation of management's evidence supporting management's assertion that a previously reported material weakness no longer exists.

29. As a part of evaluating management's evidence supporting its assertion, the auditor should determine whether management has selected an appropriate date for its assertion. In making this determination, the auditor should take into consideration the following:

- a. Management's assertion that a previously reported material weakness no longer exists may be made as of any specified date that permits management to obtain sufficient evidence supporting its assertion.

Note: The auditor also should determine whether the specified date of management's assertion permits the auditor to obtain sufficient evidence supporting his or her opinion.

- b. Depending on the nature of the material weakness, the stated control objective, and the specified controls, the specified date of management's assertion may need to be after the completion of one or more period-end financial reporting processes.
- c. Controls that operate daily and on a continuous, or nearly continuous, basis generally permit the auditor to obtain sufficient evidence as to their operating effectiveness as of almost any date management might choose to specify in its report.
- d. Controls that operate over the company's period-end financial reporting process typically can be tested only in connection with a period-end.

30. The auditor should obtain evidence about the effectiveness of all controls specifically identified in management's assertion. The nature, timing, and extent of the testing that enables the auditor to obtain sufficient evidence supporting his or her opinion on whether a previously reported material weakness continues to exist will depend on both the nature of the controls specifically identified by management as meeting the company's stated control objectives and the date of management's assertion.

31. All controls that are necessary to achieve the stated control objective(s) should, therefore, be specifically identified and evaluated. The specified controls will necessarily include controls that have been modified or newly implemented and also may include existing controls that previously were deemed effective during management's most recent annual assessment of internal control over financial reporting. As part of testing and evaluating the design effectiveness of the specified controls, the auditor should determine whether the specified controls would meet the stated control objective(s) if they operated as designed. In making this evaluation, the auditor should apply paragraphs 88 through 91 of Auditing Standard No. 2.

32. Consistent with the direction in paragraph 92 of Auditing Standard No. 2, the auditor should evaluate the operating effectiveness of a specified control by determining whether the specified control operated as designed and whether the person performing the control possesses the necessary authority and qualifications to perform the control effectively. In determining the nature, timing, and extent of tests of controls, the auditor should apply paragraphs 93 through 102 and 105 through 107 of Auditing Standard No. 2.

33. The auditor should apply paragraph 98 of Auditing Standard No. 2 regarding an adequate period of time to determine the operating effectiveness of a control in the context of an engagement to report on whether a previously reported material weakness continues to exist. Paragraph 98 of Auditing Standard No. 2 states (in part):

The auditor must perform tests of controls over a period of time that is adequate to determine whether, as of the date specified in management's report, the controls necessary for achieving the objectives of the control criteria are operating effectively. The period of time over which the auditor performs tests of controls varies with the nature of the controls being tested and with the frequency with which specific controls operate and specific policies are applied.

For example, a transaction-based daily reconciliation generally would permit the auditor to obtain sufficient evidence as to its operating effectiveness in a shorter period of time than a pervasive, company-level control, such as any of those described in paragraphs 52 and 53 of Auditing Standard No. 2. Additionally, the auditor typically will be able to obtain sufficient evidence as to the operating effectiveness of controls over the company's period-end financial reporting process only by testing those controls in connection with a period-end.

34. The auditor should determine whether, based on the nature of the material weakness, performing substantive procedures to support recorded financial statement amounts or disclosures affected by the specifically identified controls is necessary to obtain sufficient evidence regarding the operating effectiveness of those controls. For example, a material weakness in the company's controls over the calculation of its bad debt reserve ordinarily would require that the auditor also perform substantive

procedures to obtain sufficient evidence supporting an opinion about whether the material weakness continues to exist as of a specified date. In this circumstance, in addition to testing the design and operating effectiveness of the controls specifically identified as achieving the company's stated control objective that its bad debt reserve is reasonably estimated and recorded, the auditor ordinarily would need to perform substantive procedures to determine that, as of that same specified date, the company's bad debt reserve was fairly stated in relation to the company's financial statements taken as a whole.

35. When the specified controls, stated control objectives, and material weakness affect multiple locations or business units of the company, the auditor may apply the relevant concepts in paragraphs B1 through B13 of Appendix B of Auditing Standard No. 2 to determine the locations or business units at which to perform procedures.

Using the Work of Others

36. The auditor should evaluate whether to use the work performed by others in an engagement to report on whether a previously reported material weakness continues to exist. To determine the extent to which the auditor may use the work of others to alter the nature, timing, or extent of the work the auditor otherwise would have performed, the auditor should apply paragraphs 109 through 115 and 117 through 125 of Auditing Standard No. 2.

37. The auditor's opinion relates to whether a material weakness no longer exists at the company because the stated control objective(s) is met. Therefore, if the auditor has been engaged to report on more than one material weakness or on more than one stated control objective, the auditor must evaluate whether he or she has obtained the principal evidence that the control objectives related to each of the material weaknesses identified in management's assertion are achieved. The auditor may, however, use the work of others to alter the nature, timing, or extent of the work he or she otherwise would have performed. For these purposes, the work of others includes relevant work performed by internal auditors, company personnel (in addition to internal auditors), and third parties working under the direction of management or the audit committee that provide information about the effectiveness of internal control over financial reporting.

38. Paragraph 122 of Auditing Standard No. 2 should be applied in the context of the engagement to report on whether a previously reported material weakness continues to exist. Paragraph 122 states, in part, "As the significance of the factors listed in paragraph 112 increases, the ability of the auditor to use the work of others decreases at the same time that the necessary level of competence and objectivity of those who perform the work increases." There may, therefore, be some circumstances in which the scope of the audit procedures to be performed in this engagement will be so limited that using the work of others will not provide any tangible benefit to the company or its auditor. Additionally, the auditor should perform any walkthroughs himself or herself because of the degree of judgment required in performing this work.

Note: The requirement described in paragraph 26b of this standard for the auditor to perform a walkthrough applies only to an auditor who did not complete an audit of internal control over financial reporting as of the company's most recent annual assessment. An auditor who has rendered an opinion on the effectiveness of the company's internal control over financial reporting in accordance with Auditing Standard No. 2 as of the company's most recent annual assessment is not required to perform a walkthrough as part of this engagement.

39. The following example illustrates how to apply this section on using the work of others to this engagement.

In this example, the company's previously reported material weakness relates to the company's failure to perform bank reconciliations at its 50 subsidiaries. The specified controls identified by the company are the timely preparation of complete and accurate reconciliations between the company's recorded cash balances and the company's cash balances as reported by its financial institution.

Although certain controls over bank reconciliations are centralized, the performance of the bank reconciliations themselves is not centralized because they occur at each individual operating unit. Further, each operating unit has, on average, three separate cash accounts. The cash accounts affected are not material individually but are material in the aggregate. Most of the controls over the preparation of bank reconciliations involve a low degree of judgment in evaluating their operating effectiveness, can be subjected to objective testing, and have a low potential for management override.

If these conditions describe the specified controls over the preparation of bank reconciliations, the auditor could determine that, based on the nature of the controls as described above, he or she could use the work of others to a moderate extent, provided that the degree of competence and objectivity of the individuals performing the tests is high. The auditor might perform tests of controls that are centralized at the holding company level himself or herself; perform testing at a limited number of locations himself or herself; test the work of others performed at a limited number of other locations; review the results of the work of others at all other locations tested; and determine that, qualitatively and quantitatively, principal evidence had been obtained.

On the other hand, if the company's previously reported material weakness related to the company's failure to perform a reconciliation of its only cash account, few controls and few operations of those controls would underlie management's assertion that the material weakness no longer exists. In this circumstance, it is unlikely that the auditor would be able to use a significant amount of the work of others because of the limited scope of the total amount of

work needed to test management's assertion and due to the requirement that the auditor obtain the principal evidence himself or herself.

Note: The examples provided in paragraph 126 of Auditing Standard No. 2 illustrate how to apply the requirements in Auditing Standard No. 2 regarding using the work of others in an audit of internal control over financial reporting. Because of the differences between the auditor obtaining the principal evidence supporting an opinion on the effectiveness of internal control over financial reporting overall and supporting an opinion on the much narrower subject of whether a specified material weakness in internal control over financial reporting continues to exist, the examples in Auditing Standard No. 2 may not illustrate the appropriate application of using the work of others in this narrower engagement. For instance, the examples in paragraph 126 of Auditing Standard No. 2 suggest that, for certain controls, the auditor could potentially use the work of others in its entirety. However, in most cases, the auditor could not solely use the work of others for a control specified in management's assertion regarding a material weakness no longer existing and, at the same time, obtain the principal evidence supporting his or her opinion. As another example, Auditing Standard No. 2 describes an example of appropriately alternating tests of controls. Alternating tests of controls is applicable only in the context of a recurring engagement, which is not the context for the auditor's reporting on whether a previously reported material weakness continues to exist.

Opinions, Based in Part, on the Work of Another Auditor

40. The auditor may apply the relevant concepts in AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, in an engagement to report on whether a previously reported material weakness continues to exist, with the following exception. If the auditor decides to serve as the principal auditor and to use the work and reports of another auditor as a basis, in part, for his or her opinion, the principal auditor must not divide responsibility for the engagement with the other auditor. Therefore, the principal auditor must not make reference to the other auditor in his or her report.

Forming an Opinion on Whether a Previously Reported Material Weakness Continues to Exist

41. When forming an opinion on whether a previously reported material weakness continues to exist, the auditor should evaluate all evidence obtained from all sources. This process should include an evaluation of the sufficiency of the evidence obtained by management and the results of the auditor's evaluation of the design and operating effectiveness of the specified controls.

42. Management may conclude that a previously reported material weakness no longer exists because it has been reduced to a significant deficiency. If management does not plan to correct the significant deficiency within a reasonable period of time, the auditor should evaluate whether the remaining significant deficiency could be indicative of a material weakness in internal control over financial reporting. Under paragraph 140 of Auditing Standard No. 2, a significant deficiency not corrected after some reasonable period of time is a strong indicator of a material weakness. Because the auditor is not required to provide an opinion under this voluntary engagement, the auditor could reasonably decline to provide an opinion under such circumstances.

43. The auditor may issue an opinion on whether a previously reported material weakness continues to exist only when there have been no restrictions on the scope of the auditor's work. Because of the scope of an engagement to report on whether a previously reported material weakness continues to exist, any limitations on the scope of the auditor's work require the auditor either to disclaim an opinion or to withdraw from the engagement. A qualified opinion is not permitted.

Note: As described in paragraph 51 of this standard, the auditor's opinion on whether a previously reported material weakness continues to exist may be expressed as "the material weakness exists" or "the material weakness no longer exists." Therefore, the provisions of this standard do not distinguish between an unqualified opinion and an adverse opinion and, instead, refer simply to "an opinion" or "the auditor's opinion."

Requirement for Written Representations

44. In an engagement to report on whether a previously reported material weakness continues to exist, the auditor should obtain written representations from management:
- a. Acknowledging management's responsibility for establishing and maintaining effective internal control over financial reporting;
 - b. Stating that management has evaluated the effectiveness of the specified controls using the specified control criteria and management's stated control objective(s);
 - c. Stating management's assertion that the specified controls are effective in achieving the stated control objective(s) as of a specified date;
 - d. Stating management's assertion that the identified material weakness no longer exists as of the same specified date;
 - e. Stating that management believes that its assertions are supported by sufficient evidence;

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS4**

- f. Describing any material fraud and any other fraud that, although not material, involves senior management or management or other employees who have a significant role in the company's internal control over financial reporting and that has occurred or come to management's attention since the date of management's most recent annual assessment of internal control over financial reporting; and
- g. Stating whether there were, subsequent to the date being reported on, any changes in internal control over financial reporting or other factors that might significantly affect the stated control objective(s) or indicate that the identified controls were not operating effectively as of, or subsequent to, the date specified in management's assertion.

45. The written representations should be signed by those members of management with overall responsibility for the company's internal control over financial reporting whom the auditor believes are responsible for and knowledgeable about, directly or through others in the organization, the matters covered by the representations. Such members of management ordinarily include the chief executive officer and chief financial officer or others with equivalent positions in the company.

46. The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the engagement. As discussed further in paragraph 43 of this standard, if there is a limitation on the scope of an engagement to report on whether a previously reported material weakness continues to exist, the auditor must either disclaim an opinion or withdraw from the engagement. Further, the auditor should evaluate the effects of management's refusal on his or her ability to rely on other representations of management, including, if applicable, representations obtained in an audit of the company's financial statements.

Documentation Requirements

47. The documentation requirements in Auditing Standard No. 3, *Audit Documentation*, are modified in the following respect as they apply to this engagement. Paragraph 14 of Auditing Standard No. 3 defines the *report release date* as the date the auditor grants permission to use the auditor's report in connection with the issuance of the company's financial statements. As described in paragraph 29 of this standard, management's assertion that a material weakness no longer exists may be made as of a date other than a period-end financial reporting date. Therefore, the auditor's release of a report on whether a previously reported material weakness continues to exist may not necessarily be associated with the issuance of financial statements of the company. Accordingly, in an engagement to report on whether a previously reported material weakness continues to exist, the report release date for purposes of applying Auditing Standard No. 3 is the date the auditor grants permission to use the auditor's report on whether a previously reported material weakness continues to exist.

***Reporting on Whether a Previously Reported Material Weakness
Continues to Exist***

Management's Report

48. As a condition for the auditor's performance of this voluntary engagement, management is required to present a written report that will accompany the auditor's report, as described in paragraph 7e of this standard. To satisfy this condition for the auditor's performance of this engagement, management's report should include:

- a. A statement of management's responsibility for establishing and maintaining effective internal control over financial reporting for the company;
- b. A statement identifying the control criteria used by management to conduct the required annual assessment of the effectiveness of the company's internal control over financial reporting;
- c. An identification of the material weakness that was identified as part of management's annual assessment;

Note: This report element should be modified in the case in which management's annual assessment did not identify the material weakness, but, rather, only the auditor's report on management's annual assessment identified the material weakness.

- d. An identification of the control objective(s) addressed by the specified controls and a statement that the specified controls achieve the stated control objective(s) as of a specified date; and
- e. A statement that the identified material weakness no longer exists as of the same specified date because the specified controls address the material weakness.

Auditor's Evaluation of Management's Report

49. With respect to management's report, the auditor should evaluate the following matters:

- a. Whether management has properly stated its responsibility for establishing and maintaining effective internal control over financial reporting;
- b. Whether the control criteria used by management to conduct the evaluation is suitable;

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS4

- c. Whether the material weakness, stated control objectives, and specified controls have been properly described; and
- d. Whether management's assertions, as of the date specified in management's report, are free of material misstatement.

50. If, based on the results of this evaluation, the auditor determines that management's report does not include the elements described in paragraph 48 of this standard, the conditions for engagement performance have not been met.

Auditor's Report

51. The auditor's report on whether a previously reported material weakness continues to exist must include the following elements:

- a. A title that includes the word *independent*;
- b. A statement that the auditor has previously audited and reported on management's annual assessment of internal control over financial reporting as of a specified date based on the control criteria, as well as a statement that the auditor's report identified a material weakness;

Note: This report element should be modified in cases in which a successor auditor's performance of this engagement is occurring before he or she has opined on the effectiveness of internal control over financial reporting overall in accordance with Auditing Standard No. 2. In this circumstance, the auditor's report should refer to the predecessor auditor's report on management's annual assessment and the predecessor auditor's identification of the material weakness.

- c. A description of the material weakness;
- d. An identification of management's assertion that the identified material weakness in internal control over financial reporting no longer exists;
- e. An identification of the management report that includes management's assertion, such as identifying the title of the report (if the report is titled);
- f. A statement that management is responsible for its assertion;
- g. An identification of the specific controls that management asserts address the material weakness;

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

Note: As discussed further in paragraph 31, all controls that are necessary to achieve the stated control objective should be identified.

- h. An identification of the company's stated control objective that is achieved by these controls;
- i. A statement that the auditor's responsibility is to express an opinion on whether the material weakness continues to exist as of the date of management's assertion based on his or her auditing procedures;
- j. A statement that the engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States);
- k. A statement that the standards of the Public Company Accounting Oversight Board require that the auditor plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist at the company;
- l. A statement that the engagement includes examining evidence supporting management's assertion and performing such other procedures the auditor considered necessary in the circumstances and that the auditor obtained an understanding of internal control over financial reporting as part of his or her previous audit of management's annual assessment of internal control over financial reporting and updated that understanding as it specifically relates to changes in internal control over financial reporting associated with the material weakness;

Note: This report element should be modified in cases in which a successor auditor's performance of this engagement is occurring before he or she has opined on the effectiveness of internal control over financial reporting overall in accordance with Auditing Standard No. 2. In this circumstance, the auditor's report should include a statement that the engagement includes obtaining an understanding of internal control over financial reporting, examining evidence supporting management's assertion, and performing such other procedures as the auditor considered necessary in the circumstances.

- m. A statement that the auditor believes the auditing procedures provide a reasonable basis for his or her opinion;
- n. The auditor's opinion on whether the identified material weakness exists (or no longer exists) as of the date of management's assertion;

- o. A paragraph that includes the following statements:
- That the auditor was not engaged to and did not conduct an audit of internal control over financial reporting as of the date of management's assertion, the objective of which would be the expression of an opinion on the effectiveness of internal control over financial reporting, and that the auditor does not express such an opinion, and
 - That the auditor has not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company as of any date after the date of management's annual assessment of the company's internal control over financial reporting, other than the controls specifically identified in the auditor's report, and that the auditor does not express an opinion that any other controls operated effectively after the date of management's annual assessment of the company's internal control over financial reporting.

Note: This report element statement should be modified in the case in which a successor auditor's performance of this engagement is occurring before he or she has opined on the effectiveness of internal control over financial reporting overall in accordance with Auditing Standard No. 2 to read as follows: That the auditor has not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company other than the controls specifically identified in the auditor's report and that the auditor does not express an opinion that any other controls operated effectively.

- p. A paragraph stating that, because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements and that projections of any evaluation of the effectiveness of specific controls or internal control over financial reporting overall to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate;
- q. The manual or printed signature of the auditor's firm;
- r. The city and state (or city and country, in the case of non-U.S. auditors) from which the auditor's report has been issued; and
- s. The date of the auditor's report.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS4**

52. Example A-1 in Appendix A is an illustrative auditor's report for an opinion that a material weakness no longer exists, expressed by an auditor who has previously reported on the company's internal control over financial reporting in accordance with Auditing Standard No. 2 as of the company's most recent year-end (herein after referred to as a continuing auditor). Example A-2 in Appendix A is an illustrative auditor's report for an opinion that a material weakness no longer exists expressed by a successor auditor.

53. As stated in paragraph 3 of this standard, the auditor may report on more than one previously reported material weakness as part of the same engagement. In this circumstance, the auditor should modify the report elements described in paragraph 51 of this standard accordingly.

54. *Report modifications.* The auditor should modify the standard report if any of the following conditions exist.

- a. Other material weaknesses that were reported previously by the company as part of the company's annual assessment of internal control are not addressed by the auditor's opinion. (See paragraph 56 of this standard.)
- b. A significant subsequent event has occurred since the date being reported on. (See paragraphs 57 and 58 of this standard.)
- c. Management's report on whether a material weakness continues to exist includes additional information. (See paragraphs 59 through 60 of this standard.)

55. As described further in paragraph 43 of this standard, the form of the auditor's report resulting from an engagement to report on whether a previously reported material weakness continues to exist may be an opinion on whether a material weakness continues to exist, or it may be in the form of a disclaimer of opinion. A qualified opinion is not permitted. Any limitations on the scope of the auditor's work preclude the expression of an opinion. In addition to these reporting alternatives, an auditor may elect not to report on whether a material weakness continues to exist and, instead, withdraw from the engagement.

56. *Other material weaknesses reported previously by the company as part of the company's annual assessment of internal control are not addressed by the auditor's opinion.* In the circumstance in which the company previously has reported more than one material weakness, the auditor may be engaged to report on whether any or all of the material weaknesses continue to exist. If the auditor reports on fewer than all of the previously reported material weaknesses, the auditor should include the following or similar language in the paragraph that states that the auditor was not engaged to perform an audit of internal control over financial reporting. When referring to his or her

previously issued report on management's annual assessment, the auditor should either attach that report or include information about where it can be publicly obtained.

Our report on management's annual assessment of XYZ Company's internal control over financial reporting, dated [*date of report*], [*attached or identify location of where the report is publicly available*] identified additional material weaknesses other than the one identified in this report. We are not reporting on those other material weaknesses and, accordingly, express no opinion regarding whether those material weaknesses continue to exist after [*date of management's annual assessment, e.g., December 31, 200X*]. [*Revise this wording and references or attachments appropriately for use in a successor auditor's report.*]

Example A-3 in Appendix A is an illustrative report issued by a continuing auditor reporting on only one material weakness when additional material weaknesses previously were reported.

57. *Subsequent events.* A change in internal control over financial reporting or other factors that might significantly affect the effectiveness of the identified controls or the achievement of the company's stated control objective might occur subsequent to the date of management's assertion but before the date of the auditor's report. Therefore, the auditor should inquire of management whether there was any such change or factors. As described in paragraph 44 of this standard, the auditor should obtain written representations from management regarding such matters. Additionally, to obtain information about whether such a change has occurred that might affect the effectiveness of the identified controls or the achievement of the company's stated control objective and, therefore, the auditor's report, the auditor should inquire about and examine, for this subsequent period, the following:

- Internal audit reports (or similar functions, such as loan review in a financial institution) relevant to the stated control objective or identified controls issued during the subsequent period;
- Independent auditor reports (if other than the auditor's) of significant deficiencies or material weaknesses relevant to the stated control objective or identified controls;
- Regulatory agency reports on the company's internal control over financial reporting relevant to the stated control objective or identified controls; and
- Information about the effectiveness of the company's internal control over financial reporting relevant to the stated control objective or identified controls obtained as a result of other engagements.

58. If the auditor obtains knowledge about subsequent events that he or she believes adversely affect the effectiveness of the identified controls or the achievement of the stated control objective as of the date specified in management's assertion, the auditor should follow the requirements in paragraph 61 regarding special considerations when a material weakness continues to exist. If the auditor is unable to determine the effect of the subsequent event on the effectiveness of the identified controls or the achievement of the stated control objective, the auditor should disclaim an opinion.

59. *Management's report includes additional information.* If management's report includes information in addition to the matters described in paragraph 48 of this standard, the auditor should disclaim an opinion on the additional information. For example, the auditor should use the following or similar language as the last paragraph of the report to disclaim an opinion on management's plans to implement new controls:

We do not express an opinion or any other form of assurance on management's statement referring to its plans to implement new controls by the end of the year.

60. If the auditor believes that management's additional information contains a material misstatement of fact, he or she should discuss the matter with management. If, after discussing the matter with management, the auditor concludes that a material misstatement of fact remains, the auditor should notify management and the audit committee, in writing, of the auditor's views concerning the information.

Note: If management makes the types of disclosures described in paragraph 59 outside its report on whether a previously reported material weakness continues to exist and includes them elsewhere within a document that contains management's and the auditor's reports on whether a previously reported material weakness continues to exist, the auditor would not need to disclaim an opinion, as described in paragraph 59. However, in that situation, the auditor's responsibilities are the same as those described in this paragraph if the auditor believes that the additional information contains a material misstatement of fact.

Special Considerations When a Previously Reported Material Weakness Continues to Exist

61. If the auditor determines that the previously reported material weakness continues to exist and the auditor reports on the results of the engagement, he or she must express an opinion that the material weakness exists as of the date specified by management.

62. As described in paragraph 55, the auditor is not required to issue a report as a result of this engagement. If the auditor does not issue a report in this circumstance, he or she must communicate, in writing, his or her conclusion that the material weakness continues to exist to the audit committee. Similarly, if the auditor identifies a material weakness during this engagement that has not been previously communicated to the

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS4**

audit committee in writing, the auditor must communicate that material weakness, in writing, to the audit committee.

63. Additionally, whenever the auditor concludes that a previously reported material weakness continues to exist, the auditor must consider that conclusion as part of his or her evaluation of management's quarterly disclosures about internal control over financial reporting, as required by paragraphs 202 through 206 of Auditing Standard No. 2.

64. For example, if the auditor were engaged to report on whether two separate material weaknesses continue to exist and concluded that one no longer exists and one continues to exist, the auditor's report could comprise either of the following: (1) a report that contained two opinions, one on the material weakness that the auditor concluded no longer exists and one opinion on the material weakness that the auditor concluded continues to exist, or (2) a report that contained only a single opinion on the material weakness that the auditor concluded no longer exists if the company modifies its assertion to address only the material weakness that the auditor concluded no longer exists. In the second circumstance, the auditor must communicate, in writing, his or her conclusion that a material weakness continues to exist to the audit committee and also should apply paragraph 56 of this standard regarding other material weaknesses reported previously that are not addressed by the auditor's opinion. Additionally, the auditor must consider that conclusion as part of his or her evaluation of management's quarterly disclosures about internal control over financial reporting, as required by paragraphs 202 through 206 of Auditing Standard No. 2.

Effective Date

65. This standard is effective February 6, 2006.

Appendix A – Illustrative Reports on Whether a Previously Reported Material Weakness Continues to Exist

Paragraphs 51 through 60 of this standard provide direction on the auditor's report on whether a previously reported material weakness continues to exist. The following examples illustrate the application of those paragraphs.

Example A-1—Illustrative Auditor's Report for a Continuing Auditor Expressing an Opinion that a Previously Reported Material Weakness No Longer Exists

Example A-2—Illustrative Auditor's Report for a Successor Auditor Expressing an Opinion that a Previously Reported Material Weakness No Longer Exists

Example A-3—Illustrative Auditor's Report for a Continuing Auditor Expressing an Opinion on Only One Previously Reported Material Weakness When Additional Material Weaknesses Previously Were Reported

Example A-1

ILLUSTRATIVE AUDITOR'S REPORT FOR A CONTINUING AUDITOR EXPRESSING AN OPINION THAT A PREVIOUSLY REPORTED MATERIAL WEAKNESS NO LONGER EXISTS

Report of Independent Registered Public Accounting Firm

We have previously audited and reported on management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. Our report, dated [*date of report*], identified the following material weakness in the Company's internal control over financial reporting:

[Describe material weakness]

We have audited management's assertion, included in the accompanying [*title of management's report*], that the material weakness in internal control over financial reporting identified above no longer exists as of [*date of management's assertion*] because the following control(s) addresses the material weakness:

[Describe control(s)]

Management has asserted that the control(s) identified above achieves the following stated control objective, which is consistent with the criteria established in [*identify control criteria used for management's annual assessment of internal control over financial reporting*]: [*state control objective addressed*]. Management also has asserted that it has tested the control(s) identified above and concluded that the control(s) was designed and operated effectively as of [*date of management's assertion*]. XYZ Company's management is responsible for its assertion. Our responsibility is to express an opinion on whether the identified material weakness continues to exist as of [*date of management's assertion*] based on our auditing procedures.

Our engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist at the company. Our engagement included examining evidence supporting management's assertion and performing such other procedures as we considered necessary in the circumstances. We obtained an understanding of the company's internal control over financial reporting as part of our previous audit of management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X and updated that understanding as it specifically relates to changes in internal control over financial

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS4**

reporting associated with the material weakness described above. We believe that our auditing procedures provide a reasonable basis for our opinion.

In our opinion, the material weakness described above no longer exists as of [*date of management's assertion*].

We were not engaged to and did not conduct an audit of internal control over financial reporting as of [*date of management's assertion*], the objective of which would be the expression of an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express such an opinion. This means that we have not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company as of any date after December 31, 200X, other than the control(s) specifically identified in this report. Accordingly, we do not express an opinion that any other controls operated effectively after December 31, 200X.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of specific controls or internal control over financial reporting overall to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Example A-2

ILLUSTRATIVE AUDITOR'S REPORT FOR A SUCCESSOR AUDITOR EXPRESSING AN OPINION THAT A PREVIOUSLY REPORTED MATERIAL WEAKNESS NO LONGER EXISTS

Report of Independent Registered Public Accounting Firm

We were engaged to report on whether a previously reported material weakness continues to exist at XYZ Company as of *[date of management's assertion]* and to audit management's next annual assessment of XYZ Company's internal control over financial reporting. Another auditor previously audited and reported on management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X based on *[Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."]*. The other auditor's report, dated *[date of report]*, identified the following material weakness in the Company's internal control over financial reporting:

[Describe material weakness]

We have audited management's assertion, included in the accompanying *[title of management's report]*, that the material weakness in internal control over financial reporting identified above no longer exists as of *[date of management's assertion]* because the following control(s) addresses the material weakness:

[Describe control(s)]

Management has asserted that the control(s) identified above achieves the following stated control objective, which is consistent with the criteria established in *[identify control criteria used for management's annual assessment of internal control over financial reporting]*: *[state control objective addressed]*. Management also has asserted that it has tested the control(s) identified above and concluded that the control(s) was designed and operated effectively as of *[date of management's assertion]*. XYZ Company's management is responsible for its assertion. Our responsibility is to express an opinion on whether the identified material weakness continues to exist as of *[date of management's assertion]* based on our auditing procedures.

Our engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist at the company. Our engagement included obtaining an understanding of internal control over financial reporting, examining evidence supporting management's assertion, and performing

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS4

such other procedures as we considered necessary in the circumstances. We believe that our auditing procedures provide a reasonable basis for our opinion.

In our opinion, the material weakness described above no longer exists as of [*date of management's assertion*].

We were not engaged to and did not conduct an audit of internal control over financial reporting as of [*date of management's assertion*], the objective of which would be the expression of an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express such an opinion. This means that we have not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company other than the control(s) specifically identified in this report. Accordingly, we do not express an opinion that any other controls operated effectively.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of specific controls or internal control over financial reporting overall to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Example A-3

ILLUSTRATIVE AUDITOR'S REPORT FOR A CONTINUING AUDITOR EXPRESSING AN OPINION ON ONLY ONE PREVIOUSLY REPORTED MATERIAL WEAKNESS WHEN ADDITIONAL MATERIAL WEAKNESSES PREVIOUSLY WERE REPORTED

Report of Independent Registered Public Accounting Firm

We have previously audited and reported on management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X based on [*Identify control criteria, for example, "criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. Our report, dated [*date of report*], identified the following material weakness in the Company's internal control over financial reporting:

[*Describe material weakness*]

We have audited management's assertion, included in the accompanying [*title of management's report*], that the material weakness in internal control over financial reporting identified above no longer exists as of [*date of management's assertion*] because the following control(s) addresses the material weakness:

[*Describe control(s)*]

Management has asserted that the control(s) identified above achieves the following stated control objective, which is consistent with the criteria established in [*identify control criteria used for management's annual assessment of internal control over financial reporting*]: [*state control objective addressed*]. Management also has asserted that it has tested the control(s) identified above and concluded that the control(s) was designed and operated effectively as of [*date of management's assertion*]. XYZ Company's management is responsible for its assertion. Our responsibility is to express an opinion on whether the identified material weakness continues to exist as of [*date of management's assertion*] based on our auditing procedures.

Our engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist at the company. Our engagement included examining evidence supporting management's assertion and performing such other procedures as we considered necessary in the circumstances. We obtained an understanding of the company's internal control over financial reporting as part of our previous audit of management's annual assessment of XYZ Company's internal control over financial reporting as of December 31, 200X and updated that understanding as it specifically relates to changes in internal control over financial

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS4**

reporting associated with the material weakness described above. We believe that our auditing procedures provide a reasonable basis for our opinion.

In our opinion, the material weakness described above no longer exists as of [*date of management's assertion*].

We were not engaged to and did not conduct an audit of internal control over financial reporting as of [*date of management's assertion*], the objective of which would be the expression of an opinion on the effectiveness of internal control over financial reporting. Accordingly, we do not express such an opinion. This means that we have not applied auditing procedures sufficient to reach conclusions about the effectiveness of any controls of the company as of any date after December 31, 200X, other than the control(s) specifically identified in this report. Accordingly, we do not express an opinion that any other controls operated effectively after December 31, 200X. Our report on management's annual assessment of XYZ Company's internal control over financial reporting, dated [*date of report*], [*attached or identify location of where the report is publicly available*] identified additional material weaknesses other than the one identified in this report. We are not reporting on those other material weaknesses and, accordingly, express no opinion regarding whether those material weaknesses continue to exist after [*date of management's annual assessment, e.g., December 31, 200X*].

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of specific controls or internal control over financial reporting overall to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

Introduction

B1. This appendix summarizes factors that the Public Company Accounting Oversight Board (the "Board") deemed significant in reaching the conclusions in the standard. This appendix includes reasons for accepting certain views and not accepting others.

Background

B2. Section 404 of the Sarbanes-Oxley Act of 2002 (the "Act") requires the management of public companies each year to file an assessment of the effectiveness of their companies' internal control over financial reporting. The company's independent auditor must attest to, and report on, management's assessment. Under the Securities and Exchange Commission's (the "SEC" or "Commission") implementing rules, company management may not conclude that internal control over financial reporting is effective if one or more material weaknesses exists.

B3. When a company reports a material weakness, investors may be left uncertain about the reliability of the company's financial reporting. Both companies and report users have recognized the importance of a mechanism for alerting investors that a previously disclosed material weakness no longer exists.^{1/} The federal securities laws provide part of that mechanism. Those laws require the company to disclose to investors any changes in internal control over financial reporting that occurred during the company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.^{2/} Therefore, investors will learn of material improvements, such as the remediation of a material weakness, on a timely basis through quarterly disclosures.^{3/}

B4. When a company determines that a material weakness has been remediated, it may determine that disclosure is sufficient. Some investors and companies, however, have called for the ability to bolster confidence in management's assertions about those

^{1/} The Board's Standing Advisory Group ("SAG") discussed possible auditor involvement with the elimination of a material weakness at its November 18, 2004, public meeting. The webcast of the November 18, 2004 SAG discussion and the related briefing paper on this topic, "Reporting on the Correction of a Material Weakness," are available on the Board's Web site at www.pcaobus.org.

^{2/} See Item 308(c) of Regulation S-K, 17 C.F.R. § 229.308(c).

^{3/} In addition, even if internal control over financial reporting is effective as of the end of a company's fiscal year, investors also could potentially learn if it deteriorates materially during the year through these quarterly disclosures.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

internal control improvements with the added assurance of the company's independent auditor.^{4/}

B5. The Board reviewed its existing auditing and attestation standards to determine whether adequate standards governing such an engagement already existed. The Board's interim attestation standards provide requirements for general attest engagements; however, the Board determined that these standards lack sufficient specificity for this purpose.^{5/} The Board, therefore, proposed an auditing standard that would be tailored narrowly to an engagement to report on whether a previously reported material weakness continues to exist.

B6. The Board received 30 comment letters on its proposal, primarily from auditor and investor groups as well as from two issuers. Those comments led to changes in the standard, intended to make the requirements of the standard clearer and more operational. This appendix summarizes significant views expressed in those comment letters and the Board's responses.

Voluntary Nature of Engagement

B7. The proposed standard explicitly stated that the engagement described by this standard is voluntary and that the standards of the PCAOB did not require an auditor to undertake this engagement when a material weakness was previously reported. In addition, the Board stressed the voluntary nature of this engagement at the public meeting proposing this standard.

^{4/} The Standing Advisory Group's November 18, 2004 discussion included this type of encouragement.

^{5/} See AT sec. 101, "Attest Engagement" of the Board's interim standards. Effective April 16, 2003, the PCAOB adopted, on an initial, transitional basis, five temporary interim standards rules (PCAOB Rules 3200T, 3300T, 3400T, 3500T, and 3600T) that refer to pre-existing professional standards of auditing, attestation, quality control, ethics, and independence (the "interim standards"). These rules were approved by the SEC on April 25, 2003. See SEC Release No. 33-8222. On December 17, 2003, the Board approved technical amendments to the interim standards rules indicating that, "when the Board adopts a new auditing and related professional practice standard that addresses a subject matter that also is addressed in the interim standards, the affected portion of the interim standards will be superseded or effectively amended. Accordingly, the Board approved adding the phrase 'to the extent not superseded or amended by the Board' to each of the interim standards rules." *Technical Amendments to Interim Standards Rules*, PCAOB Release No. 2003-26 (Dec. 17, 2003); Exchange Act Release No. 49624 (Apr. 28, 2004) (SEC Approval). The interim standards are available on the Board's Web site at www.pcaobus.org.

B8. The value and importance of the Board's standards providing the option of this type of auditor reporting on a material weakness was confirmed unanimously in the comment letters from investors and investor-related parties. Auditors were also supportive of the standard overall and its voluntary nature. Both of the issuers who commented indicated that they would be concerned if issuers become compelled to obtain such opinions. One of these commenters stressed that the disclosure requirements of management, coupled with enhanced criminal penalties, should provide investors with information regarding the continued existence or correction of a material weakness.

B9. The Board continues to believe that providing for this type of auditor reporting in its standards will serve the public interest. At the same time, the Board reaffirms that reporting on whether a material weakness continues to exist is a voluntary engagement and is not required by the standards of the PCAOB.

Form of the Auditor's Opinion

B10. The proposed standard called for the auditor to express a single opinion directly on the subject matter (i.e., the material weakness itself), rather than on management's assertion, as follows:

In our opinion, XYZ Company has eliminated the material weakness described above as of [*date of management's assertion*] because the stated control objective is met as of [*date of management's assertion*].

B11. Primarily auditors commented on the form of the opinion in the proposed standard and their comments reflected a wide spectrum of ideas. Some commenters expressed support for the auditor's report, including the form of the opinion as proposed. Other comments included a suggestion for two opinions, consistent with Auditing Standard No. 2—one on the subject matter (the elimination of the material weakness) and one on management's assertion. Other commenters suggested that just one opinion was sufficient, though these commenters were split regarding whether the one opinion should be on management's assertion or on the subject matter. Other commenters suggested that an opinion stating that the material weakness had been eliminated, without the phrase "because the stated control objective is met" would be a better alternative, while others asked the Board to consider an opinion stating that the identified controls were effective because the stated control objective was met, without stating that the material weakness had been eliminated.

B12. A number of commenters expressed concern with the phrasing "the material weakness has been eliminated," including the use of that phrase in the auditor's opinion and in the title of the proposed standard. These commenters believed that terminology such as "elimination" or "eliminated" might be too definite a term that might mislead report users into believing that there were no remaining deficiencies in the internal

control over financial reporting in the area related to the specified material weakness, even though control deficiencies of a lesser severity than a material weakness might persist.

B13. After considering these suggestions, the Board decided to retain a single opinion on the subject matter and to revise the opinion wording. The Board continues to believe that a single opinion expressed directly on the subject matter is the simplest and clearest form of communication related to this engagement. Further, the Board believes that an auditor's opinion directly on the subject matter (i.e., the material weakness itself) will best achieve the overarching objective of this engagement—to clearly communicate as of an interim date auditor assurance about whether a previously reported material weakness continues to exist.

B14. The Board agreed with commenters that use of the term "elimination" might increase the risk that a report user would misunderstand the assurance provided by an auditor's opinion on a previously reported material weakness. As a result, the Board changed the form of the opinion to "In our opinion, the material weakness described above no longer exists as of [date of management's assertion]" and the title of the standard to "Reporting on Whether a Previously Reported Material Weakness Continues to Exist." The text of the standard was modified throughout to delete references to "eliminated" or "elimination" and to reflect wording consistent with the revised opinion and title.

As-of Date of Report

B15. The proposed standard provided for significant flexibility by allowing the engagement to be undertaken at any time during the year, limited only by implications associated with the nature of the material weakness. In other words, the proposed standard did not require the engagement to be performed in conjunction with an audit or review of financial statements. Instead, the proposed standard required the auditor to determine whether management had selected an appropriate date for its assertion and specified several matters for the auditor to consider in making this determination.

B16. A number of auditors suggested that the engagement described by the proposed standard should be performed only as of quarterly financial reporting dates instead of as of any date during the year. These commenters believed that such a requirement would allow the auditor to integrate this work with the auditor's interim review procedures under AU sec. 722, *Interim Financial Information*, and provide a link between the auditor's report on the material weakness and management's quarterly disclosures of material changes in internal control. Commenters noted that many of the material weaknesses that have been disclosed to date are related to the period-end financial reporting process and that the auditor would therefore need to test controls in connection with a period-end to determine whether the material weakness continues to exist. Several commenters linked their suggestion that this engagement be performed

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

only as of a quarterly financial reporting date to the view that the standard's direction on performing substantive procedures as part of this engagement should be bolstered (see separate discussion on performance of substantive procedures beginning at paragraph B51). One commenter pointed out, however, that if this engagement could be conducted only in connection with a quarterly financial reporting date, special guidance for applying the standard to foreign filers would be necessary because foreign filers are not required to report quarterly in the same manner as domestic filers.

B17. The Board believes that the flexibility provided in the proposed standard regarding the timing of the engagement is an important and appropriate feature of the standard. Although the Board agrees with commenters' observations that many of the material weaknesses disclosed during the past year were related to the period-end financial reporting process, the Board determined that the existing provisions of the proposed standard address this circumstance. In determining whether management has selected an appropriate date for its assessment, the standard requires the auditor to consider that controls that operate over the company's period-end financial reporting process typically can be tested only in connection with a period-end.

B18. Moreover, some material weaknesses—such as those that involve transaction-based controls that operate daily—are well suited for a management assertion and an auditor opinion that the material weakness no longer exists as of almost any date. Restricting an auditor's reporting on whether a material weakness continues to exist to only quarterly financial reporting dates could impose unnecessary delay on a company seeking auditor assurance that this type of material weakness no longer exists. For example, assume that a calendar year-end company had previously disclosed a material weakness that was the type that would lend itself well to reporting that it no longer existed as of any date. Further, management could not yet assert that the material weakness no longer existed as of March 31, but believed that it could make the assertion as of a date in April. If the standard restricted auditor reporting to a quarterly financial reporting date, the auditor would have to wait until June 30 to be able to attest to whether the material weakness continued to exist (and, presumably, would not be able to issue his or her report until July, at the earliest). While management could, in this example, provide timely disclosure to investors that the material weakness no longer existed, the Board concluded that structuring the provisions of the standard to potentially result in this kind of delay in auditor assurance would not serve the public interest.

B19. In light of these considerations, the Board decided to retain the provisions of the proposed standard that would permit the auditor to report on whether a previously reported material weakness continues to exist as of any date.

B20. At least one auditor asked for clarification about whether a report issued pursuant to Auditing Standard No. 2 that identified a material weakness could be issued at the same time as a report pursuant to this standard indicating that the material weakness

no longer exists as of a later date. The degree of flexibility regarding the timing of this engagement would permit the company (depending on the company's ability to assert that a material weakness no longer exists and the auditor's ability to timely audit that assertion) to simultaneously distribute its annual reports and the management assertion and auditor report described in this standard. Consistent with this flexible approach, nothing in this standard or Auditing Standard No. 2 would preclude the auditor from issuing a single, combined report on the results of an audit of internal control over financial reporting pursuant to Auditing Standard No. 2 and the results of an engagement performed pursuant to this standard.

Applicability of the Standard to Material Weaknesses Not Previously Reported

B21. The proposed standard was structured to allow an auditor to report only on a previously reported material weakness. The proposed standard defined a previously reported material weakness as a material weakness that was previously described by an auditor's report issued pursuant to Auditing Standard No. 2. A material weakness initially identified *after* the company's annual assessment date could not, therefore, be the subject of an auditor's report under the proposed standard.

B22. Virtually all of the investors who submitted comment letters suggested that the standard should allow for auditor reporting on material weaknesses identified subsequent to the company's most recent annual assessment of internal control over financial reporting. Although some of these commenters expressed concern about the level of work that might be required of the auditor to thoroughly understand a material weakness not previously reported upon by an auditor, they did not believe that the standard should prohibit such reporting. One commenter stated that if a successor auditor could gain an understanding of a company's internal control sufficient to report on a material weakness that was identified and reported on by a predecessor auditor, an auditor should be able to gain the understanding necessary to report on a material weakness identified by management as of an interim date.

B23. The majority of the auditors who commented indicated strong opposition to allowing auditors to report in this engagement on material weaknesses not previously reported. These commenters suggested that the initial identification of a material weakness requires a level of understanding of the company's controls and the specific facts and circumstances surrounding the material weakness that can result only from a complete evaluation of the effectiveness of internal control over financial reporting. Additionally, at least one commenter expressed concern that the identification of a material weakness subsequent to the annual assessment is a strong indicator of a material change within the company's internal control over financial reporting. This commenter believed that in such a circumstance the auditor would not have sufficient knowledge of the current state of internal control over financial reporting to be able to consider the interaction and potential implications of the change on other controls. This commenter also believed that this situation would prevent the auditor, in most cases,

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS4**

from being able to determine whether the newly identified material weakness no longer exists.

B24. The Board decided to retain the approach described by the proposed standard. The Board believes that the issue of a newly identified material weakness being an indicator of a material change within a company's internal control over financial reporting is a valid concern. Although the change in internal control over financial reporting giving rise to any new material weakness may be confined specifically to the area in which the material weakness originally was identified, the change also could be more far-reaching. In such circumstances, the auditor may not be able to determine the effect of the change without performing a full audit of internal control over financial reporting.

B25. The Board also notes that there is an important distinction between material weaknesses previously identified in an auditor's report issued pursuant to Auditing Standard No. 2 and other newly identified material weaknesses. The primary purpose of the narrow engagement described by this standard is to establish a timely and reasonable mechanism that a company can use to remove any perceived "stain" upon its financial reporting due to an outstanding adverse audit opinion on internal control over financial reporting that identified a material weakness. In the case of a new material weakness that is identified and addressed by management as of an interim date, an adverse auditor opinion previously attesting to the material weakness would not exist and, therefore, the new material weakness would not be the subject of the same type of market focus.

B26. There is also a fundamental difference between the auditor reporting on a material weakness not previously reported and a successor auditor reporting on a material weakness that was reported in a predecessor auditor's opinion on internal control over financial reporting. The fundamental difference is the concept of material change described above. The successor auditor must obtain a sufficient understanding of the company's internal control over financial reporting to report on the existence of a material weakness that was previously reported. This successor auditor, however, has the benefit of knowing that the material weakness was identified in the context of an audit of the internal control over financial reporting as a whole and that the predecessor auditor should have adequately described the nature of the material weakness (particularly its pervasiveness and the extent of its effect on the company's financial reporting). In contrast, in situations in which a material change has taken place and a new material weakness has arisen after the previous annual assessment of internal control over financial reporting, neither the predecessor nor the successor auditor has obtained this level of understanding as it relates to the newly identified material weakness.

B27. These considerations, taken together, resulted in the Board's decision to retain the provisions of the proposed standard that limit this engagement only to material weaknesses that have been previously described in an auditor's report issued pursuant

to Auditing Standard No. 2. The Board also made changes to the standard, as suggested by one commenter, to make these provisions clearer. These changes included changing the title of the standard to "Reporting on Whether a Previously Reported Material Weakness Continues to Exist" as well as conforming changes to the text of the standard to refer explicitly to a *previously reported* material weakness as the subject matter of this engagement.

Focus on Control Objectives

B28. The proposed standard focused on stated control objectives to determine whether a material weakness continues to exist and posited that if a material weakness has been disclosed previously, a necessary control objective at the company has not been achieved. Because the term "stated control objective" was not precisely defined elsewhere in the Board's auditing standards, the proposed standard provided a definition as well as examples of stated control objectives.

B29. A *stated control objective* in the context of this engagement is the specific control objective identified by management that, if achieved, would result in the material weakness no longer existing. The stated control objective would provide management and the auditor with a specific target against which to evaluate whether the material weakness continues to exist. For this reason, the proposed standard required that management and the auditor be satisfied that if the stated control objective were achieved the material weakness would no longer exist.

B30. Comments on the proposed standard's focus on control objectives came primarily from auditors. Many auditors, either explicitly or implicitly, supported the focus on control objectives. One auditor suggested that, given the importance of control objectives, the proposed standard should explicitly state that documentation of control objectives is required.

B31. Several auditors, however, expressed concerns about the proposed standard's focus on control objectives. A couple of these commenters suggested that the proposed standard's emphasis on control objectives might inappropriately establish a framework for evaluating the effectiveness of internal control over financial reporting that differs from, or otherwise adversely affects the proper application of, the Committee of Sponsoring Organizations of the Treadway Commission's publication *Internal Control – Integrated Framework* ("COSO").

B32. Most concerned commenters expressed apprehension that report users might be misled by an auditor's opinion that a material weakness had been eliminated because the control objectives had been met. They believed that this type of opinion might lead report users to mistakenly believe that if the control objectives were met, there were no remaining deficiencies in the internal control over financial reporting in the area related

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

to the material weakness—when, in fact, a significant deficiency or deficiency could continue to exist.

B33. Another commenter noted that the examples in the proposed standard illustrated only control objectives for the control activities component of internal control over financial reporting—not for the other components (control environment, risk assessment, monitoring, information and communication). This commenter suggested that examples of control objectives in the other components would be helpful. Another commenter suggested that, given the importance of the control objective concept, if the Board's standards were to specifically address the concept, such a definition and discussion should reside in Auditing Standard No. 2. One concerned auditor concluded that, given the importance of control objectives, more guidance was needed, including clarification that if more than one control is necessary to achieve a stated control objective, all such controls must be identified and tested as part of this engagement.

B34. In response to comments, the Board decided to retain the definition of, and focus on, control objectives and provide additional guidance. The Board views the auditor's use of the concept of control objectives as analogous to the use of the concept of relevant assertions. The concept of relevant assertions was already familiar to experienced auditors and was specifically defined for the first time in Auditing Standard No. 2 because of that standard's focus on testing controls over all relevant assertions related to all significant accounts. Similarly, the concept of control objectives is familiar to most experienced auditors and is already used to describe the auditor's responsibilities under Auditing Standard No. 2).^{6/} A definition of control objectives (and stated control objectives) is provided in this standard because of the standard's focus on control objectives as a specific measure for determining whether a material weakness continues to exist. This is consistent with the Board's objective for its standards to be clear as well as the focus on control objectives in the engagement described by this standard.

^{6/} For example, paragraph 12 of Auditing Standard No. 2 states, "Therefore, effective internal control over financial reporting often includes a combination of preventive and detective controls to achieve a specific control objective." Paragraph 85 of Auditing Standard No. 2 elaborates on this idea, including the example that, when performing tests of preventive and detective controls, the auditor might conclude that a deficient preventive control could be compensated for by an effective detective control and, therefore, not result in a significant deficiency or material weakness. That paragraph concludes with the statement, "When determining whether the detective control is effective, the auditor should evaluate whether the detective control is sufficient to achieve the control objective to which the [deficient] preventive control relates." Perhaps most notably, paragraph 88 of Auditing Standard No. 2 requires the auditor to identify the company's control objectives in each area and identify the controls that satisfy each control objective to evaluate whether the company's internal control over financial reporting is designed effectively.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS4**

B35. The Board believes that the standard's focus on control objectives is sound and helpful and is an appropriate complement to the control criteria, such as COSO, for the purposes of this engagement. The process of tailoring control objectives to the individual company allows the control criteria (i.e., the evaluation framework) used for management's annual assessment to be applied to the facts and circumstances in a reasonable and appropriate manner. Accordingly, the emphasis in this standard on control objectives is consistent with, and supports a correct application of, COSO.

B36. The focus on whether the stated control objectives have been met as the target for determining whether a material weakness continues to exist does accommodate the circumstance in which a deficiency or significant deficiency continues to exist in that area of the company's internal control over financial reporting. Although several commenters linked this result with the focus on control objectives, this potential result would exist in any case within the overall construct of this standard, completely apart from the focus on control objectives. The potential for less severe deficiencies to persist in an area in which a previously reported material weakness no longer exists parallels the reporting results of an engagement performed under Auditing Standard No. 2. According to that standard, only material weaknesses (not less severe weaknesses) are disclosed in an auditor's report and only the existence of a material weakness and not less severe weaknesses affects the auditor's opinion on the effectiveness of the company's internal control over financial reporting. As an illustration, assume that a company that had previously reported a material weakness in internal control over financial reporting elected to wait until the auditor's next annual report issued pursuant to Auditing Standard No. 2 to obtain auditor assurance related to the existence of the material weakness. If the control weakness that had previously risen to the level of material weakness were reduced to a significant deficiency or deficiency as of the company's next year-end, the auditor's next report issued under Auditing Standard No. 2 would present an unqualified opinion indicating that the company's internal control over financial reporting was effective. The Board concluded that the users of an auditor's report on whether a previously reported material weakness continues to exist need only receive auditor assurance that the material weakness no longer exists and not more detailed information about whether less severe control deficiencies continue to persist.

B37. The Board notes, however, that paragraph 140 of Auditing Standard No. 2 states (in part) that strong indicators of a material weakness include circumstances in which significant deficiencies that have been communicated to management and the audit committee remain uncorrected after some reasonable period of time. If management does not plan to correct the significant deficiency within a reasonable period of time, the auditor should evaluate whether the remaining significant deficiency could be indicative of a material weakness in internal control over financial reporting. An auditor is not required to provide an opinion under this voluntary engagement, and could reasonably decline to provide an opinion under such circumstances.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

B38. In response to comments that report users will mistakenly believe that an auditor's report issued pursuant to the standard's provisions is communicating auditor assurance that no control deficiencies exist in the area related to the former material weakness, the Board decided that the change in the title of the standard and the form of the auditor's opinion (discussed further in paragraph B14), coupled with this discussion, would sufficiently mitigate any potential for report users to misunderstand the assurance being provided by an engagement conducted under the this standard. Removing the concept of control objectives from the standard would not address the potential for misunderstanding because this potential exists independently of the focus on control objectives.

B39. With regard to the recommendation that the standard provide additional examples of stated control objectives, including stated control objectives related to components of internal control over financial reporting other than control activities, the Board determined that the provisions of the standard should remain largely at the conceptual level and state that the other components of internal control over financial reporting can be expressed in terms of control objectives. The Board also determined to emphasize, in the note to paragraph 17 of the standard, that when a material weakness has a pervasive effect on the company's internal control over financial reporting, it may be difficult to identify all of the relevant control objectives and the material weakness probably is not suitable for this type of narrow, interim reporting.

B40. For the purposes of this engagement, a stated control objective need not be more precise than to describe an objective that relates to whether there is a more than remote risk that the company's financial statements are materially misstated in a given area. For instance, paragraph 14 of the standard includes the example control objective, "The company has legal title to recorded product X inventory in the company's Dallas, TX warehouse." This example assumes that the product X inventory account related to the company's Dallas, TX warehouse represents a more than remote risk of material misstatement to the company's financial statements taken as a whole and has been identified as a separate significant account. This example does not suggest that a company should establish separate control objectives for all of its various types of inventory, by inventory location, regardless of materiality.

B41. Although the Board believes that the proposed standard made clear that in performing this engagement, the auditor should identify and test all controls necessary to achieve the stated control objective, based on the importance of this concept and in response to commenters, the Board concluded that an explicit clarification should be added. Not only must newly implemented or modified controls be identified and tested in this engagement, but *all* controls necessary to achieve the stated control objective must be identified and tested. For example, in a circumstance in which four controls must operate effectively for a given control objective to be achieved, the failure of one of those controls could result in a material weakness. In the context of this engagement, all four controls necessary to achieve the stated control objective would need to be

specifically identified and tested. This must be the case because of the inherent limitations in internal control over financial reporting. If three of the four controls were found to be effective as of year-end, they cannot be assumed to be effective as of a later date. To render an opinion as of a current date about whether the material weakness exists, the auditor must have current evidence about whether all controls (in this example, all four controls) necessary to achieve the control objective are designed and operating effectively.

B42. Regarding the suggestion to include a requirement that control objectives be documented, the Board notes that neither COSO nor Auditing Standard No. 2 currently contain such a requirement. As with many aspects of assessing the effectiveness of internal control over financial reporting, the better the documentation, the easier and more efficient the evaluation, especially from the auditor's perspective. In the context of this engagement, by virtue of creating a stated control objective, the company and the auditor would document the stated control objective, even if that documentation appeared only in their respective reports. Therefore, documentation is effectively required for the stated control objectives encompassed by an engagement conducted under this standard. The Board does not believe, however, that establishing a broad requirement for documenting *all* control objectives related to a company's internal control over financial reporting is needed at this time or would be appropriately placed within this standard.

Concept of Materiality

B43. To provide direction on the concept of materiality, the proposed standard largely referred to Auditing Standard No. 2. The proposed standard stated that the concept of materiality, as discussed in paragraphs 22 and 23 of Auditing Standard No. 2, underlies the application of the general and fieldwork standards in an engagement to report on whether a previously reported material weakness continues to exist. Therefore, the auditor uses materiality at the financial-statement level, rather than at the individual account-balance level, in evaluating whether a material weakness exists.

B44. Several auditors commented that the proposed standard should provide additional direction on how the auditor considers materiality in performing this engagement. Commenters believed that clarification was necessary regarding the appropriate time context for management's and the auditor's materiality judgments. These commenters asked whether materiality should be assessed as of the date management asserts to be the date at which the material weakness no longer exists, or as of the end of the prior year when the material weakness was originally reported.

B45. Most commenters on this issue suggested that the date for assessing materiality should be the date management asserts to be the date at which the material weakness no longer exists. Commenters noted, however, that this position would allow a material weakness to no longer exist merely as a result of a business acquisition or disposition,

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

for example, because either of those actions would change materiality as of that point in time (and, in the case of a disposition, send the material weakness along with the disposed business).

B46. Several auditors suggested that the auditor's opinion should explicitly recognize the concept of materiality. Commenters suggested the following as alternatives that would recognize materiality: "Management's assertion that XYZ Company has eliminated the material weakness described above as of [*date of management's assertion*] is fairly stated, in all material respects . . ." and "XYZ Company has eliminated the material weakness with respect to the Company's internal control over financial reporting as described above as of [*date specified in management's assertion*], in all material respects." These commenters were concerned that the opinion described by the proposed standard misrepresented the precision of the auditor's assessment and neglected the notion of reasonable assurance.

B47. The Board decided that the provisions in the standard regarding materiality should be clarified to specify that materiality should be assessed as of the date management asserts that the material weakness no longer exists. The as-of date of management's assertion and the auditor's opinion is fundamental to the auditor's decisions about whether he or she has obtained sufficient evidence to support an opinion and to the auditor's evaluation of that evidence to form an opinion on whether the material weakness exists as of that point in time. The Board believes that the logical and internally consistent position regarding the time context for assessing materiality is to assess materiality as of the date that management asserts the material weakness no longer exists. The Board also believes that materiality can be assessed as of a date other than a financial reporting period-end. This is consistent with the Board's decision, discussed further beginning at paragraph B15, that the standard permit the auditor to report on whether a previously reported material weakness continues to exist as of any date.

B48. The Board also believes that auditors should exercise caution in circumstances in which the only aspect of a previously reported material weakness that has changed is materiality (in other words, the size of the financial statement accounts has changed due to an acquisition or other activity rather than any changes in the design or operation of controls). In many such cases, the company will have undergone significant changes, with an associated change in internal control over financial reporting overall. In this circumstance, the auditor would need to perform procedures beyond the scope of work ordinarily contemplated under this standard to have a sufficient basis for his or her new assessment of materiality and an adequate understanding of the company's internal control over financial reporting overall. The Board believes that, in many cases in which the company has undergone a change of this magnitude, the auditor would need to perform a full audit of internal control over financial reporting in accordance with Auditing Standard No. 2 to have a sufficient basis for assessing materiality, understanding the company's internal control over financial reporting overall, and

rendering an opinion about whether a material weakness continues to exist. Also, as discussed in paragraph B37, a previously reported material weakness may no longer exist because it has been reduced to a significant deficiency. In this circumstance, if management does not plan to correct the significant deficiency within a reasonable period of time, the auditor should evaluate whether the remaining significant deficiency could be indicative of a material weakness.

B49. Regarding the form of the auditor's opinion and concerns that the opinion suggested by the proposed standard implied an inappropriate degree of precision and neglected the concept of reasonable assurance, the Board concluded that the provisions of the proposed standard were sufficiently clear that the auditor's objective in this engagement was to plan and perform the engagement to obtain reasonable assurance about whether a previously reported material weakness continues to exist as of the date specified by management. Furthermore, the auditor's report described by the proposed standard included disclosure of this objective. The Board does not, therefore, believe that report users would mistakenly believe that the auditor's opinion, as proposed, would convey absolute assurance.

B50. In addition, the Board believes that including another reference to materiality in the auditor's opinion would not add anything of substance to the auditor's conclusion and could instead impair its readability. The determination of whether a material weakness exists is inherently linked to materiality. Stating that the material weakness no longer exists in all material respects would be redundant—the equivalent of saying that the financial statements are not materially misstated in all material respects. Accordingly, the Board has not added another reference to materiality in the auditor's opinion.

Performance of Substantive Procedures

B51. The proposed standard, consistent with its reliance on the existing provisions of Auditing Standard No. 2, focused largely on the tests of controls that the auditor must perform to obtain reasonable assurance that a material weakness no longer exists. The proposed standard additionally recognized that, in some cases, the auditor also would need to perform substantive procedures on account balances to obtain sufficient evidence as to whether a material weakness no longer exists.

B52. Several auditors believed that the proposed standard was too mild in its wording that the auditor "may determine" that performing substantive procedures was necessary. Those commenters believed that, to be consistent with the integrated audit concept of Auditing Standard No. 2 and to reflect the fact that identification of many material weaknesses during the past year occurred during the performance of substantive audit procedures, such wording did not adequately convey the importance of performing substantive procedures in an engagement to report on whether a previously reported material weakness continues to exist. Some commenters

recommended that the standard set forth a presumptively mandatory requirement for the auditor to perform substantive audit procedures in all cases, while others suggested that strengthening the language or providing additional guidance about when substantive procedures are necessary would be sufficient.

B53. The Board continues to believe that in some circumstances, substantive procedures will not be necessary for the auditor to obtain sufficient evidence about whether a material weakness continues to exist. Like many aspects of this standard, the auditor's judgment in this area will depend on the nature of the material weakness. An auditor can obtain sufficient evidence to support an opinion on whether some material weaknesses continue to exist without the need for substantive procedures. Other material weaknesses necessitate substantive procedures for the auditor to obtain sufficient evidence. Therefore, the Board determined that it would be inappropriate to establish a presumptively mandatory requirement that substantive procedures be performed in all cases.

B54. The Board agreed, however, that the proposed standard did not sufficiently stress the potential importance of performing substantive procedures, depending on the nature of the material weakness. Paragraph 34 of the standard has, therefore, been modified in a manner that the Board believes better articulates the potential need to perform substantive procedures. An example also has been added to this paragraph of the standard to illustrate a circumstance in which substantive procedures ordinarily would need to be performed.

Using the Work of Others

B55. Similar to PCAOB Auditing Standard No. 2, the proposed standard permitted the auditor to use the work of others to alter the nature, timing, and extent of the auditor's performance of this work. Specifically, the proposed standard applied the framework for using the work of others described in PCAOB Auditing Standard No. 2. That framework requires the auditor to obtain the principal evidence supporting his or her opinion and to evaluate the nature of the controls being tested, together with the competence and objectivity of the persons performing the work.

B56. Under both PCAOB Auditing Standard No. 2 and the proposed standard, the framework measures principal evidence in relation to the overall assurance provided by the auditor. In PCAOB Auditing Standard No. 2, the principal evidence supporting the auditor's opinion should be evaluated in relation to the auditor's opinion on internal control over financial reporting overall. In contrast, the evaluation of whether the auditor has obtained the principal evidence supporting his or her opinion as to whether a material weakness no longer exists would need to be applied at the control objective level.

B57. There were few comments on the provisions for using the work of others in this proposed standard. Most commenters who commented on these provisions expressed

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

confusion about a passage in the example of proposed paragraph 36, which stated that "the auditor *might* perform a walkthrough of the reconciliation process himself or herself [emphasis added]." Commenters believed that walkthroughs were required in the proposed standard in all cases and that walkthroughs must be conducted by the auditor himself or herself.

B58. One auditor suggested clarifying within the proposed standard that the auditor will be able to use the work of others only in limited circumstances. This same commenter also believed that the bank reconciliation example presented in the proposed standard to illustrate how the auditor could use the work of others in this type of engagement was too simplistic and requested additional, more realistic examples.

B59. The Board continues to believe that the framework for using the work of others that was established in Auditing Standard No. 2 is appropriate for use in this context and, therefore, the provisions for using the work of others in the standard have been retained as proposed. At the same time, the Board determined that it would be helpful to clarify, through the following discussion, that the evaluation of whether the auditor has obtained the principal evidence supporting his or her opinion on whether a material weakness continues to exist would need to be applied at the control objective level. A complete understanding of this feature of the standard is important because this provision allows for additional flexibility in the auditor's work.

B60. The auditor's opinion in this engagement is expressed only on whether the material weakness continues to exist—not on whether the individually identified controls are effective. As a result, the evaluation as to whether the auditor has obtained the principal evidence supporting his or her opinion should be made at the control objective level—not at the lower level of the controls individually identified in management's assertion and the auditor's report.

B61. If, for example, management's and the auditor's reports identify three separate previously reported material weaknesses that no longer exist, the auditor would, in effect, be rendering three separate opinions. Those opinions would indicate that each of the three individual material weaknesses continues to exist or no longer exists as of the date of management's assertion. The standard, therefore, would require the auditor to obtain the principal evidence that the *control objectives* related to each of the three identified material weaknesses were now achieved. However, the standard would not require that the auditor obtain the principal evidence that each *control specifically identified* in management's assertion as achieving the control objectives is effective.

B62. Auditing Standard No. 4 follows the same framework for using the work of others as Auditing Standard No. 2. There may, however, be some circumstances in which the scope of the audit procedures to be performed in this engagement will be so limited that using the work of others will not provide any tangible benefit to the company or its auditor. The Board believes that no additional specific restriction on the use of the work

of others is appropriate or necessary in the context of this engagement. Such a restriction would diminish the flexibility that the framework otherwise provides and perhaps inhibit the auditor's exercise of the judgment necessary to implement the framework appropriately. Furthermore, the Board does not believe that auditors need such direction within the standard to make appropriate decisions about using the work of others in this context.

B63. Similarly, the Board determined that no further examples of using the work of others were needed. The Board believes that additional examples demonstrating the application of the provisions in the standard for using the work of others to reflect more realistic (*i.e.*, complex, fact-driven) situations is better handled outside of the standard itself and by auditors—in their audit methodology, training courses, and other venues.

B64. In response to confusion about the requirement for walkthroughs, the Board clarified the standard by adding a note to paragraph 38 and deleted the reference to a walkthrough from the example on using the work of others. Walkthroughs are required only of a successor auditor when the successor auditor performs this engagement before performing an audit of internal control over financial reporting in accordance with Auditing Standard No. 2. A continuing auditor that has opined already on the company's internal control over financial reporting in accordance with Auditing Standard No. 2 as of the company's most recent annual assessment and is engaged to conduct this narrow engagement is not required to perform any walkthroughs as part of this engagement.

Dividing Responsibility

B65. Due to the narrow scope of an engagement to report on whether a material weakness continues to exist, the provisions of the proposed standard allowed the principal auditor to use the work and reports of another auditor as a basis, in part, for his or her opinion. The proposed standard also prohibited the principal auditor from dividing responsibility for the engagement with another auditor.

B66. Very few comments were received on this provision of the proposed standard. One auditor suggested that, although dividing responsibility may not be appropriate in certain circumstances, the standard should not prohibit it. Another auditor expressed confusion about whether the principal auditor could refer to the report of the other auditor but not divide responsibility with the other auditor.

B67. The Board continues to believe that, based on the nature of the engagement described by the standard, the principal auditor should be prohibited from dividing responsibility for the engagement with another auditor. The Board's consideration of the nature of this engagement included recognition of the narrow scope of the work (*i.e.*, whether a previously reported material weakness continues to exist), that the engagement would be voluntary, and that the assignment would be non-recurring (unlike the recurring nature of the audit of the financial statements or the audit of

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

internal control over financial reporting). The Board notes that three appropriate alternatives exist in the circumstance in which another auditor is involved and the company wants to obtain auditor assurance that a previously reported material weakness no longer exists:

- The principal auditor could report on whether a previously reported material weakness continues to exist according to this standard by performing all of the testing required for this engagement himself or herself.
- The principal auditor could report on whether a previously reported material weakness continues to exist according to this standard by using the work and reports of another auditor as a basis, in part, for his or her opinion, and by taking responsibility for the work performed by the other auditor. In this case, the auditor may not make reference to the other auditor in his or her report on whether a previously reported material weakness continues to exist.
- The company could wait until year-end when the principal auditor would report on the effectiveness of internal control over financial reporting overall under the provisions of Auditing Standard No. 2.

B68. The Board concluded that the standard was sufficiently clear that the principal auditor could not divide responsibility with another auditor and, therefore, that the auditor also could not refer to the other auditor in his or her report. Accordingly, no change has been made to the standard in this regard.

New Material Weaknesses Identified

B69. The proposed standard was silent regarding the auditor's responsibilities if, during the performance of this engagement, he or she became aware of a new material weakness not previously reported on by an auditor.

B70. Several commenters requested that the standard address the auditor's responsibilities for new material weaknesses identified during this engagement and suggested what these responsibilities should be. One investor suggested that the standard should require the auditor to include disclosure of any new material weaknesses of which the auditor was aware in his or her report. This commenter stated that, otherwise, the auditor's report would become a way of telling investors the good news while concealing the bad news. Another commenter suggested that management should be required to include the new material weakness in management's assertion that would accompany the auditor's report and the auditor should then disclaim an opinion on the new material weakness.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

B71. Both the identification of material weaknesses and the remediation of such weaknesses will be captured by management's voluntary and required reporting under the SEC's rules. Accordingly, the provisions of this standard do not facilitate management's ability to conceal from investors the emergence of a new material weakness at the company. Nevertheless, the Board agreed that when an auditor identifies a new material weakness during the performance of this engagement, the auditor should not simply remain silent. Accordingly, the Board modified the standard to require the auditor to communicate, in writing, to the audit committee any material weaknesses identified during this engagement that the auditor had not previously communicated, in writing, to the audit committee.

B72. The existing provisions of Auditing Standard No. 2 contain responsibilities for the auditor if (1) information comes to the auditor's attention during this engagement that leads him or her to believe, while performing quarterly procedures required by Auditing Standard No. 2, that management's quarterly disclosures are materially misleading, or (2) the auditor becomes aware of conditions that existed at the date of his or her last report issued under Auditing Standard No. 2.

B73. Paragraphs 202-206 of Auditing Standard No. 2 establish certain requirements for the auditor related to management's quarterly and annual certifications with respect to the company's internal control over financial reporting. If matters come to the auditor's attention during this engagement that lead him or her to believe, while fulfilling these quarterly requirements, that modification to the disclosures about changes in internal control over financial reporting is necessary for the certifications to be accurate and to comply with the requirements of Section 302 of the Act and the SEC's rules, these provisions of Auditing Standard No. 2 require the auditor to take action. Such actions escalate from auditor communications with management and then to the audit committee, culminating in the auditor considering his or her additional responsibilities under AU sec. 317, *Illegal Acts by Clients*, and Section 10A of the Securities Exchange Act of 1934.

B74. In addition, a continuing or predecessor auditor would have responsibilities under paragraph 197 of Auditing Standard No. 2 if the existence of a new material weakness came to the auditor's attention. This paragraph effectively extends the responsibilities in AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, to reports on the effectiveness of internal control over financial reporting issued pursuant to Auditing Standard No. 2. The identification of a new material weakness in the current year would cause the auditor, in fulfilling these responsibilities, to determine whether the facts relating to the material weakness existed at the date of the auditor's report pursuant to Auditing Standard No. 2 and, if so, (1) whether those facts would have changed the auditor's report issued under Auditing Standard No. 2 if he or she had been aware of them and (2) whether there are persons currently relying on or likely to rely on the auditor's report. If the auditor determined that the new material weakness identified in the current year actually existed as of the date of his or her previous report under Auditing Standard No. 2 and that it was not adequately identified and disclosed in

that report, the auditor would need to take steps such as recalling and reissuing the previous report to ensure that investors did not continue to rely on the previously issued (erroneous) report.

B75. Including newly identified material weaknesses in the auditor's report could potentially mislead investors into believing that the assurance provided by this type of engagement is broader than it actually is. If report users were provided with disclosure (covered by the auditor's opinion) of new material weaknesses of which the auditor was aware, report users might incorrectly believe that the auditor's report captured *all* new material weaknesses that had arisen at the company. Similarly, a requirement for the auditor to disclose any new material weaknesses could lead report users to conclude, incorrectly, that no such disclosure means that there is current auditor assurance over the whole of internal control over financial reporting at the company. The objective of this engagement is to provide auditor assurance about whether a previously reported material weakness continues to exist—nothing broader. The only way for investors to obtain a more complete report from the auditor would be for the auditor to audit internal control over financial reporting in accordance with Auditing Standard No. 2.

Specific Identification of All Previously Reported Material Weaknesses

B76. The proposed standard required the auditor to modify his or her report if the auditor provides assurance on less than all of the material weaknesses previously reported. The proposed standard did not, however, require the auditor to specifically identify all of the previously reported material weaknesses not covered.

B77. All investors who commented on this issue suggested that all material weaknesses previously reported either should be referred to or specifically included in the auditor's report. They indicated that failure to identify the additional material weaknesses might lead some users to erroneously conclude that they no longer exist. Auditors, on the other hand, agreed that complete specific identification of the previously reported material weaknesses not covered by the auditor's opinion should not be included, primarily because they believe that it may increase the risk of confusion about the scope of the engagement and what is being covered in the auditor's opinion. Several commenters who agreed that specific identification was not necessary suggested that in addition to the report modification included in the proposed standard, the auditor's report on this engagement should specifically direct the reader to the previous auditor's report (issued under Auditing Standard No. 2), by either attaching a copy of the audit report or by providing direction as to where the report could be obtained.

B78. The Board believes that including a complete specific identification of the previously reported material weaknesses not covered by this engagement would prove problematic. As noted by many commenters, it is possible that including this detail would confuse report readers regarding the scope of this narrow engagement and could imply that, unless told otherwise, a report user should assume that those other material

weaknesses *do* continue to exist. In some of the material weakness descriptions included in management's and the auditor's reports on the effectiveness of the company's internal control over financial reporting as of year-end, the description of multiple material weaknesses covered several pages. That level of detail in an auditor's report specifically targeted at whether just one material weakness continues to exist could easily overwhelm the rest of the audit report, making the report prone to various kinds of misinterpretations.

B79. The Board concluded that report readers would be better served by requiring the auditor to provide information regarding where to obtain the previously issued audit report—either by attaching it or referring to where it could be publicly obtained.

Other Reporting Matters

B80. *No Requirement to Issue a Report.* The proposed standard required that the auditor, if he or she concluded that the material weakness continues to exist, communicate that conclusion in writing to the audit committee. The proposed standard, however, did not require the issuance of a report. Rather, the proposed standard recognized that the auditor must consider this knowledge in connection with the auditor's responsibilities under Auditing Standard No. 2 to determine whether management's quarterly disclosures about internal control over financial reporting are not materially misleading.

B81. Several auditors who commented recommended that the proposed standard should require the auditor to issue an adverse report in the event that the auditor concludes that the material weakness continues to exist. One suggested that issuance of an adverse report would be necessary only if the auditor believed that the company had previously publicly disclosed that the material weakness had been addressed.

B82. The Board continues to believe that requiring the issuance of an adverse report to the company would serve no useful purpose in this circumstance because the company might not make such a report public. The Board believes, therefore, that requiring the auditor to communicate, in writing, with the audit committee his or her conclusion that a material weakness that was the subject of this engagement continues to exist would serve the same purpose as requiring the issuance of an adverse report. At the same time, such a requirement would provide the auditor with additional flexibility as to the form of communication that would be most meaningful to the audit committee. Regarding the potential for management to lead investors to incorrectly believe that the material weakness no longer exists in its public disclosures, the Board believes that the federal securities laws, as well as auditor's existing responsibilities related to management's quarterly disclosures, are adequate safeguards to protect investors from misleading information.

B83. *No Distinction in Standard Between Unqualified and Adverse Opinion.* As discussed in the note to paragraph 43 of the standard, the standard no longer

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

distinguishes between an unqualified and an adverse opinion. The auditor's opinion was revised to state that the material weakness exists or no longer exists. This revision is discussed further in the section "Form of Auditor's Opinion" and is now referred to in the standard as the auditor's opinion.

B84. *Inherent Limitations.* The inherent limitations paragraph of the auditor's report provided in the proposed standard discussed the inherent limitations of internal control over financial reporting overall, rather than the inherent limitations of the controls related to the material weakness being reported on.

B85. One commenter suggested that the inherent limitations paragraph was too broad for this engagement and needed to be modified to more accurately reflect the narrow focus of this type of engagement.

B86. The Board agreed that the inherent limitations paragraph, in this context, should be targeted to the specific controls identified in this auditor report. In addition, the Board continues to believe that the broader concept of inherent limitations in internal control over financial reporting overall is equally applicable. The inherent limitations paragraph in the auditor's report has been modified to reflect both of these conclusions.

B87. *Obtaining an Understanding of Internal Control Over Financial Reporting.* The proposed standard included a required report element stating that "the engagement includes obtaining an understanding of internal control over financial reporting, examining evidence supporting management's assertion, and performing such other procedures as the auditor considered necessary in the circumstances." This language also was included in the example report included in the proposed standard.

B88. Several auditors expressed concern that the phrase, "the engagement includes obtaining an understanding of internal control over financial reporting," implies that, as a part of the current engagement, the auditor spent a significant amount of time understanding internal control over financial reporting overall rather than carrying forward his or her understanding from the prior annual audit. These commenters believed this implication conflicted with the direction in the body of the proposed standard that an auditor who has audited the company's internal control over financial reporting within the past year in accordance with Auditing Standard No. 2 would be expected to have obtained a sufficient knowledge of the company and its internal control over financial reporting to perform this engagement. One commenter acknowledged that the proposed wording may be appropriate in cases in which a successor auditor is performing this engagement without previously gaining that understanding.

B89. The Board continues to believe that an auditor who has audited the company's internal control over financial reporting as of the company's most recent annual assessment in accordance with Auditing Standard No. 2 would be expected to have obtained a sufficient knowledge of the company and its internal control over financial

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

reporting to perform an engagement to report on whether a previously reported material weakness continues to exist. To require a continuing auditor to update and document his or her understanding of internal control over financial reporting overall (to the full measure required by Auditing Standard No. 2) would be unnecessarily burdensome and costly. The Board modified the report element for a continuing auditor to clarify that the auditor previously obtained an understanding of internal control over financial reporting overall at the company and updated that understanding as it specifically relates to changes in internal control over financial reporting associated with the specified material weakness.

B90. The Board continues to believe, however, that a successor auditor that has not yet audited the company's internal control over financial reporting in accordance with Auditing Standard No. 2 would need to obtain a current understanding of internal control over financial reporting in connection with this engagement. Therefore, the report element described in the proposed standard is appropriate and has been retained for a successor auditor's reporting.

B91. *Example Reports.* The proposed standard included only one example report, which illustrated reporting on one material weakness by a continuing auditor when no additional material weaknesses were reported previously. Several commenters requested modification of the standard to address circumstances that the Board believed were already addressed by the proposed standard but were not illustrated in the single example report. Some commenters also made specific requests for additional example reports.

B92. The Board determined, after considering the nature of the comments, that additional example reports, while not covering all possible situations, would provide additional clarity to the various reporting situations. The Board selected three reports to illustrate most facets of the reporting provisions of the standard. Appendix A includes those reports.

Conforming Amendments to AT sec. 101

B93. The proposed standard contained a proposed conforming amendment to AT sec. 101, *Attest Engagements*. The proposed conforming amendment would have required the proposed standard to be used, rather than AT sec. 101, for any engagements in which the subject matter is whether a material weakness continues to exist. This conforming amendment would have precluded the auditor from performing an agreed-upon procedures or review engagement (using AT sec. 101) when the subject matter of the engagement was whether a material weakness continues to exist.

B94. The Board received few comments related to the proposed conforming amendment. One auditor agreed that a conforming amendment to preclude a review-level attestation was appropriate when the subject matter was whether a material weakness continues to exist. This commenter went on to suggest, however, that there

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS4

could be appropriate uses for an agreed-upon procedures engagement and that the Board should not preclude agreed-upon procedures from being performed under the Board's standards. Such reports, the commenter noted, would be restricted to the use of the specified parties who take responsibility for the sufficiency of the agreed-upon procedures for their purposes and, therefore, these reports would not generally be available to investors. Thus, these reports would not be a substitute for the engagements addressed in the proposed standard. Another commenter separately suggested broadly retaining the ability for the auditor to perform a review engagement when the subject matter is a previously reported material weakness.

B95. The Board continues to believe that investors and other report users in the public domain will be best served by the Board's standards permitting only positive assurance (i.e., an examination-level attestation) from the auditor when the subject matter is whether a material weakness continues to exist. The Board agrees, however, that private parties (such as audit committees) who wish to engage the auditor to perform specified procedures when the subject matter is whether a material weakness continues to exist should be allowed to negotiate such a private arrangement, as long as the results are not intended for public use. The Board, therefore, decided to modify the conforming amendment to AT sec. 101 of the Board's interim standards. As adopted, an auditor may not use AT 101 to report on whether a material weakness in internal control over financial reporting continues to exist for any purpose other than the company's internal use.

Introduction

1. This standard establishes requirements and provides direction that applies when an auditor is engaged to perform an audit of **management's assessment**^{1/} of the effectiveness of **internal control over financial reporting** ("the audit of internal control over financial reporting") that is integrated with an audit of the financial statements.^{2/}
2. Effective internal control over financial reporting provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes.^{3/} If one or more **material weaknesses** exist, the company's internal control over financial reporting cannot be considered effective.^{4/}
3. The auditor's objective in an audit of internal control over financial reporting is to express an opinion on the effectiveness of the company's internal control over financial reporting. Because a company's internal control cannot be considered effective if one or more material weaknesses exist, to form a basis for expressing an opinion, the auditor must plan and perform the audit to obtain competent evidence that is sufficient to obtain reasonable assurance^{5/} about whether material weaknesses exist as of the date specified in management's assessment. A material weakness in internal control over financial reporting may exist even when financial statements are not materially misstated.

^{1/} Terms defined in Appendix A, *Definitions*, are set in **boldface type** the first time they appear.

^{2/} This auditing standard supersedes Auditing Standard No. 2, *An Audit of Internal Control Over Financial Reporting Performed in Conjunction with An Audit of Financial Statements*, and is the standard on attestation engagements referred to in Section 404(b) of the Act. It also is the standard referred to in Section 103(a)(2)(A)(iii) of the Act.

^{3/} See Securities Exchange Act Rules 13a-15(f) and 15d-15(f), 17 C.F.R. §§ 240.13a-15(f) and 240.15d-15(f); Paragraph A5.

^{4/} See Item 308 of Regulation S-K, 17 C.F.R. § 229.308.

^{5/} See AU sec. 230, *Due Professional Care in the Performance of Work*, for further discussion of the concept of reasonable assurance in an audit.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

4. The general standards^{6/} are applicable to an audit of internal control over financial reporting. Those standards require technical training and proficiency as an auditor, independence, and the exercise of due professional care, including professional skepticism. This standard establishes the fieldwork and reporting standards applicable to an audit of internal control over financial reporting.

5. The auditor should use the same suitable, recognized control framework to perform his or her audit of internal control over financial reporting as management uses for its annual evaluation of the effectiveness of the company's internal control over financial reporting.^{7/}

Integrating the Audits

6. The audit of internal control over financial reporting should be integrated with the audit of the financial statements. The objectives of the audits are not identical, however, and the auditor must plan and perform the work to achieve the objectives of both audits.

7. In an integrated audit of internal control over financial reporting and the financial statements, the auditor should design his or her testing of controls to accomplish the objectives of both audits simultaneously –

- To obtain sufficient evidence to support the auditor's opinion on internal control over financial reporting as of year-end, and
- To obtain sufficient evidence to support the auditor's control risk assessments for purposes of the audit of financial statements.

^{6/} See AU sec. 150, *Generally Accepted Auditing Standards*.

^{7/} See Securities Exchange Act Rules 13a-15(c) and 15d-15(c), 17 C.F.R. §§ 240.13a-15(c) and 240.15d-15(c). SEC rules require management to base its evaluation of the effectiveness of the company's internal control over financial reporting on a suitable, recognized control framework (also known as control criteria) established by a body or group that followed due-process procedures, including the broad distribution of the framework for public comment. For example, the report of the Committee of Sponsoring Organizations of the Treadway Commission (known as the COSO report) provides such a framework, as does the report published by the Financial Reporting Council, *Internal Control Revised Guidance for Directors on the Combined Code*, October 2005 (known as the Turnbull Report).

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

8. Obtaining sufficient evidence to support control risk assessments of low for purposes of the financial statement audit ordinarily allows the auditor to reduce the amount of audit work that otherwise would have been necessary to opine on the financial statements. (See Appendix B for additional direction on integration.)

Note: In some circumstances, particularly in some audits of smaller and less complex companies, the auditor might choose not to assess control risk as low for purposes of the audit of the financial statements. In such circumstances, the auditor's tests of the operating effectiveness of controls would be performed principally for the purpose of supporting his or her opinion on whether the company's internal control over financial reporting is effective as of year-end. The results of the auditor's financial statement auditing procedures also should inform his or her risk assessments in determining the testing necessary to conclude on the effectiveness of a control.

Planning the Audit

9. The auditor should properly plan the audit of internal control over financial reporting and properly supervise any assistants. When planning an integrated audit, the auditor should evaluate whether the following matters are important to the company's financial statements and internal control over financial reporting and, if so, how they will affect the auditor's procedures –

- Knowledge of the company's internal control over financial reporting obtained during other engagements performed by the auditor;
- Matters affecting the industry in which the company operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes;
- Matters relating to the company's business, including its organization, operating characteristics, and capital structure;
- The extent of recent changes, if any, in the company, its operations, or its internal control over financial reporting;
- The auditor's preliminary judgments about materiality, risk, and other factors relating to the determination of material weaknesses;

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

- Control deficiencies previously communicated to the audit committee^{8/} or management;
- Legal or regulatory matters of which the company is aware;
- The type and extent of available evidence related to the effectiveness of the company's internal control over financial reporting;
- Preliminary judgments about the effectiveness of internal control over financial reporting;
- Public information about the company relevant to the evaluation of the likelihood of material financial statement misstatements and the effectiveness of the company's internal control over financial reporting;
- Knowledge about risks related to the company evaluated as part of the auditor's client acceptance and retention evaluation; and
- The relative complexity of the company's operations.

Note: Many smaller companies have less complex operations. Additionally, some larger, complex companies may have less complex units or processes. Factors that might indicate less complex operations include: fewer business lines; less complex business processes and financial reporting systems; more centralized accounting functions; extensive involvement by senior management in the day-to-day activities of the business; and fewer levels of management, each with a wide span of control.

Role of Risk Assessment

10. Risk assessment underlies the entire audit process described by this standard, including the determination of **significant accounts and disclosures** and **relevant assertions**, the selection of controls to test, and the determination of the evidence necessary for a given control.

^{8/} If no audit committee exists, all references to the audit committee in this standard apply to the entire board of directors of the company. See 15 U.S.C. §§ 78c(a)58 and 7201(a)(3).

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

11. A direct relationship exists between the degree of risk that a material weakness could exist in a particular area of the company's internal control over financial reporting and the amount of audit attention that should be devoted to that area. In addition, the risk that a company's internal control over financial reporting will fail to prevent or detect misstatement caused by fraud usually is higher than the risk of failure to prevent or detect error. The auditor should focus more of his or her attention on the areas of highest risk. On the other hand, it is not necessary to test controls that, even if deficient, would not present a reasonable possibility of material misstatement to the financial statements.

12. The complexity of the organization, business unit, or process, will play an important role in the auditor's risk assessment and the determination of the necessary procedures.

Scaling the Audit

13. The size and complexity of the company, its business processes, and business units, may affect the way in which the company achieves many of its **control objectives**. The size and complexity of the company also might affect the risks of misstatement and the controls necessary to address those risks. Scaling is most effective as a natural extension of the risk-based approach and applicable to the audits of all companies. Accordingly, a smaller, less complex company, or even a larger, less complex company might achieve its control objectives differently than a more complex company.^{9/}

Addressing the Risk of Fraud

14. When planning and performing the audit of internal control over financial reporting, the auditor should take into account the results of his or her fraud risk assessment.^{10/} As part of identifying and testing entity-level controls, as discussed

^{9/} The SEC Advisory Committee on Smaller Public Companies considered a company's size with respect to compliance with the internal control reporting provisions of the Act. See Advisory Committee on Smaller Public Companies to the United States Securities and Exchange Commission, Final Report, at p. 5 (April 23, 2006).

^{10/} See paragraphs .19 through .42 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, regarding identifying risks that may result in material misstatement due to fraud.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

beginning at paragraph 22, and selecting other controls to test, as discussed beginning at paragraph 39, the auditor should evaluate whether the company's controls sufficiently address identified risks of material misstatement due to fraud and controls intended to address the risk of management override of other controls. Controls that might address these risks include –

- Controls over significant, unusual transactions, particularly those that result in late or unusual journal entries;
- Controls over journal entries and adjustments made in the period-end financial reporting process;
- Controls over related party transactions;
- Controls related to significant management estimates; and
- Controls that mitigate incentives for, and pressures on, management to falsify or inappropriately manage financial results.

15. If the auditor identifies deficiencies in controls designed to prevent or detect fraud during the audit of internal control over financial reporting, the auditor should take into account those deficiencies when developing his or her response to risks of material misstatement during the financial statement audit, as provided in AU sec. 316.44 and .45.

Using the Work of Others

16. The auditor should evaluate the extent to which he or she will use the work of others to reduce the work the auditor might otherwise perform himself or herself. AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, applies in an integrated audit of the financial statements and internal control over financial reporting.

17. For purposes of the audit of internal control, however, the auditor may use the work performed by, or receive direct assistance from, internal auditors, company personnel (in addition to internal auditors), and third parties working under the direction of management or the audit committee that provides evidence about the effectiveness of internal control over financial reporting. In an integrated audit of internal control over financial reporting and the financial statements, the auditor also may use this work to

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

obtain evidence supporting the auditor's assessment of control risk for purposes of the audit of the financial statements.

18. The auditor should assess the competence and objectivity of the persons whose work the auditor plans to use to determine the extent to which the auditor may use their work. The higher the degree of competence and objectivity, the greater use the auditor may make of the work. The auditor should apply paragraphs .09 through .11 of AU sec. 322 to assess the competence and objectivity of internal auditors. The auditor should apply the principles underlying those paragraphs to assess the competence and objectivity of persons other than internal auditors whose work the auditor plans to use.

Note: For purposes of using the work of others, competence means the attainment and maintenance of a level of understanding and knowledge that enables that person to perform ably the tasks assigned to them, and objectivity means the ability to perform those tasks impartially and with intellectual honesty. To assess competence, the auditor should evaluate factors about the person's qualifications and ability to perform the work the auditor plans to use. To assess objectivity, the auditor should evaluate whether factors are present that either inhibit or promote a person's ability to perform with the necessary degree of objectivity the work the auditor plans to use.

Note: The auditor should not use the work of persons who have a low degree of objectivity, regardless of their level of competence. Likewise, the auditor should not use the work of persons who have a low level of competence regardless of their degree of objectivity. Personnel whose core function is to serve as a testing or compliance authority at the company, such as internal auditors, normally are expected to have greater competence and objectivity in performing the type of work that will be useful to the auditor.

19. The extent to which the auditor may use the work of others in an audit of internal control also depends on the risk associated with the control being tested. As the risk associated with a control increases, the need for the auditor to perform his or her own work on the control increases.

Materiality

20. In planning the audit of internal control over financial reporting, the auditor should use the same materiality considerations he or she would use in planning the audit of the company's annual financial statements.^{11/}

Using a Top-Down Approach

21. The auditor should use a top-down approach to the audit of internal control over financial reporting to select the controls to test. A top-down approach begins at the financial statement level and with the auditor's understanding of the overall risks to internal control over financial reporting. The auditor then focuses on entity-level controls and works down to significant accounts and disclosures and their relevant assertions. This approach directs the auditor's attention to accounts, disclosures, and assertions that present a reasonable possibility of material misstatement to the **financial statements and related disclosures**. The auditor then verifies his or her understanding of the risks in the company's processes and selects for testing those controls that sufficiently address the assessed risk of misstatement to each relevant assertion.

Note: The top-down approach describes the auditor's sequential thought process in identifying risks and the controls to test, not necessarily the order in which the auditor will perform the auditing procedures.

Identifying Entity-Level Controls

22. The auditor must test those entity-level controls that are important to the auditor's conclusion about whether the company has effective internal control over financial reporting. The auditor's evaluation of entity-level controls can result in increasing or decreasing the testing that the auditor otherwise would have performed on other controls.

23. Entity-level controls vary in nature and precision –

- Some entity-level controls, such as certain control environment controls, have an important, but indirect, effect on the likelihood that a misstatement

^{11/} See AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, which provides additional explanation of materiality.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

will be detected or prevented on a timely basis. These controls might affect the other controls the auditor selects for testing and the nature, timing, and extent of procedures the auditor performs on other controls.

- Some entity-level controls monitor the effectiveness of other controls. Such controls might be designed to identify possible breakdowns in lower-level controls, but not at a level of precision that would, by themselves, sufficiently address the assessed risk that misstatements to a relevant assertion will be prevented or detected on a timely basis. These controls, when operating effectively, might allow the auditor to reduce the testing of other controls.
- Some entity-level controls might be designed to operate at a level of precision that would adequately prevent or detect on a timely basis misstatements to one or more relevant assertions. If an entity-level control sufficiently addresses the assessed risk of misstatement, the auditor need not test additional controls relating to that risk.

24. Entity-level controls include –

- Controls related to the control environment;
- Controls over management override;

Note: Controls over management override are important to effective internal control over financial reporting for all companies, and may be particularly important at smaller companies because of the increased involvement of senior management in performing controls and in the period-end financial reporting process. For smaller companies, the controls that address the risk of management override might be different from those at a larger company. For example, a smaller company might rely on more detailed oversight by the audit committee that focuses on the risk of management override.

- The company's risk assessment process;
- Centralized processing and controls, including shared service environments;

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

- Controls to monitor results of operations;
- Controls to monitor other controls, including activities of the internal audit function, the audit committee, and self-assessment programs;
- Controls over the period-end financial reporting process; and
- Policies that address significant business control and risk management practices.

25. *Control Environment.* Because of its importance to effective internal control over financial reporting, the auditor must evaluate the control environment at the company. As part of evaluating the control environment, the auditor should assess –

- Whether management's philosophy and operating style promote effective internal control over financial reporting;
- Whether sound integrity and ethical values, particularly of top management, are developed and understood; and
- Whether the Board or audit committee understands and exercises oversight responsibility over financial reporting and internal control.

26. *Period-end Financial Reporting Process.* Because of its importance to financial reporting and to the auditor's opinions on internal control over financial reporting and the financial statements, the auditor must evaluate the period-end financial reporting process. The period-end financial reporting process includes the following –

- Procedures used to enter transaction totals into the general ledger;
- Procedures related to the selection and application of accounting policies;
- Procedures used to initiate, authorize, record, and process journal entries in the general ledger;
- Procedures used to record recurring and nonrecurring adjustments to the annual and quarterly financial statements; and

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

- Procedures for preparing annual and quarterly financial statements and related disclosures.

Note: Because the annual period-end financial reporting process normally occurs after the "as-of" date of management's assessment, those controls usually cannot be tested until after the as-of date.

27. As part of evaluating the period-end financial reporting process, the auditor should assess –

- Inputs, procedures performed, and outputs of the processes the company uses to produce its annual and quarterly financial statements;
- The extent of information technology ("IT") involvement in the period-end financial reporting process;
- Who participates from management;
- The locations involved in the period-end financial reporting process;
- The types of adjusting and consolidating entries; and
- The nature and extent of the oversight of the process by management, the board of directors, and the audit committee.

Note: The auditor should obtain sufficient evidence of the effectiveness of those quarterly controls that are important to determining whether the company's controls sufficiently address the assessed risk of misstatement to each relevant assertion as of the date of management's assessment. However, the auditor is not required to obtain sufficient evidence for each quarter individually.

Identifying Significant Accounts and Disclosures and Their Relevant Assertions

28. The auditor should identify significant accounts and disclosures and their relevant assertions. Relevant assertions are those financial statement assertions that have a

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

reasonable possibility of containing a misstatement that would cause the financial statements to be materially misstated. The financial statement assertions include^{12/} –

- Existence or occurrence
- Completeness
- Valuation or allocation
- Rights and obligations
- Presentation and disclosure

Note: The auditor may base his or her work on assertions that differ from those in this standard if the auditor has selected and tested controls over the pertinent risks in each significant account and disclosure that have a reasonable possibility of containing misstatements that would cause the financial statements to be materially misstated.

29. To identify significant accounts and disclosures and their relevant assertions, the auditor should evaluate the qualitative and quantitative risk factors related to the financial statement line items and disclosures. Risk factors relevant to the identification of significant accounts and disclosures and their relevant assertions include –

- Size and composition of the account;
- Susceptibility to misstatement due to errors or fraud;
- Volume of activity, complexity, and homogeneity of the individual transactions processed through the account or reflected in the disclosure;
- Nature of the account or disclosure;
- Accounting and reporting complexities associated with the account or disclosure;

^{12/} See AU sec. 326, *Evidential Matter*, which provides additional information on financial statement assertions.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

- Exposure to losses in the account;
- Possibility of significant contingent liabilities arising from the activities reflected in the account or disclosure;
- Existence of related party transactions in the account; and
- Changes from the prior period in account or disclosure characteristics.

30. As part of identifying significant accounts and disclosures and their relevant assertions, the auditor also should determine the likely sources of potential misstatements that would cause the financial statements to be materially misstated. The auditor might determine the likely sources of potential misstatements by asking himself or herself "what could go wrong?" within a given significant account or disclosure.

31. The risk factors that the auditor should evaluate in the identification of significant accounts and disclosures and their relevant assertions are the same in the audit of internal control over financial reporting as in the audit of the financial statements; accordingly, significant accounts and disclosures and their relevant assertions are the same for both audits.

Note: In the financial statement audit, the auditor might perform substantive auditing procedures on financial statement accounts, disclosures and assertions that are not determined to be significant accounts and disclosures and relevant assertions.^{13/}

32. The components of a potential significant account or disclosure might be subject to significantly differing risks. If so, different controls might be necessary to adequately address those risks.

^{13/} This is because his or her assessment of the risk that undetected misstatement would cause the financial statements to be materially misstated is unacceptably high (see AU sec. 312.39 for further discussion about undetected misstatement) or as a means of introducing unpredictability in the procedures performed (see paragraph 61 and AU sec. 316.50 for further discussion about predictability of auditing procedures).

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

33. When a company has multiple locations or business units, the auditor should identify significant accounts and disclosures and their relevant assertions based on the consolidated financial statements. Having made those determinations, the auditor should then apply the direction in Appendix B for multiple locations scoping decisions.

Understanding Likely Sources of Misstatement

34. To further understand the likely sources of potential misstatements, and as a part of selecting the controls to test, the auditor should achieve the following objectives –

- Understand the flow of transactions related to the relevant assertions, including how these transactions are initiated, authorized, processed, and recorded;
- Verify that the auditor has identified the points within the company's processes at which a misstatement – including a misstatement due to fraud – could arise that, individually or in combination with other misstatements, would be material;
- Identify the controls that management has implemented to address these potential misstatements; and
- Identify the controls that management has implemented over the prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could result in a material misstatement of the financial statements.

35. Because of the degree of judgment required, the auditor should either perform the procedures that achieve the objectives in paragraph 34 himself or herself or supervise the work of others who provide direct assistance to the auditor, as described in AU sec. 322.

36. The auditor also should understand how IT affects the company's flow of transactions. The auditor should apply paragraphs .16 through .20, .30 through .32, and .77 through .79, of AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*, which discuss the effect of information technology on internal control over financial reporting and the risks to assess.

Note: The identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the top-down approach used to

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

identify significant accounts and disclosures and their relevant assertions, and the controls to test, as well as to assess risk and allocate audit effort as described by this standard.

37. *Performing Walkthroughs.* Performing walkthroughs will frequently be the most effective way of achieving the objectives in paragraph 34. In performing a walkthrough, the auditor follows a transaction from origination through the company's processes, including information systems, until it is reflected in the company's financial records, using the same documents and information technology that company personnel use. Walkthrough procedures usually include a combination of inquiry, observation, inspection of relevant documentation, and re-performance of controls.

38. In performing a walkthrough, at the points at which important processing procedures occur, the auditor questions the company's personnel about their understanding of what is required by the company's prescribed procedures and controls. These probing questions, combined with the other walkthrough procedures, allow the auditor to gain a sufficient understanding of the process and to be able to identify important points at which a necessary control is missing or not designed effectively. Additionally, probing questions that go beyond a narrow focus on the single transaction used as the basis for the walkthrough allow the auditor to gain an understanding of the different types of significant transactions handled by the process.

Selecting Controls to Test

39. The auditor should test those controls that are important to the auditor's conclusion about whether the company's controls sufficiently address the assessed risk of misstatement to each relevant assertion.

40. There might be more than one control that addresses the assessed risk of misstatement to a particular relevant assertion; conversely, one control might address the assessed risk of misstatement to more than one relevant assertion. It is neither necessary to test all controls related to a relevant assertion nor necessary to test redundant controls, unless redundancy is itself a control objective.

41. The decision as to whether a control should be selected for testing depends on which controls, individually or in combination, sufficiently address the assessed risk of misstatement to a given relevant assertion rather than on how the control is labeled (e.g., entity-level control, transaction-level control, control activity, monitoring control, **preventive control**, **detective control**).

Testing Controls

Testing Design Effectiveness

42. The auditor should test the design effectiveness of controls by determining whether the company's controls, if they are operated as prescribed by persons possessing the necessary authority and competence to perform the control effectively, satisfy the company's control objectives and can effectively prevent or detect errors or fraud that could result in material misstatements in the financial statements.

Note: A smaller, less complex company might achieve its control objectives in a different manner from a larger, more complex organization. For example, a smaller, less complex company might have fewer employees in the accounting function, limiting opportunities to segregate duties and leading the company to implement alternative controls to achieve its control objectives. In such circumstances, the auditor should evaluate whether those alternative controls are effective.

43. Procedures the auditor performs to test design effectiveness include a mix of inquiry of appropriate personnel, observation of the company's operations, and inspection of relevant documentation. Walkthroughs that include these procedures ordinarily are sufficient to evaluate design effectiveness.

Testing Operating Effectiveness

44. The auditor should test the operating effectiveness of a control by determining whether the control is operating as designed and whether the person performing the control possesses the necessary authority and competence to perform the control effectively.

Note: In some situations, particularly in smaller companies, a company might use a third party to provide assistance with certain financial reporting functions. When assessing the competence of personnel responsible for a company's financial reporting and associated controls, the auditor may take into account the combined competence of company personnel and other parties that assist with functions related to financial reporting.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

45. Procedures the auditor performs to test operating effectiveness include a mix of inquiry of appropriate personnel, observation of the company's operations, inspection of relevant documentation, and re-performance of the control.

Relationship of Risk to the Evidence to be Obtained

46. For each control selected for testing, the evidence necessary to persuade the auditor that the control is effective depends upon the risk associated with the control. The risk associated with a control consists of the risk that the control might not be effective and, if not effective, the risk that a material weakness would result. As the risk associated with the control being tested increases, the evidence that the auditor should obtain also increases.

Note: Although the auditor must obtain evidence about the effectiveness of controls for each relevant assertion, the auditor is not responsible for obtaining sufficient evidence to support an opinion about the effectiveness of each individual control. Rather, the auditor's objective is to express an opinion on the company's internal control over financial reporting overall. This allows the auditor to vary the evidence obtained regarding the effectiveness of individual controls selected for testing based on the risk associated with the individual control.

47. Factors that affect the risk associated with a control include –

- The nature and materiality of misstatements that the control is intended to prevent or detect;
- The inherent risk associated with the related account(s) and assertion(s);
- Whether there have been changes in the volume or nature of transactions that might adversely affect control design or operating effectiveness;
- Whether the account has a history of errors;
- The effectiveness of entity-level controls, especially controls that monitor other controls;
- The nature of the control and the frequency with which it operates;

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

- The degree to which the control relies on the effectiveness of other controls (e.g., the control environment or information technology general controls);
- The competence of the personnel who perform the control or monitor its performance and whether there have been changes in key personnel who perform the control or monitor its performance;
- Whether the control relies on performance by an individual or is automated (i.e., an automated control would generally be expected to be lower risk if relevant information technology general controls are effective); and

Note: A less complex company or business unit with simple business processes and centralized accounting operations might have relatively simple information systems that make greater use of off-the-shelf packaged software without modification. In the areas in which off-the-shelf software is used, the auditor's testing of information technology controls might focus on the application controls built into the pre-packaged software that management relies on to achieve its control objectives and the IT general controls that are important to the effective operation of those application controls.

- The complexity of the control and the significance of the judgments that must be made in connection with its operation.

Note: Generally, a conclusion that a control is not operating effectively can be supported by less evidence than is necessary to support a conclusion that a control is operating effectively.

48. When the auditor identifies deviations from the company's controls, he or she should determine the effect of the deviations on his or her assessment of the risk associated with the control being tested and the evidence to be obtained, as well as on the operating effectiveness of the control.

Note: Because effective internal control over financial reporting cannot, and does not, provide absolute assurance of achieving the company's control objectives, an individual control does not necessarily have to operate without any deviation to be considered effective.

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5

49. The evidence provided by the auditor's tests of the effectiveness of controls depends upon the mix of the nature, timing, and extent of the auditor's procedures. Further, for an individual control, different combinations of the nature, timing, and extent of testing may provide sufficient evidence in relation to the risk associated with the control.

Note: Walkthroughs usually consist of a combination of inquiry of appropriate personnel, observation of the company's operations, inspection of relevant documentation, and re-performance of the control and might provide sufficient evidence of operating effectiveness, depending on the risk associated with the control being tested, the specific procedures performed as part of the walkthrough and the results of those procedures.

50. *Nature of Tests of Controls.* Some types of tests, by their nature, produce greater evidence of the effectiveness of controls than other tests. The following tests that the auditor might perform are presented in order of the evidence that they ordinarily would produce, from least to most: inquiry, observation, inspection of relevant documentation, and re-performance of a control.

Note: Inquiry alone does not provide sufficient evidence to support a conclusion about the effectiveness of a control.

51. The nature of the tests of effectiveness that will provide competent evidence depends, to a large degree, on the nature of the control to be tested, including whether the operation of the control results in documentary evidence of its operation. Documentary evidence of the operation of some controls, such as management's philosophy and operating style, might not exist.

Note: A smaller, less complex company or unit might have less formal documentation regarding the operation of its controls. In those situations, testing controls through inquiry combined with other procedures, such as observation of activities, inspection of less formal documentation, or re-performance of certain controls, might provide sufficient evidence about whether the control is effective.

52. *Timing of Tests of Controls.* Testing controls over a greater period of time provides more evidence of the effectiveness of controls than testing over a shorter period of time. Further, testing performed closer to the date of management's assessment provides more evidence than testing performed earlier in the year. The auditor should balance performing the tests of controls closer to the as-of date with the

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

need to test controls over a sufficient period of time to obtain sufficient evidence of operating effectiveness.

53. Prior to the date specified in management's assessment, management might implement changes to the company's controls to make them more effective or efficient or to address control deficiencies. If the auditor determines that the new controls achieve the related objectives of the control criteria and have been in effect for a sufficient period to permit the auditor to assess their design and operating effectiveness by performing tests of controls, he or she will not need to test the design and operating effectiveness of the superseded controls for purposes of expressing an opinion on internal control over financial reporting. If the operating effectiveness of the superseded controls is important to the auditor's control risk assessment, the auditor should test the design and operating effectiveness of those superseded controls, as appropriate. (See additional direction on integration beginning at paragraph B1.)

54. *Extent of Tests of Controls.* The more extensively a control is tested, the greater the evidence obtained from that test.

55. *Roll-Forward Procedures.* When the auditor reports on the effectiveness of controls as of a specific date and obtains evidence about the operating effectiveness of controls at an interim date, he or she should determine what additional evidence concerning the operation of the controls for the remaining period is necessary.

56. The additional evidence that is necessary to update the results of testing from an interim date to the company's year-end depends on the following factors –

- The specific control tested prior to the as-of date, including the risks associated with the control and the nature of the control, and the results of those tests;
- The sufficiency of the evidence of effectiveness obtained at an interim date;
- The length of the remaining period; and
- The possibility that there have been any significant changes in internal control over financial reporting subsequent to the interim date.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

Note: In some circumstances, such as when evaluation of the foregoing factors indicates a low risk that the controls are no longer effective during the roll-forward period, inquiry alone might be sufficient as a roll-forward procedure.

Special Considerations for Subsequent Years' Audits

57. In subsequent years' audits, the auditor should incorporate knowledge obtained during past audits he or she performed of the company's internal control over financial reporting into the decision-making process for determining the nature, timing, and extent of testing necessary. This decision-making process is described in paragraphs 46 through 56.

58. Factors that affect the risk associated with a control in subsequent years' audits include those in paragraph 47 and the following –

- The nature, timing, and extent of procedures performed in previous audits,
- The results of the previous years' testing of the control, and
- Whether there have been changes in the control or the process in which it operates since the previous audit.

59. After taking into account the risk factors identified in paragraphs 47 and 58, the additional information available in subsequent years' audits might permit the auditor to assess the risk as lower than in the initial year. This, in turn, might permit the auditor to reduce testing in subsequent years.

60. The auditor may also use a benchmarking strategy for automated application controls in subsequent years' audits. Benchmarking is described further beginning at paragraph B28.

61. In addition, the auditor should vary the nature, timing, and extent of testing of controls from year to year to introduce unpredictability into the testing and respond to changes in circumstances. For this reason, each year the auditor might test controls at a different interim period, increase or reduce the number and types of tests performed, or change the combination of procedures used.

Evaluating Identified Deficiencies

62. The auditor must evaluate the severity of each control **deficiency** that comes to his or her attention to determine whether the deficiencies, individually or in combination, are material weaknesses as of the date of management's assessment. In planning and performing the audit, however, the auditor is not required to search for deficiencies that, individually or in combination, are less severe than a material weakness.

63. The severity of a deficiency depends on –

- Whether there is a reasonable possibility that the company's controls will fail to prevent or detect a misstatement of an account balance or disclosure; and
- The magnitude of the potential misstatement resulting from the deficiency or deficiencies.

64. The severity of a deficiency does not depend on whether a misstatement actually has occurred but rather on whether there is a reasonable possibility that the company's controls will fail to prevent or detect a misstatement.

65. Risk factors affect whether there is a reasonable possibility that a deficiency, or a combination of deficiencies, will result in a misstatement of an account balance or disclosure. The factors include, but are not limited to, the following –

- The nature of the financial statement accounts, disclosures, and assertions involved;
- The susceptibility of the related asset or liability to loss or fraud;
- The subjectivity, complexity, or extent of judgment required to determine the amount involved;
- The interaction or relationship of the control with other controls, including whether they are interdependent or redundant;
- The interaction of the deficiencies; and
- The possible future consequences of the deficiency.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

Note: The evaluation of whether a control deficiency presents a reasonable possibility of misstatement can be made without quantifying the probability of occurrence as a specific percentage or range.

Note: Multiple control deficiencies that affect the same financial statement account balance or disclosure increase the likelihood of misstatement and may, in combination, constitute a material weakness, even though such deficiencies may individually be less severe. Therefore, the auditor should determine whether individual control deficiencies that affect the same significant account or disclosure, relevant assertion, or component of internal control collectively result in a material weakness.

66. Factors that affect the magnitude of the misstatement that might result from a deficiency or deficiencies in controls include, but are not limited to, the following –

- The financial statement amounts or total of transactions exposed to the deficiency; and
- The volume of activity in the account balance or class of transactions exposed to the deficiency that has occurred in the current period or that is expected in future periods.

67. In evaluating the magnitude of the potential misstatement, the maximum amount that an account balance or total of transactions can be overstated is generally the recorded amount, while understatements could be larger. Also, in many cases, the probability of a small misstatement will be greater than the probability of a large misstatement.

68. The auditor should evaluate the effect of compensating controls when determining whether a control deficiency or combination of deficiencies is a material weakness. To have a mitigating effect, the compensating control should operate at a level of precision that would prevent or detect a misstatement that could be material.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

Indicators of Material Weaknesses

69. Indicators of material weaknesses in internal control over financial reporting include –

- Identification of fraud, whether or not material, on the part of senior management;^{14/}
- Restatement of previously issued financial statements to reflect the correction of a material misstatement;^{15/}
- Identification by the auditor of a material misstatement of financial statements in the current period in circumstances that indicate that the misstatement would not have been detected by the company's internal control over financial reporting; and
- Ineffective oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee.

70. When evaluating the severity of a deficiency, or combination of deficiencies, the auditor also should determine the level of detail and degree of assurance that would satisfy prudent officials in the conduct of their own affairs that they have reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in conformity with generally accepted accounting principles. If the auditor determines that a deficiency, or combination of deficiencies, might prevent prudent officials in the conduct of their own affairs from concluding that they have reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in conformity with generally accepted accounting principles, then the auditor should treat the deficiency, or combination of deficiencies, as an indicator of a material weakness.

^{14/} For the purpose of this indicator, the term "senior management" includes the principal executive and financial officers signing the company's certifications as required under Section 302 of the Act as well as any other members of senior management who play a significant role in the company's financial reporting process.

^{15/} See Financial Accounting Standards Board Statement No. 154, *Accounting Changes and Error Corrections*, regarding the correction of a misstatement.

Wrapping-Up

Forming an Opinion

71. The auditor should form an opinion on the effectiveness of internal control over financial reporting by evaluating evidence obtained from all sources, including the auditor's testing of controls, misstatements detected during the financial statement audit, and any identified control deficiencies.

Note: As part of this evaluation, the auditor should review reports issued during the year by internal audit (or similar functions) that address controls related to internal control over financial reporting and evaluate control deficiencies identified in those reports.

72. After forming an opinion on the effectiveness of the company's internal control over financial reporting, the auditor should evaluate the presentation of the elements that management is required, under the SEC's rules, to present in its annual report on internal control over financial reporting.^{16/}

73. If the auditor determines that any required elements of management's annual report on internal control over financial reporting are incomplete or improperly presented, the auditor should follow the direction in paragraph C2.

74. The auditor may form an opinion on the effectiveness of internal control over financial reporting only when there have been no restrictions on the scope of the auditor's work. A scope limitation requires the auditor to disclaim an opinion or withdraw from the engagement (see paragraphs C3 through C7).

Obtaining Written Representations

75. In an audit of internal control over financial reporting, the auditor should obtain written representations from management –

- a. Acknowledging management's responsibility for establishing and maintaining effective internal control over financial reporting;

^{16/} See Item 308(a) of Regulations S-B and S-K, 17 C.F.R. §§ 228.308(a) and 229.308(a).

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

- b. Stating that management has performed an evaluation and made an assessment of the effectiveness of the company's internal control over financial reporting and specifying the control criteria;
- c. Stating that management did not use the auditor's procedures performed during the audits of internal control over financial reporting or the financial statements as part of the basis for management's assessment of the effectiveness of internal control over financial reporting;
- d. Stating management's conclusion, as set forth in its assessment, about the effectiveness of the company's internal control over financial reporting based on the control criteria as of a specified date;
- e. Stating that management has disclosed to the auditor all deficiencies in the design or operation of internal control over financial reporting identified as part of management's evaluation, including separately disclosing to the auditor all such deficiencies that it believes to be significant deficiencies or material weaknesses in internal control over financial reporting;
- f. Describing any fraud resulting in a material misstatement to the company's financial statements and any other fraud that does not result in a material misstatement to the company's financial statements but involves senior management or management or other employees who have a significant role in the company's internal control over financial reporting;
- g. Stating whether control deficiencies identified and communicated to the audit committee during previous engagements pursuant to paragraphs 78 and 80 have been resolved, and specifically identifying any that have not; and
- h. Stating whether there were, subsequent to the date being reported on, any changes in internal control over financial reporting or other factors that might significantly affect internal control over financial reporting, including any corrective actions taken by management with regard to significant deficiencies and material weaknesses.

76. The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the audit. As discussed further in paragraph C3, when the scope of the audit is limited, the auditor

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

should either withdraw from the engagement or disclaim an opinion. Further, the auditor should evaluate the effects of management's refusal on his or her ability to rely on other representations, including those obtained in the audit of the company's financial statements.

77. AU sec. 333, *Management Representations*, explains matters such as who should sign the letter, the period to be covered by the letter, and when to obtain an updated letter.

Communicating Certain Matters

78. The auditor must communicate, in writing, to management and the audit committee all material weaknesses identified during the audit. The written communication should be made prior to the issuance of the auditor's report on internal control over financial reporting.

79. If the auditor concludes that the oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, the auditor must communicate that conclusion in writing to the board of directors.

80. The auditor also should consider whether there are any deficiencies, or combinations of deficiencies, that have been identified during the audit that are **significant deficiencies** and must communicate such deficiencies, in writing, to the audit committee.

81. The auditor also should communicate to management, in writing, all deficiencies in internal control over financial reporting (*i.e.*, those deficiencies in internal control over financial reporting that are of a lesser magnitude than material weaknesses) identified during the audit and inform the audit committee when such a communication has been made. When making this communication, it is not necessary for the auditor to repeat information about such deficiencies that has been included in previously issued written communications, whether those communications were made by the auditor, internal auditors, or others within the organization.

82. The auditor is not required to perform procedures that are sufficient to identify all control deficiencies; rather, the auditor communicates deficiencies in internal control over financial reporting of which he or she is aware.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

83. Because the audit of internal control over financial reporting does not provide the auditor with assurance that he or she has identified all deficiencies less severe than a material weakness, the auditor should not issue a report stating that no such deficiencies were noted during the audit.

84. When auditing internal control over financial reporting, the auditor may become aware of fraud or possible illegal acts. In such circumstances, the auditor must determine his or her responsibilities under AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, AU sec. 317, *Illegal Acts by Clients*, and Section 10A of the Securities Exchange Act of 1934.^{17/}

Reporting on Internal Control

85. The auditor's report on the audit of internal control over financial reporting must include the following elements^{18/} –

- a. A title that includes the word *independent*;
- b. A statement that management is responsible for maintaining effective internal control over financial reporting and for assessing the effectiveness of internal control over financial reporting;
- c. An identification of management's report on internal control;
- d. A statement that the auditor's responsibility is to express an opinion on the company's internal control over financial reporting based on his or her audit;
- e. A definition of internal control over financial reporting as stated in paragraph A5;
- f. A statement that the audit was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States);

^{17/} See 15 U.S.C. § 78j-1.

^{18/} See Appendix C, which provides direction on modifications to the auditor's report that are required in certain circumstances.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

- g. A statement that the standards of the Public Company Accounting Oversight Board require that the auditor plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects;
- h. A statement that an audit includes obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as the auditor considered necessary in the circumstances;
- i. A statement that the auditor believes the audit provides a reasonable basis for his or her opinion;
- j. A paragraph stating that, because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements and that projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate;
- k. The auditor's opinion on whether the company maintained, in all material respects, effective internal control over financial reporting as of the specified date, based on the control criteria;
- l. The manual or printed signature of the auditor's firm;
- m. The city and state (or city and country, in the case of non-U.S. auditors) from which the auditor's report has been issued; and
- n. The date of the audit report.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

Separate or Combined Reports

86. The auditor may choose to issue a combined report (i.e., one report containing both an opinion on the financial statements and an opinion on internal control over financial reporting) or separate reports on the company's financial statements and on internal control over financial reporting.

87. The following example combined report expressing an unqualified opinion on financial statements and an unqualified opinion on internal control over financial reporting illustrates the report elements described in this section.

Report of Independent Registered Public Accounting Firm

[Introductory paragraph]

We have audited the accompanying balance sheets of W Company as of December 31, 20X8 and 20X7, and the related statements of income, stockholders' equity and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 20X8. We also have audited W Company's internal control over financial reporting as of December 31, 20X8, based on [*Identify control criteria, for example, "criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*]. W Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying [title of management's report]. Our responsibility is to express an opinion on these financial statements and an opinion on the company's internal control over financial reporting based on our audits.

[Scope paragraph]

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5

statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

[Definition paragraph]

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

[Inherent limitations paragraph]

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

[Opinion paragraph]

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of W Company as of December 31, 20X8

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

and 20X7, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 20X8 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, W Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 20X8, based on [*Identify control criteria, for example, "criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO)."*].

[*Signature*]

[*City and State or Country*]

[*Date*]

88. If the auditor chooses to issue a separate report on internal control over financial reporting, he or she should add the following paragraph to the auditor's report on the financial statements –

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), W Company's internal control over financial reporting as of December 31, 20X8, based on [*identify control criteria*] and our report dated [*date of report, which should be the same as the date of the report on the financial statements*] expressed [*include nature of opinion*].

The auditor also should add the following paragraph to the report on internal control over financial reporting –

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the [*identify financial statements*] of W Company and our report dated [*date of report, which should be the same as the date of the report on the effectiveness of internal control over financial reporting*] expressed [*include nature of opinion*].

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

Report Date

89. The auditor should date the audit report no earlier than the date on which the auditor has obtained sufficient competent evidence to support the auditor's opinion. Because the auditor cannot audit internal control over financial reporting without also auditing the financial statements, the reports should be dated the same.

Material Weaknesses

90. Paragraphs 62 through 70 describe the evaluation of deficiencies. If there are deficiencies that, individually or in combination, result in one or more material weaknesses, the auditor must express an adverse opinion on the company's internal control over financial reporting, unless there is a restriction on the scope of the engagement.^{19/}

91. When expressing an adverse opinion on internal control over financial reporting because of a material weakness, the auditor's report must include –

- The definition of a material weakness, as provided in paragraph A7.
- A statement that a material weakness has been identified and an identification of the material weakness described in management's assessment.

Note: If the material weakness has not been included in management's assessment, the report should be modified to state that a material weakness has been identified but not included in management's assessment. Additionally, the auditor's report should include a description of the material weakness, which should provide the users of the audit report with specific information about the nature of the material weakness and its actual and potential effect on the presentation of the company's financial statements issued during the existence of the weakness. In this case, the auditor also should communicate in writing to the audit committee that the material weakness was not disclosed or identified as a material weakness in management's assessment. If the material weakness has been included in management's assessment but the auditor

^{19/} See paragraph C3 for direction when the scope of the engagement has been limited.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

concludes that the disclosure of the material weakness is not fairly presented in all material respects, the auditor's report should describe this conclusion as well as the information necessary to fairly describe the material weakness.

92. The auditor should determine the effect his or her adverse opinion on internal control has on his or her opinion on the financial statements. Additionally, the auditor should disclose whether his or her opinion on the financial statements was affected by the adverse opinion on internal control over financial reporting.

Note: If the auditor issues a separate report on internal control over financial reporting in this circumstance, the disclosure required by this paragraph may be combined with the report language described in paragraphs 88 and 91. The auditor may present the combined language either as a separate paragraph or as part of the paragraph that identifies the material weakness.

Subsequent Events

93. Changes in internal control over financial reporting or other factors that might significantly affect internal control over financial reporting might occur subsequent to the date as of which internal control over financial reporting is being audited but before the date of the auditor's report. The auditor should inquire of management whether there were any such changes or factors and obtain written representations from management relating to such matters, as described in paragraph 75h.

94. To obtain additional information about whether changes have occurred that might affect the effectiveness of the company's internal control over financial reporting and, therefore, the auditor's report, the auditor should inquire about and examine, for this subsequent period, the following –

- Relevant internal audit (or similar functions, such as loan review in a financial institution) reports issued during the subsequent period,
- Independent auditor reports (if other than the auditor's) of deficiencies in internal control,
- Regulatory agency reports on the company's internal control over financial reporting, and

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5

- Information about the effectiveness of the company's internal control over financial reporting obtained through other engagements.

95. The auditor might inquire about and examine other documents for the subsequent period. Paragraphs .01 through .09 of AU sec. 560, *Subsequent Events*, provide direction on subsequent events for a financial statement audit that also may be helpful to the auditor performing an audit of internal control over financial reporting.

96. If the auditor obtains knowledge about subsequent events that materially and adversely affect the effectiveness of the company's internal control over financial reporting as of the date specified in the assessment, the auditor should issue an adverse opinion on internal control over financial reporting (and follow the direction in paragraph C2 if management's assessment states that internal control over financial reporting is effective). If the auditor is unable to determine the effect of the subsequent event on the effectiveness of the company's internal control over financial reporting, the auditor should disclaim an opinion. As described in paragraph C13, the auditor should disclaim an opinion on management's disclosures about corrective actions taken by the company after the date of management's assessment, if any.

97. The auditor may obtain knowledge about subsequent events with respect to conditions that did not exist at the date specified in the assessment but arose subsequent to that date and before issuance of the auditor's report. If a subsequent event of this type has a material effect on the company's internal control over financial reporting, the auditor should include in his or her report an explanatory paragraph describing the event and its effects or directing the reader's attention to the event and its effects as disclosed in management's report.

98. After the issuance of the report on internal control over financial reporting, the auditor may become aware of conditions that existed at the report date that might have affected the auditor's opinion had he or she been aware of them. The auditor's evaluation of such subsequent information is similar to the auditor's evaluation of information discovered subsequent to the date of the report on an audit of financial statements, as described in AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

APPENDIX A – Definitions

A1. For purposes of this standard, the terms listed below are defined as follows –

A2. A **control objective** provides a specific target against which to evaluate the effectiveness of controls. A control objective for internal control over financial reporting generally relates to a relevant assertion and states a criterion for evaluating whether the company's control procedures in a specific area provide reasonable assurance that a misstatement or omission in that relevant assertion is prevented or detected by controls on a timely basis.

A3. A **deficiency** in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

- A deficiency in *design* exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met.
- A deficiency in *operation* exists when a properly designed control does not operate as designed, or when the person performing the control does not possess the necessary authority or competence to perform the control effectively.

A4. **Financial statements and related disclosures** refers to a company's financial statements and notes to the financial statements as presented in accordance with generally accepted accounting principles ("GAAP"). References to financial statements and related disclosures do not extend to the preparation of management's discussion and analysis or other similar financial information presented outside a company's GAAP-basis financial statements and notes.

A5. **Internal control over financial reporting** is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP and includes those policies and procedures that –

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.^{1/}

Note: The auditor's procedures as part of either the audit of internal control over financial reporting or the audit of the financial statements are not part of a company's internal control over financial reporting.

Note: Internal control over financial reporting has inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements will not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

A6. **Management's assessment** is the assessment described in Item 308(a)(3) of Regulations S-B and S-K that is included in management's annual report on internal control over financial reporting.^{2/}

^{1/} See Securities Exchange Act Rules 13a-15(f) and 15d-15(f), 17 C.F.R. §§ 240.13a-15(f) and 240.15d-15(f).

^{2/} See 17 C.F.R. §§ 228.308(a)(3) and 229.308(a)(3).

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

A7. A **material weakness** is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a **reasonable possibility** that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Note: There is a **reasonable possibility** of an event, as used in this standard, when the likelihood of the event is either "reasonably possible" or "probable," as those terms are used in Financial Accounting Standards Board Statement No. 5, *Accounting for Contingencies* ("FAS 5").^{3/}

A8. Controls over financial reporting may be **preventive controls** or **detective controls**. Effective internal control over financial reporting often includes a combination of preventive and detective controls.

- Preventive controls have the objective of preventing errors or fraud that could result in a misstatement of the financial statements from occurring.
- Detective controls have the objective of detecting errors or fraud that has already occurred that could result in a misstatement of the financial statements.

A9. A **relevant assertion** is a financial statement assertion that has a reasonable possibility of containing a misstatement or misstatements that would cause the financial statements to be materially misstated. The determination of whether an assertion is a relevant assertion is based on inherent risk, without regard to the effect of controls.

A10. An account or disclosure is a **significant account or disclosure** if there is a reasonable possibility that the account or disclosure could contain a misstatement that, individually or when aggregated with others, has a material effect on the financial statements, considering the risks of both overstatement and understatement. The determination of whether an account or disclosure is significant is based on inherent risk, without regard to the effect of controls.

A11. A **significant deficiency** is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

^{3/} See FAS 5, paragraph 3.

APPENDIX B – Special Topics

Integration of Audits

B1. *Tests of Controls in an Audit of Internal Control.* The objective of the tests of controls in an audit of internal control over financial reporting is to obtain evidence about the effectiveness of controls to support the auditor's opinion on the company's internal control over financial reporting. The auditor's opinion relates to the effectiveness of the company's internal control over financial reporting as of a *point in time* and *taken as a whole*.

B2. To express an opinion on internal control over financial reporting as of a point in time, the auditor should obtain evidence that internal control over financial reporting has operated effectively for a sufficient period of time, which may be less than the entire period (ordinarily one year) covered by the company's financial statements. To express an opinion on internal control over financial reporting taken as a whole, the auditor must obtain evidence about the effectiveness of selected controls over all relevant assertions. This requires that the auditor test the design and operating effectiveness of controls he or she ordinarily would not test if expressing an opinion only on the financial statements.

B3. When concluding on the effectiveness of internal control over financial reporting for purposes of expressing an opinion on internal control over financial reporting, the auditor should incorporate the results of any additional tests of controls performed to achieve the objective related to expressing an opinion on the financial statements, as discussed in the following section.

B4. *Tests of Controls in an Audit of Financial Statements.* To express an opinion on the financial statements, the auditor ordinarily performs tests of controls and substantive procedures. The objective of the tests of controls the auditor performs for this purpose is to assess control risk. To assess control risk for specific financial statement assertions at less than the maximum, the auditor is required to obtain evidence that the relevant controls operated effectively during the *entire period* upon which the auditor plans to place reliance on those controls. However, the auditor is not required to assess control risk at less than the maximum for *all* relevant assertions and, for a variety of reasons, the auditor may choose not to do so.

B5. When concluding on the effectiveness of controls for the purpose of assessing control risk, the auditor also should evaluate the results of any additional tests of controls performed to achieve the objective related to expressing an opinion on the

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

company's internal control over financial reporting, as discussed in paragraph B2. Consideration of these results may require the auditor to alter the nature, timing, and extent of substantive procedures and to plan and perform further tests of controls, particularly in response to identified control deficiencies.

B6. *Effect of Tests of Controls on Substantive Procedures.* If, during the audit of internal control over financial reporting, the auditor identifies a deficiency, he or she should determine the effect of the deficiency, if any, on the nature, timing, and extent of substantive procedures to be performed to reduce audit risk in the audit of the financial statements to an appropriately low level.

B7. Regardless of the assessed level of control risk or the assessed risk of material misstatement in connection with the audit of the financial statements, the auditor should perform substantive procedures for all relevant assertions. Performing procedures to express an opinion on internal control over financial reporting does not diminish this requirement.

B8. *Effect of Substantive Procedures on the Auditor's Conclusions About the Operating Effectiveness of Controls.* In an audit of internal control over financial reporting, the auditor should evaluate the effect of the findings of the substantive auditing procedures performed in the audit of financial statements on the effectiveness of internal control over financial reporting. This evaluation should include, at a minimum –

- The auditor's risk assessments in connection with the selection and application of substantive procedures, especially those related to fraud.
- Findings with respect to illegal acts and related party transactions.
- Indications of management bias in making accounting estimates and in selecting accounting principles.
- Misstatements detected by substantive procedures. The extent of such misstatements might alter the auditor's judgment about the effectiveness of controls.

B9. To obtain evidence about whether a selected control is effective, the control must be tested directly; the effectiveness of a control cannot be inferred from the absence of misstatements detected by substantive procedures. The absence of misstatements

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

detected by substantive procedures, however, should inform the auditor's risk assessments in determining the testing necessary to conclude on the effectiveness of a control.

Multiple Locations Scoping Decisions

B10. In determining the locations or business units at which to perform tests of controls, the auditor should assess the risk of material misstatement to the financial statements associated with the location or business unit and correlate the amount of audit attention devoted to the location or business unit with the degree of risk.

Note: The auditor may eliminate from further consideration locations or business units that, individually or when aggregated with others, do not present a reasonable possibility of material misstatement to the company's consolidated financial statements.

B11. In assessing and responding to risk, the auditor should test controls over specific risks that present a reasonable possibility of material misstatement to the company's consolidated financial statements. In lower-risk locations or business units, the auditor first might evaluate whether testing entity-level controls, including controls in place to provide assurance that appropriate controls exist throughout the organization, provides the auditor with sufficient evidence.

B12. In determining the locations or business units at which to perform tests of controls, the auditor may take into account work performed by others on behalf of management. For example, if the internal auditors' planned procedures include relevant audit work at various locations, the auditor may coordinate work with the internal auditors and reduce the number of locations or business units at which the auditor would otherwise need to perform auditing procedures.

B13. The direction in paragraph 61 regarding special considerations for subsequent years' audits means that the auditor should vary the nature, timing, and extent of testing of controls at locations or business units from year to year.

B14. *Special Situations.* The scope of the audit should include entities that are acquired on or before the date of management's assessment and operations that are accounted for as discontinued operations on the date of management's assessment. The direction in this multiple-locations discussion describes how to determine whether it is necessary to test controls at these entities or operations.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

B15. For equity method investments, the scope of the audit should include controls over the reporting in accordance with generally accepted accounting principles, in the company's financial statements, of the company's portion of the investees' income or loss, the investment balance, adjustments to the income or loss and investment balance, and related disclosures. The audit ordinarily would not extend to controls at the equity method investee.

B16. In situations in which the SEC allows management to limit its assessment of internal control over financial reporting by excluding certain entities, the auditor may limit the audit in the same manner. In these situations, the auditor's opinion would not be affected by a scope limitation. However, the auditor should include, either in an additional explanatory paragraph or as part of the scope paragraph in his or her report, a disclosure similar to management's regarding the exclusion of an entity from the scope of both management's assessment and the auditor's audit of internal control over financial reporting. Additionally, the auditor should evaluate the reasonableness of management's conclusion that the situation meets the criteria of the SEC's allowed exclusion and the appropriateness of any required disclosure related to such a limitation. If the auditor believes that management's disclosure about the limitation requires modification, the auditor should follow the same communication responsibilities that are described in paragraphs .29 through .32 of AU sec. 722, *Interim Financial Information*. If management and the audit committee do not respond appropriately, in addition to fulfilling those responsibilities, the auditor should modify his or her report on the audit of internal control over financial reporting to include an explanatory paragraph describing the reasons why the auditor believes management's disclosure requires modification.

Use of Service Organizations

B17. AU sec. 324, *Service Organizations*, applies to the audit of financial statements of a company that obtains services from another organization that are part of the company's information system. The auditor may apply the relevant concepts described in AU sec. 324 to the audit of internal control over financial reporting.

B18. AU sec. 324.03 describes the situation in which a service organization's services are part of a company's information system. If the service organization's services are part of a company's information system, as described therein, then they are part of the information and communication component of the company's internal control over financial reporting. When the service organization's services are part of the company's internal control over financial reporting, the auditor should include the activities of the

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

service organization when determining the evidence required to support his or her opinion.

B19. AU sec. 324.07 through .16 describe the procedures that the auditor should perform with respect to the activities performed by the service organization. The procedures include –

- a. Obtaining an understanding of the controls at the service organization that are relevant to the entity's internal control and the controls at the user organization over the activities of the service organization, and
- b. Obtaining evidence that the controls that are relevant to the auditor's opinion are operating effectively.

B20. Evidence that the controls that are relevant to the auditor's opinion are operating effectively may be obtained by following the procedures described in AU sec. 324.12. These procedures include –

- a. Obtaining a service auditor's report on controls placed in operation and tests of operating effectiveness, or a report on the application of agreed-upon procedures that describes relevant tests of controls.

Note: The service auditor's report referred to above means a report with the service auditor's opinion on the service organization's description of the design of its controls, the tests of controls, and results of those tests performed by the service auditor, and the service auditor's opinion on whether the controls tested were operating effectively during the specified period (in other words, "reports on controls placed in operation and tests of operating effectiveness" described in AU sec. 324.24b). A service auditor's report that does not include tests of controls, results of the tests, and the service auditor's opinion on operating effectiveness (in other words, "reports on controls placed in operation" described in AU sec. 324.24a) does not provide evidence of operating effectiveness. Furthermore, if the evidence regarding operating effectiveness of controls comes from an agreed-upon procedures report rather than a service auditor's report issued pursuant to AU sec. 324, the auditor should evaluate whether the agreed-upon procedures report provides sufficient evidence in the same manner described in the following paragraph.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

- b. Performing tests of the user organization's controls over the activities of the service organization (e.g., testing the user organization's independent re-performance of selected items processed by the service organization or testing the user organization's reconciliation of output reports with source documents).
- c. Performing tests of controls at the service organization.

B21. If a service auditor's report on controls placed in operation and tests of operating effectiveness is available, the auditor may evaluate whether this report provides sufficient evidence to support his or her opinion. In evaluating whether such a service auditor's report provides sufficient evidence, the auditor should assess the following factors –

- The time period covered by the tests of controls and its relation to the as-of date of management's assessment,
- The scope of the examination and applications covered, the controls tested, and the way in which tested controls relate to the company's controls, and
- The results of those tests of controls and the service auditor's opinion on the operating effectiveness of the controls.

Note: These factors are similar to factors the auditor would consider in determining whether the report provides sufficient evidence to support the auditor's assessed level of control risk in an audit of the financial statements, as described in AU sec. 324.16.

B22. If the service auditor's report on controls placed in operation and tests of operating effectiveness contains a qualification that the stated control objectives might be achieved only if the company applies controls contemplated in the design of the system by the service organization, the auditor should evaluate whether the company is applying the necessary procedures.

B23. In determining whether the service auditor's report provides sufficient evidence to support the auditor's opinion, the auditor should make inquiries concerning the service auditor's reputation, competence, and independence. Appropriate sources of information concerning the professional reputation of the service auditor are discussed

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

in paragraph .10a of AU sec. 543, *Part of Audit Performed by Other Independent Auditors*.

B24. When a significant period of time has elapsed between the time period covered by the tests of controls in the service auditor's report and the date specified in management's assessment, additional procedures should be performed. The auditor should inquire of management to determine whether management has identified any changes in the service organization's controls subsequent to the period covered by the service auditor's report (such as changes communicated to management from the service organization, changes in personnel at the service organization with whom management interacts, changes in reports or other data received from the service organization, changes in contracts or service level agreements with the service organization, or errors identified in the service organization's processing). If management has identified such changes, the auditor should evaluate the effect of such changes on the effectiveness of the company's internal control over financial reporting. The auditor also should evaluate whether the results of other procedures he or she performed indicate that there have been changes in the controls at the service organization.

B25. The auditor should determine whether to obtain additional evidence about the operating effectiveness of controls at the service organization based on the procedures performed by management or the auditor and the results of those procedures and on an evaluation of the following risk factors. As risk increases, the need for the auditor to obtain additional evidence increases.

- The elapsed time between the time period covered by the tests of controls in the service auditor's report and the date specified in management's assessment,
- The significance of the activities of the service organization,
- Whether there are errors that have been identified in the service organization's processing, and
- The nature and significance of any changes in the service organization's controls identified by management or the auditor.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

B26. If the auditor concludes that additional evidence about the operating effectiveness of controls at the service organization is required, the auditor's additional procedures might include –

- Evaluating procedures performed by management and the results of those procedures.
- Contacting the service organization, through the user organization, to obtain specific information.
- Requesting that a service auditor be engaged to perform procedures that will supply the necessary information.
- Visiting the service organization and performing such procedures.

B27. The auditor should not refer to the service auditor's report when expressing an opinion on internal control over financial reporting.

Benchmarking of Automated Controls

B28. Entirely automated application controls are generally not subject to breakdowns due to human failure. This feature allows the auditor to use a "benchmarking" strategy.

B29. If general controls over program changes, access to programs, and computer operations are effective and continue to be tested, and if the auditor verifies that the automated application control has not changed since the auditor established a baseline (i.e., last tested the application control), the auditor may conclude that the automated application control continues to be effective without repeating the prior year's specific tests of the operation of the automated application control. The nature and extent of the evidence that the auditor should obtain to verify that the control has not changed may vary depending on the circumstances, including depending on the strength of the company's program change controls.

B30. The consistent and effective functioning of the automated application controls may be dependent upon the related files, tables, data, and parameters. For example, an automated application for calculating interest income might be dependent on the continued integrity of a rate table used by the automated calculation.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

B31. To determine whether to use a benchmarking strategy, the auditor should assess the following risk factors. As these factors indicate lower risk, the control being evaluated might be well-suited for benchmarking. As these factors indicate increased risk, the control being evaluated is less suited for benchmarking. These factors are –

- The extent to which the application control can be matched to a defined program within an application.
- The extent to which the application is stable (i.e., there are few changes from period to period).
- The availability and reliability of a report of the compilation dates of the programs placed in production. (This information may be used as evidence that controls within the program have not changed.)

B32. Benchmarking automated application controls can be especially effective for companies using purchased software when the possibility of program changes is remote – e.g., when the vendor does not allow access or modification to the source code.

B33. After a period of time, the length of which depends upon the circumstances, the baseline of the operation of an automated application control should be reestablished. To determine when to reestablish a baseline, the auditor should evaluate the following factors –

- The effectiveness of the IT control environment, including controls over application and system software acquisition and maintenance, access controls and computer operations.
- The auditor's understanding of the nature of changes, if any, on the specific programs that contain the controls.
- The nature and timing of other related tests.
- The consequences of errors associated with the application control that was benchmarked.
- Whether the control is sensitive to other business factors that may have changed. For example, an automated control may have been designed

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

with the assumption that only positive amounts will exist in a file. Such a control would no longer be effective if negative amounts (credits) begin to be posted to the account.

APPENDIX C – Special Reporting Situations

Report Modifications

C1. The auditor should modify his or her report if any of the following conditions exist.

- a. Elements of management's annual report on internal control are incomplete or improperly presented,
- b. There is a restriction on the scope of the engagement,
- c. The auditor decides to refer to the report of other auditors as the basis, in part, for the auditor's own report,
- d. There is other information contained in management's annual report on internal control over financial reporting, or
- e. Management's annual certification pursuant to Section 302 of the Sarbanes-Oxley Act is misstated.

C2. *Elements of Management's Annual Report on Internal Control Over Financial Reporting Are Incomplete or Improperly Presented.* If the auditor determines that elements of management's annual report on internal control over financial reporting are incomplete or improperly presented, the auditor should modify his or her report to include an explanatory paragraph describing the reasons for this determination. If the auditor determines that the required disclosure about a material weakness is not fairly presented in all material respects, the auditor should follow the direction in paragraph 91.

C3. *Scope Limitations.* The auditor can express an opinion on the company's internal control over financial reporting only if the auditor has been able to apply the procedures necessary in the circumstances. If there are restrictions on the scope of the engagement, the auditor should withdraw from the engagement or disclaim an opinion. A disclaimer of opinion states that the auditor does not express an opinion on the effectiveness of internal control over financial reporting.

C4. When disclaiming an opinion because of a scope limitation, the auditor should state that the scope of the audit was not sufficient to warrant the expression of an opinion and, in a separate paragraph or paragraphs, the substantive reasons for the disclaimer. The auditor should not identify the procedures that were performed nor include the statements describing the characteristics of an audit of internal control over financial reporting (paragraph 85 g, h, and i); to do so might overshadow the disclaimer.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

C5. When the auditor plans to disclaim an opinion and the limited procedures performed by the auditor caused the auditor to conclude that a material weakness exists, the auditor's report also should include –

- The definition of a material weakness, as provided in paragraph A7.
- A description of any material weaknesses identified in the company's internal control over financial reporting. This description should provide the users of the audit report with specific information about the nature of any material weakness and its actual and potential effect on the presentation of the company's financial statements issued during the existence of the weakness. This description also should address the requirements in paragraph 91.

C6. The auditor may issue a report disclaiming an opinion on internal control over financial reporting as soon as the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an opinion. The auditor is not required to perform any additional work prior to issuing a disclaimer when the auditor concludes that he or she will not be able to obtain sufficient evidence to express an opinion.

Note: In this case, in following the direction in paragraph 89 regarding dating the auditor's report, the report date is the date that the auditor has obtained sufficient competent evidence to support the representations in the auditor's report.

C7. If the auditor concludes that he or she cannot express an opinion because there has been a limitation on the scope of the audit, the auditor should communicate, in writing, to management and the audit committee that the audit of internal control over financial reporting cannot be satisfactorily completed.

C8. *Opinions Based, in Part, on the Report of Another Auditor.* When another auditor has audited the financial statements and internal control over financial reporting of one or more subsidiaries, divisions, branches, or components of the company, the auditor should determine whether he or she may serve as the principal auditor and use the work and reports of another auditor as a basis, in part, for his or her opinion. AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, provides direction on the auditor's decision of whether to serve as the principal auditor of the financial statements. If the auditor decides it is appropriate to serve as the principal auditor of the financial statements, then that auditor also should be the principal auditor of the company's internal control over financial reporting. This relationship results from the requirement that an audit of the financial statements must be performed to audit internal control over financial reporting; only the principal auditor of the financial statements can be the principal auditor of internal control over financial reporting. In this circumstance, the principal auditor of the financial statements must participate sufficiently in the audit of

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

internal control over financial reporting to provide a basis for serving as the principal auditor of internal control over financial reporting.

C9. When serving as the principal auditor of internal control over financial reporting, the auditor should decide whether to make reference in the report on internal control over financial reporting to the audit of internal control over financial reporting performed by the other auditor. In these circumstances, the auditor's decision is based on factors analogous to those of the auditor who uses the work and reports of other independent auditors when reporting on a company's financial statements as described in AU sec. 543.

C10. The decision about whether to make reference to another auditor in the report on the audit of internal control over financial reporting might differ from the corresponding decision as it relates to the audit of the financial statements. For example, the audit report on the financial statements may make reference to the audit of a significant equity investment performed by another independent auditor, but the report on internal control over financial reporting might not make a similar reference because management's assessment of internal control over financial reporting ordinarily would not extend to controls at the equity method investee.^{1/}

C11. When the auditor decides to make reference to the report of the other auditor as a basis, in part, for his or her opinion on the company's internal control over financial reporting, the auditor should refer to the report of the other auditor when describing the scope of the audit and when expressing the opinion.

C12. *Management's Annual Report on Internal Control Over Financial Reporting Containing Additional Information.* Management's annual report on internal control over financial reporting may contain information in addition to the elements described in paragraph 72 that are subject to the auditor's evaluation.

C13. If management's annual report on internal control over financial reporting could reasonably be viewed by users of the report as including such additional information, the auditor should disclaim an opinion on the information.

C14. If the auditor believes that management's additional information contains a material misstatement of fact, he or she should discuss the matter with management. If, after discussing the matter with management, the auditor concludes that a material misstatement of fact remains, the auditor should notify management and the audit committee, in writing, of the auditor's views concerning the information. AU sec. 317,

^{1/} See paragraph B15, for further discussion of the evaluation of the controls over financial reporting for an equity method investment.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS5

Illegal Acts by Clients and Section 10A of the Securities Exchange Act of 1934 may also require the auditor to take additional action.^{2/}

Note: If management makes the types of disclosures described in paragraph C12 outside its annual report on internal control over financial reporting and includes them elsewhere within its annual report on the company's financial statements, the auditor would not need to disclaim an opinion. However, in that situation, the auditor's responsibilities are the same as those described in this paragraph if the auditor believes that the additional information contains a material misstatement of fact.

C15. *Management's Annual Certification Pursuant to Section 302 of the Sarbanes-Oxley Act is Misstated.* If matters come to the auditor's attention as a result of the audit of internal control over financial reporting that lead him or her to believe that modifications to the disclosures about changes in internal control over financial reporting (addressing changes in internal control over financial reporting occurring during the fourth quarter) are necessary for the annual certifications to be accurate and to comply with the requirements of Section 302 of the Act and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), whichever applies,^{3/} the auditor should follow the communication responsibilities as described in AU sec. 722 *Interim Financial Information*, for any interim period. However, if management and the audit committee do not respond appropriately, in addition to the responsibilities described in AU sec. 722, the auditor should modify his or her report on the audit of internal control over financial reporting to include an explanatory paragraph describing the reasons the auditor believes management's disclosures should be modified.

Filings Under Federal Securities Statutes

C16. AU sec. 711, *Filings Under Federal Securities Statutes*, describes the auditor's responsibilities when an auditor's report is included in registration statements, proxy statements, or periodic reports filed under the federal securities statutes. The auditor should apply AU sec. 711 with respect to the auditor's report on internal control over financial reporting included in such filings. In addition, the auditor should extend the direction in AU sec. 711.10 to inquire of and obtain written representations from officers and other executives responsible for financial and accounting matters about whether any events have occurred that have a material effect on the audited financial statements to matters that could have a material effect on internal control over financial reporting.

C17. When the auditor has fulfilled these responsibilities and intends to consent to the inclusion of his or her report on internal control over financial reporting in the securities

^{2/} See 15 U.S.C. § 78j-1.

^{3/} See 17 C.F.R. §§ 240.13a-14(a) and 240.15d-14(a).

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – AS5**

filing, the auditor's consent should clearly indicate that both the audit report on financial statements and the audit report on internal control over financial reporting (or both opinions if a combined report is issued) are included in his or her consent.

AUDITING STANDARD NO. 6 – Evaluating Consistency of Financial Statements

Auditing Standard No. 6 –

Evaluating Consistency of Financial Statements

[Effective pursuant to SEC Release No. 34-58555, File No. PCAOB-2008-01 (September 16, 2008)]

Auditing Standard No. 6 ***Supersedes AU secs. 420 and 9420***

Evaluating Consistency of Financial Statements

Consistency and the Auditor's Report on Financial Statements

1. This standard establishes requirements and provides direction for the auditor's evaluation of the consistency of the financial statements, including changes to previously issued financial statements, and the effect of that evaluation on the auditor's report on the financial statements.
2. To identify consistency matters that might affect the report, the auditor should evaluate whether the comparability of the financial statements between periods has been materially affected by changes in accounting principles or by material adjustments to previously issued financial statements for the relevant periods.
3. The periods covered in the auditor's evaluation of consistency depend on the periods covered by the auditor's report on the financial statements. When the auditor reports only on the current period, he or she should evaluate whether the current-period financial statements are consistent with those of the preceding period. When the auditor reports on two or more periods, he or she should evaluate consistency between such periods and the consistency of such periods with the period prior thereto if such prior period is presented with the financial statements being reported upon.^{1/} The auditor also should evaluate whether the financial statements for periods described in this paragraph are consistent with previously issued financial statements for the respective periods.^{2/}

^{1/} For example, assume that a company presents comparative financial statements covering three years and has a change in auditors. In the first year in which the successor auditor reports, the successor auditor evaluates consistency between the year on which he or she reports and the immediately preceding year. In the second year in which the successor auditor reports, the successor auditor would evaluate consistency between the two years on which he or she reports and between those years and the earliest year presented.

^{2/} When a company uses retrospective application, as defined in Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections* ("SFAS No. 154"), to account for a change in accounting principle, the financial statements presented generally will be consistent. However, the previous years' financial statements presented with the current year's financial statements will reflect the change in accounting principle and, therefore, will appear different from those

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS6

Note: The term "current period" means the most recent year, or period of less than one year, upon which the auditor is reporting.

4. The auditor should recognize the following matters relating to the consistency of the company's financial statements in the auditor's report if those matters have a material effect on the financial statements:

- a. A change in accounting principle
- b. An adjustment to correct a misstatement in previously issued financial statements.^{3/}

Change in Accounting Principle

5. A change in accounting principle is a change from one generally accepted accounting principle to another generally accepted accounting principle when (1) there are two or more generally accepted accounting principles that apply, or when (2) the accounting principle formerly used is no longer generally accepted. A change in the method of applying an accounting principle also is considered a change in accounting principle.^{4/}

Note: A change from an accounting principle that is not generally accepted to one that is generally accepted is a correction of a misstatement.

6. The auditor should evaluate and report on a change in accounting estimate effected by a change in accounting principle like other changes in accounting principle.^{5/} In addition, the auditor should recognize a change in the reporting entity^{6/} by including

previous years' financial statements on which the auditor previously reported. This standard clarifies that the auditor's evaluation of consistency should encompass previously issued financial statements for the relevant periods.

^{3/} The term "error," as used in SFAS No. 154, is equivalent to "misstatement," as used in the auditing standards.

^{4/} See SFAS No. 154, paragraph 2c.

^{5/} SFAS No. 154, paragraph 2e, defines a "change in accounting estimate effected by a change in accounting principle" as "a change in accounting estimate that is inseparable from the effect of a related change in accounting principle."

^{6/} "Change in reporting entity" is a change that results in financial statements that, in effect, are those of a different reporting entity. See SFAS No. 154, paragraph 2f.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – AS6

an explanatory paragraph in the auditor's report, unless the change in reporting entity results from a transaction or event. A change in reporting entity that results from a transaction or event, such as the creation, cessation, or complete or partial purchase or disposition of a subsidiary or other business unit does not require recognition in the auditor's report.

7. The auditor should evaluate a change in accounting principle to determine whether –

- a. The newly adopted accounting principle is a generally accepted accounting principle,
- b. The method of accounting for the effect of the change is in conformity with generally accepted accounting principles,
- c. The disclosures related to the accounting change are adequate,^{7/} and
- d. The company has justified that the alternative accounting principle is preferable.^{8/}

8. A change in accounting principle that has a material effect on the financial statements should be recognized in the auditor's report on the audited financial statements. If the auditor concludes that the criteria in paragraph 7 have been met, the auditor should add an explanatory paragraph to the auditor's report, as described in AU sec. 508, *Reports on Audited Financial Statements*. If those criteria are not met, the auditor should treat this accounting change as a departure from generally accepted accounting principles and address the matter as described in AU sec. 508.

Note: If a company's financial statements contain an investment accounted for by the equity method, the auditor's evaluation of consistency should include consideration of the investee. If the

^{7/} Newly issued accounting pronouncements usually set forth the method of accounting for the effects of a change in accounting principle and the related disclosures. SFAS No. 154 sets forth the method of accounting for the change and the related disclosures when there are no specific requirements in the new accounting pronouncement.

^{8/} The issuance of an accounting pronouncement that requires use of a new accounting principle, interprets an existing principle, expresses a preference for an accounting principle, or rejects a specific principle is sufficient justification for a change in accounting principle, as long as the change in accounting principle is made in accordance with the hierarchy of generally accepted accounting principles. See SFAS No. 154, paragraph 14.

investee makes a change in accounting principle that is material to the investing company's financial statements, the auditor should add an explanatory paragraph (following the opinion paragraph) to the auditor's report, as described in AU sec. 508.

Correction of a Material Misstatement in Previously Issued Financial Statements

9. The correction of a material misstatement in previously issued financial statements should be recognized in the auditor's report on the audited financial statements through the addition of an explanatory paragraph, as described in AU sec. 508.

10. The accounting pronouncements generally require certain disclosures relating to restatements to correct misstatements in previously issued financial statements. If the financial statement disclosures are not adequate, the auditor should address the inadequacy of disclosure as described in AU sec. 431, *Adequacy of Disclosure in Financial Statements*, and AU sec. 508.

Change in Classification

11. Changes in classification in previously issued financial statements do not require recognition in the auditor's report, unless the change represents the correction of a material misstatement or a change in accounting principle. Accordingly, the auditor should evaluate a material change in financial statement classification and the related disclosure to determine whether such a change also is a change in accounting principle or a correction of a material misstatement. For example, certain reclassifications in previously issued financial statements, such as reclassifications of debt from long-term to short-term or reclassifications of cash flows from the operating activities category to the financing activities category, might occur because those items were incorrectly classified in the previously issued financial statements. In such situations, the reclassification also is the correction of a misstatement. If the auditor determines that the reclassification is a change in accounting principle, he or she should address the matter as described in paragraphs 7 and 8 and AU sec. 508. If the auditor determines that the reclassification is a correction of a material misstatement in previously issued financial statements, he or she should address the matter as described in paragraphs 9 and 10 and AU sec. 508.

**Amendment to Interim Auditing Standards – Part of Audit Performed by Other
Independent Auditors**

June 9, 2004

AUDITING AND RELATED PROFESSIONAL PRACTICE STANDARDS

Amendment to Interim Auditing Standards –

Part of Audit Performed by Other Independent Auditors

[Effective pursuant to SEC Release No. 34-50253, File No. PCAOB-2004-05 (August 25, 2004)]

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Interim Standards Amendment**

AU sec. 543.12 is amended as follows:

When the principal auditor decides not to make reference to the audit of the other auditor, in addition to satisfying himself as to the matters described in AU sec. 543.10, the principal auditor must obtain, and review and retain, the following information from the other auditor:

- a. An engagement completion document consistent with paragraphs 12 and 13 of PCAOB Auditing Standard No. 3

Note: This engagement completion document should include all cross-referenced, supporting audit documentation.

- b. A list of significant fraud risk factors, the auditor's response, and the results of the auditor's related procedures.
- c. Sufficient information relating to significant findings or issues that are inconsistent with or contradict the auditor's final conclusions, as described in paragraph 8 of PCAOB Auditing Standard No. 3.
- d. Any findings affecting the consolidating or combining of accounts in the consolidated financial statements.
- e. Sufficient information to enable the office issuing the auditor's report to agree or reconcile the financial statement amounts audited by the other firm to the information underlying the consolidated financial statements.
- f. A schedule of audit adjustments, including a description of the nature and cause of each misstatement.
- g. All significant deficiencies and material weaknesses in internal control over financial reporting, including a clear distinction between those two categories.
- h. Letters of representations from management.
- i. All matters to be communicated to the audit committee.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Interim Standards Amendment

The principal auditor must obtain, and review and retain, such documents prior to the report release date.^{1/} In addition, the principal auditor should consider performing one or more of the following procedures:

- Visit the other auditor and discuss the audit procedures followed and results thereof.
- Review the audit programs of the other auditor. In some cases, it may be appropriate to issue instructions to the other auditor as to the scope of the audit work.
- Review additional audit documentation of the other auditor relating to significant findings or issues in the engagement completion document.

^{1/} As it relates to the direction in paragraph .19 of AU sec. 324, for the auditor to "give consideration to the guidance in section 543.12," the auditor need not, in this circumstance, obtain the previously enumerated documents.

[Effective pursuant to SEC Release No. 34-50688, File No. PCAOB-2004-07 (November 17, 2004)]

Conforming Amendments to PCAOB Interim Standards Resulting from the Adoption of PCAOB Auditing Standard No. 2, "An Audit Of Internal Control Over Financial Reporting Performed In Conjunction With An Audit Of Financial Statements"

Auditing Standards

AU sec. 310, "Appointment of the Independent Auditor"

Statement on Auditing Standards ("SAS") No. 1, "Codification of Auditing Standards and Procedures," AU sec. 310, "Appointment of the Independent Auditor," as amended by SAS No. 45, "Omnibus Statement on Auditing Standards-1983," SAS No. 83, "Establishing an Understanding With the Client," and SAS No. 89, "Audit Adjustments" (AU sec. 310, "Appointment of the Independent Auditor"), is amended as follows:

- a. The first sentence of paragraph .06 is amended to read as follows:

An understanding with the client generally includes the following matters.

- b. The first bullet point of paragraph .06 is amended to read as follows:

The objective of the audit is:

- Integrated audit of financial statements and internal control over financial reporting: The expression of an opinion on both management's assessment of internal control over financial reporting and on the financial statements.
- Audit of financial statements: The expression of an opinion on the financial statements.

- c. The third bullet point of paragraph .06 is amended to read as follows:

Management is responsible for establishing and maintaining effective internal control over financial reporting. In an integrated audit of financial statements and internal control over financial reporting, an auditor is required to communicate, in writing, to management and the audit committee that the audit of internal control over financial reporting cannot be satisfactorily completed and that he or she is required to disclaim an opinion if management has not:

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

- Accepted responsibility for the effectiveness of the company's internal control over financial reporting.
 - Evaluated the effectiveness of the company's internal control over financial reporting using suitable control criteria,
 - Supported its evaluation with sufficient evidence, including documentation, and
 - Presented a written assessment of the effectiveness of the company's internal control over financial reporting as of the end of the company's most recent fiscal year.
- d. The seventh bullet point of paragraph .06 is amended to read as follows:

The auditor is responsible for conducting the audit in accordance with the standards of the Public Company Accounting Oversight Board. Those standards require that the auditor:

- Integrated audit of financial statements and internal control over financial reporting: Obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud, and whether management's assessment of the effectiveness of the company's internal control over financial reporting is fairly stated in all material respects. Accordingly, there is some risk that a material misstatement of the financial statements or a material weakness in internal control over financial reporting would remain undetected. Although not absolute assurance, reasonable assurance is, nevertheless, a high level of assurance. Also, an integrated audit is not designed to detect error or fraud that is immaterial to the financial statements or deficiencies in internal control over financial reporting that, individually or in combination, are less severe than a material weakness. If, for any reason, the auditor is unable to complete the audit or is unable to form or has not formed an opinion, he or she may decline to express an opinion or decline to issue a report as a result of the engagement.
- Audit of financial statements: Obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. Accordingly, there is some risk that a material misstatement would remain undetected. Although not absolute assurance, reasonable assurance is, nevertheless, a high level of assurance. Also, a financial statement audit is not designed to detect error or fraud that is immaterial to the financial statements. If, for any reason, the auditor is unable to complete the

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

audit or is unable to form or has not formed an opinion, he or she may decline to express an opinion or decline to issue a report as a result of the engagement.

- e. The eighth bullet point of paragraph .06 is amended to read as follows:

An audit includes:

- Integrated audit of financial statements and internal control over financial reporting: Planning and performing the audit to obtain reasonable assurance about whether the company maintained, in all material respects, effective internal control over financial reporting as of the date specified in management's assessment. The auditor is also responsible for obtaining an understanding of internal control sufficient to plan the financial statement audit and to determine the nature, timing, and extent of audit procedures to be performed. The auditor is also responsible for communicating in writing:
 - To the audit committee - all significant deficiencies and material weaknesses identified during the audit.
 - To management - all internal control deficiencies identified during the audit and not previously communicated in writing by the auditor or by others, including internal auditors or others inside or outside the company.

To the board of directors – any specific significant deficiency or material weakness identified because the auditor concludes that the audit committee's oversight of the company's external financial reporting and internal control over financial reporting is ineffective.
- Audit of financial statements: Obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify internal control deficiencies. However, the auditor is responsible for communicating in writing:
 - To the audit committee - all significant deficiencies and material weaknesses identified during the audit.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

- To the board of directors – if the auditor becomes aware that the oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, that specific significant deficiency or material weakness.

AU sec. 311, "Planning and Supervision"

SAS No. 22, "Planning and Supervision," as amended by SAS No. 47, "Audit Risk and Materiality in Conducting an Audit," SAS No. 48, "The Effects of Computer Processing on the Audit of Financial Statements," and SAS No. 77, "Amendments to Statements on Auditing Standards No. 22, 'Planning and Supervision,' No. 59, 'The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern,' No. 62, 'Special Reports'" (AU sec. 311, "Planning and Supervision"), is amended by adding the following note after paragraph 1:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraph 39 of PCAOB Auditing Standard No. 2 regarding planning considerations in addition to the planning considerations set forth in this section.

AU sec. 312, "Audit Risk and Materiality in Conducting an Audit"

SAS No. 47, "Audit Risk and Materiality in Conducting an Audit," as amended by SAS No. 82, "Consideration of Fraud in a Financial Statement Audit," SAS No. 96, "Audit Documentation," and SAS No. 98, "Omnibus Statement on Auditing Standards--2002" (AU sec. 312, "Audit Risk and Materiality in Conducting an Audit"), is amended as follows:

- a. The following note is added after paragraph 3.

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 22-23 of PCAOB Auditing Standard No. 2 regarding materiality considerations.

- b. The following note is added after paragraph 5.

Note: An integrated audit of financial statements and internal control over financial reporting is not designed to detect deficiencies in internal control over financial reporting that, individually or in the aggregate, are less severe than a material weakness.

- c. The following note is added after paragraph 7.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 24-26 of PCAOB Auditing Standard No. 2 regarding fraud considerations.

- d. The following note is added after paragraph 12.

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 22-23 and 39 of PCAOB Auditing Standard No. 2 regarding materiality and planning considerations, respectively.

- e. The following note is added after paragraph 18.

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to Appendix B, "Additional Performance Requirements and Directions; Extent-of-Testing Examples," of PCAOB Auditing Standard No. 2 for considerations when a company has multiple locations or business units.

- f. The following note is added after paragraph 30.

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 147-149 of PCAOB Auditing Standard No. 2 regarding tests of controls.

AU sec. 313, "Substantive Tests Prior to the Balance-Sheet Date"

SAS No. 45, "Omnibus Statement on Auditing Standards--1983" (AU sec. 313, "Substantive Tests Prior to the Balance-Sheet Date"), is amended by adding the following note after paragraph 1:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 98-103 of PCAOB Auditing Standard No. 2 regarding timing of tests of controls.

AU sec. 316, "Consideration of Fraud in a Financial Statement Audit"

SAS No. 99, "Consideration of Fraud in a Financial Statement Audit" (AU sec. 316, "Consideration of Fraud in a Financial Statement Audit"), is amended as follows:

- a. The following note is added after paragraph 1:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 24-26 of PCAOB Auditing Standard No. 2 regarding fraud considerations, in addition to the fraud consideration set forth in this section.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

- b. In paragraph 80, the phrase "the auditor should consider whether these risks represent reportable conditions relating to the entity's internal control that should be communicated to senior management and the audit committee" is replaced by "the auditor should consider whether these risks represent significant deficiencies that must be communicated to senior management and the audit committee" and the reference to section 325, "Communication of Internal Control Related Matters Noted in an Audit," paragraph .04 is replaced by the reference to section 325, "Communications About Control Deficiencies in An Audit of Financial Statements," paragraph 4.

AU sec. 319, "Consideration of Internal Control in a Financial Statement Audit"

SAS No. 55, "Consideration of Internal Control in a Financial Statement Audit," as amended by SAS No. 78, "Consideration of Internal Control in a Financial Statement Audit: An Amendment of Statement on Auditing Standards No. 55," and SAS No. 94, "The Effect of Information Technology on the Auditor's Consideration of Internal Control in a Financial Statement Audit" (AU sec. 319, "Consideration of Internal Control in a Financial Statement Audit"), is amended as follows:

- a. In paragraph 2, the term "assertions" is replaced by the term "relevant assertions."
- b. The following sentence is added at the end of paragraph 2:
- Regardless of the assessed level of control risk, the auditor should perform substantive procedures for all relevant assertions related to all significant accounts and disclosures in the financial statements.
- c. The following note is added after paragraph 2:
- Note: Refer to paragraphs 68-70 of PCAOB Auditing Standard No. 2 for discussion of identifying relevant financial statement assertions.
- d. The following note is added after paragraph 9:
- Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to Appendix B, "Additional Performance Requirements and Directions; Extent-of-Testing Examples," of PCAOB Auditing Standard No. 2 for discussion of considerations when a company has multiple locations or business units.
- e. The following note is added after paragraph 42:
- Note: For purposes of evaluating the effectiveness of internal control over financial reporting, the auditor's understanding of control activities

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

encompasses a broader range of accounts and disclosures than what is normally obtained in a financial statement audit.

- f. The following note is added after paragraph 65:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, if the auditor assesses control risk as other than low for certain assertions or significant accounts, the auditor should document the reasons for that conclusion.

- g. The following note is added after paragraph 83:

Note: In an integrated audit of financial statements and internal control over financial reporting, PCAOB Auditing Standard No. 2 states, in part, that "If, however, the auditor assesses control risk as other than low for certain assertions or significant accounts, the auditor should document the reasons for that conclusion." Accordingly, if control risk is assessed at the maximum level, the auditor should document the basis for that conclusion. Refer to paragraphs 159-161 of PCAOB Auditing Standard No. 2 for additional information regarding documentation requirements.

- h. The following note is added after paragraph 97:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 104-105 of PCAOB Auditing Standard No. 2 for discussion on the extent of tests of controls.

- i. The last sentence of paragraph 107 is replaced with the following sentence:

Consequently, regardless of the assessed level of control risk, the auditor should perform substantive procedures for all relevant assertions related to all significant accounts and disclosures in the financial statements.

AU sec. 322, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements"

SAS No. 65, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements" (AU sec. 322, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements"), is amended as follows:

- a. The following note is added after paragraph 1:

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 108-126 of PCAOB Auditing Standard No. 2 for discussion on using the work of others to alter the nature, timing, and extent of the work that otherwise would have been performed to test controls.

- b. The second sentence of paragraph 16 is replaced with the following sentence:

The auditor assesses control risk for each of the relevant financial statement assertions related to all significant accounts and disclosures in the financial statements and performs tests of controls to support assessments below the maximum.

- c. The following note is added after paragraph 20:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 112-116 of PCAOB Auditing Standard No. 2 regarding evaluating the nature of controls subjected to the work of others.

- d. The following note is added after paragraph 22:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraph 122 of PCAOB Auditing Standard No. 2 regarding assessing the interrelationship of the nature of the controls and the competence and objectivity of those who performed the work.

AU sec. 324, "Service Organizations"

SAS No. 70, "Service Organizations," as amended by SAS No. 78, "Consideration of Internal Control in a Financial Statement Audit: An Amendment to Statement on Auditing Standard No. 55," SAS No. 88, "Service Organizations and Reporting on Consistency," and SAS No. 98, "Omnibus Statement on Auditing Standards – 2002" (AU sec. 324, "Service Organizations"), is amended as follows:

- a. The following note is added after paragraph 1:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs B18-B29 of Appendix B, "Additional Performance Requirements and Directions; Extent-of-Testing Examples," in PCAOB Auditing Standard No. 2 regarding the use of service organizations.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

- b. In paragraph 20, the term "reportable conditions" is replaced by the term "significant deficiencies" and the reference to section 325, "Communication of Internal Control Related Matters Noted in an Audit," is replaced by the reference to section 325, "Communications About Control Deficiencies in An Audit of Financial Statements."

AU sec. 325, "Communication of Internal Control Related Matters Noted in an Audit"

SAS No. 60, "Communication of Internal Control Related Matters Noted in an Audit," as amended by SAS No. 78, "Consideration of Internal Control in a Financial Statement Audit: An Amendment to Statement on Auditing Standards No. 55," and SAS No. 87, "Restricting the Use of an Auditor's Report" (AU sec. 325, "Communication of Internal Control Related Matters Noted in an Audit"), is superseded.

- In an integrated audit of financial statements and internal control over financial reporting, SAS No. 60, as amended, is superseded by paragraphs 207-214 of PCAOB Auditing Standard No. 2.
- In an audit of financial statements only, SAS No. 60, as amended, is superseded by the following paragraphs.

Communications about Control Deficiencies in An Audit of Financial Statements

1. In an audit of financial statements, the auditor may identify deficiencies in the company's internal control over financial reporting. A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

- A deficiency in design exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective is not always met.
- A deficiency in operation exists when a properly designed control does not operate as designed or when the person performing the control does not possess the necessary authority or qualifications to perform the control effectively.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

2. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the company's ability to initiate, authorize, record, process, or report external financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the company's annual or interim financial statements that is more than inconsequential will not be prevented or detected.

Note: The term "remote likelihood" as used in the definitions of *significant deficiency* and *material weakness* (paragraph 3) has the same meaning as the term "remote" as used in Financial Accounting Standards Board Statement No. 5, *Accounting for Contingencies* ("FAS No. 5"). Paragraph 3 of FAS No. 5 states:

When a loss contingency exists, the likelihood that the future event or events will confirm the loss or impairment of an asset or the incurrence of a liability can range from probable to remote. This Statement uses the terms probable, reasonably possible, and remote to identify three areas within that range, as follows:

- a. *Probable*. The future event or events are likely to occur.
- b. *Reasonably possible*. The chance of the future event or events occurring is more than remote but less than likely.
- c. *Remote*. The chance of the future events or events occurring is slight.

Therefore, the likelihood of an event is "more than remote" when it is either reasonably possible or probable.

Note: A misstatement is inconsequential if a reasonable person would conclude, after considering the possibility of further undetected misstatements, that the misstatement, either individually or when aggregated with other misstatements, would clearly be immaterial to the financial statements. If a reasonable person could not reach such a conclusion regarding a particular misstatement, that misstatement is *more than inconsequential*.

3. A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

Note: In evaluating whether a control deficiency exists and whether control deficiencies, either individually or in combination with other control deficiencies, are significant deficiencies or material weaknesses, the auditor should consider the definitions in paragraphs 1, 2 and 3, and the directions in paragraphs 130 through 137 of PCAOB Auditing Standard No. 2. As explained in paragraph 23 of PCAOB Auditing Standard No. 2, the evaluation of the materiality of the control deficiency should include both quantitative and qualitative considerations. Qualitative factors that might be important in this evaluation include the nature of the financial statement accounts and assertions involved and the reasonably possible future consequences of the deficiency. Furthermore, in determining whether a control deficiency, or combination of deficiencies, is a significant deficiency or a material weakness, the auditor should evaluate the effect of compensating controls and whether such compensating controls are effective.

4. The auditor must communicate in writing to management and the audit committee all significant deficiencies and material weaknesses identified during the audit. The written communication should be made prior to the issuance of the auditor's report on the financial statements. The auditor's communication should distinguish clearly between those matters considered significant deficiencies and those considered material weaknesses, as defined in paragraphs 2 and 3.

Note: If no such committee exists with respect to the company, all references to the audit committee in this standard apply to the entire board of directors of the company.^{1/} The auditor should be aware that companies whose securities are not listed on a national securities exchange or an automated inter-dealer quotation system of a national securities association (such as the New York Stock Exchange, American Stock Exchange, or NASDAQ) may not be required to have independent directors for their audit committees. In this case, the auditor should not consider the lack of independent directors or an audit committee at these companies indicative, by themselves, of a control deficiency. Likewise, the independence requirements of Securities Exchange Act Rule 10A-3^{2/} are not applicable to the listing of non-equity securities of a consolidated or at least 50 percent beneficially owned subsidiary of a listed issuer that is subject to the requirements of Securities Exchange Act Rule

^{1/} See 15 U.S.C. 78c(a)58 and 15 U.S.C. 7201(a)(3).

^{2/} See 17 C.F.R. 240.10A-3.

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

10A-3(c)(2).^{3/} Therefore, the auditor should interpret references to the audit committee in this standard, as applied to a subsidiary registrant, as being consistent with the provisions of Securities Exchange Act Rule 10A-3(c)(2).^{4/} Furthermore, for subsidiary registrants, communications required by this standard to be directed to the audit committee should be made to the same committee or equivalent body that pre-approves the retention of the auditor by or on behalf of the subsidiary registrant pursuant to Rule 2-01(c)(7) of Regulation S-X^{5/} (which might be, for example, the audit committee of the subsidiary registrant, the full board of the subsidiary registrant, or the audit committee of the subsidiary registrant's parent). In all cases, the auditor should interpret the terms "board of directors" and "audit committee" in this standard as being consistent with provisions for the use of those terms as defined in relevant SEC rules.

5. If oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, that circumstance should be regarded as at least a significant deficiency and as a strong indicator that a material weakness in internal control over financial reporting exists. Although there is not an explicit requirement to evaluate the effectiveness of the audit committee's oversight in an audit of only the financial statements, if the auditor becomes aware that the oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, the auditor must communicate that specific significant deficiency or material weakness in writing to the board of directors.

6. These written communications should include:
- a. The definitions of significant deficiencies and material weaknesses and should clearly distinguish to which category the deficiencies being communicated relate.
 - b. A statement that the objective of the audit was to report on the financial statements and not to provide assurance on internal control.

^{3/} See 17 C.F.R. 240.10A-3(c)(2).

^{4/} See 17 C.F.R. 240.10A-3(c)(2).

^{5/} See 17 C.F.R. 210.2-01(c)(7).

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

- c. A statement that the communication is intended solely for the information and use of the board of directors, audit committee, management, and others within the organization. When there are requirements established by governmental authorities to furnish such written communications, specific reference to such regulatory authorities may be made.

7. The auditor might identify matters in addition to those required to be communicated by this standard. Such matters include control deficiencies identified by the auditor that are neither significant deficiencies nor material weaknesses and matters the company may request the auditor to be alert to that go beyond those contemplated by this standard. The auditor may report such matters to management, the audit committee, or others, as appropriate.

8. The auditor should not report in writing that no significant deficiencies were discovered during an audit of financial statements because of the potential that the limited degree of assurance associated with such a report will be misunderstood.

9. When timely communication is important, the auditor should communicate the preceding matters during the course of the audit rather than at the end of the engagement. The decision about whether to issue an interim communication should be determined based on the relative significance of the matters noted and the urgency of corrective follow-up action required.

In an audit of financial statements only, auditing interpretation 1 to AU sec. 325, "Reporting on the Existence of Material Weaknesses," continues to apply except that the term "reportable condition" means "significant deficiency," as defined in paragraph 9 of PCAOB Auditing Standard No. 2.

AU sec. 326, "Evidential Matter"

SAS No. 31, "Evidential Matter," as amended by SAS No. 48, "The Effects of Computer Processing on the Audit of Financial Statements," and SAS No. 80, "Amendment to Statement on Auditing Standards No. 31, 'Evidential Matter'" (AU sec. 326, "Evidential Matter"), is amended by adding the following sentences at the end of paragraph 19:

Additionally, the auditor's substantive procedures must include reconciling the financial statements to the accounting records. The auditor's substantive procedures also should include examining material adjustments made during the course of preparing the financial statements.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

AU sec. 329, "Analytical Procedures"

SAS No. 56, "Analytical Procedures," as amended by SAS No. 96, "Audit Documentation" (AU sec. 329, "Analytical Procedures"), is amended as follows:

- a. The following sentence is added to the end of paragraph 9:

For significant risks of material misstatement, it is unlikely that audit evidence obtained from substantive analytical procedures alone will be sufficient.

- b. The following sentences are added to the end of paragraph 10:

When designing substantive analytical procedures, the auditor also should evaluate the risk of management override of controls. As part of this process, the auditor should evaluate whether such an override might have allowed adjustments outside of the normal period-end financial reporting process to have been made to the financial statements. Such adjustments might have resulted in artificial changes to the financial statement relationships being analyzed, causing the auditor to draw erroneous conclusions. For this reason, substantive analytical procedures alone are not well suited to detecting fraud.

- c. The following sentence is added to the beginning of paragraph 16:

Before using the results obtained from substantive analytical procedures, the auditor should either test the design and operating effectiveness of controls over financial information used in the substantive analytical procedures or perform other procedures to support the completeness and accuracy of the underlying information.

AU sec. 332, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities"

SAS No. 92, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities" (AU sec. 332, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities"), is amended by adding the following note after paragraph 11:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, PCAOB Auditing Standard No. 2 states, "the auditor must obtain sufficient competent evidence about the design and operating effectiveness of controls over all relevant financial statement assertions related to all significant accounts and disclosures in the financial statements." Therefore, in an integrated audit of financial statements and internal control over financial reporting, if a company's investment in derivatives and securities

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

represents a significant account, the auditor's understanding of controls should include controls over derivatives and securities transactions from their initiation to their inclusion in the financial statements and should encompass controls placed in operation by the entity and service organizations whose services are part of the entity's information system.

AU sec. 333, "Management Representations"

SAS No. 85, "Management Representations," as amended by SAS No. 89, "Audit Adjustments," and SAS No. 99 "Consideration of Fraud in a Financial Statement Audit" (AU sec. 333, "Management Representations"), is amended by adding the following note after paragraph 5:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 142-144 of PCAOB Auditing Standard No. 2 for additional required written representations to be obtained from management.

AU sec. 342, "Auditing Accounting Estimates"

SAS No. 57, "Auditing Accounting Estimates" (AU sec. 342, "Auditing Accounting Estimates"), is amended by adding the following note after paragraph 10:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, the auditor may use any of the three approaches. However, the work that the auditor performs as part of the audit of internal control over financial reporting should necessarily inform the auditor's decisions about the approach he or she takes to auditing an estimate because, as part of the audit of internal control over financial reporting, the auditor would be required to obtain an understanding of the process management used to develop the estimate and to test controls over all relevant assertions related to the estimate.

AU sec. 380, "Communication with Audit Committees"

SAS No. 61, "Communication with Audit Committees" (AU sec. 380, "Communication with Audit Committees"), is amended by replacing the title of Section 325 in the first bullet in footnote 1 in paragraph 1 with "Communications About Control Deficiencies in An Audit of Financial Statements" and adding the following after the last bullet in footnote 1 in paragraph 1:

- PCAOB Auditing Standard No. 2, An Audit of Internal Control Over Financial Reporting Performed in Conjunction with an Audit of Financial Statements.

AU sec. 508, "Reports on Audited Financial Statements"

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

SAS No. 58, "Reports on Audited Financial Statements," as amended by SAS No. 64, "Omnibus Statement on Auditing Standards – 1990," SAS No. 79, "Amendment to Statement on Auditing Standards No. 58, 'Reports on Audited Financial Statements,'" SAS No. 85, "Management Representations," SAS No. 93, "Omnibus Statement on Auditing Standards – 2000," and SAS No. 98, "Omnibus Statement on Auditing Standards – 2002" (AU sec. 508, "Reports on Audited Financial Statements"), is amended as follows:

- a. The following note is added after paragraph 1:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, the auditor may choose to issue a combined report or separate reports on the company's financial statements and on internal control over financial reporting. Refer to paragraphs 162-199 of PCAOB Auditing Standard No. 2 for direction on reporting on internal control over financial reporting. In addition, see Appendix A, "Illustrative Reports on Internal Control Over Financial Reporting," of PCAOB Auditing Standard No. 2 which includes an illustrative combined audit report and examples of separate reports.

- b. The following subparagraph is added to paragraph 8:

k. When performing an integrated audit of financial statements and internal control over financial reporting, if the auditor issues separate reports on the company's financial statements and on internal control over financial reporting, the following paragraph should be added to the auditor's report on the company's financial statements:

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of X Company's internal control over financial reporting as of December 31, 20X3, based on *[identify control criteria]* and our report dated *[date of report, which should be the same as the date of the report on the financial statements]* expressed *[include nature of opinions]*.

AU sec. 530, "Dating of the Independent Auditor's Report"

SAS No. 1, "Codification of Auditing Standards and Procedures," AU sec. 530, "Dating of the Independent Auditor's Report," as amended by SAS No. 29, "Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents," and SAS No. 98, "Omnibus Statement on Auditing Standards – 2002" (AU sec. 530, "Dating of the Independent Auditor's Report"), is amended by adding the following note after paragraph .01:

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

Note: When performing an integrated audit of financial statements and internal control over financial reporting, the auditor's reports on the company's financial statements and on internal control over financial reporting should be dated the same date. Refer to paragraphs 171-172 of PCAOB Auditing Standard No. 2, which provide direction with respect to the report date in an audit of internal control over financial reporting.

AU sec. 532, "Restricting the Use of an Auditor's Report"

SAS No. 87, "Restricting the Use of an Auditor's Report," (AU sec. 532, "Restricting the Use of an Auditor's Report"), is amended by replacing "Section 325, Communication of Internal Control Related Matters Noted in an Audit" in the first bullet of paragraph .07 with "Section 325, Communications About Control Deficiencies in An Audit of Financial Statements."

AU sec. 543, "Part of Audit Performed by Other Independent Auditors"

SAS No. 1, "Codification of Auditing Standards and Procedures," AU sec. 543, "Part of Audit Performed by Other Independent Auditors," as amended by SAS No. 64, "Omnibus Statement on Auditing Standards – 1990" (AU sec. 543, "Part of Audit Performed by Other Independent Auditors"), is amended by adding the following note after paragraph .01:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 182-185 of PCAOB Auditing Standard No. 2, which provide direction with respect to opinions based, in part, on the report of another auditor in an audit of internal control over financial reporting.

AU sec. 9550, "Other Information in Documents Containing Audited Financial Statements: Auditing Interpretations of Section 550"

AU sec. 9550, "Other Information in Documents Containing Audited Financial Statements: Auditing Interpretations of Section 550," is amended by replacing the term "reportable conditions" with the term "significant deficiencies" in footnote 8 to paragraph 15 and also replaces in that footnote the reference to Section 325.17 with the reference Section 325.8.

AU sec. 560, "Subsequent Events"

SAS No. 1, "Codification of Auditing Standards and Procedures," AU sec. 560, "Subsequent Events," as amended by SAS No. 12, "Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments," and SAS No. 98, "Omnibus Statement on Auditing Standards – 2002" (AU sec. 560, "Subsequent Events"), is amended by adding the following note after paragraph .01:

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 186-189 of PCAOB Auditing Standard No. 2, which provide direction with respect to subsequent events in an audit of internal control over financial reporting.

AU sec. 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report"

SAS No. 1, "Codification of Auditing Standards and Procedures," AU sec. 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report," as amended by SAS No. 98, "Omnibus Statement on Auditing Standards – 2002" (AU sec. 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report"), is amended by adding the following note after paragraph .01:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraph 197 of PCAOB Auditing Standard No. 2, which provides direction with respect to the subsequent discovery of information existing at the date of the auditor's report on internal control over financial reporting.

AU sec. 634, "Letters for Underwriters and Certain Other Requesting Parties"

SAS No. 72, "Letters for Underwriters and Certain Other Requesting Parties," as amended by SAS No. 76, "Amendments to Statement on Auditing Standards No. 72, Letters for Underwriters and Certain Other Requesting Parties," and SAS No. 86, "Amendment to Statement on Auditing Standards No. 72, Letters for Underwriters and Certain Other Requesting Parties" (AU sec. 634, "Letters for Underwriters and Certain Other Requesting Parties") is amended by replacing the reference to "Section 325, Communication of Internal Control Related Matters Noted in an Audit" with "Section 325, Communications About Control Deficiencies in An Audit of Financial Statements."

AU sec. 711, "Filings Under Federal Securities Statutes"

SAS No. 37, "Filings Under Federal Securities Statutes" (AU sec. 711, "Filings Under Federal Securities Statutes"), is amended by adding the following note after paragraph 2:

Note: When performing an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 198-199 of PCAOB Auditing Standard No. 2, which provide direction when an auditor's report on internal control over financial reporting is included or incorporated by reference in filings under federal securities statutes.

AU sec. 722, "Interim Financial Information"

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

SAS No. 100, "Interim Financial Information" (AU sec. 722, "Interim Financial Information"), is amended as follows:

- a. The following note is added after paragraph 3:

Note: When an auditor is engaged to perform an integrated audit of financial statements and internal control over financial reporting, refer to paragraphs 202-206 of PCAOB Auditing Standard No. 2, which provide direction regarding the auditor's evaluation responsibilities as they relate to management's quarterly certifications on internal control over financial reporting.

- b. In paragraph 9, the term "reportable conditions" is replaced by the term "significant deficiencies."
- c. In paragraph 33, the term "reportable conditions" is replaced by the term "significant deficiencies." Also, the third sentence is replaced by the following:

A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the company's ability to initiate, authorize, record, process, or report external financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the company's annual or interim financial statements that is more than inconsequential will not be prevented or detected.

- d. The reference in footnote 22 to paragraph 33 to "Section 325, Communication of Internal Control Related Matters in an Audit" is replaced with "Section 325, Communications About Control Deficiencies in An Audit of Financial Statements."

Attestation Standards

AT sec. 501, "Reporting on an Entity's Internal Control Over Financial Reporting"

Chapter 5, "Reporting on an Entity's Internal Control Over Financial Reporting," of Statement on Standards for Attestation Engagements No. 10, "Attestation Standards: Revision and Recodification" (AT sec. 501, "Reporting on an Entity's Internal Control Over Financial Reporting"), and its related interpretation (AT sec. 9501, "Reporting on an Entity's Internal Control Over Financial Reporting: Attest Engagements Interpretations of Section 501"), are superseded by the conforming amendments and, accordingly, are no longer interim standards of the Board.

Independence Standards

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

ET sec. 101.05

Rule 101, "Independence" (ET sec. 101.05) is amended by adding the following note after the second paragraph of interpretation 101-3, "Performance of Other Services:"

Note: Paragraph 33 of PCAOB Auditing Standard No. 2 contains an additional requirement related to audit committee pre-approval of internal control-related services.

Conforming Amendment to PCAOB Auditing and Related Professional Practice Standards Resulting from the Adoption of the Auditing Standard No. 4 – Reporting on Whether a Previously Reported Material Weakness Continues to Exist

Attestation Standards

The Board's interim attestation standards include the Statements on Standards for Attestation Engagements promulgated by the ASB, as in existence on April 16, 2003. The conforming amendment to the Board's interim attestation standards is as follows:

- *AT sec. 101, Attest Engagements*

AT sec. 101 is amended by adding as letter f. to paragraph .04, the following:

Engagements in which the practitioner is engaged to report on whether a material weakness in internal control over financial reporting continues to exist for any purpose other than the company's internal use. Such engagements must be conducted pursuant to PCAOB Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*.

[Effective pursuant to SEC Release No. 34-56152, File No. PCAOB-2007-02 (July 27, 2007)]

Conforming Amendments to PCAOB Auditing Standards

AU sec. 230, "Due Professional Care in the Performance of Work"

Statement on Auditing Standards ("SAS") No. 1, "Codification of Auditing Standards and Procedures," section 230, "Due Professional Care in the Performance of Work" (AU sec. 230, "Due Professional Care in the Performance of Work"), as amended, is amended as follows –

- a. Paragraph .10 is replaced with –

The exercise of due professional care allows the auditor to obtain *reasonable assurance* about whether the financial statements are free of material misstatement, whether caused by error or fraud, or whether any material weaknesses exist as of the date of management's assessment. Absolute assurance is not attainable because of the nature of audit evidence and the characteristics of fraud. Although not absolute assurance, reasonable assurance is a high level of assurance. Therefore, an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) may not detect a material weakness in internal control over financial reporting or a material misstatement to the financial statements.

- b. The term "financial statements" within the first sentence of paragraph .13 is replaced with the term "financial statements or internal control over financial reporting."
- c. The second sentence of paragraph .13 is replaced with –

Therefore, the subsequent discovery that either a material misstatement, whether from error or fraud, exists in the financial statements or a material weakness in internal control over financial reporting exists does not, in and of itself, evidence (a) failure to obtain reasonable assurance, (b) inadequate planning, performance, or judgment, (c) the absence of due professional care, or (d) a failure to comply with the standards of the Public Company Accounting Oversight Board (United States).

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

AU sec. 310, "Appointment of the Independent Auditor"

SAS No. 1, "Codification of Auditing Standards and Procedures," section 310, "Appointment of the Independent Auditor" (AU sec. 310, "Appointment of the Independent Auditor"), as amended, is amended as follows –

- a. The third bullet point of paragraph .06 is replaced with –

Management is responsible for establishing and maintaining effective internal control over financial reporting. If, in an integrated audit of financial statements and internal control over financial reporting, the auditor concludes that he or she cannot express an opinion on internal control over financial reporting because there has been a limitation on the scope of the audit, he or she should communicate, in writing, to management and the audit committee that the audit of internal control over financial reporting cannot be satisfactorily completed.

- b. The eighth bullet point of paragraph .06 is amended as follows –

Under Integrated audit of financial statements and internal control over financial reporting, the last sub-bullet point is replaced with the following –

To the board of directors – any conclusion that the audit committee's oversight of the company's external financial reporting and internal control over financial reporting is ineffective.

Under Audit of financial statements, the last sub-bullet is replaced with the following –

To the board of directors – if the auditor becomes aware that the oversight of the company's external financial reporting and internal control over financial reporting by the audit committee is ineffective, that conclusion.

AU sec. 311, "Planning and Supervision"

SAS No. 22, "Planning and Supervision" (AU sec. 311, "Planning and Supervision"), as amended, is amended as follows –

SAS No. 55, "Consideration of Internal Control in a Financial Statement Audit" (AU sec. 319, "Consideration of Internal Control in a Financial Statement Audit"), as amended, is amended as follows –

- a. The note to paragraph 2 is replaced with –

Note: Refer to paragraph A9 of Appendix A, *Definitions*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* for the definition of a relevant assertion and paragraphs 28-33 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* for discussion of identifying relevant assertions.
- b. Within the note to paragraph 9, the reference to Appendix B, *Additional Performance Requirements and Directions; Extent of Testing Examples*, of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs B10-B16 of Appendix B, *Special Topics*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- c. The last sentence of paragraph 33 is deleted.
- d. The note to paragraph 65 is deleted.
- e. The note to paragraph 83 is deleted.
- f. Within the note to paragraph 97, the reference to paragraphs 104-105 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraph 54 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- g. The appendix at paragraph 110 is deleted.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

AU sec. 322, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements"

SAS No. 65, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements" (AU sec. 322, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements"), is amended as follows –

- a. Within the note to paragraph 1, the reference to paragraphs 108-126 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 16-19 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- b. The note to paragraph 20 is deleted.
- c. Within the note to paragraph 22, the reference to paragraph 122 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 18-19 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

AU sec. 324, "Service Organizations"

SAS No. 70, "Service Organizations" (AU sec. 324, "Service Organizations"), as amended, is amended as follows –

Within the note to paragraph 1, the reference to Appendix B, *Additional Performance Requirements and Directions; Extent-of-Testing Examples*, of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs B17-B27 of Appendix B, *Special Topics*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

AU sec. 325, "Communications About Control Deficiencies in an Audit of Financial Statements"^{1/}

AU sec. 325, "Communications About Control Deficiencies in an Audit of Financial Statements" is amended as follows –

- a. The first bullet point before paragraph 1 is amended as follows –

The reference to paragraphs 207-214 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 78-84 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

- b. The first bullet point in paragraph 1 is replaced with –

A deficiency in design exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met.

- c. Paragraph 2 is replaced with –

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting, that is less severe than a material weakness yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

^{1/} When the Board adopted Auditing Standard No. 2, it superseded SAS No. 60 in the context of an integrated audit of financial statements and internal control over financial reporting by paragraphs 207-214 of Auditing Standard No. 2. See PCAOB Release No. 2004-008, *Conforming Amendments to PCAOB Interim Standards Resulting From the Adoption of PCAOB Auditing Standard No. 2, "An Audit of Internal Control Over Financial Reporting Performed in Conjunction with An Audit of Financial Statements"* (Sept. 15, 2004). As a result of superseding Auditing Standard No. 2, paragraphs 78-84 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, now supersede SAS No. 60 in the context of an integrated audit.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

d. The notes to paragraph 2 are deleted.

e. Paragraph 3 is replaced with –

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Note: There is a reasonable possibility of an event when the likelihood of the event is either "reasonably possible" or "probable," as those terms are used in paragraph 3 of Financial Accounting Standards Board Statement No. 5, *Accounting for Contingencies*.

Note: In evaluating whether a deficiency exists and whether deficiencies, either individually or in combination with other deficiencies, are material weaknesses, the auditor should follow the direction in paragraphs 62-70 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

f. Paragraph 5 is replaced with –

If oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, that circumstance should be regarded as an indicator that a material weakness in internal control over financial reporting exists. Although there is not an explicit requirement to evaluate the effectiveness of the audit committee's oversight in an audit of only the financial statements, if the auditor becomes aware that the oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, the auditor must communicate that information in writing to the board of directors.

g. The last sentence of paragraph 9 is replaced with –

In an audit of financial statements only, auditing interpretation 1 to AU sec. 325, "Reporting on the Existence of Material Weaknesses," continues to apply except that the term "reportable condition" means "significant deficiency" as defined in paragraph 2 of this standard.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

AU sec. 9325, "Communication of Internal Control Related Matters Noted in an Audit: Auditing Interpretations of Section 325"

AU sec. 9325, "Communication of Internal Control Related Matters Noted in an Audit: Auditing Interpretations of Section 325" is amended as follows –

The note prior to paragraph 1 is replaced with –

Note: In an audit of financial statements only, auditing interpretation 1 to AU sec. 325, "Reporting on the Existence of Material Weaknesses," continues to apply except that the term "reportable condition" means "significant deficiency" as defined in paragraph 2 of this standard. Within the example report within paragraph 4 of the interpretation, the third sentence is replaced with the definition of a material weakness in paragraph A7 of Appendix A, *Definitions*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

AU sec. 328, "Auditing Fair Value Measurements and Disclosures"

SAS No. 101, "Auditing Fair Value Measurements and Disclosures" (AU sec. 328, "Auditing Fair Value Measurements and Disclosures"), is amended as follows –

The first sentence of paragraph 41 is replaced with –

Events and transactions that occur after the balance-sheet date but before the date of the auditor's report (for example, a sale of an investment shortly after the balance-sheet date), may provide audit evidence regarding management's fair value measurements as of the balance-sheet date ^{7/}

^{7/} The auditor's consideration of a subsequent event or transaction, as contemplated in this paragraph, is a substantive test and thus differs from the review of subsequent events performed pursuant to section 560, *Subsequent Events*.

AU sec. 332, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities"

SAS No. 92, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities" (AU sec. 332, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities"), is amended as follows –

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

The note to paragraph 11 is replaced with –

Note: When performing an integrated audit of financial statements and internal control over financial reporting, paragraph 39 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, states "[t]he auditor should test those controls that are important to the auditor's conclusion about whether the company's controls sufficiently address the assessed risk of misstatement to each relevant assertion." Therefore, in an integrated audit of financial statements and internal control over financial reporting, if there are relevant assertions related to the company's investment in derivatives and securities, the auditor's understanding of controls should include controls over derivatives and securities transactions from their initiation to their inclusion in the financial statements and should encompass controls placed in operation by the entity and service organizations whose services are part of the entity's information system.

AU sec. 333, "Management Representations"

SAS No. 85, "Management Representations" (AU sec. 333, "Management Representations"), as amended, is amended as follows –

a. Within the note to paragraph 5, the reference to paragraphs 142-144 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 75-77 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

b. The second sentence of paragraph 9 is replaced with –

Because the auditor is concerned with events occurring through the date of his or her report that may require adjustment to or disclosure in the financial statements, the representations should be made as of the date of the auditor's report.

AU sec. 9337, "Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments: Auditing Interpretations of Section 337"

AU sec. 9337, "Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments: Auditing Interpretations of Section 337" is amended as follows –

a. The last sentence of paragraph 4 is replaced with –

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

What is the relationship between the effective date of the lawyer's response and the date of the auditor's report?

- b. Paragraph 5 is replaced with –

Interpretation – Section 560.10 through .12 indicates that the auditor is concerned with events, which may require adjustment to, or disclosure in, the financial statements, occurring through the date of his or her report. Therefore, the latest date of the period covered by the lawyer's response (the "effective date") should be as close to the date of the auditor's report as is practicable in the circumstances. Consequently, specifying the effective date of the lawyer's response to reasonably approximate the expected date of the auditor's report will in most instances obviate the need for an updated response from the lawyer.

AU sec. 341, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"

SAS No. 59, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern" (AU sec. 341, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"), as amended, is amended as follows –

- The second sentence of paragraph 2 is replaced with –

The auditor's evaluation is based on his or her knowledge of relevant conditions and events that exist at or have occurred prior to the date of the auditor's report.

AU sec. 342, "Auditing Accounting Estimates"

SAS No. 57, "Auditing Accounting Estimates" (AU sec. 342, "Auditing Accounting Estimates"), is amended as follows –

- a. Subparagraph c. of paragraph 10 is replaced with –

c. Review subsequent events or transactions occurring prior to the date of the auditor's report.

- b. Paragraph 13 is replaced with –

Review subsequent events or transactions. Events or transactions sometimes occur subsequent to the date of the balance sheet, but prior to the date of the auditor's report, that are important in identifying and evaluating the

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

reasonableness of accounting estimates or key factors or assumptions used in the preparation of the estimate. In such circumstances, an evaluation of the estimate or of a key factor or assumption may be minimized or unnecessary as the event or transaction can be used by the auditor in evaluating their reasonableness.

AU sec. 380, "Communication With Audit Committees"

SAS No. 61, "Communication With Audit Committees" (AU sec. 380, "Communication With Audit Committees"), as amended, is amended as follows –

Within footnote 1 to paragraph 1, the reference to PCAOB Auditing Standard No. 2 is replaced with a reference to PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

AU sec. 508, "Reports on Audited Financial Statements"

SAS No. 58, "Reports on Audited Financial Statements" (AU sec. 508, "Reports on Audited Financial Statements"), as amended, is amended as follows –

Within the note to paragraph 1, the reference to paragraphs 162-199 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 85-98 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* and Appendix C, *Special Reporting Situations*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*. The sentence that reads "In addition, see Appendix A, *Illustrative Reports on Internal Control Over Financial Reporting*, of PCAOB Auditing Standard No. 2, which includes an illustrative combined audit report and examples of separate reports," is replaced with, "In addition, see paragraphs 86-88 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* which includes an illustrative combined audit report."

AU sec. 530, "Dating of the Independent Auditor's Report"

SAS No. 1, "Codification of Auditing Standards and Procedures," section 530, "Dating of the Independent Auditor's Report" (AU sec. 530, "Dating of the Independent Auditor's Report"), as amended, is amended as follows –

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

- a. Paragraph .01 is replaced with –

The auditor should date the audit report no earlier than the date on which the auditor has obtained sufficient competent evidence to support the auditor's opinion. Paragraph .05 describes the procedure to be followed when a subsequent event occurring after the report date is disclosed in the financial statements.

Note: When performing an integrated audit of financial statements and internal control over financial reporting, the auditor's reports on the company's financial statements and on internal control over financial reporting should be dated the same date.

Note: If the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an opinion on the financial statements, then the auditor's report date is the date that the auditor has obtained sufficient competent evidence to support the representations in the auditor's report.

- b. Paragraph .05 is replaced with –

The independent auditor has two methods for dating the report when a subsequent event disclosed in the financial statements occurs after the auditor has obtained sufficient competent evidence on which to base his or her opinion, but before the issuance of the related financial statements. The auditor may use "dual dating," for example, "February 16, 20__," except for Note __, as to which the date is March 1, 20__," or may date the report as of the later date. In the former instance, the responsibility for events occurring subsequent to the original report date is limited to the specific event referred to in the note (or otherwise disclosed). In the latter instance, the independent auditor's responsibility for subsequent events extends to the later report date and, accordingly, the procedures outlined in section 560.12 generally should be extended to that date.

- c. Within the heading before paragraph .03, the reference to "completion of field work" is replaced with "the date of the independent auditor's report."

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

AU sec. 543, "Part of Audit Performed by Other Independent Auditors"

SAS No. 1, "Codification of Auditing Standards and Procedures," section 543, "Part of Audit Performed by Other Independent Auditors" (AU sec. 543, "Part of Audit Performed by Other Independent Auditors"), as amended, is amended as follows –

Within the note to paragraph .01, the reference to paragraphs 182-185 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs C8-C11 of Appendix C, *Special Reporting Situations*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

AU sec. 560, "Subsequent Events"

SAS No. 1, "Codification of Auditing Standards and Procedures," section 560, "Subsequent Events" (AU sec. 560, "Subsequent Events"), as amended, is amended as follows –

- a. Within the note to paragraph .01, the reference to paragraphs 186-189 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs 93-97 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- b. The second sentence of paragraph .12 is replaced with –

These procedures should be performed at or near the date of the auditor's report.

AU sec. 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report"

SAS No. 1, "Codification of Auditing Standards and Procedures," section 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report" (AU sec. 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report"), as amended, is amended as follows –

Within the note to paragraph .01, the reference to paragraph 197 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraph 98 of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

AU sec. 711, "Filings Under Federal Securities Statutes"

SAS No. 37, "Filings Under Federal Securities Statutes" (AU sec. 711, "Filings Under Federal Securities Statutes"), is amended as follows –

- a. Within the note to paragraph 2, the reference to paragraphs 198-199 of PCAOB Auditing Standard No. 2 is replaced with a reference to paragraphs C16-C17 of Appendix C, *Special Reporting Situations*, of PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

- b. The third sentence of paragraph 10 is replaced with –

The likelihood that the auditor will discover subsequent events necessarily decreases following the date of the auditor's report, and, as a practical matter, after that time the independent auditor may rely, for the most part, on inquiries of responsible officials and employees.

AU sec. 722, "Interim Financial Information"

SAS No. 100, "Interim Financial Information" (AU sec. 722, "Interim Financial Information"), is amended as follows –

- a. The following is inserted after the first sentence of paragraph 3 –

The SEC also requires management, with the participation of the principal executive and financial officers (the certifying officers) to make certain quarterly and annual certifications with respect to the company's internal control over financial reporting.^{2/}

^{2/} See Section 302 of the Sarbanes-Oxley Act of 2002, and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), (17 C.F.R. § 240.13a-14a or 17 C.F.R. § 240.15d-14a), whichever applies.

- b. The note to paragraph 3 is deleted.
- c. The following is added to the end of paragraph 7 –

Likewise, the auditor's responsibility as it relates to management's quarterly certifications on internal control over financial reporting is

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

different from the auditor's responsibility as it relates to management's annual assessment of internal control over financial reporting. The auditor should perform limited procedures quarterly to provide a basis for determining whether he or she has become aware of any material modifications that, in the auditor's judgment, should be made to the disclosures about changes in internal control over financial reporting in order for the certifications to be accurate and to comply with the requirements of Section 302 of the Act.

Note: The auditor's responsibilities for evaluating management's certification disclosures about internal control over financial reporting take effect beginning with the first quarter after the company's first annual assessment of internal control over financial reporting as described in Item 308(a)(3) of Regulations S-B and S-K.

- d. The following lettered section is added to the end of paragraph 18 –
- g. Evaluating management's quarterly certifications about internal control over financial reporting by performing the following procedures –
- Inquiring of management about significant changes in the design or operation of internal control over financial reporting as it relates to the preparation of annual as well as interim financial information that could have occurred subsequent to the preceding annual audit or prior review of interim financial information;
 - Evaluating the implications of misstatements identified by the auditor as part of the auditor's other interim review procedures as they relate to effective internal control over financial reporting; and
 - Determining, through a combination of observation and inquiry, whether any change in internal control over financial reporting has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

- e. Paragraph 29 is replaced with –

As a result of conducting a review of interim financial information, the accountant may become aware of matters that cause him or her to believe that –

- a. material modification should be made to the interim financial information for it to conform with generally accepted accounting principles;
- b. modification to the disclosures about changes in internal control over financial reporting is necessary for the certifications to be accurate and to comply with the requirements of Section 302 of the Act and Securities Exchange Act Rule 13a-14(a) or 15d-14(a), whichever applies; and
- c. the entity filed the Form 10-Q or Form 10-QSB before the completion of the review.

In such circumstances, the accountant should communicate the matter(s) to the appropriate level of management as soon as practicable.

- f. Paragraph 32 is replaced with –

If the auditor becomes aware of information indicating that fraud or an illegal act has or may have occurred, the auditor must also determine his or her responsibilities under AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, AU sec. 317, *Illegal Acts by Clients*, and Section 10A of the Securities Exchange Act of 1934.^{1/}

^{1/} See 15 U.S.C. § 78j-1

- g. Within paragraph 33, the third sentence is replaced with –

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting, that is less severe than a material weakness yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

Auditing Standard No. 3, *Audit Documentation*

Auditing Standard No. 3, *Audit Documentation* is amended as follows –

Within footnote 2 to paragraph 6, the reference to paragraphs 68-70 of Auditing Standard No. 2 is replaced with a reference to paragraphs 28-33 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*

Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist* is amended as follows –

- a. Within note 1 to paragraph 1, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- b. Within paragraph 2, the two references to Auditing Standard No. 2 are replaced with references to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- c. Within the note to paragraph 2, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- d. Within paragraph 4, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- e. Paragraph 9 is replaced with –

The terms *internal control over financial reporting*, *deficiency*, *significant deficiency*, and *material weakness* have the same meanings as the definitions of those terms in Appendix A, *Definitions*, of Auditing Standard

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

- f. The first sentence of paragraph 10 is replaced with –

Paragraph 5 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, states “[t]he auditor should use the same suitable, recognized control framework to perform his or her audit of internal control over financial reporting as management uses for its annual evaluation of the effectiveness of the company's internal control over financial reporting.”

- g. Within the note to paragraph 10, the reference to Auditing Standard No. 2 in the first sentence is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, and the last sentence is amended as follows –

More information about the COSO framework is included within the COSO report.

- h. Paragraph 11 is replaced with –

The terms *relevant assertion* and *control objective* have the same meaning as the definitions of those terms in Appendix A, *Definitions*, of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

- i. Paragraph 13 is replaced with –

In an audit of internal control over financial reporting, the auditor should test the design effectiveness of controls by determining whether the company's controls, if they are operated as prescribed by persons possessing the necessary authority and competence to perform the control effectively, satisfy the company's control objectives and can effectively prevent or detect errors or fraud that could result in material misstatements in the financial statements.^{2/}

^{2/} See paragraph 42 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

- j. Within the note to paragraph 17, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- k. Within note 2 to paragraph 18, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- l. Within paragraph 21, the last sentence is deleted.
- m. Within paragraph 23, the reference to paragraphs 22 and 23 of Auditing Standard No. 2 is replaced with a reference to paragraph 20 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*. Additionally, the second sentence is deleted.
- n. Within paragraph 24, the reference to paragraph 39 of Auditing Standard No. 2 is replaced with a reference to paragraph 9 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- o. Within paragraph 25, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- p. Within the note to paragraph 25, the two references to Auditing Standard No. 2 are replaced with references to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- q. Within subparagraph a. of paragraph 26, the reference to paragraphs 47 through 51 of Auditing Standard No. 2 is replaced with a reference to paragraphs 22-27 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- r. Subparagraph b. of paragraph 26 is replaced with –

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

Perform the procedures described in paragraphs 34-38 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, for those transactions that are directly affected by controls specifically identified by management as addressing the material weakness.

- s. The note to subparagraph b. of paragraph 26 is deleted.
- t. Within paragraph 27, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- u. The note to paragraph 28 is deleted.
- v. Within paragraph 31, the reference to paragraphs 88 through 91 of Auditing Standard No. 2 is replaced with a reference to paragraphs 42-43 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- w. Paragraph 32 is replaced with –

Consistent with the direction in paragraphs 44-45 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, the auditor should test the operating effectiveness of a specified control by determining whether the specified control operated as designed and whether the person performing the control possesses the necessary authority and qualifications to perform the control effectively. In determining the nature, timing, and extent of tests of controls, the auditor should apply paragraphs 50-54 of Auditing Standard No. 5.

- x. Paragraph 33 is replaced with –

The auditor should perform tests of the specified controls over a period of time that is adequate to determine whether, as of the date specified in management's assertion, the controls necessary for achieving the stated control objective are operating effectively. The timing of the auditor's tests should vary with the risk associated with the control being tested. For example, a transaction-based, daily reconciliation generally would permit the auditor to obtain sufficient evidence as to its operating effectiveness in

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

a shorter period of time than a pervasive, entity-level control, such as any of those described in paragraphs 22-24 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*. Additionally, the auditor typically will be able to obtain sufficient evidence as to the operating effectiveness of controls over the company's period-end financial reporting process only by testing those controls in connection with a period-end.

- y. Within paragraph 35, the reference to paragraphs B1 through B13 of Appendix B of Auditing Standard No. 2 is replaced with a reference to paragraphs B10-B16 of Appendix B, *Special Topics*, of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- z. Within paragraph 36, the reference to paragraphs 109 through 115 and 117 through 125 of Auditing Standard No. 2 is replaced with a reference to paragraphs 16-19 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- aa. The second sentence of paragraph 37 is replaced with –

Therefore, if the auditor has been engaged to report on more than one material weakness or on more than one stated control objective, the auditor must evaluate whether he or she has obtained sufficient evidence that the control objectives related to each of the material weaknesses identified in management's assertion are achieved.
- bb. The first two sentences of paragraph 38 are replaced with –

Paragraphs 18-19 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, should be applied in the context of the engagement to report on whether a previously reported material weakness continues to exist.
- cc. The note to paragraph 38 is deleted.
- dd. The note to paragraph 39 is deleted.
- ee. Paragraph 42 is replaced with –

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

Management may conclude that a previously reported material weakness no longer exists because its severity has been sufficiently reduced such that it is no longer a material weakness.

- ff. Subparagraph f. of paragraph 44 is replaced with –
- Describing any fraud resulting in a material misstatement to the company's financial statements and any other fraud that does not result in a misstatement in the company's financial statements but involves senior management or management or other employees who have a significant role in the company's internal control over financial reporting and that has occurred or come to management's attention since the date of management's most recent annual assessment of internal control over financial reporting.
- gg. Within the note to subparagraph b. of paragraph 51, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- hh. Within the note to subparagraph l. of paragraph 51, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- ii. Within the note to the second bullet point of subparagraph o. of paragraph 51, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- jj. Within paragraph 52, the reference to Auditing Standard No. 2 is replaced with a reference to Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- kk. Within paragraph 63, the reference to paragraphs 202 through 206 of Auditing Standard No. 2 is replaced with a reference to paragraphs 7 and 29-32 of AU sec. 722, *Interim Financial Information*.

Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments

- II. Within paragraph 64, the reference to paragraphs 202 through 206 of Auditing Standard No. 2 is replaced with a reference to paragraphs 7 and 29-32 of AU sec. 722, *Interim Financial Information*.

PCAOB Release 2008-001
January 29, 2008

AMENDMENTS TO INTERIM AUDITING STANDARDS

AUDITING AND RELATED PROFESSIONAL PRACTICE STANDARDS

Amendments to Interim Auditing Standards

[Effective pursuant to SEC Release No. 34-58555, File No. PCAOB-2008-01 (September 16, 2008)]

Amendments to PCAOB Auditing Standards

Auditing Standards

AU sec. 328, "*Auditing Fair Value Measurements and Disclosures*"

Statement on Auditing Standards ("SAS") No. 101, "Auditing Fair Value Measurements and Disclosures," (AU sec. 328, "Auditing Fair Value Measurements and Disclosures"), as amended, is amended as follows:

- a. The text of footnote 4 to paragraph .19 is replaced with the following:

Statement of Financial Accounting Standard No. 157, *Fair Value Measurements*, states that a change in valuation technique or its application is appropriate if the change results in a measurement that is equally or more representative of fair value in the circumstances.

AU sec. 410, "*Adherence to Generally Accepted Accounting Principles*"

SAS No. 1, "Codification of Auditing Standards and Procedures," section 410 (AU sec. 410, "Adherence to Generally Accepted Accounting Principles"), as amended, is amended as follows:

- d. Paragraph .02 is replaced with following paragraph, and the reference to footnote 1 is moved to the end of the new paragraph .02.

The fourth standard of reporting is:

The report shall either contain an expression of opinion regarding the financial statements, taken as a whole, or an assertion to the effect that an opinion cannot be expressed. When an overall opinion cannot be expressed, the reasons therefor should be stated. In all cases where an auditor's name is associated with financial statements, the report should contain a clear-cut indication of the character of the auditor's work, if any, and the degree of responsibility the auditor is taking.

AU sec. 411, "*The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*"

SAS No. 69, "*The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*" (AU sec. 411, "*The Meaning of Present Fairly in*

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

Conformity With Generally Accepted Accounting Principles"), as amended, is amended as follows:

- a. The third sentence of paragraph .01 is replaced with the following:

The purpose of this section is to explain the meaning of "present fairly" as used in the phrase "present fairly . . . in conformity with generally accepted accounting principles." In applying this section, the auditor should look to the requirements of the Securities and Exchange Commission for the company under audit with respect to the accounting principles applicable to that company.

- b. Paragraphs .02, .05, .07, and .09-.18 are deleted.

AU sec. 9411, "The Meaning of *Present Fairly in Conformity With Generally Accepted Accounting Principles*, Auditing Interpretations of Section 411"

Auditing Interpretation No. 3, "The Auditor's Consideration of Management's Adoption of Accounting Principles for New Transactions or Events" of the auditing interpretations of AU sec. 411 (AU sec. 9411.11-.15) is deleted.

AU sec. 420, "Consistency of Application of Generally Accepted Accounting Principles," and AU sec. 9420, "Consistency of Application of Generally Accepted Accounting Principles, Auditing Interpretations of Section 420"

SAS No. 1, "Codification of Auditing Standards and Procedures," section 420 (AU sec. 420, "Consistency of Application of Generally Accepted Accounting Principles"), as amended, and the related auditing interpretations (AU sec. 9420) are superseded by PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*.

AU sec. 431, "Adequacy of Disclosure in Financial Statements"

SAS No. 32, "Adequacy of Disclosure in Financial Statements" (AU sec. 431, "Adequacy of Disclosure in Financial Statements") is amended as follows:

- a. Footnote 1 is deleted.
b. Paragraph .04 is deleted.

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

AU sec. 508, "Reports on Audited Financial Statements"

SAS No. 58, "Reports on Audited Financial Statements" (AU sec. 508, "Reports on Audited Financial Statements"), as amended, is amended as follows:

- a. In Paragraph .03, footnote 2 is deleted.
- b. In Paragraph .11, item .11b is deleted; item .11c is reordered as .11b; .11d is reordered as .11c; the paragraph references in .11c (formerly .11d) to paragraphs .16 through .18 are replaced with paragraph references .17A through .17E; and a new item .11d is added as follows:

"A material misstatement in previously issued financial statements has been corrected (paragraphs .18A through .18C)."

- c. Paragraphs .14-.15 are deleted, along with the preceding heading "Departure From a Promulgated Accounting Principle," and the note following the paragraph.

- d. The text of paragraph .16 is replaced with the following:

The auditor should recognize the following matters relating to the consistency of the company's financial statements in the auditor's report if those matters have a material effect on the financial statements:

- a. A change in accounting principle
- b. An adjustment to correct a misstatement in previously issued financial statements
- e. Paragraphs .17-.18 and related footnotes 12 and 13 are replaced with the following:

Change in Accounting Principle

.17A As discussed in PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*, the auditor should evaluate a change in accounting principle to determine whether (1) the newly adopted accounting principle is a generally accepted accounting principle, (2) the method of accounting for the effect of the change is in conformity with generally accepted accounting principles, (3) the disclosures related to the accounting change are adequate, and (4) the company has justified that the

Public Company Accounting Oversight Board Bylaws and Rules – Standards – Conforming Amendments

alternative accounting principle is preferable.^{12/} A change in accounting principle that has a material effect on the financial statements should be recognized in the auditor's report on the audited financial statements through the addition of an explanatory paragraph following the opinion paragraph. If the auditor concludes that the criteria in this paragraph have been met, the explanatory paragraph in the auditor's report should include identification of the nature of the change and a reference to the note disclosure describing the change.

^{12/} The issuance of an accounting pronouncement that requires use of a new accounting principle, interprets an existing principle, expresses a preference for an accounting principle, or rejects a specific principle is sufficient justification for a change in accounting principle, as long as the change in accounting principle is made in accordance with the hierarchy of generally accepted accounting principles. See FASB Statement 154, paragraph 14.

.17B Following is an example of an explanatory paragraph for a change in accounting principle resulting from the adoption of a new accounting pronouncement:

As discussed in Note X to the financial statements, the company has changed its method of accounting for [*describe accounting method change*] in [*year(s) of financial statements that reflect the accounting method change*] due to the adoption of [*name of accounting pronouncement*].

.17C Following is an example of an explanatory paragraph when the company has made a change in accounting principle other than a change due to the adoption of a new accounting pronouncement.

As discussed in Note X to the financial statements, the company has elected to change its method of accounting for [*describe accounting method change*] in [*year(s) of financial statements that reflect the accounting method change*].

.17D The explanatory paragraph relating to a change in accounting principle should be included in reports on financial statements in the year of the change and in subsequent years until the new accounting principle is applied in all periods presented. If the accounting change is accounted for by retrospective application to the financial statements of all prior periods presented, the additional paragraph is needed only in the year of the change.

.17E If the auditor concludes that the criteria in paragraph .17A for a change in accounting principle are not met, the auditor should consider the matter to be a

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

departure from generally accepted accounting principles and, if the effect of the change in accounting principle is material, issue a qualified or adverse opinion.

Correction of a Material Misstatement in Previously Issued Financial Statements

.18A Correction of a material misstatement in previously issued financial statements should be recognized in the auditor's report through the addition of an explanatory paragraph following the opinion paragraph.^{13/} The explanatory paragraph should include (1) a statement that the previously issued financial statements have been restated for the correction of a misstatement in the respective period and (2) a reference to the company's disclosure of the correction of the misstatement. Following is an example of an appropriate explanatory paragraph when there has been a correction of a material misstatement in previously issued financial statements.

As discussed in Note X to the financial statements, the 20X2 financial statements have been restated to correct a misstatement.

^{13/} The directions in paragraphs .68-.69 apply when comparative financial statements are presented and the opinion on the prior-period financial statements differs from the opinion previously expressed.

.18B This type of explanatory paragraph in the auditor's report should be included in reports on financial statements when the related financial statements are restated to correct the prior material misstatement. The paragraph need not be repeated in subsequent years.

.18C The accounting pronouncements generally require certain disclosures relating to restatements to correct a misstatement in previously issued financial statements. If the financial statement disclosures are not adequate, the auditor should address the lack of disclosure as discussed beginning at paragraph .41 and in AU sec. 431.

- f. Paragraph .50 is deleted.
- g. The text of paragraph .51 is replaced with the following:

Departures from generally accepted accounting principles related to changes in accounting principle. Paragraph .17A states the criteria for evaluating a change in accounting principle. If the auditor concludes that the criteria have not been met, he or she should consider that circumstance to be a departure from generally accepted accounting

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

principles and, if the effect of the accounting change is material, should issue a qualified or adverse opinion.

h. In paragraph .52:

- The first three sentences of the paragraph are replaced with the following:

The accounting standards indicate that a company may make a change in accounting principle only if it justifies that the allowable alternative accounting principle is preferable. If the company does not provide reasonable justification that the alternative accounting principle is preferable, the auditor should consider the accounting change to be a departure from generally accepted accounting principles and, if the effect of the change in accounting principle is material, should issue a qualified or adverse opinion. The following is an example of a report qualified because a company did not provide reasonable justification that an alternative accounting principle is preferable:

- In the second sentence of the first paragraph of the example report, the phrase "for making this change" is replaced with the phrase "that this accounting principle is preferable."

In the text of footnote 17, the first two sentences are deleted; the word, "However" is deleted at the beginning of the third sentence; the word "because" at the beginning of the third sentence is capitalized; the phrase "the middle paragraph" is replaced with "this paragraph;" and the references to paragraphs ".16 through .18" are replaced with references to paragraphs "17A through 17E."

i. The text of paragraph .57 is replaced with the following:

If the auditor issues a qualified or adverse opinion because the company has not justified that an allowable accounting principle adopted in an accounting change is preferable, as described in paragraph .52, the auditor should continue to express that opinion on the financial statements for the year of change as long as those financial statements are presented and reported on. However, the auditor's qualified or adverse opinion relates only to the accounting change and does not affect the status of a

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

newly adopted principle as a generally accepted accounting principle. Accordingly, while expressing a qualified or adverse opinion for the year of change, the independent auditor's opinion regarding the subsequent years' statements need not express a qualified or adverse opinion on the use of the newly adopted principle in subsequent periods.

- j. In the text of footnote 19 to paragraph .59, "(b)" is added to the beginning of the list of subsections.
- k. The first sentence of footnote 20 to paragraph .62 is deleted.
- l. In the second sentence of footnote 25 to paragraph .67, replace the phrase "section 420, *Consistency of Application of Generally Accepted Accounting Principles*," with the phrase "PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*"
- m. In the second sentence of paragraph .69:
 - Item (c) is inserted as follows:

(c) if applicable, a statement that the previously issued financial statements have been restated for the correction of a misstatement in the respective period,
 - Item (c) is changed to (d)
 - Item (e) is inserted as follows:

(e) if applicable, a reference to the company's disclosure of the correction of the misstatement,
 - Item (d) is changed to (f) and the words "the fact" are inserted at the beginning of the item
- n. In the third sentence of paragraph .73, the word "restated" is replaced with the word "adjusted."
- o. In paragraph .74:

**Public Company Accounting Oversight Board
Bylaws and Rules – Standards – Conforming Amendments**

- In the first sentence of the third text paragraph, the word "restated" is replaced with the word "adjusted," and the word "restatement" is replaced with the words "the adjustments."
- In the second sentence of the third text paragraph, the word "restatement" is deleted, and the word "his" is replaced with the words "the auditor's."

AU sec. 561, Subsequent Discovery of Facts Existing at the Date of the Auditor's Report

SAS No. 1, "Codification of Auditing Standards and Procedures," section 561, "Subsequent Discovery of Facts Existing at the Date of Report," as amended, is amended as follows:

- a. The text of footnote 3 to paragraph .06 is replaced with the following:

See paragraphs 26 and 27 of Accounting Principles Board Opinion No. 9 and paragraphs 25 and 26 of FASB Statement No. 154, regarding disclosure of adjustments applicable to prior periods.
